INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Plan Participants
Novelis Fairmont Hourly Pension Plan
Atlanta, GA

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Novelis Fairmont Hourly Pension Plan (the Plan) which comprise the statement of net assets available for benefits as of December 31, 2017 and the related statement of changes in net assets available for benefits for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the Plan's 2017 financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by State Street Bank & Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the 2017 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2017, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the Plan's 2017 financial statements.

Other Matter - 2016 Financial Statements

The financial statement of the Plan as of December 31, 2016 was audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated November 1, 2017, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and did not express an opinion on the financial statements taken as a whole, and (b) the form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in these financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of plan:

The following description of the Novelis Fairmont Hourly Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan participants include all persons employed by the Novelis Corporation (the Company) who are members of a collective bargaining unit having an agreement with the Company's Fairmont, West Virginia plant and the International Union of United Steelworkers, AFL-CIOCLC, who are not accruing benefits as participants of another plan maintained jointly or individually by the Company and/or a collective bargaining unit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Company's Pension and Investment Committee (PIC or Plan Administrator). The PIC determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Funding policy

Contributions are based on the recommendations of the actuary. Contributions are made in amounts not less than the minimum required under the applicable sections of ERISA and in accordance with the Internal Revenue Code (IRC). The Plan met the minimum funding requirements for the Plan years ended December 31, 2017 and 2016.

Pension Benefits

Participants are entitled to normal retirement benefits on attainment of age 65 or with at least 30 years of continuous service, irrespective of age. The normal monthly retirement benefit is a specified monthly benefit level multiplied by the number of years of credited service. In November 2012, a new collective bargaining agreement was entered into which provides for a $1 increase in the monthly benefit level effective November 1, 2012 of $46 with additional $1 increases on each successive November 1 through and including November 1, 2014. The benefit level that was in effect at December 31, 2014 of $48 was used to calculate the actuarial present value of accumulated plan benefits at December 31, 2016. In November 2015, a new collective bargaining agreement was entered into which provides for a $1 increase in the monthly benefit level effective November 1, 2014 of $48 with additional $1 increases on each successive November 1 through and including November 1, 2017. The benefit level that was in effect at December 31, 2017 of $51 was used to calculate the actuarial present value of accumulated plan benefits at December 31, 2017.

Note 1 - Description of plan - continued:

Pension Benefits - continued

The Plan also provides for early retirement, disability, retirement and surviving spouse benefits for those participants who meet certain requirements.

Effective October 17, 2016, an amendment to the Plan allowed certain vested participants terminated on or before May 31, 2016, to take a lump sum during a limited election period of October 17, 2016 through November 23, 2016.

Vesting

Participants become fully vested after five years of service. Persons terminating prior to achieving five years of service forfeit the right to receive benefits.

Termination provision

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan or to discontinue contributions to the Plan. In the event the Plan is terminated, the Plan provides for the allocation of net assets up to the present value of accumulated plan benefits among the participants and pensioners. To the extent unfunded vested benefits exist, such benefits would be payable by the Pension Benefit Guaranty Corporation (PBGC), up to specified limitations, as described in ERISA. To the extent that Plan net assets exceed benefits due to participants and pensioners and the Plan has met all legal requirements, remaining assets, net of applicable taxes, will revert back to the Company. (See Note 6).

Note 2 - Summary of significant accounting policies:

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Note 2 - Summary of significant accounting policies - continued:

Investment valuation and income recognition

Investments in the Novelis Master Retirement Trust (Master Trust) are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 4 for discussion of fair value measurements).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statement of changes in net assets available for benefits an allocation of the Master Trust's net income which consists of realized gains or losses, unrealized appreciation on investments and interest and dividend income. (See Note 5).

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated Plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Risks and uncertainties

The Master Trust invests in collective trusts. The collective trusts invest in various types of investment securities and in various companies within various markets. The underlying investment securities are exposed to various risks, such as interest rate, credit risks and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in these financial statements.

Note 2 - Summary of significant accounting policies - continued:

Risks and uncertainties - continued

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

New accounting pronouncements

In February 2017, the Financial Accounting Standards Board issued ASU No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting* (ASU No. 2017-06). All plans held in a master trust will be required to disclose the dollar amount of each plan's interest in each general type of investment. This will supplement the existing requirement to disclose the master trust's balances in each general type of investment. The amendments also will require all plans to disclose their master trust's other asset and liability balances, which include, among other items, amounts due from brokers for securities sold, amounts due to brokers for securities purchased, accrued interest and dividends, and accrued expenses. Each plan also will be required to disclose the dollar amount of the plan's interest in each of those other asset and liability balances. In addition, the amendments will require health and welfare benefit plans to disclose the name of the defined benefit pension plan in which investment disclosures relating to 401(h) account assets are provided. The update takes effect for fiscal years beginning after December 15, 2018. Early adoption is permitted, and an entity should apply the amendments in the update retrospectively to each period for which financial statements are presented. Management has elected to not early adopt ASU No. 2017-06.

Administrative expenses

Trustee fees, investment management fees and PBGC premiums are generally paid by the Plan. All other administrative expenses are paid by the Company.

Subsequent events

The Plan has evaluated subsequent events through October 12, 2018, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of December 31, 2017, have been incorporated into these financial statements.

Note 3 - Investment in master trust:

All of the Plan's investments are units of participation in the Master Trust held by State Street Bank & Trust Company (State Street, Trustee) and are commingled with the assets of four other retirement plans of participating employers. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income based on specific asset holdings less actual distributions and administrative expenses. The Master Trust holds investments in 14 collective trusts managed by Mercer Global Investments, Inc. (Investment Manager). Each plan in the Master Trust can elect to invest in any or all of the available collective trusts in any allocation appropriate for that plan's objectives.

The Plan's interest in the Master Trust net assets was 4% for the years ending December 31, 2017 and 2016.

The following table presents the net assets held by the Master Trust at December 31, 2017 and 2016:

	2017	2016
Cash	$ -	$ 5,402,150
Investments, at fair value:		
Collective trusts	722,830,347	617,286,933
Net assets held by the Master Trust	$ 722,830,347	$ 622,689,083
Plan's share of Master Trust	$ 26,463,059	$ 22,681,463

The following presents investment income from the Master Trust for the year ended December 31, 2017, as certified by the Trustee:

Net appreciation in fair value of investments:	
Collective Trusts	$ 88,632,520

Note 4 - Fair value measurements:

Financial Accounting Standards Board, Accounting Standards Codification 820, *Fair Value Measurements* (ASC 820), defines fair value, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices available in active markets for identical investments, that the Master Trust has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 - Fair value measurements - continued:

The following is a description of the valuation methodology used for assets and liabilities measured at fair value. There have been no significant changes in the methodology used at December 31, 2017 and 2016.

- Units of participation of the collective trust funds are valued at the net asset value (NAV) provided by the fund's Trustee as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value daily without any redemption notice or restrictions. Plan level initiated transactions require a 12-month redemption notice in order to withdraw at full book value. Plan level initiated transactions with less than a 12-month redemption notice may incur an adjustment to book value.

The methodology described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2017 and 2016, there were no assets included in the fair value hierarchy. All assets at December 31, 2017 and 2016 were valued using the NAV as a practical expedient.

The following tables summarize the Master Trust's investments measured at fair value based on NAVs per share as of December 31, 2017 and 2016.

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Total
Collective trusts	$ 722,830,347	None	Daily	12 - month

Note 4 - Fair value measurements - continued:

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Total
Collective trusts	$ 617,286,933	None	Daily	12 - month

Note 5 - Actuarial present value of accumulated plan benefits:

Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are considered attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's consulting actuary. The present value of accumulated Plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated Plan benefits will change in the near term and that the effect of such change could be significant.

The significant actuarial assumptions used in the valuation dated December 31, 2017 and 2016 were:

1. Mortality basis	Mercer Industry Longevity Experience Study for the Basic Materials, Paper and Packaging Industry (base year of table is 2010), without collar adjustments for annuitants and to RP-2014 with removal of mortality improvements for years after 2007 (base year of table is 2007), without collar adjustments for non-annuitants.
2. Discount rates	6.60% in 2017; 6.80% in 2016.
3. Normal retirement age	Ages vary from age 55 to 64+; average of 60.

Note 5 - Actuarial present value of accumulated plan benefits - continued:

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

	December 31,	
	2017	*2016*
Actuarial present value of accumulated Plan benefits:		
Vested benefits:		
Participants currently receiving payments	$ 15,009,454	$ 14,574,221
Other participants	9,487,993	8,713,552
Total vested benefits	24,497,447	23,287,773
Nonvested benefits	630,819	571,862
Total actuarial present value of accumulated Plan benefits	$ 25,128,266	$ 23,859,635

Under the above assumptions, the changes in the actuarial present value of accumulated Plan benefits for the year ended December 31, 2017 is as follows:

Actuarial present value of accumulated Plan benefits, beginning of year	$ 23,859,635
Increase (decrease) during the year attributable to:	
Changes in actuarial assumptions	516,444
Benefits accumulated	298,913
Actuarial gains and losses	72,769
Increase for interest due to decrease in discount period	1,522,038
Benefits paid	(1,669,098)
Plan amendments	527,565
Net increase	1,268,631
Actuarial present value of accumulated Plan benefits, end of year	$ 25,128,266

Note 6 - Information certified by State Street:

State Street holds the Master Trust's investment assets and executes investment transactions. Certain information disclosed in the accompanying financial statements, including investments held at December 31, 2017 and 2016, and net investment income from Master Trust for the year ended December 31, 2017, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by State Street.

Note 7 - Priorities upon termination:

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Benefits attributable to employee contributions, taking into account those paid out before termination.
- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- Other vested benefits insured by the PBGC up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Note 7 - Priorities upon termination - continued:

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and on the level of benefits guaranteed by the PBGC.

Note 8 - Related-party transactions:

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Plan investments include shares of collective trusts in which State Street Global Advisors serves as a sub-advisor to the Investment Manager. Fees are paid by the Plan for investment management services. State Street is the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 9 - Tax status:

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 1, 2018, that the Plan is designed in accordance with the applicable provisions of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt and no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Sample rates:

Percentage leaving during the year	
Age	Male or female rate per 1,000
25	66.0
30	52.0
35	40.5
40	31.5
45	26.0
50	19.5
55	0.0

Disability

Rates vary by age and gender

Sample rates:

Percentage becoming disabled during the year		
Age	Male	Female
30	0.24%	0.48%
45	0.40%	0.79%
60	2.76%	5.52%

Retirement

For purposes of determining the funding target and target normal cost (both disregarding at-risk assumptions), the ages at which participants retire are age 65 or age 62 with thirty years of service.

SCHEDULE SB ATTACHMENTS
Part V- Statement of Actuarial Assumptions and Methods

Benefit commencement date:	
• Preretirement death benefit	The later of the death of the active participant or the date the participant would have been eligible for early retirement.
• Deferred vested benefit	The later of normal retirement date or termination of employment.
• Disability benefit	Upon disablement
• Retirement benefit	Upon termination of employment.
Form of payment	100% of single participants are assumed to elect a life annuity; 100% of married participants are assumed to elect a 50% surviving spouse option.
Percent married	90% of males; 70% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.
Spouse age	Wife three years younger than husband.
Administrative expenses	$180,000
Cash flows:	
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.

SCHEDULE SB ATTACHMENTS
Part V- Statement of Actuarial Assumptions and Methods

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2016 plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Novelis and, based on that review, is not aware of any significant benefits required to be valued that were not.

SCHEDULE SB ATTACHMENTS
Part V- Statement of Actuarial Assumptions and Methods

Assumptions Rationale	
Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Other significant assumptions	See memo "Novelis - Assumptions Rationale and Documentation Memo" provided on April 13, 2017.

Source of Prescribed Methods	
Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods	
Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2015 to September 2016 reflecting the interest rate corridors of HATFA. The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements. The assumed plan-related expenses added to the target normal cost were changed from $170,000 for 2016 to $180,000 for 2017 to account for higher expenses paid from the trust.
Change in methods since prior valuation	None

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part V- Summary of Plan Provisions

Plan Provisions

Effective date	The most recent amendment reflected in the following plan provisions was effective December 1, 2016.
Covered employees	Employees in the bargaining unit hired before the contract ratified in 2012.
Participation date	First of month on or after date of hire.

Definitions

Eligibility service	All aggregated periods of service considered as service with the Company (including service with Alcan) and not forfeited through break-in-service rules and maternity leaves of absence as required by law. Partial years are rounded to the next higher full number of years.
Benefit service	Full years and completed months of service accrued and included in eligibility service.
Normal retirement date (NRD)	The earlier of: (1) First of month next following the attainment of age 65 and with respect to a member who retired before January 1, 1988, completion of ten years of eligibility service and (2) the first day of the month following completion of 30 years of eligibility service.
Gross normal retirement benefit	A monthly amount equal to benefit service multiplied by:

Benefit Level	Effective Date
$39	11/1/2005
40	11/1/2006
41	11/1/2007
42	11/1/2008
44	11/1/2010
45	11/1/2011
46	11/1/2012
47	11/1/2013
48	11/1/2014

Postretirement spouse benefit	If married, reduced 50% joint and survivor early retirement benefit if attained age 60 or 50% accrued benefit for all others reduced to be payable at age 60. For in-service death, an additional $150 per month payable to the surviving spouse for two years.
Disability benefit	The greater of (1) $150 or (2) accrued benefit determined as of disability date offset by worker's compensation disability payments, payable immediately until age 65. The accrued benefit, determined as of disability date, is payable commencing on NRD.

SCHEDULE SB ATTACHMENTS
Part V- Summary of Plan Provisions

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 60 and completing ten years of vesting service.
Postponed retirement	Retirement after NRD.
Vested termination	Termination after completing five years of eligibility service.
Disability	Permanently incapacitated for some unavoidable cause while an hourly employee on or before his 65th birthday and after having completed at least 10 years of eligibility service.
Preretirement death benefit	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse. Benefits can commence on or after both attaining age 60 and completing ten years of eligibility service.

Benefits Paid Upon the Following Events

Normal retirement	Gross normal retirement benefit payable immediately.
Early retirement	The gross normal retirement benefit, reduced 8.0% per year prior to age 65.
Postponed retirement	Gross normal retirement benefit payable immediately.
Vested termination	Gross normal retirement payable unreduced at age 65, reduced as for early retirement if commencement of payments precedes NRD.
Death with preretirement spouse benefits	The preretirement spouse benefit is payable.
Disability	The disability benefit is payable.

SCHEDULE SB ATTACHMENTS
Part V- Summary of Plan Provisions

Other Plan Provisions

Forms of payment	For single employees, benefits will be paid in the form of a single life annuity. For married employees, benefits will be paid in the form of the 50% joint and survivor annuity. Optional forms are a 75% and 100% joint and survivor annuity.
Conversion factors for optional forms of payment	6.00% interest and the "Applicable Mortality Table" as in effect for 2012 pursuant to Section 417(e)(3) of the Code.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in dollar limits are assumed for determining pension cost but not for determining contributions.

Plan Status for PBGC Reporting Purposes

Ongoing, but eligibility frozen.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

During 2016, a one-time lump sum option was offered to terminated vested participants that did not change any of the ongoing benefit features of the plan. Therefore, there have been no changes in benefits valued since the prior year.

Schedule SB, Line 24
Change in Actuarial Assumptions

- The assumed plan-related expenses added to the target normal cost were changed from $170,000 in 2016 to $180,000 for 2017.
