INTERNATIONAL AUTO PROCESSING, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the International Auto Processing, Inc. 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

A. *General.* The Plan is a defined contribution profit sharing plan, effective September 1, 2014, covering all employees (other than union employees, lease employees, and nonresident aliens) of International Auto Processing, Inc. (the "Company" or the "Plan Sponsor") who have attained the age of 21 and 3 months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. *Contributions.* The Plan includes a provision under Internal Revenue Code (IRC) Section 401(k) whereby participants may make pretax and Roth contributions to the Plan up to 100% of their annual compensation, subject to limitations under the IRC. New participants are auto-enrolled with deferrals equal to 6% of compensation. Participants age fifty and older are also allowed to make catch-up contributions. The Company contributes as a matching contribution an amount equal to 100% of the participant's elective deferrals that are not to exceed 1% of compensation plus 50% of participant elective deferrals that exceed 1% of compensation but do not exceed 6% of compensation. For the year ended December 31, 2017, the Company made \$390,973 of safe harbor matching contributions to all eligible employees. The Company may elect to make a discretionary profit sharing contribution but did not in 2017.

Participants may also contribute amounts representing rollover distributions from other qualified plans.

C. *Investments.* Participants direct the investment of their contributions into various investment options offered by the Plan.

D. *Participant Accounts.* Each participant account is credited with pretax, Roth, and rollover contributions made by the participant, Plan Sponsor contributions, and plan earnings. Earnings, expenses, gains, and losses on investments are allocated based on participant account balances, as defined in the plan agreement.

E. *Vesting.* Participants' vesting in their safe harbor matching and profit sharing contributions is based on years of continuous service during which an employee completes at least 1,000 hours of service with the Company. Participants become 100% vested in their safe harbor matching contributions after two years of service. Participants become 100% vested in their profit sharing contributions after five years of service.

Participants also become 100% vested upon termination of the Plan, upon total and permanent disability, or death of the participant.

Any portion of a participant's account balance attributable to salary deferrals including catch-up contributions and rollover contributions from another qualified plan are 100% vested at the time of contribution and not subject to forfeiture.

F. *Notes Receivable from Participants.* Participants may borrow from their account in any amount greater than \$1,000 but less than 50% of their vested account balance, not to exceed \$50,000. Loans are secured by the balance in the participant's account and bear interest at a fixed rate comparable to the rates currently charged by commercial loans under similar circumstances. At December 31, 2017 and 2016, the interest rate for outstanding loans was two percentage points over the prime interest rate. Principal and interest is paid ratably through payroll deductions.

G. *Payment of Benefits.* In-service withdrawals of all or a portion of a participant's vested account balance may be made by a participant after reaching age fifty-nine and one half.

Upon normal retirement at age sixty-five, permanent disability or death, the participant or beneficiary may receive the value of the account through a lump sum distribution.

Participants withdrawing from the Plan due to termination of employment, other than due to retirement, permanent disability, or death, may receive the value of their vested account by transfer to another qualified plan or individual retirement account or through a lump sum distribution. In general, the Plan may, upon termination of service for any reason, automatically pay the benefits owed in a lump sum if the account balance is \$5,000 or less.

Distributions from the Plan will normally be subject to income taxes and in certain circumstances may also be subject to Internal Revenue Service (IRS) penalties, unless the distribution is transferred to another qualified plan or individual retirement account.

H. *Forfeited Accounts.* As of December 31, 2017 and 2016, forfeited nonvested accounts totaled \$8,741 and \$21,689, respectively. Forfeited nonvested accounts are available to reduce future employer contributions, to pay plan expenses, and, for portions attributable to returned uncashed distribution checks, to pay claims for such payments by former participants. In 2017, forfeitures used to reduce employer's contributions and to pay plan expenses were \$12,298 and \$9,388, respectively.

2. Summary of Significant Accounting Policies

A. *Accounting Method.* The accounts of the plan are maintained, and the accompanying financial statements have been prepared, on the modified cash basis. Investment income is recognized when received, and disbursements are recognized when made. Additionally, securities investments are reflected at fair value. Accordingly, the financial statements are not intended to present the net assets available for benefits and changes in net assets available for benefits of the plan in accordance with accounting principles generally accepted in the United States of America.

B. *Use of Accounting Estimates.* The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. *Investment Valuation and Income Recognition.* The Plan's investments are stated at fair value. The net appreciation (depreciation) in the fair value of investments includes both realized and unrealized gains and losses on investments. The value of each pooled separate account is determined at the close of each business day based on the market value of the underlying investment assets. Notes receivable from participants are valued at cost which approximates fair value.

- D. *Notes Receivable from Participants.* Notes receivable from participants is measured at the unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based on the terms of the plan documents.
- E. *Benefit Payments.* Benefit payments to participants are recorded upon distribution.
- F. *Expenses.* Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.
- G. *Adoption of New Accounting Pronouncement.* Effective January 1, 2017, the Plan adopted Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2015-07 "Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)" ("ASU 2015-07"), which removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The requirements of the new standard have been applied retrospectively to all periods presented.
- H. *Subsequent Events.* Plan management has evaluated the need for disclosures or adjustments from subsequent events through October 12, 2018, the date the financial statements were available for issuance. This evaluation did not identify any events requiring disclosure in or adjustment to the financial statement.

3. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Guardian Insurance & Annuity Company, Inc., the custodian of the Plan, has certified to the completeness and accuracy of the investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits – modified cash basis as of December 31, 2017 and 2016, the related investment activity and interest from notes receivable reflected in the statement of changes in net assets available for benefits - modified cash basis for the year ended December 31, 2017, and the schedule of assets (held at end of year) - modified cash basis as of December 31, 2017.

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described below:

International Auto Processing, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements

Basis of Fair Value Measurement:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following discussion describes the valuation methodologies used for assets measured at fair value on a recurring basis. The techniques utilized in estimating the fair values of financial instruments are reliant on the assumptions used. Care should be exercised in deriving conclusions based on the fair value information of financial instruments presented below.

Fair value estimates are made as of a specific point in time, based on available market information and judgments about the financial instrument. Such estimates do not consider the tax impact of the realization of unrealized gains or losses. In addition, the disclosed fair values may not be realized in the immediate settlement of the financial instrument.

Pooled Separate Accounts - Investments in pooled separate accounts represent a unit of account whose per unit value is the result of the accumulated values of the underlying investments. The underlying investments are public investment vehicles valued using net asset value ("NAV") per share, as determined by the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is used as a practical expedient to estimate fair value. All investments of the Plan are pooled separate accounts and are valued using NAV.

The following table summarized investments measure at fair value based on net asset value (NAVs) per share.

		Unfunded	Redemption	Other	Redemption
	<u>Fair Value</u>	<u>Commitment</u>	<u>Frequency</u>	<u>Restrictions</u>	<u>Notice</u>
					<u>Period</u>
As of December 31, 2017:					
Pooled separate accounts	\$ 6,845,384	\$ -	Daily	None	None
As of December 31, 2016:					
Pooled separate accounts	\$ 5,210,740	\$ -	Daily	None	None

5. Related-Party and Party in Interest Transactions

As described in Note 2F, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of the ERISA. In the event of plan termination, all participants become fully vested and amounts in the individual participant accounts will be disbursed to the participants if no successor plan is established.

7. Tax Status

The Internal Revenue Service issued its latest opinion letter on March 31, 2014, which stated that the Plan qualified under the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risk and Uncertainties

The Plan provides various investment options. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Delinquent Participant Contributions

In 2017, the sponsor failed to timely deposit amounts contributed by employees of \$960. All amounts have been remitted to the Plan. The Plan Sponsor is in the process of calculating the lost earnings for the 2017 late remittances and will deposit the amount into the affected participants' accounts.

In 2016, 2015, and 2014, the plan sponsor failed to timely deposit amounts contributed by employees totaling \$7,687. All amounts have been remitted to the Plan. The Plan Sponsor calculated the lost earnings for the late remittances and deposited the amount into the affected participants' accounts in 2017.
