Notes to Financial Statements
December 31, 2017

1. Description of Plan

The following description of the Adventist Health System Consolidated 403(b) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a tax sheltered annuity plan covering eligible employees of Adventist Health System Sunbelt Healthcare Corporation (the "Employer") and participating employers. AIG Federal Savings Bank ("AIG") and Voya Retirement Insurance ("VOYA") serve as the custodians of the Plan and Fidelity Management Trust Company ("Fidelity") serves as the trustee of the Plan. Variable Annuity Life Insurance Company ("VALIC") serves as the record-keeper of the Plan.

The Plan was adopted on January 1, 2015 and constitutes a consolidation of the Memorial Health Systems, Inc. Retirement Plan effective January 1, 2015, Helen Ellis Memorial Hospital 403(b) Plan effective January 1, 2015 and University Community Hospital Thrift Plan effective January 1, 2015. Although the Plan continues to be eligible to qualify as a church plan for periods prior to January 1, 2016, effective January 1, 2016 the trustees of the Plan have elected to have the Plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA") and those provisions of the Internal Revenue Code ("IRC") to which the Plan would otherwise be exempt as a church plan.

The Plan is subject to the provisions of the ERISA.

Eligibility

Employees who were previously participants in the Memorial Health Systems, Inc. Retirement Plan, Helen Ellis Memorial Hospital 403(b) Plan and University Community Hospital Thrift Plan are covered by this Plan. Other than the individuals described above, no additional individuals shall be eligible to become participants in the Plan.

Contributions

No contributions shall be made under this Plan on or after January 1, 2015.

Vesting

At all times, a participant is 100% vested in their contributions plus allocated earnings thereon.

Participants vest in their Employer contributions at a rate of 100% after three years of service, except as noted below.

Participants of the Helen Ellis Memorial Hospital 403(b) Plan who were participating before January 14, 2006, and who entered into a salary reduction agreement with the participating employer on or before May 1, 2006, shall be fully vested in their employer matching contributions.

Participants previously part of the Memorial Health Systems, Inc. Retirement Plan vest in the employer contributions at a rate of 20% each year after two years of service becoming 100% vested after six years of service.

1. Description of Plan (*continued*)

Forfeited Accounts

Forfeited accounts are amounts forfeited by employees with a non-vested portion in their account that have terminated their employment and who have withdrawn from the Plan. Forfeited contributions will be used to reduce future Plan expenses. At December 31, 2017 and 2016 forfeited non-vested amounts totaled \$671,169 and \$772,955, respectively. During 2017, Plan expenses were reduced by \$151,412 from the forfeited non-vested accounts and \$2,606 was allocated back to participant accounts.

Participant's Accounts

A participant's account is credited with the allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. The loans are secured by the participant's vested account balance and bear a reasonable interest rate which is established by the Plan administrator. Loan repayments must be made by participants over a term not to exceed five years unless the proceeds of the loan are used to purchase the participant's principal residence. Participants may have a maximum of two loans outstanding at any time. During 2017, deemed distributions amounted to \$33,447 and are included in benefits paid to participants on the statement of changes in net assets available for benefits.

Collateral Loans

In addition to account reduction loans, the Plan offers collateral loans to participants. Such loans do not reduce a participants' account balance; instead that account balance serves as collateral for such loans. At December 31, 2017 and 2016, collateral loans amounted to \$129,491 and \$133,839, respectively. At December 31, 2017 and 2016, \$67,001 and \$50,151, respectively, were in default. The collateral loans are secured by the balance in the participants' accounts, and bear interest at 3% per annum.

Payment of Benefits

Upon retirement, death, disability, or resignation of a participant, or upon termination of the Plan, a participant or beneficiary may receive a distribution in the form of a lump sum payment. In-service withdrawals of employee contributions for reasons of hardship (as defined in the Plan agreement) or attaining age 59½ are allowed.

Benefits can also be distributed in the event of a participant's immediate and heavy financial need. Such distributions, which are considered hardship withdrawals, cannot exceed the amount required to relieve the financial need.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

The Plan follows U.S. GAAP guidance on *Fair Value Measurements* which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist.

Investment Valuation and Income Recognition

All of the Plan's investments are stated at fair value except for the fixed accounts, which are stated at contract value. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Separate accounts are reported at the value reported to the Plan by the insurance company, which represents the fair value of the underlying investments comprising the accounts. The fully benefit responsive insurance company investment contracts are reported at contract value, which represents the beginning balance plus any deposits and credited interest, less any withdrawals, charges, or expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Consolidated 403(b) Plan**

Notes to Financial Statements
December 31, 2017

2. Summary of Significant Accounting Policies (*continued*)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Employer and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Accounting for Uncertainty in Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not to be sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition and/or disclosure. The Plan is subject to examinations by the applicable taxing jurisdictions for all periods since 2015.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is October 12, 2018.

3. Information Certified

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company, AIG Federal Savings Bank, and Fidelity Management Trust Company have certified to the completeness and accuracy of all the investments and notes receivable reflected in the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, the related investment and notes receivable interest activities reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2017, and the supplemental Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2017.

4. Investments

The following are the major categories of investments measured at fair value on a recurring basis at December 31, 2017 and 2016, grouped by the fair value hierarchy:

	December 31, 2017		
	Level 1	Level 2	Total
Mutual Funds	\$ 56,459,183	\$ -	\$ 56,459,183

	<u>\$ 56,459,183</u>	<u>\$ 1,366,341</u>	<u>\$ 57,825,524</u>
	December 31, 2016		
	Level 1	Level 2	Total
Mutual Funds	\$ 51,947,889	\$ -	\$ 51,947,889
Separate Accounts	-	1,689,323	1,689,323
	<u>\$ 51,947,889</u>	<u>\$ 1,689,323</u>	<u>\$ 53,637,212</u>

5. Insurance Company Investment Contracts

VALIC Fixed Interest Option

The VALIC Fixed Interest Option (the "Option") is a fully benefit-responsive insurance company investment contract with VALIC. The Option guarantees principal and a minimum guaranteed interest rate for the life of the contract, as well as featuring two declared interest rates: a current rate, determined no more frequently than every 90 days, and a guaranteed minimum floor rate declared for a defined period – currently one calendar year. The guaranteed minimum floor rate may change after the defined period, but it will never be lower than the minimum guaranteed interest rate that applies for the life of the contract. The current rate, the guaranteed minimum floor rate and the minimum guaranteed interest rate are expressed as annual effective yields. Each rate is credited on a daily basis at an annual effective rate and uses a portfolio interest credit method in which all deposits, as well as credited interest, receive the same crediting rate regardless of date of deposit.

Under this option, VALIC assumes the risk of investment gain or loss by guaranteeing the principal amount allocated to the Option and promises a minimum interest rate during the accumulation period and also throughout the annuity payout period. There is a 90 day waiting period to transfer funds out of this investment option. Withdrawals from the Option for other than the payment of benefits to participants may be subject to a market value adjustment and a surrender charge.

**Adventist Health System
Consolidated 403(b) Plan**

Notes to Financial Statements
December 31, 2017

5. Insurance Company Investment Contracts (*continued*)

VALIC Fixed Interest Option (continued)

Because the Option is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the insurance company investment contract. The Option is included in insurance company investment contracts in the statements of net assets available for benefits at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

VALIC is contractually obligated to repay the principal and the specified interest rate that is guaranteed to the Plan. The credit risk of the issuer was evaluated by nationally recognized statistical rating agencies as follows: Moody's Investors Service (A2 as of March 2018), Standard and Poor's (A+ as of March 2018), A.M. Best (A as of March 2018), and Fitch (A+ as of March 2018).

The Option represents approximately 24% and 26% of the Plan's net assets available for benefits as of December 31, 2017 and 2016 and represents an obligation from VALIC as amounts come due.

VOYA Fixed Account

The VOYA Fixed Account (the "Account") is a fully benefit-responsive insurance company investment contract with VOYA. The Account guarantees principal and a minimum guaranteed interest rate for the life of the contract, as well as featuring two declared interest rates: a current rate, determined at least monthly, and a guaranteed minimum floor rate declared for a defined period – currently one calendar year. The guaranteed minimum floor rate may change after the defined period, but it will never be lower than the minimum guaranteed interest rate that applies for the life of the contract. The current rate, the guaranteed minimum floor rate and the minimum guaranteed interest rate are expressed as annual effective yields. Taking the effect of compounding into account, the interest credited to a participant's account daily yields the then current credited rate. VOYA's determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. Under this option, VOYA assumes the risk of investment gain or loss by guaranteeing the principal amount allocated to this option and promises a minimum interest rate during the accumulation period and also throughout the annuity payout period. VOYA may impose limitations on the ability to transfer funds out of this investment option. Withdrawals from the Account for other than the payment of benefits to participants may be subject to a market value adjustment and a surrender charge.

Because the Account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the insurance company investment contract. The Account is presented in insurance company investment contracts in the statements of net assets available for benefits at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Consolidated 403(b) Plan**

Notes to Financial Statements
December 31, 2017

5. Insurance Company Investment Contracts (*continued*)

VOYA Fixed Account (continued)

VOYA is contractually obligated to repay the principal and the specified interest rate that is guaranteed to the Plan. The credit risk of the issuer was evaluated by nationally recognized statistical rating agencies as follows: Moody's Investors Service (A2 as of June 2018), Standard and Poor's (A as of June 2018), A.M. Best (A as of June 2018), and Fitch (A as of June 2018).

6. Party-in-Interest Transactions

Certain Plan investments are managed by the record-keeper, custodians and the trustee of the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions under ERISA.

Participants who are active employees may borrow from their accounts and such loans qualify as exempt party-in-interest transactions under ERISA. These loans are recorded as notes receivable from participants in the statement of net assets available for benefits.

Certain employees of the Employer, who may also be participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

7. Plan Termination

Although the Employer has not expressed any intent to do so, the Employer has the right under the Plan to terminate the Plan subject to provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their accounts.

8. Tax Status

The Plan, effective January 1, 2015, represents a consolidation of existing 403(b) tax sheltered annuity and custodial account plans. The Plan is intended to meet the Internal Revenue Service final 403(b) regulations. The Employer believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
