INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
NMC Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the NMC Retirement Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016, and the related Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2017 and for the period from Inception, February 1, 2016, to December 31, 2016, and the Statement of Accumulated Plan Benefits as of December 31, 2016, and the related Statement of Changes in Accumulated Plan Benefits for the period from Inception, February 1, 2016, to December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), as amended, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Northern Trust Company (Trustee), the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee, as of December 31, 2017 and 2016, and for the year ended December 31, 2017 and for the period from Inception, February 1, 2016, to December 31, 2016, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significant of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provided a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

INDEPENDENT AUDITOR'S REPORT, continued

Other Matter

The supplemental schedules, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2017, Schedule H, Line 4i – Schedule of Assets (Acquired and Disposed of Within Year) for the year ended December 31, 2017, and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2017, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NMC RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

1. Description of Plan

The following description of the NMC Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is sponsored by BHP Billiton New Mexico Coal, Inc. (the Company), and was established effective February 1, 2016 as a result of a spin-off from the Navajo Mine Retirement Plan (NMRP), a plan previously sponsored by the Company. The Plan was established pursuant to an agreement with the International Union of Operating Engineers, Local No. 953 (the Union), as a defined benefit pension plan covering certain employees of the Company, BHP Billiton Limited (Parent), and any subsidiaries of the Company or Parent (collectively, the Affiliated Group), who are employed at the Navajo Mine and were actively accruing a benefit in the NMRP at February 1, 2016, and are a member of the collective bargaining unit represented by the Union. Employees who are eligible to participate in the Plan do not include the following: 1) employees who are among the 25 most highly compensated employees; 2) a key employee, as defined in Section 416(i) of the Internal Revenue Code (IRC); and 3) leased employees.

The Plan is frozen as to eligibility and no new members are eligible to participate in the Plan.

Effective December 31, 2016, the BHP Billiton Mine Management Company was sold to Navajo Transitional Energy Company, LLC, and the Plan was amended to remove BHP Billiton Mine Management Company, LLC, from the Affiliated Group. As a result of the transaction, (1) the Plan experienced a partial plan termination and accordingly, the Plan was amended to fully vest any impacted participants, and (2) the Plan has no active participants as of December 31, 2016.

The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

The Company is the Plan's sponsor and administrator. Northern Trust Company (the Trustee) is the Plan's trustee. Aon Hewitt serves as the Plan's third-party administrator. Mercer serves as the Plan's actuary and Mercer's U.S. Valuations Group provides pension valuation services. Certain duties and responsibilities to assist in the administration of the Plan are carried out on the Company's behalf by the BHP USA Retirement Advisory Committee (RAC), as appointed by the Board of Directors of the Company.

Funding Policy

The Company contributes such amounts as are necessary, based on actuarial calculations, to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants and their beneficiaries. The contributions to the Plan are subject to the limitations of maximum tax-deductible contributions and minimum required contributions determined by the actuary and the funding policy adopted by the Company. The Company was not required to make any minimum funding contributions to the Plan for the year ended December 31, 2017 and accordingly, made no contribution. The Company was not required to make any minimum funding contributions to the Plan for the period from inception, February 1, 2016, to December 31, 2016; however, the Company chose to accelerate the funding of the Plan beyond the required amount and contributed \$6,305,000 for the period from inception, February 1, 2016, to December 31, 2016.

NMC RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

1. Description of Plan, continued

Funding Policy, continued

The yield (interest, dividends, and net realized and unrealized gains and losses) on Plan investments in excess of amounts established in the actuarial assumptions, plus any gains resulting from forfeiture of non-vested benefits, serve to reduce future contributions that would otherwise be required to provide the defined level of benefits under the Plan.

Investments

During the year ended December 31, 2017 and for the period from inception, February 1, 2016, to December 31, 2016, the Plan's investments were held in a separate account within the BHP USA Master Retirement Trust, and accordingly, such separate account holds only investments specific to the Plan. This segregation of assets was implemented to more effectively manage the cash needs of the Plan and to match the maturities of the investments to the needs of the Plan.

Pension Benefits and Vesting Provisions

A participant who retires after attainment of age 65 is entitled to receive a monthly benefit (Normal Retirement Benefit) equal to \$40 multiplied by the participant's years of credited service prior to February 1, 2002, plus \$36 multiplied by the participant's years of service on or after February 1, 2002. Effective February 1, 2004, the past service multiplier for eligible participants employed in surface operations increased from \$40 to \$42 for periods of service prior to February 1, 2002, and effective February 1, 2007, the past service multiplier increased to \$44. One year of credited service is earned for each year in which at least 1,600 hours are worked. Partial years of credited service can also be earned for less than 1,600 hours.

An eligible participant who retires on or after he or she attains age 55 and completes five years of service is entitled to receive a monthly benefit (Early Retirement Benefit) equal to the participant's Normal Retirement Benefit, reduced by 0.5% for each month the participant is younger than age 60 on the date the Early Retirement Benefit is to commence. An early retirement supplement is available for participants who retire after attaining age 55 when their age plus years of service total at least 85. The early retirement supplement is \$300 per month payable until age 62 or death, if earlier.

The surviving spouse of a participant entitled to a benefit that has not commenced at the date of the participant's death is entitled to a survivor benefit. The amount of the survivor benefit is the 50% portion of the joint benefit, and the 50% survivor benefit is payable at the earliest time permitted under the Plan. Additional death benefits are available in the case of deaths resulting from mine accidents.

Disability Benefits

Certain disability benefits, as defined in the Plan, are available for eligible participants.

Payment of Benefits

If a participant is married when benefits commence, the participant's benefits will be paid in the form of an individual life and 50% spouse's benefit, as defined in the Plan. If a participant is not married on the annuity starting date, the participant's benefits will be paid in the form of a five-year certain and life benefit, as defined in the Plan.

1. Description of Plan, continued

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits.

During 2017 and 2016, Pension Benefit Guaranty Corporation (PBGC) premiums, investment management fees, and other similar direct charges were paid by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan's investments consist of collective investment funds, fixed income securities, and private investment portfolios. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Because of uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefit Payments

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value of investments.

NMC RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

2. Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. The Plan includes in the Statements of Changes in Net Assets Available for Benefits the net appreciation in the fair value of investments, which consists of realized gains (losses) on the disposition of investments and appreciation (depreciation) of investments held at the end of the period, less certain investment expenses.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU No. 2015-07 applies to reporting entities that elect to measure the fair value of an investment using the net asset value (NAV) per share (or its equivalent) as a practical expedient. Under the amendments in this update, investments for which fair value is measured using NAV per share (or its equivalent) as the practical expedient should not be categorized in the fair value hierarchy. Removing those investments from the fair value hierarchy not only eliminates the diversity in practice resulting from the way in which investments measured at NAV per share (or its equivalent) with future redemption dates are classified, but also ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied, will continue to be included in the fair value hierarchy. A reporting entity should continue to disclose information on investments for which fair value is measured at NAV (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from NAV. ASU No. 2015-07 is effective for fiscal years beginning on or after December 15, 2016 on a retrospective basis. Early adoption is permitted and accordingly, Plan management elected to early adopt ASU No. 2015-07 during the 2016 Plan year. The adoption of ASU 2015-07 in 2016 impacted disclosures only by removing those investments measured at fair value using NAV as a practical expedient from classification in the fair value hierarchy in Note 3.

3. Fair Value Measurements

The FASB Accounting Standards Codification Topic 820 (ASC 820), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NMC RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

3. Fair Value Measurements, continued

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining fair value, the Plan uses the market approach. The market approach uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities.

Following is a description of the valuation methodologies used for investment assets and liabilities measured at fair value. There were no changes in methodologies used at December 31, 2017 and 2016.

Fixed income securities: Includes U.S. treasury bonds which have been valued based upon quoted prices from actively traded markets. (Market approach)

Private investment portfolios: Valued at the NAV of units of a private investment portfolio. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the portfolio less its liabilities. This practical expedient is not used when it is determined to be probable that the portfolio will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the private investment portfolio, the investment advisor reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. (Market approach)

Collective investment funds: Valued at the NAV of units of a collective fund. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective fund, the investment advisor reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. (Market approach)

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements, continued

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets and liabilities measured at fair value, on a recurring basis, as of December 31, 2017 and 2016:

Investment Assets at Fair Value as of December 31, 2017

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Investment liabilities measured at NAV ^(a)				<u>413</u>
Total investment liabilities at fair value				<u>\$ 169,224</u>

- (a) In accordance with ASU 2015-07, investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.
- (b) During the year ended December 31, 2017, the Company determined through additional analysis of the inputs related to the fair value of its fixed income securities that the inputs were observable as they were based on quoted prices from actively traded markets. As a result of this additional analysis, fixed income investments have been reclassified from a Level 2 investment to a Level 1 investment for the years ended December 31, 2017 and 2016

4. Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments disclosed in the financial statements and supplemental schedules, including investments held at December 31, 2017 and 2016 and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2017 and for the period from inception, February 1, 2016, to December 31, 2016, was obtained from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries, (ii) beneficiaries of employees who have died, and (iii) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date.

Benefits payable, under all circumstances (retirement, death, disability, and termination of employment), are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

NMC RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

5. Actuarial Present Value of Accumulated Plan Benefits, continued

The actuarial present value of accumulated plan benefits is determined by an independent actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits, presented as the Statement of Accumulated Plan Benefits and the Statement of Changes in Accumulated Plan Benefits, was calculated as of January 1, 2017 and, accordingly, the Plan presents the Statement of Accumulated Plan Benefits and the Statement of Changes in Accumulated Plan Benefits using beginning of year actuarial data. Had the actuarial valuation been performed as of December 31, 2016, there would be no material differences. The significant actuarial assumptions underlying the actuarial valuation as of January 1, 2017 are as follows:

Assumed rate of return on investments:	3.65% compounded annually
Mortality basis:	
Healthy participants	MRP-2007 mortality separately for employees and retirees and for males and females with blue collar adjustment and MSS-2007 generational mortality improvement scale
Disabled participants	RP-2000 disabled mortality (sex distinct)
Retirement Rates:	The Plan contains no active participants; thus, retirement rates are not applicable to the valuation as of January 1, 2017.
Withdrawal Rates:	
Healthy Participants	The Plan contains no active participants; thus, withdrawal rates are not applicable to the valuation as of January 1, 2017.
Disabled Participants	The Plan contains no active participants; thus, withdrawal rates are not applicable to the valuation as of January 1, 2017.
Percentage Married:	Male – 80%; Female – 80%.
Age Difference:	Husbands are assumed to be three years older than their wives.
Form of Payment:	80% of males and 80% of females elect 50% joint and survivor with the spouse as the contingent annuitant. 20% of males and 20% of females elect life annuity with 5 years of certain.

5. Actuarial Present Value of Accumulated Plan Benefits, continued

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The assumptions used in determining the actuarial present value of accumulated plan benefits remained unchanged from the prior year's valuation except for updates in the discount rate from 3.60% to 3.65%.

6. Income Tax Status

The Plan is in the process of applying for its determination letter from the Internal Revenue Service stating that the Plan is in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes is included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and terminate the Plan. In the event of Plan termination, the assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employer contributions, taking into account those paid out before termination.
2. Annuity benefits for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

NMC RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

7. Plan Termination, continued

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. Any assets remaining after all Plan expenses have been paid and all accrued liabilities have been provided for by the purchase of annuities or otherwise will revert to the Company.

8. Related-Party Transactions

Certain investments are shares of collective investment funds, which are managed by an affiliate of the Trustee. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

The Company provided administrative services and incurred costs on behalf of the Plan related to 2017 and 2016, but has not received any related compensation or reimbursement from the Plan. The Company also paid certain fees on behalf of the Plan during 2017 and 2016.

9. Form 5500 Reconciliation

For the year ended December 31, 2017 and for the period from inception, February 1, 2016, to December 31, 2016, total net assets available for benefits and the net increase in net assets available for benefits per the financial statements agree to the amounts per the Forms 5500. Differences between the individual line items on the Statements of Changes in Net Assets Available for Benefits and the Forms 5500 are attributed to classification differences.

10. Subsequent Events

Plan management has evaluated subsequent events through October 4, 2018, which is the date the financial statements were available to be issued, and has concluded that there are no significant events to report.

MORTALITY SPONSOR ELECTIONS

• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.
• Disabled participants	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits. All other disabled participants use the healthy mortality table.

OTHER ECONOMIC ASSUMPTIONS

• Inflation	Not applicable
• Expected investment return	Not applicable
• Expenses	Expected administrative expenses (assumed to equal prior year administrative expenses but adjusted for PBGC premiums with current year PBGC premiums replacing prior year) discounted to beginning of year are included in normal cost.

RATIONALE FOR SIGNIFICANT ECONOMIC ASSUMPTIONS

- Discount Rates – These are the IRS prescribed rates. The plan sponsor elected this methodology from alternative IRS prescribed options.
- Expenses – Based on actual experience.

RATIONALE FOR SIGNIFICANT DEMOGRAPHIC ASSUMPTIONS

- Mortality – Prescribed by the IRS and based on the plan sponsor's election.
- Benefit commencement age, spouse assumptions, form of payment – Based on an experience study undertaken by Mercer in 2015 using experience from January 1, 2009 through December 31, 2013 (study covered the Navajo Mine Retirement Plan, from which this plan spun off). The resulting assumptions balance the plan's historical experience with future expectations based on input and concurrence from the plan sponsor.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

ACTUARIAL METHODS

Asset Methods

The asset valuation method is the fair market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides benefits that are not a function of a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the ratio of the participant's service at the beginning of the plan year to their service at each decrement age and is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- This plan provides disability/death benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit formula – Underground employee terminations on or after February 1, 2002 (monthly)	\$40 x years of credited service before February 1, 2002, plus \$36 x years of credited service after February 1, 2002.
• Benefit formula – Surface employee terminations on or after February 1, 2002 (monthly)	\$44 (\$42 if terminated between 2/1/2002 and 1/31/2007) x years of credited service before February 1, 2002, plus \$36 x years of credited service after February 1, 2002.
• Benefit formula – termination before February 1, 2002 (monthly)	Years of credited service x multiplier in effect at termination.
NORMAL RETIREMENT	
• Eligibility	Retirement on or after age 65.
• Benefit	Monthly benefit determined under the applicable benefit formula.
EARLY RETIREMENT	
• Eligibility	Retirement before age 65 after both attaining age 55 and completing 5 years of vesting service.
• Benefit	Benefits for any participants who elect to commence their benefits prior to normal retirement are reduced by ½% for each of the first 60 months commencement precedes age 60. No reduction applies for benefits commenced after age 60.
SUPPLEMENTAL RETIREMENT	
• Eligibility	Retirement before age 65 after the participant attains age 55 and the sum of age plus years of service equals or exceeds 85 and employed at Navajo immediately prior to retirement.
• Benefit	\$300 per month, payable from early retirement to age 62 or death, if earlier.
DEFERRED VESTED	
• Eligibility	Termination for reasons other than death, disability, or retirement after becoming fully vested in the Plan benefit. Eligible for commencement on the first of any month following age 55. Participants are vested in their plan benefit after 5 years of vesting service.
• Benefit	Equal to the early retirement benefit.

Schedule SB, Part V — Summary of Plan Provisions

DISABILITY	
• Eligibility	Termination upon becoming totally and permanently disabled (defined by the plan administrator). Must be eligible for Social Security disability payments.
• Benefit	Equal to the normal retirement benefit determined using a minimum of 10 years of credited service, unreduced for early commencement, payable from date of disability to age 65.
OCCUPATIONAL DISABILITY TRANSITION	
• Eligibility	Termination upon becoming seriously disabled (defined by plan administrator) after completing 10 years of vesting service with at least 6 years of credited service and after attaining age 55, if the participant was employed by Navajo immediately prior to disability. Participant must release the Company of all liability, and cannot be eligible for a disability retirement benefit.
• Benefit	Annual payment of \$1,200, plus \$1,200 for each year of credited service in excess of 6 years (maximum \$12,000 annual payment.) Payable from the date of disability until the participant receives 5 annual installments or becomes eligible for Social Security pension payments, whichever is earlier. A portion of this benefit may be payable as a lump sum.
PRE-RETIREMENT SURVIVOR	
• Eligibility	Death of a vested participant after being married for at least one year. Eligible for commencement not earlier than on the first of the month following the date on which the participant would have attained age 55.
• Benefit	Equal to 50% of the benefit the deceased participant would have received had he elected to commence on the date the survivor payments begin. The benefit is paid as a monthly annuity for the survivor's lifetime.
PRE-RETIREMENT DEATH	
• Eligibility	Death of an unmarried vested participant or a participant who has been married less than one year who is at least age 55. Payments begin on the first of the month following the date of the participant's death.

Schedule SB, Part V — Summary of Plan Provisions

• Survivor benefits – unmarried participants	60 monthly payments in the amount the deceased participant would have received had he elected to commence on the first of the month following his death.
MINE ACCIDENT DEATH	
• Eligibility	Death of a married participant in a Company mine accident. Payments begin on the first of the month following the date of the participant's death and end at the earlier of the survivor's death or remarriage.
• Benefit	Equal to the excess of the normal retirement benefit (determined using a minimum of 10 years of credited service) over the survivor benefits generally payable under the plan. This benefit is paid in addition to the general survivor benefits.
BENEFIT OFFSETS	The plan benefits for certain participants are offset by benefits earned under prior plans.
FORM OF BENEFITS	
• Automatic form for unmarried participants	The normal form of payment for monthly pension benefits is a life annuity with 60 payments guaranteed if the member has no spouse as of the date payments begin.
• Automatic form for married participants	50% joint and survivor annuity with no reduction if the member is married at the date payments begin.
• Optional forms	No optional forms of payment are available from the plan.
MISCELLANEOUS	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2017, the limit is \$215,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, effective January 31, 2016, are included in this valuation.

- **Most recent plan amendments included:** None.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
