Note 1. Description of the Plan

The following description of the Delphon Industries, LLC Profit Sharing and 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan, as amended and restated as of January 1, 2016, was established effective October 17, 1980, by Delphon Industries, LLC (the Company/Plan Sponsor) to provide benefits to eligible employees, as defined in the Plan document. The Plan covers substantially all regular full-time or part-time employees not covered by a collective bargaining agreement who have attained the age of 18. Eligible employees must have also completed a three-month service period to qualify for Company nonelective contributions. Eligible employees can enter the Plan on the first day of the calendar quarter. The Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code (IRC) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan, subject to certain IRC limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Employees may also make rollover contributions from other qualified plans. Annual employer matching and nonelective contributions are at the discretion of the Company's Board of Directors. In 2017, the Company elected to match 100 percent of the first $1,000 of a participant's salary deferral. There were no nonelective contributions during 2017.

Participant accounts: Each participant's account is credited with the participant's contributions, the participant's qualified rollover contributions, the Company's discretionary matching and nonelective contributions, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-directed investment options: To provide more flexibility and convenience to the participants, the Company's Board of Directors selected John Hancock Life Insurance Company (U.S.A.) (John Hancock USA) as the custodian of the Plan assets. Under John Hancock USA, the participant directs the investment of his or her account balances to the investment under the John Hancock USA group annuity contract, which has various investment objectives and risks. The contract offers pooled separate accounts, which are segregated from other assets of John Hancock USA as required by law, and represent sub accounts that invest in mutual funds managed by unaffiliated mutual fund companies. Participants may change their investment options any time throughout the year via the third-party administrator's telephone system or internet website. Participants may direct all contributions to selected investments as made available and determined by the Board of Directors in 1 percent increments. Participants may change their investment options daily.

Notes receivable from participants: In accordance with the provisions of the Plan, participants may borrow from their fund accounts up to a maximum equal to the lesser of (a) $50,000 or (b) 50 percent of the participant's vested account balance. The notes receivable from participants are secured by the balance in the participant's account and shall bear a reasonable rate of interest as determined by the Plan Administrator based on prevailing interest rates. These rates range from 4.25 percent to 5.50 percent on loans outstanding at December 31, 2017, and mature through May 2023. Notes receivable from participants are funded from the borrower's vested account balance. The terms of the notes receivable from participants shall not exceed five years unless the purpose is for the purchase of the participant's primary residence. Principal and interest are paid ratably through payroll deductions.

Note 1. Description of the Plan (Continued)

Vesting: Participants are immediately vested in their contributions, rollover and matching amounts, plus actual earnings thereon. Vesting in the Company's nonelective contributions is 100 percent after two years of credited service.

Payment of benefits: Each participant is fully vested in the event of his or her death, total disability or normal retirement at 60 years of age. Distributions to terminated employees with vested balances in excess of $1,000 are generally distributed in the form of a single lump-sum payment and are made only with the consent of the participant. Vested account balances of $1,000 or less are to be paid to terminated participants in a single lump sum. The Plan allows in-service distributions of fully vested accounts. The Plan provides for hardship distributions.

Forfeited accounts: Participants' forfeited nonvested employer profit sharing accounts will be applied to first reinstate previously forfeited accounts and then to either pay Plan fees and expenses or reduce employer contributions. In 2017, there were no payments made out of the forfeiture account. The forfeited nonvested account balance was $9 as of December 31, 2017 and 2016.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments in pooled separate accounts are recorded on the trade-date basis. Interest and dividends are recorded on the accrual basis. Net appreciation (depreciation) of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the value of investment securities will occur in the near term and changes could materially affect participant account balances and the amount reported in the statements of net assets available for benefits.

Notes receivable from participants: Loans to participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and included in administrative expenses when incurred. As of December 31, 2017 and 2016, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Note 2. Summary of Significant Accounting Policies (Continued)

Contributions: Contributions from Plan participants and the matching contribution from the Plan Sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. Nonelective contributions are recognized upon authorization as the underlying compensation is recognized. All participant and employer contributions are participant directed.

Benefit payments: Benefits to participants are recorded when paid.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Plan Sponsor and are excluded from these financial statements. Administrative expenses included fees related to the administration of notes receivable charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent events: The Plan Sponsor has evaluated subsequent events through October 11, 2018, the date these financial statements were available to be issued.

Note 3. Investments and Certification of Custodian

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from the information provided by John Hancock USA, the custodian, and furnished to the Plan Administrator.

The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following assets as of December 31:

	2017	2016
Investments, at fair value	$ 4,479,264	$ 3,562,151
Notes receivable from participants	96,666	88,747

John Hancock USA also certified to the completeness and accuracy of $604,486 of net appreciation in fair value of investments, $3,848 of interest income on notes receivable from participants, and $2,047 of other income, related to the aforementioned assets for the year ended December 31, 2017.

Note 4. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, Fair Value Measurement and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts: Valued at the net asset value (NAV) of the fund as determined by John Hancock USA. NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. NAV of a pooled separate account is calculated based on a compilation of observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Investments measured at NAV using the practical expedient (a)	$ -	$ -	$ -	$ 4,479,264
Total investments at fair value				$ 4,479,264

Note 4. Fair Value Measurements (Continued)

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Investments measured at NAV using the practical expedient (a)	$ -	$ -	$ -	$ 3,562,151
Total investments at fair value				$ 3,562,151

(a) In accordance with Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2017 and 2016. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Category	2017 Fair Value	2016 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts (a)	$ 4,479,264	$ 3,562,151	N/A	No limit	None
Total	$ 4,479,264	$ 3,562,151			

(a) Significant investments include 1) the Income and Balanced Funds, which provide a balance between a high level of current income and growth of capital, with a greater emphasis given to income and capital growth, respectively; 2) the Growth Funds, which seek to provide long-term growth of capital by investing in stocks of domestic and international issuers; and 3) Lifecycle Targeted funds, which use asset allocation strategies designed for expected retirement dates.

Note 5. Related-Party Transactions

All Plan investments in pooled separate accounts are managed by John Hancock USA. Such an arrangement, while considered a party-in-interest transaction under ERISA regulations, is permitted under the provisions of the Plan and is specifically exempt from the prohibition of party-in-interest transactions under ERISA. Fees paid by the Plan to the custodian totaled $761 for the year ended December 31, 2017. The Plan Sponsor also paid certain administrative expenses of the Plan.

Note 6. Plan Termination

Although the Company has not expressed any intent to do so, the Plan Sponsor has the right to amend or terminate the Plan at any time. If the Plan is partially or wholly terminated, the Plan Sponsor cannot recover any part of the assets and all accounts of affected participants automatically become 100 percent vested. The custodian will continue to hold the fully vested accounts which will become payable in installments or as determined by the Trustees.

Note 7. Tax Status

The Plan adopted a volume submitter profit sharing plan that received a favorable opinion letter from the Internal Revenue Service on May 7, 2015, which stated that the volume submitter profit sharing plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has not received an opinion letter specific to the Plan and, although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2014.

Note 8. Nonexempt Transactions

The Plan had not deposited certain participant contributions within the regulations specified by the Department of Labor. Such amounts consist of $64,907 for the year ended December 31, 2017.

Note 1. Description of the Plan

The following description of the Delphon Industries, LLC Profit Sharing and 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan, as amended and restated as of January 1, 2016, was established effective October 17, 1980, by Delphon Industries, LLC (the Company/Plan Sponsor) to provide benefits to eligible employees, as defined in the Plan document. The Plan covers substantially all regular full-time or part-time employees not covered by a collective bargaining agreement who have attained the age of 18. Eligible employees must have also completed a three-month service period to qualify for Company nonelective contributions. Eligible employees can enter the Plan on the first day of the calendar quarter. The Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code (IRC) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan, subject to certain IRC limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Employees may also make rollover contributions from other qualified plans. Annual employer matching and nonelective contributions are at the discretion of the Company's Board of Directors. In 2017, the Company elected to match 100 percent of the first $1,000 of a participant's salary deferral. There were no nonelective contributions during 2017.

Participant accounts: Each participant's account is credited with the participant's contributions, the participant's qualified rollover contributions, the Company's discretionary matching and nonelective contributions, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-directed investment options: To provide more flexibility and convenience to the participants, the Company's Board of Directors selected John Hancock Life Insurance Company (U.S.A.) (John Hancock USA) as the custodian of the Plan assets. Under John Hancock USA, the participant directs the investment of his or her account balances to the investment under the John Hancock USA group annuity contract, which has various investment objectives and risks. The contract offers pooled separate accounts, which are segregated from other assets of John Hancock USA as required by law, and represent sub accounts that invest in mutual funds managed by unaffiliated mutual fund companies. Participants may change their investment options any time throughout the year via the third-party administrator's telephone system or internet website. Participants may direct all contributions to selected investments as made available and determined by the Board of Directors in 1 percent increments. Participants may change their investment options daily.

Notes receivable from participants: In accordance with the provisions of the Plan, participants may borrow from their fund accounts up to a maximum equal to the lesser of (a) $50,000 or (b) 50 percent of the participant's vested account balance. The notes receivable from participants are secured by the balance in the participant's account and shall bear a reasonable rate of interest as determined by the Plan Administrator based on prevailing interest rates. These rates range from 4.25 percent to 5.50 percent on loans outstanding at December 31, 2017, and mature through May 2023. Notes receivable from participants are funded from the borrower's vested account balance. The terms of the notes receivable from participants shall not exceed five years unless the purpose is for the purchase of the participant's primary residence. Principal and interest are paid ratably through payroll deductions.

Note 1. Description of the Plan (Continued)

Vesting: Participants are immediately vested in their contributions, rollover and matching amounts, plus actual earnings thereon. Vesting in the Company's nonelective contributions is 100 percent after two years of credited service.

Payment of benefits: Each participant is fully vested in the event of his or her death, total disability or normal retirement at 60 years of age. Distributions to terminated employees with vested balances in excess of $1,000 are generally distributed in the form of a single lump-sum payment and are made only with the consent of the participant. Vested account balances of $1,000 or less are to be paid to terminated participants in a single lump sum. The Plan allows in-service distributions of fully vested accounts. The Plan provides for hardship distributions.

Forfeited accounts: Participants' forfeited nonvested employer profit sharing accounts will be applied to first reinstate previously forfeited accounts and then to either pay Plan fees and expenses or reduce employer contributions. In 2017, there were no payments made out of the forfeiture account. The forfeited nonvested account balance was $9 as of December 31, 2017 and 2016.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments in pooled separate accounts are recorded on the trade-date basis. Interest and dividends are recorded on the accrual basis. Net appreciation (depreciation) of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the value of investment securities will occur in the near term and changes could materially affect participant account balances and the amount reported in the statements of net assets available for benefits.

Notes receivable from participants: Loans to participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and included in administrative expenses when incurred. As of December 31, 2017 and 2016, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Note 2. Summary of Significant Accounting Policies (Continued)

Contributions: Contributions from Plan participants and the matching contribution from the Plan Sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. Nonelective contributions are recognized upon authorization as the underlying compensation is recognized. All participant and employer contributions are participant directed.

Benefit payments: Benefits to participants are recorded when paid.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Plan Sponsor and are excluded from these financial statements. Administrative expenses included fees related to the administration of notes receivable charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent events: The Plan Sponsor has evaluated subsequent events through October 11, 2018, the date these financial statements were available to be issued.

Note 3. Investments and Certification of Custodian

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from the information provided by John Hancock USA, the custodian, and furnished to the Plan Administrator.

The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedules related to the following assets as of December 31:

	2017	2016
Investments, at fair value	$ 4,479,264	$ 3,562,151
Notes receivable from participants	96,666	88,747

John Hancock USA also certified to the completeness and accuracy of $604,486 of net appreciation in fair value of investments, $3,848 of interest income on notes receivable from participants, and $2,047 of other income, related to the aforementioned assets for the year ended December 31, 2017.

Note 4. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, Fair Value Measurement and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts: Valued at the net asset value (NAV) of the fund as determined by John Hancock USA. NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. NAV of a pooled separate account is calculated based on a compilation of observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Investments measured at NAV using the practical expedient (a)	$ -	$ -	$ -	$ 4,479,264
Total investments at fair value				$ 4,479,264

Note 4. Fair Value Measurements (Continued)

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Investments measured at NAV using the practical expedient (a)	$ -	$ -	$ -	$ 3,562,151
Total investments at fair value				$ 3,562,151

(a) In accordance with Subtopic 820-10, certain investments that are measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2017 and 2016. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Category	2017 Fair Value	2016 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts (a)	$ 4,479,264	$ 3,562,151	N/A	No limit	None
Total	$ 4,479,264	$ 3,562,151			

(a) Significant investments include 1) the Income and Balanced Funds, which provide a balance between a high level of current income and growth of capital, with a greater emphasis given to income and capital growth, respectively; 2) the Growth Funds, which seek to provide long-term growth of capital by investing in stocks of domestic and international issuers; and 3) Lifecycle Targeted funds, which use asset allocation strategies designed for expected retirement dates.

Note 5. Related-Party Transactions

All Plan investments in pooled separate accounts are managed by John Hancock USA. Such an arrangement, while considered a party-in-interest transaction under ERISA regulations, is permitted under the provisions of the Plan and is specifically exempt from the prohibition of party-in-interest transactions under ERISA. Fees paid by the Plan to the custodian totaled $761 for the year ended December 31, 2017. The Plan Sponsor also paid certain administrative expenses of the Plan.

Note 6. Plan Termination

Although the Company has not expressed any intent to do so, the Plan Sponsor has the right to amend or terminate the Plan at any time. If the Plan is partially or wholly terminated, the Plan Sponsor cannot recover any part of the assets and all accounts of affected participants automatically become 100 percent vested. The custodian will continue to hold the fully vested accounts which will become payable in installments or as determined by the Trustees.

Note 7. Tax Status

The Plan adopted a volume submitter profit sharing plan that received a favorable opinion letter from the Internal Revenue Service on May 7, 2015, which stated that the volume submitter profit sharing plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has not received an opinion letter specific to the Plan and, although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2014.

Note 8. Nonexempt Transactions

The Plan had not deposited certain participant contributions within the regulations specified by the Department of Labor. Such amounts consist of $64,907 for the year ended December 31, 2017.
