Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Voya Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2017, that the information provided to the plan administrator by the custodian is complete and accurate.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

NOTE 1: DESCRIPTION OF PLAN (Continued)

Participant Accounts:
Each participant's account is credited with the participant's contributions and the Sponsor's matching contributions, as well as allocations of the Sponsor's profit sharing contribution, if any, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses, if any, that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:
Participants are immediately vested in employee contributions and employer contributions up to Safe Harbor limitations plus actual earnings thereon. Participants have a vested percentage in their employer contribution accounts in excess of Safe Harbor limitations based on a graded vesting schedule and years of service. A participant is 100% vested after five years of credited service.

Notes Receivable From Participants:
Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's accounts and bear interest at rates ranging from 4.25% to 5.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions over five years, except for loans used to acquire a principal residence of a participant; such loans must be repaid over a period not in excess of 15 years. Unless the loan note provides otherwise, the principal amount of the loan and accrued interest shall become immediately due and payable upon termination of employment.

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately, and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit to which a participant would otherwise be entitled to from the Plan.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Payment of Benefits:
Participants are eligible to receive benefit payments when they terminate service or reach age 59½. On termination of service, a participant will receive a lump sum equal to the 100% vested amount of the participant's account. Benefit payments are also permitted for death, disability and hardship.

Forfeited Accounts:
At December 31, 2017 and 2016, forfeited nonvested accounts totaled $5,306 and $16,668, respectively. Forfeitures of employer matching contributions may be used to reduce the employer contributions for the succeeding Plan year. Forfeitures of employer profit sharing contributions may be reallocated among remaining participants in the succeeding Plan year. There were no forfeitures used to reduce employer contributions or used for reallocation of profit sharing contributions for the year ended December 31, 2017 or 2016.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:
The financial statements have been prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates:
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Notes Receivable From Participants:
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance of credit losses has been recorded as of December 31, 2017 and 2016. Delinquent participant loans are reclassified as deemed distributions based upon the Plan document.

For the years ended December 31, 2017 and 2016, defaulted loans amounted to 1,846 and 26,861, respectively.

FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: (Continued)
The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Life insurance contracts are stated at cash surrender value, which approximates fair value.

The investments in pooled separate accounts are valued at the net asset value (the "NAV") per unit, as determined by Voya Retirement Insurance and Annuity Company (the "Custodian") at year end. The NAV is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investment held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Tax Status:
The Plan uses a prototype plan document sponsored by FTWilliam.com ("FTW"). FTW received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, which states that the prototype document satisfied the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since FTW received its opinion letter from the IRS for the prototype plan adopted by the Plan, the Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if it has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Tax Status: (Continued)
The Plan administrator believes the Plan is no longer subject to income tax examinations for the years prior to 2014, based on the normal statutory periods subject to audit, notwithstanding any events or circumstances that may exist, which could expand the open period.

Administrative Costs:
The Plan permits the payment of Plan expenses from Plan assets or by the Plan Sponsor. The investment management fees are deducted from the fair value of the investments based on agreement with the Plan's custodian. Administrative expenses for the years ended December 31, 2017 and 2016 were $25,597 and $10,742, respectively.

Subsequent Events:
The Plan has evaluated events and transactions that occurred through September 21, 2018, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements.

NOTE 4: FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification Topic, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The Plan prioritizes the inputs to valuation techniques used to measure fair value. In accordance with ASU No. 2015-07, investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy.

When the Plan believes that the reported net asset value per share (or its equivalent) of an investment is not representative of fair value, the Plan categorizes the investment in accordance with ASC 820, Fair Value Measurements and Disclosures.

The three levels of the fair value hierarchy under FASB Accounting Standards Codification are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

MARDERS, THE LANDSCAPE STORE, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- *Pooled separate accounts:* are valued at the NAV per unit, as determined by the Custodian at year end. The NAV is used as the practical expedient to estimate fair value and is based on the fair value of the underlying investment held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probably that the fund will sell the investment for an amount different that the reported NAV.

- *Insurance contracts:* are stated at the cash surrender value, which approximates fair value, by discounting the cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Significant inputs to the Level 3 measurements include the number of years to estimate the policy and the discount rates utilized.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Assets at Fair Value as of Decmber 31, 2017

	Level 1	Level 2	`Level 3	Total
Insurance Contracts	$ -	$ -	$ 293,263	$ 293,263

NOTE 6: GUANRENTEED INVESTMENT CONTRACT

The Plan maintains a guaranteed investment contract ("GIC") related investment option, the Voya Fixed Account. The contract underlying the investment option is considered to be fully benefit-responsive. Generally, the contract value of the Voya Fixed Account at December 31, 2017 and 2016, is equal to participant deposits, less participant withdrawals, plus credited interest. Interest credited is net of expenses. Contract value may be subject to a market value adjustment. Under limited circumstances, contract value may be adjusted as a result of market value adjustment.

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the related GIC. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield based on actual earnings for the contract for the years ended December 31, 2017 and 2016, was 1.05%. The crediting interest rates to participants for the contract as of December 31, 2017 and 2016, was 1.05%, respectively. The Custodian makes this guarantee, and although the Custodian may credit a higher interest rate, as of December 31, 2017 and 2016, the credited rate is guaranteed not to fall below 1.05%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Sponsor or other Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 8: PARTIES-IN-INTEREST

Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Sponsor.

Certain Plan investments are managed by the Custodian of the Plan; accordingly, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $25,597 and 10,742 for the year ended December 31, 2017 and 2016, respectively.

NOTE 9: RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
