1. Description of Plan:

The following description of the Triad Financial 401(k) Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, established on January 1, 1994 is a defined contribution plan covering all full-time employees of Triad Financial Services, Inc. (the "Company") who have completed three months of service and are age eighteen or older. Eligible employees may enroll the first day of each quarter following the date the employee satisfies the Plan's eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may elect to contribute up to 15% of their annual compensation, as defined by the Plan up to the maximum allowable under the Internal Revenue Code, and under the provisions of the Plan. The Company has elected to make discretionary contributions equal to 100 percent of the first three percent of eligible compensation of each participant. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of Company matching contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan.

Participant Loans Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and must be repaid in level payments through payroll deductions over a five-year period, except for loans for the purchase of a principal residence which may be repaid over a reasonable period of time that may be longer than five years. The loans bear interest at the prime rate as published by the Wall Street Journal plus one percentage point, and all outstanding loans currently bear interest at rates ranging from 4.25% to 5.50%.

Administrative Expenses

In accordance with Plan provisions, the Company or the Plan may pay administrative expenses of the Plan. The Company generally pays expenses associated with the administration of the Plan, except for certain distribution fees, and loan fees which are deducted directly from the applicable participant's account.

1. Description of Plan (Continued):

Vesting

Employee contributions, employer match contributions and earnings thereon are immediately vested.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in their account in accordance with Plan provisions. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

Forfeited Accounts

Forfeitures by non-vested participants are generally used to pay Plan expenses and reduce future employer contributions. For the year ended December 31, 2017, forfeitures totaling $787 were used to pay Plan expenses. At December 31, 2017 and 2016, there were no forfeited non-vested accounts available to be used to pay Plan expenses or reduce employer contributions.

2. Summary of Accounting Policies:

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Certain investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 3 for a discussion of fair value measurement.

2. Summary of Accounting Policies (Continued):

Investment Valuation and Income Recognition (Continued)

Investments in the MassMutual Guaranteed Interest Account, a fully benefit-responsive investment contract, are reported at contract value which is the relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contract.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Risks and Uncertainties

The Plan invests in a combination of investment securities which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

3. Fair Value Measurements:

Financial Accounting Standards Board Statement Accounting Standards Codification Topic 820 (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are described below:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and are unobservable.

3. Fair Value Measurements (Continued):

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds

The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges which are Level 1 inputs.

4. Investment Contract with Insurance Company:

The Plan invests in the MassMutual Guaranteed Interest Account. This account is a fully benefit-responsive investment contract and is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of MassMutual or otherwise.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include but may not be limited to the following: 1) participant termination, 2) removal from the Plan of one or more groups or classifications of participants, 3) partial or complete Plan termination or 4) Plan disqualification. In general, the following events would permit the issuer to terminate the contract and settle at other-than-contract value: 1) the Plan's loss of its qualified status, 2) Plan termination, 3) uncured breaches of material obligations under the contract, or 4) advance notification by either party.

5. Information Certified by the Plan Trustee:

The following investments included in the statements of net assets available for benefits as of December 31, 2017 and 2016 and the interest and net appreciation in fair value of investments included in the statement of changes in net assets available for benefits for the year ended December 31, 2017 have been derived from information certified as complete and accurate by Reliance Trust Company ("Reliance"), the trustee of the Plan in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

December 31,	2017	2016
Mutual funds	$ 9,527,039	$ 7,730,044
Guaranteed investment contract	914,415	917,577
Participant loans receivable	215,702	165,985

The trustee also certified to the completeness and accuracy of the following investment income.

Year ended December 31,	2017
Net appreciation in fair value of investments	$ 1,183,131
Interest and dividends	434,973
Interest on participant loans receivable	9,107

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related financial statements and supplemental schedule.

6. Party-In-Interest Transactions:

Plan investments include an investment in a guaranteed interest account which is managed by Massachusetts Mutual Life Insurance Company ("MassMutual"). MassMutual is the Plan administrator and is considered a party-in-interest to the Plan. Reliance is the trustee of the Plan and no investments were managed by Reliance as of or during the Plan years 2017 and 2016.

Fees paid during the year for administrative services rendered by parties-in-interest were based on customary and reasonable rates for such services and were generally paid by the Company.

7. Financial Instruments:

The Plan's investments in mutual funds and a guaranteed interest account potentially subject the Plan to concentrations of credit risk. The Plan limits its credit risk by investing only with what it believes are high quality financial institutions.

.

8. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100 percent vested in their accounts.

9. Tax Status:

The Plan obtained a determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the prototype plan document adopted by the Plan was in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and tax counsel believe the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Service.

Management has evaluated the Plan's tax positions and concluded that the Plan had taken no uncertain tax positions that require recognition of liability (or asset) in the accompanying financial statements. With few exceptions, the Plan is no longer subject to income tax examination by the U.S. federal, state or local tax authorities for years before 2014.

10. Subsequent Events:

The Plan has evaluated the accounting and disclosure requirements for subsequent events through October 12, 2018, the date of this report.
