THE MARYHAVEN RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
For the Years Ended December 31, 2017 and 2016

NOTE 1 – PLAN DESCRIPTION

The following description of the Maryhaven, Inc. (the Company) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan covering all eligible employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The purpose of the plan is to help provide employees with financial security during retirement years. All employees who are employed by the Company are eligible to make employee elective deferral contributions. There is no minimum age or service requirements for participation in the employee elective deferral contributions portion of the Plan. To be eligible to receive an employer discretionary contribution, employees must attain an age of 21 and complete one eligibility year of service. Tax-deferred contributions could not exceed \$18,000 for plan years 2017 and 2016. Employees age 50 or older may make “catch-up contributions” with certain restrictions, for an additional \$6,000 for plan years 2017 and 2016.

Contributions - Employer discretionary contributions are contributions the Company may make to the Plan without regard to the amount of the employee elective deferral contribution. The contributions are made at the sole discretion of the Company and in some years such contributions may not be made to the Plan.

Vesting - Participants are immediately vested in their voluntary contribution and actual earnings thereon. Vesting in the Company’s discretionary contributions, and actual earnings thereon, is based on years of continuous service. Participants become vested in the Company’s discretionary contributions based on the following schedule:

<u>Years of Vesting Service</u>	<u>Applicable Vesting Percentage</u>
After 1 year	0%
After 2 years	20%
After 3 years	50%
After 4 years	60%
After 5 years	100%

Forfeitures – Forfeitures shall be applied toward the payment of any employer discretionary contribution and shall reduce the amount of the employer discretionary contribution otherwise made to the Plan and shall be allocated in the same manner that employer discretionary contributions are allocated.

THE MARYHAVEN RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
For the Years Ended December 31, 2017 and 2016

NOTE 1 – PLAN DESCRIPTION (CONTINUED)

Plan Termination - While the Company has not expressed any intent to terminate the Plan, the event of any such termination, the Plan provides that participants would be entitled to receive the amounts allocated to their respective participant accounts.

Tax Status - The Plan has not obtained a tax determination letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, and the Plan and related trust continue to be tax-exempt. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of plan year end, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions. There are currently no audits for any tax periods in progress.

Participant Accounts - Each participant's account is credited with the participant's contribution, proportionate share of the Company's contribution and Plan's earnings, and charged with withdrawals and loan fees, as applicable. Each participant is entitled only to the benefit that can be provided from the participant's account.

Investments - Upon enrollment into the Plan, a participant may direct employee and employer contributions in 1% increments into various investment options. The Plan currently offers 19 mutual funds as investment options for participants. Participants may reallocate their investments at any time during the year.

Participant Loans - The Plan makes loans to participants and beneficiaries not to exceed the lesser of one-half of the participant's vested account balance or \$50,000. Loan terms range up to five years. Loans bear interest at a rate determined by the Plan administrator at the time that the loans are consummated. Principal and interest are paid through payroll deductions.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments over a period elected by the participant, or a life annuity.

THE MARYHAVEN RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
For the Years Ended December 31, 2017 and 2016

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments of the Plan are reflected in the accompanying statements of net assets available for Plan benefits at market value, which is the valuation of the security or interest in a fund at year-end as determined by the quoted market price. All investments are participant-directed.

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as, interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payments of Benefits - Benefits are recorded when paid.

Administrative Expenses - Plan expenses are paid by the Company, except for participant loan fees and third party administrative fees.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2017 and 2016, and for the years then ended, included in the accompanying financial statements and supplemental schedule, which was prepared by or derived from information prepared by Matrix Trust Company, the trustee of the plan, and furnished to the Plan Administrator. NOTE 4 - FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
