METAL SEAL PRECISION, LTD. 401(k) PLAN

Notes to Financial Statements

December 31, 2017 and 2016

Note 1 - Plan Description

The following description of the Metal Seal Precision Ltd. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan adopted on November 1, 2011, covering all employees of Metal Seal Precision, Ltd. and Precision Capital, Ltd. that meet the eligibility requirements as defined in the Plan document. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective February 15, 2017, the Plan was amended to add Precision Capital, Ltd. as a participating employer in the Plan.

Employees are eligible to enter the Plan on the first day of the quarter after their hire date for salary deferral only. The safe harbor match will be offered after the first day of the quarter after having completed one year of service.

Contributions

Each year, participants may elect to have a portion of their compensation contributed to the Plan by the Company as a payroll reduction contribution. The Plan has a safe harbor matching contribution equal to 100% up to 3% of compensation and 50% of the next 2% of compensation. Additionally, the Company may make a discretionary matching contribution to all eligible participants. Contributions are subject to certain limitations, as required by federal regulations.

Participant Accounts

Each participant's account is credited with the participant's contribution, and allocations of the Company's contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon, and are 100% vested in any safe harbor matching contributions. Vesting in other Company contributions is 20% upon the completion of two years of vesting service, with an additional 20% vesting for each year of service thereafter (a participant becomes fully vested upon the completion of six years of vesting service).

Investment Options

Upon enrollment in the Plan, a participant may direct contributions to his / her account in a variety of investment options.

Note 1 - Plan Description (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest ranging from 4.25% to 5.50%, which is commensurate with local prevailing rates, as determined by the plan administrator. Loans are repaid over a reasonable period of time within the maximum loan term granted based on the amount borrowed. The repayment period may not exceed five years, unless the loan is secured to purchase the primary residence of the participant. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or due to proven financial hardship or separation from service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may also make in-service withdrawals upon attaining age 59½.

Forfeited Accounts

Any nonvested portion of a participant's account is deemed forfeited on the earlier of payment of the vested balance or the occurrence of five consecutive one-year breaks in service. Forfeitures are allocated in the same proportion that each participant's compensation for the Plan year bears to the compensation of all participants for such year. At December 31, 2017 and 2016, forfeited nonvested accounts totaled \$1 and \$160, respectively. During 2017 and 2016, forfeitures of \$160 and \$10 were allocated to participant accounts, respectively.

Plan Termination

In the event of termination, the net assets of the Plan are to be allocated in accordance with the provisions of the Plan, and within the manner prescribed by ERISA. All participants will become 100% vested in their accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Note 2 - Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions, based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Plan Administrative Expenses

Certain administrative expenses incurred by the Plan are paid by the Company.

Disclosure of Certain Risks and Uncertainties

The Plan invests primarily in mutual funds. Such investments, in general, are exposed to various risks, including overall market volatility. Due to the level of risk associated with such investments, it is reasonably possible that changes in the values of investments will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 3 - Related Party Transactions

Capital Bank and Trust Company (the Custodian) has physical and administrative control of certain Plan assets, and is responsible for the safekeeping of the Plan's assets, investments of funds, and other transactions as directed by the Plan administrator or participants. Certain Plan investments are mutual funds or money market accounts managed by this Custodian. Fees paid by the Plan to this Custodian amounted to \$1,130 for the year ended December 31, 2017.

Note 4 - Tax Status

The Internal Revenue Service (IRS) has determined that the prototype defined contribution plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC), and therefore, are not subject to tax under present income tax law by letter dated March 31, 2008. The Plan has been amended since the opinion letter was received. However, the Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the organization has taken an uncertain position that, more likely than not, would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The plan administrator believes it is no longer subject to income tax examinations for periods prior to 2014.

Note 5 - Investments

The Plan's investments are held in a trust under the control of the Plan custodian. The Plan's investments (including investments bought, sold, as well as held during the year) appreciated in value by \$375,992 during 2017.

Note 6 - Certified Information

The Capital Bank and Trust Company, custodian of the Plan, holds the Plan's investment assets. Financial information relating to those assets, which comprises a significant portion of the Plan's assets, is included in the accompanying financial statements based on information provided by this custodian. That information, certified to as complete and accurate by the custodian, is summarized below:

Note 7 - Fair Value Measurement

The Plan follows the provisions of Statement of Financial Accounting Standards Board Codification No. 820-10, "Fair Value Measurements and Disclosure" (FASB ASC 820-10). Under this standard, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

FASB ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;

Note 7 - Fair Value Measurement (Continued)

- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the closing price of shares held by the Plan at year end (Level 1).

The preceding method described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Description	Assets at Fair Value as of December 31, 2017			
	(Level 1)	(Level 2)	(Level 3)	Total
Mutual Funds	<u>\$ 2,880,408</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,880,408</u>

Description	Assets at Fair Value as of December 31, 2016			
	(Level 1)	(Level 2)	(Level 3)	Total
Mutual Funds	<u>\$ 2,383,534</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,383,534</u>

Note 8 - Various Risks and Uncertainties

As of December 31, 2017, the Plan held \$2,880,408 in the American Funds fund family, which is 100% of total investments. Therefore, net assets available for benefits are particularly sensitive to changes related to these investments.

Note 9 - Subsequent Events

The Plan has evaluated subsequent events from the statements of net assets available for benefits date through October 10, 2018. In 2018, the Plan's assets are in the process of being merged into the Precision Capital, Ltd. 401(k) Plan, for which there will be a transfer out of Plan assets.
