Piedmont Natural Gas Company, Inc.
Money Purchase Pension Plan
Notes to Financial Statements
December 31, 2017 and 2016

Note 1: Description of the Plan

The following description of the Piedmont Natural Gas Company, Inc. (the "Company") Money Purchase Pension Plan (the "Plan") provides only general information. Participants should refer to the *Plan Document* for a more complete description of the Plan's provisions, which is available from Plan management.

General

The Plan is a defined contribution plan providing benefits to participating employees or their beneficiaries upon retirement, death or termination of employment. Employees hired on or after January 1, 2008 are eligible to participate in the Plan after they have completed thirty days of continuous service with the Company and attained age 18. The Plan is administered by the Duke Energy Benefits Committee ("Benefits Committee" or "Plan Administrator"). Wells Fargo Bank, N.A. ("Wells Fargo") serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Company contributes 4% of each participant's eligible compensation plus 4% of each participant's excess compensation, as defined by the Plan. Participants cannot make any contributions to the Plan.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the Company's contribution and allocations of Plan earnings, losses and expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of the Company contributions into various investment options offered by the Plan. Currently, the Plan offers mutual funds and collective investment trust funds as investment options for participants. If the employee does not make an investment election, Company contributions and earnings are automatically invested in a diversified portfolio of stocks, bonds, and stable value investments. Participants have daily access to their investment balances. Changes are self-directed by the participants through Internet or telephone transfers.

Vesting

All contributions and earnings are vested after the participant completes three years of service with the Company, reaches age 65, or if the employee dies or becomes permanently disabled while actively working for the Company.

Payment of Benefits

On termination of service, if you are 100% vested, a participant or designated beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump sum amount or single life annuity. Employees also have the option to elect a joint and survivor annuity to be paid to a spouse in the case of death.

Forfeited Accounts

At December 31, 2017 and 2016, forfeited non-vested accounts totaled $0 and $19,016, respectively. Forfeitures are used to reduce future Plan Sponsor contributions or Plan expenses. No forfeitures were used during 2017 to reduce employer contributions. Forfeitures of $52,224 were used during 2017 to reduce expenses.

Plan Merger

Effective at the close of business on December 31, 2017, the Plan merged into the Duke Energy Retirement Savings Plan (Duke RSP). Prior to December 31, 2017, $0.1 million assets transferred to the Duke RSP. As of December 31, 2017, $11.9 million assets were in transit and are included as "Pending Transfers from Piedmont Natural Gas Company, Inc. Plans" on the Duke RSP's Statement of Net Assets Available for Benefits.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from the Plan Sponsor are recorded in the year in which the contributions are earned. All Plan Sponsor contributions are participant-directed.

Payment of Benefits

Benefits paid directly to participants are recorded when paid.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2017, and through September 28, 2018, which is the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

Note 3: Investments and Related Investment Income (Certified by Trustee)

The information related to investments as of December 31, 2017 and 2016, and related investment income for the year ended December 31, 2017 was certified by Wells Fargo as permitted by 29 CFR 2520.103-8 of the Department of Labor rules under ERISA.

Note 4: Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures* ("FASB ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in an active market for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016:

	December 31, 2016			
	Quoted Prices in Active Markets (Level 1)	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**	**Total**
Investments subject to the fair value hierarchy:				
Mutual funds	$ 5,202,737	$ -	$ -	$ 5,202,737
Total investments subject to the fair value hierarchy	$ 5,202,737	$ -	$ -	5,202,737
Investments not subject to the fair value hierarchy:				
Collective investment trust funds				1,362,755
Total investments, at fair value:				$ 6,565,492

Note 5: NAV per Share

In accordance with FASB ASU No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share or its equivalent for which the fair value is not readily determinable as of December 31, 2016. For the Plan, such assets include investments in collective investment trust funds.

The following table for December 31, 2016, sets forth a summary of the Plan's investments with a reported NAV.

	Fair Value Estimated Using NAV per Share December 31, 2016				
	Fair Value	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Wells Fargo Stable Return Fund	$685,329	None	Daily	Written notice	12 months
Wells Fargo Enhanced Stock Market Fund	$677,426	None	Daily	None	None

Note 6: Party-In-Interest Transactions

Certain plan investments are managed by Wells Fargo. Therefore, these transactions qualify as party-in-interest transactions.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the assets reported in the statement of net assets available for benefits.

Note 8: Plan Tax Status

The Plan obtained its latest determination letter on February 2, 2015, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, Plan management believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2014.
