A. Description of Plan

The following description of the Perez of Florida, Inc. 401(k) Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. **General.** The Plan is a defined contribution plan that started on January 1, 2015 covering all of the Company and its wholly owned subsidiaries employees who have one year of service and are age 21 or older. An Eligible Employee who has satisfied the eligibility requirements will become a Participant in the Plan for all contribution types as of the first day of the plan year or of first day of the 7th month of the plan year. The Plan is subject to the provisions of ERISA. The Board of Directors of the corporation is responsible for oversight of the Plan. Under supervision and approval of the board of directors, a third-party administrator and an investment custodian determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the board of directors. The employer is a member of controlled group. All subsidiaries area allowed to participate in the plan.

2. **Safe Harbor.** The employer makes matching "ADP test safe harbor contributions" to the Account of each "eligible Participant" using the traditional basic matching contribution. The Employer contribute an amount equal to the sum of 100% of the amount of the Participant's Elective Deferrals that do not exceed 3% of the Participant's Compensation, plus 50% of the amount of the Participant's Elective Deferrals that exceed 3% of the Participant's Compensation but do not exceed 5% of the Participant's Compensation.

3. **Participant Contributions.** Each year, participants may contribute up to up to the maximum amount allowed by law (i.e., Code §§402(g) and 415) which is up to $18,000 for 2017. Participants are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

4. **Employer Matching Contribution.** The Employer may make matching contributions equal to a discretionary percentage determined by the Employer, of the Participant's Elective Deferrals. The Employer may determine a separate discretionary matching contribution for Participants working in different business units or locations. Employer matching contribution is 6 % of a Participant's Compensation. The matching contribution made on behalf of any Participant for any Plan Year will not exceed 4% of Compensation.

5. **Participant accounts.** Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific

participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

6. **Vesting.** The following vesting schedule, based on a Participant's Years of Service (or Periods of Service if the elapsed time method is selected), applies to Employer Nonelective profit sharing contributions and employer matching contribution:

   6 Year Graded: 0-1 year-0%; 2 years-20%; 3 years-40%; 4 years-60%; 5 years-80%; 6 years-100%. Regardless of the vesting schedule, a Participant will become fully Vested upon Death.

7. **Notes receivable from participants**. Participants loan are permitted subject to ERISA regulations and limits. Loans will be treated as participants directed investments. The minimum loan is $1,000 and a participant may have only one loan.

8. **Hardship Distribution.** (Plan Sections 6.12 and/or 12.10) Hardship distributions are permitted from the all Participant Accounts.

9. **Payment of benefits.** On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amounts equal to the value of the participant's vested interest in his or her account. Partial withdrawals or installments are only permitted for Participants or Beneficiaries who must receive required minimum distributions under Code §401(a)(9).

10. **Forfeited accounts.** Except as provided in Plan Section 1.37, a Forfeiture will occur as of the earlier of (1) the last day of the Plan Year in which the former Participant incurs five (5) consecutive 1-Year Breaks in Service, or (2) the distribution of the entire Vested portion of the Participant's Account.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and li- abilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net

appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

C. Information prepared and certified by the custodian:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The investment information included in the accompanying financial statements and supplemental schedule was obtained from data that has been certified as complete and accurate to the plan administrator by One America Financial Partner, Inc. the custodian of the Plan, at December 31, 2017 and 2016. Incorporation of this financial information in the accompanying financial statements and supplemental schedule is based solely on those certifications. The investment income reported in the statement of changes in net assets available for benefits for the year ended December 31, 2017 was also certified by Principal.

D. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the low- est level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

E. Related-Party Transactions and Party in Interest Transactions

The board of director oversee investments management and have authority for all plan decisions. The board of director is composed by more than 5% owners and highly compensated corporate employees. Two directors are also individual trustee who serve as trustee over assets not subject to control by a corporate trustee. Therefore, these directors qualify as party in interest transactions.

F. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

G. Tax Status

The Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
