JOHN PERDUE INC. 401(K) PLAN

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of John Perdue Inc. 401(k) Plan (the "Plan") have been prepared on the accrual basis using accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. The cost of investments sold is computed on an average cost basis for all realized gains and losses. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results may differ from those estimates.

Related Party Transactions

Certain employees of the Plan sponsor provide administrative and executive oversight services to the Plan. The Plan is not charged by the Plan sponsor for the services.

Notes to Financial Statements (Continued)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Certain Plan expenses are paid by John Perdue Inc. (the "Company"), and accordingly, are not reflected in the Plan's financial statements. Certain investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

In preparing its financial statements, Plan management has evaluated events subsequent to the balance sheet date through October 12, 2018, which is the date the financial statements were available to be issued.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, established on January 1, 1998, and amended and restated on January 1, 2014, is a defined contribution plan covering substantially all employees of the Company and related employers who have attained the age of 21 and completed one year of service, except union employees and non-resident aliens. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute, before tax, contributions to the Plan up to 100% of their eligible annual compensation, as defined by the Plan document. However, contributions may not exceed limitations established under Section 402(g) of the Internal Revenue Code of 1986 as amended (\$18,000 for 2017). Section 414(v) of the Internal Revenue Code of 1986 as amended allows a maximum catch-up contribution of \$6,000 for 2017.

The Company, as required by the Plan, makes a safe harbor matching contribution in an amount equal to 100% of each participant's elective deferrals, up to a maximum amount equal to 4% of the participant's salary. The Company may also contribute to the Plan an amount of net profits at the discretion of the Board of Directors. Allocations of the Company's discretionary profit sharing contributions are based upon compensation.

Participants designate the percentage of their total contribution to be invested in any of the Plan's investment funds. A participant may change the amount of his elective deferred contributions at any time during the Plan year by issuing a change request form to the Plan administrator. Participants may change the percentage of contributions invested in each account and may make transfers between accounts anytime during the year.

JOHN PERDUE INC. 401(K) PLAN

Notes to Financial Statements (Continued)

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Rollover Contributions

Participants may roll over their taxable portion of funds previously held for their account in another employee benefit plan to the Plan on a tax-free basis.

Participant Accounts

Each participant's account is credited with allocations of (a) the participant's contribution, (b) the Plan Sponsor contribution and (c) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, safe harbor matching contributions, and discretionary contributions, plus actual earnings thereon.

Payment of Benefits

On termination of service due to death, disability, retirement, or other termination of employment with the Plan sponsor, a participant receives a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants with a vested account balance of \$5,000 or less may be automatically distributed as a lump-sum.

The Plan also allows for in-service distributions in the event of disability or a deemed severance for participants performing service in the uniformed service as defined by the Internal Revenue Code.

Forfeitures

The non-vested portion of terminated participant account balances can be used by the Company to offset non-elective and matching contributions. For the years ended December 31, 2017 and 2016, the balance of unallocated forfeitures was \$-0-.

Notes Receivable from Participants

The Plan allows a participant to borrow up to the lesser of \$50,000 or 50 percent of the participant's vested interest. Each participant may have only one outstanding note at a time. The minimum note receivable amount is \$1,000. All notes receivable from participants bear interest at a fixed rate over a term not more than five years, except in the case of a note for the purpose of acquiring a home. Interest rates are charged at market rates at the inception of the note receivable. Generally, payments of principal and interest are made through biweekly payroll deductions.

JOHN PERDUE INC. 401(K) PLAN

Notes to Financial Statements (Continued)

NOTE 3 TAX STATUS

The Plan Sponsor has adopted a prototype plan which has received an opinion letter from the Internal Revenue Service dated March 31, 2014, which states that the provider's prototype, as designed, is in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 4 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, participants will become fully vested in their account balances.

NOTE 5 INFORMATION CERTIFIED BY THE CUSTODIAN

The following information provided by Matrix Trust Company, the custodian of the Plan, as of and for the year ended December 31, 2017, was certified by them to be accurate and complete with respect to the following:

- (a) The assets held by Matrix Trust Company at December 31, 2017, as well as the transactions involving these assets for the year ended December 31, 2017.
- (b) The amount of investment income for the year ended December 31, 2017.
- (c) The Schedule H, Line 4i – Schedule of Assets (Held at End of Year) at December 31, 2017.

NOTE 6 FAIR VALUE MEASUREMENTS

GAAP provisions for Fair Value Measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP provisions for Fair Value Measurements are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

JOHN PERDUE INC. 401(K) PLAN

Notes to Financial Statements (Continued)

NOTE 6 FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation approaches used for assets measured at fair value.

Mutual funds and money market fund: Value at the net asset value ("NAV") of shares held by the plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different approaches or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

Description	Totals	Level 1	Level 2	Level 3
