DEFINED BENEFIT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016**

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Crystal Clear Building Services, Inc. Defined Benefit Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a cash balance defined benefit plan providing retirement, disability, and death benefits to eligible employees of Crystal Clear Building Services, Inc. (the Company). Eligibility is based on the employees' job title and role. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Trustees. The Trustees have overall responsibility for the operation and administration of the Plan. The Trustees determine the appropriateness of the Plan's investments, monitor investment performance and report to the Company.

Participant Accounts

Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical Cash Balance Accounts. Each year, the accounts are allocated a unit of cash balance benefit which is determined by the participant's job title, and role (defined as a participant class). Allocations are based on a percentage of benefit compensations defined, or \$100, depending on the participant category. A participant must complete a year of credited service, as defined, to receive a unit cash balance benefit in any Plan year.

Participants' hypothetical accounts also receive interest credits each year. The amount of the interest credit is tied to the average annual yields on 30-year treasury securities. As of December 31, 2017 and 2016, the interest rate was 5%.

Vesting

Participants are vested in their separate accounts based on years of continuous service in which the participant worked at least 1,000 hours. A participant is 100% vested after three years of credited service.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company contributed \$152,012 during 2017 and \$168,908 during 2016, to the Plan. This contribution exceeded the minimum annual funding requirements of ERISA.

Pension Benefits

Benefits are determined based on the participant's hypothetical account balance. Plan participants are eligible for their plan benefit after terminating employment with vested rights. Participants become vested in the Plan upon completion of 3 or more years of service or attainment of the normal retirement age (62). If employees terminate before rendering 10 years of service, they forfeit the right to receive the portion of their accumulated plan benefits. Upon termination of employment, participants have the option of receiving their vested benefit in the form of a lump sum payment or a monthly annuity.

Death Benefits

If an active employee dies, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Accordingly, actual results may differ from those estimates.

Investments

Investments are reported at fair value as reported by The Lincoln National Life Insurance Company, the custodian. Fair value is the price that would be received to sell an asset or paid to transfer in a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on the participants' credited service, and depending on participant category, their compensation. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included; to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial assumptions used for this valuation are the statutory assumptions required for years beginning January 1, 2016. The

CRYSTAL CLEAR BUILDING SERVICES, INC.
DEFINED BENEFIT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

significant actuarial assumptions used in the valuation as of December 31, 2016, were (a) life expectancy of participants (Applicable Table (Blended)), (b) retirement age assumptions (assumed retirement age is 62), (c) cash balance interest credit rate of 5.72% (as compared to 5.91% in the prior year), with no adjustment for expenses and (d) a discount rate of 3.77% (as compared to 3.99% in the prior year).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computation of the actuarial present value of accumulated Plan benefits were made as of January 1, 2017. Had the valuation been performed as of December 31, 2016, there would be no material differences.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Plan Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Income Taxes

The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of and for the years ended December 31, 2017 and 2016, the Plan did not have a liability for unrecognized tax benefits. The Plan is no longer subject to income tax examinations for years prior to 2014.

Subsequent Events

Management has evaluated subsequent events through October 11, 2018, the date the financial statements were available to be issued.

NOTE 3 – INFORMATION CERTIFIED BY CUSTODIAN

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by The Lincoln National Life Insurance Company, the custodian of the Plan.

The Lincoln National Life Insurance Company has certified the completeness and accuracy of the investments it holds, changes in net assets arising from investment activity, and the schedule of assets held at end of year as of December 31, 2017 and 2016, and for the years then ended, as follows.

	<u>2017</u>	<u>2016</u>
Investments, at fair value	\$ 1,997,315	\$ 1,680,983
Net appreciation in fair value of investments	164,922	96,644

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

A fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs are to be used when available. Observable inputs are those that market participants would use in pricing the asset based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumption about the inputs market participants would use in pricing the asset developed based on the best information available in the circumstances.

The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 – Valuations are based on unadjusted quoted prices in active markets for identical assets as of the reporting date.

Level 2 – Valuations are based on inputs other than quoted prices included in Level 1 that are observable, either directly or indirectly.

Level 3 – Valuations are based on inputs that are unobservable and significant to the overall fair value measurement.

The assets' fair value measurement method within the fair value hierarchy is based on the lowest method of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

**CRYSTAL CLEAR BUILDING SERVICES, INC.
DEFINED BENEFIT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies used at December 31, 2017 and 2016.

Pooled Separate Accounts

Investments in pooled separate accounts are valued at the NAV of units of the pooled separate accounts. The NAV as provided by the custodian of the accounts, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents information about the Plan's investment assets measured at fair value as of December 31:

<u>Valuation Inputs</u>	<u>Investments</u>	
	<u>2017</u>	<u>2016</u>

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

NOTE 6 – TAX STATUS

The Internal Revenue Service has determined by a letter dated April 2, 2015, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not been amended since receiving the determination letter. Annually, information tax returns are prepared and filed with the Department of Labor.

NOTE 7– PARTIES-IN-INTEREST

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company and certain others. Amounts paid by the Plan to parties-in-interest included fees paid for investment management services. Certain Plan investments are managed by The Lincoln National Life Insurance Company. The Lincoln National Life Insurance Company is the custodian as defined by the Plan and, therefore, such transactions qualify as party-in-interest transactions.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
