Summa Health 401(k) Retirement Savings Plan

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Summa Health 401(k) Retirement Savings Plan (formerly, the Summa Management Services Organization Employees 401(k) Plan and Trust) (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan established on March 20, 1994. The Plan covers all employees of Summa Management Services Organization (the Employer) with the exception of union employees whose employment is governed by a collective bargaining agreement and certain nonresident aliens who have no earned income from sources within the United States. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective October 10, 2016, the Summa Health System Pension Savings Plan (the PSP) and the Summa/Barberton Retirement Savings Plan for Frozen Pension Plan Participants (the Summa/Barberton Plan) were merged into the Plan. Concurrently, the Plan was renamed from Summa Management Services Organization Employees 401(k) Plan and Trust to Summa Health 401(k) Retirement Savings Plan.

Eligibility

Employees are eligible to receive salary reduction contributions on their date of hire and to receive matching contributions after one year of service.

Contributions

Each year, a participant may voluntarily contribute a percentage of his or her compensation by means of salary deferral up to the maximum amount allowed by the Internal Revenue Service (IRS). Employer matching contributions are 100% vested after 3 years. Participants may also contribute amounts representing rollovers from qualified plans.

Effective July 1, 2011, the Plan was amended as follows:

- a) Participants are designated as either "Frozen Pension Plan Participants" (Frozen Participants) or "Non-frozen Pension Plan Participants" (Non-frozen Participants). A Frozen Participant is precluded from participating in or no longer accrues benefits under the terms of the Summa Health System Retirement Income Plan (RIP) on or after July 1, 2011. The RIP is another employee benefit plan which is sponsored by the parent organization of the Employer. A Non-frozen Participant is a participant who is not a Frozen Participant.

Summa Health 401(k) Retirement Savings Plan

Notes to Financial Statements

- b) The Employer shall make matching contributions on behalf of Non-frozen Participants meeting the requirements specified in the Plan document equal to 50% of each Non-frozen Participant's elective contributions and catch-up contributions for the Plan year not to exceed 3% of the Non-frozen Participant's compensation. The employer shall make matching contributions for Frozen Participants equal to 100% of each Frozen Participant's elective deferrals and catch-up contributions up to 1% of the Frozen Participant's compensation plus 50% of each Frozen Participant's elective deferrals and catch-up contributions not to exceed the next 5% of the Frozen Participant's compensation.

Effective May 1, 2014, the Employer permanently ceased nondiscretionary contributions for Frozen Participants.

Participant accounts

Each participant's account is credited with the participant's contributions, the Employer's contribution and an allocation of the Plan's earnings. Allocations of earnings are based on the participant's account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account. During the years ended December 31, 2017 and 2016, participants could direct the investments of their respective accounts into various investment options offered by the Plan.

Vesting

Participants are immediately vested in their contributions, plus earnings thereon. Vesting in the contributions of the Employer is based on the Hour of Service Method, as defined in the Plan document. Credit will be given for each hour worked for which compensation is paid to include paid-time-off and leave of absence. Once a participant reaches 1,000 hours of service in any given calendar year, the participant is then credited with a year of vesting. Vesting in the contributions of the Employer is based on years of continuous service.

Effective January 1, 2010, vesting shall be determined according to the following table:

<u>Completed years of service</u>	<u>Vesting Percentage</u>
Fewer than 3	0%
3 or more	100%

Notes receivable from participants

Participants may borrow from their accounts 50% of their vested account balance, from a minimum of \$1,000 up to a maximum of \$50,000, reduced by the highest outstanding loan balance over the last year. Loan terms range from 1 to 5 years or up to fifteen years for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account. The interest rate is fixed for the life of the loan and is 1% over the prime rate published in the *Wall Street Journal* on the first business day of the month the loan is originated. Principal and interest are repaid ratably through payroll deductions.

Summa Health 401(k) Retirement Savings Plan

Notes to Financial Statements

Distributions to participants or beneficiaries

On termination of service due to death, disability, discharge or retirement, a participant may elect to receive a lump-sum amount equal to the value of the vested interest in his or her account. Vested account balances of less than \$5,000 may be distributed at the discretion of the Plan in a single lump sum.

Forfeitures

Forfeitures resulting from terminated participants are accumulated in the forfeiture account and used to reduce future Employer contributions. During 2017, \$45,407 in forfeitures was used to offset Employer contributions. In 2016, no forfeitures were used to offset Employer contributions. At December 31, 2017 and December 31, 2016, forfeited non-vested accounts totaled \$5,878 and \$39,238, respectively.

Administrative expenses

Certain professional services and administrative fees are paid by the Employer. All other administrative fees are paid by the Plan.

Plan termination

Although the Employer has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Reclassifications

Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation. These classifications had no effect on net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements and supplemental schedule have been prepared in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Summa Health 401(k) Retirement Savings Plan

Notes to Financial Statements

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes receivable from participants

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payments of benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through October 4, 2018, the date the financial statements were available to be issued.

3. Information Certified by the Trustee (unaudited)

All investment and participant notes receivable information disclosed in the accompanying financial statements and supplemental schedule, including investments and participant notes receivable held at December 31, 2017 and 2016, net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee. As elected by the plan administrator, no auditing procedures have been performed on this information except to compare such information to the information included in the accompanying financial statements.

Summa Health 401(k) Retirement Savings Plan

Notes to Financial Statements

4. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

5. Tax Status

The Employer adopted a non-standardized prototype profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, stating that the Plan and related trust, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party-In-Interest Transactions

Plan investments consist of certain shares of registered investment companies and units of a common/collective trust offered by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions. Loans to participants are also considered party-in-interest transactions as such participants are employed by the Plan Sponsor. These party-in-interest transactions are exempt from the prohibited rules under ERISA.

7. Guaranteed investment contracts

The Plan entered into a fully benefit-responsive guaranteed investment contract with Principal Life Insurance and Annuity Company. This custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Summa Health 401(k) Retirement Savings Plan

Notes to Financial Statements

For those guaranteed investment contracts which are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. The guaranteed investment contracts are presented on the Statements of Net Assets Available for Benefits at contract value. Contract value, as reported to the Plan by the custodian, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include certain amendments to the Plan document, such as a complete Plan termination. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

8. Fair Value Measurements

The Accounting Standards Codification (ASC) 820 Topic on *Fair Value Measurements and Disclosure* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

Summa Health 401(k) Retirement Savings Plan

Notes to Financial Statements

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year-end.

Money market investments: Valued at the reported statement balance as of the last business day of the Plan year. The statement balance reflects the Net Asset Value (NAV) at that date. Money market funds invested in by the Plan seek to preserve the value of the investment at \$1.00 per share.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

Common/collective trust – stable value fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. The fund invests in conventional and synthetic investment contracts issued by various companies and institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. There are no redemption restrictions upon which the participant may redeem investments in the fund. However, the Plan is required to provide a one-year redemption notice to liquidate its entire investment in the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Summa Health 401(k) Retirement Savings Plan
