Form 5500

Department of the Treasury
Internal Revenue Service

Department of Labor
Employee Benefits Security Administration

Pension Benefit Guaranty Corporation

Annual Return/Report of Employee Benefit Plan

This form is required to be filed for employee benefit plans under sections 104 and 4065 of the Employee Retirement Income Security Act of 1974 (ERISA) and sections 6057(b) and 6058(a) of the Internal Revenue Code (the Code).

▶ **Complete all entries in accordance with the instructions to the Form 5500.**

OMB Nos. 1210-0110
1210-0089

2017

This Form is Open to Public Inspection

Part I Annual Report Identification Information

For calendar plan year 2017 or fiscal plan year beginning 01/01/2017 and ending 12/31/2017

A This return/report is for:
- [ ] a multiemployer plan
- [ ] a multiple-employer plan (Filers checking this box must attach a list of participating employer information in accordance with the form instructions.)
- [X] a single-employer plan
- [ ] a DFE (specify) ___

B This return/report is:
- [ ] the first return/report
- [ ] the final return/report
- [ ] an amended return/report
- [ ] a short plan year return/report (less than 12 months)

C If the plan is a collectively-bargained plan, check here. . . . . ▶ [ ]

D Check box if filing under:
- [X] Form 5558
- [ ] automatic extension
- [ ] the DFVC program
- [ ] special extension (enter description)

Part II Basic Plan Information—enter all requested information

1a Name of plan
RESTATED SALARIED RETIREMENT PLAN

1b Three-digit plan number (PN) ▶ 030

1c Effective date of plan 10/01/1985

2a Plan sponsor's name (employer, if for a single-employer plan)
Mailing address (include room, apt., suite no. and street, or P.O. Box)
City or town, state or province, country, and ZIP or foreign postal code (if foreign, see instructions)
PILKINGTON NORTH AMERICA, INC.

811 MADISON AVENUE
TOLEDO, OH 43604

2b Employer Identification Number (EIN) 34-1506654

2c Plan Sponsor's telephone number 419-247-3731

2d Business code (see instructions) 327210

Caution: A penalty for the late or incomplete filing of this return/report will be assessed unless reasonable cause is established.

Under penalties of perjury and other penalties set forth in the instructions, I declare that I have examined this return/report, including accompanying schedules, statements and attachments, as well as the electronic version of this return/report, and to the best of my knowledge and belief, it is true, correct, and complete.

SIGN HERE			
	Signature of DFE	Date	Enter name of individual signing as DFE

3a Plan administrator's name and address [X] Same as Plan Sponsor

3b Administrator's EIN

3c Administrator's telephone number

4 If the name and/or EIN of the plan sponsor or the plan name has changed since the last return/report filed for this plan, enter the plan sponsor's name, EIN, the plan name and the plan number from the last return/report:
a Sponsor's name
c Plan Name

4b EIN

4d PN

5 Total number of participants at the beginning of the plan year	**5**	1980
6 Number of participants as of the end of the plan year unless otherwise stated (welfare plans complete only lines **6a(1), 6a(2), 6b, 6c,** and **6d**).		
a(1) Total number of active participants at the beginning of the plan year	**6a(1)**	67
a(2) Total number of active participants at the end of the plan year	**6a(2)**	60
b Retired or separated participants receiving benefits	**6b**	1193
c Other retired or separated participants entitled to future benefits	**6c**	468
d Subtotal. Add lines **6a(2)**, **6b**, and **6c**	**6d**	1721
e Deceased participants whose beneficiaries are receiving or are entitled to receive benefits.	**6e**	222
f Total. Add lines **6d** and **6e**.	**6f**	1943
g Number of participants with account balances as of the end of the plan year (only defined contribution plans complete this item)	**6g**	
h Number of participants who terminated employment during the plan year with accrued benefits that were less than 100% vested	**6h**	0
7 Enter the total number of employers obligated to contribute to the plan (only multiemployer plans complete this item)	**7**	

8a If the plan provides pension benefits, enter the applicable pension feature codes from the List of Plan Characteristics Codes in the instructions:

1A

b If the plan provides welfare benefits, enter the applicable welfare feature codes from the List of Plan Characteristics Codes in the instructions:

9a Plan funding arrangement (check all that apply)

(1)	[ ]	Insurance
(2)	[ ]	Code section 412(e)(3) insurance contracts
(3)	[X]	Trust
(4)	[ ]	General assets of the sponsor

9b Plan benefit arrangement (check all that apply)

(1)	[ ]	Insurance
(2)	[ ]	Code section 412(e)(3) insurance contracts
(3)	[X]	Trust
(4)	[ ]	General assets of the sponsor

10 Check all applicable boxes in 10a and 10b to indicate which schedules are attached, and, where indicated, enter the number attached. (See instructions)

a Pension Schedules

(1)	[X]	**R** (Retirement Plan Information)
(2)	[ ]	**MB** (Multiemployer Defined Benefit Plan and Certain Money Purchase Plan Actuarial Information) - signed by the plan actuary

Department of Labor
Employee Benefits Security Administration

Pension Benefit Guaranty Corporation

Single-Employer Defined Benefit Plan Actuarial Information

This schedule is required to be filed under section 104 of the Employee Retirement Income Security Act of 1974 (ERISA) and section 6059 of the Internal Revenue Code (the Code).

▶ **File as an attachment to Form 5500 or 5500-SF.**

OMB No. 1210-0110

2017

This Form is Open to Public Inspection

For calendar plan year 2017 or fiscal plan year beginning 01/01/2017 and ending 12/31/2017

▶ **Round off amounts to nearest dollar.**

▶ **Caution:** A penalty of $1,000 will be assessed for late filing of this report unless reasonable cause is established.

A Name of plan
RESTATED SALARIED RETIREMENT PLAN

B Three-digit plan number (PN) ▶ 030

C Plan sponsor's name as shown on line 2a of Form 5500 or 5500-SF
PILKINGTON NORTH AMERICA, INC.

D Employer Identification Number (EIN)
34-1506654

E Type of plan: [X] Single [ ] Multiple-A [ ] Multiple-B

F Prior year plan size: [ ] 100 or fewer [ ] 101-500 [X] More than 500

Part I Basic Information

1 Enter the valuation date: Month 01 Day 01 Year 2017

2 Assets:

a Market value	**2a**	60926655
b Actuarial value	**2b**	61601618

3 Funding target/participant count breakdown

	(1) Number of participants	(2) Vested Funding Target	(3) Total Funding Target
a For retired participants and beneficiaries receiving payment	1407	53950674	53950674
b For terminated vested participants	506	6865379	6865379
c For active participants	67	2378876	2428316
d Total	1980	63194929	63244369

4 If the plan is in at-risk status, check the box and complete lines (a) and (b) [ ]

a Funding target disregarding prescribed at-risk assumptions	**4a**	
b Funding target reflecting at-risk assumptions, but disregarding transition rule for plans that have been in at-risk status for fewer than five consecutive years and disregarding loading factor	**4b**	
5 Effective interest rate	**5**	5.66 %
6 Target normal cost	**6**	755000

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part II Beginning of Year Carryover and Prefunding Balances

		(a) Carryover balance	(b) Prefunding balance
7	Balance at beginning of prior year after applicable adjustments (line 13 from prior year)	0	1740511
8	Portion elected for use to offset prior year's funding requirement (line 35 from prior year)	0	1740511
9	Amount remaining (line 7 minus line 8)	0	0
10	Interest on line 9 using prior year's actual return of 7.40 %	0	0
11	Prior year's excess contributions to be added to prefunding balance:		
a	Present value of excess contributions (line 38a from prior year)		1888130
b(1)	Interest on the excess, if any, of line 38a over line 38b from prior year Schedule SB, using prior year's effective interest rate of 5.87%		8665
b(2)	Interest on line 38b from prior year Schedule SB, using prior year's actual return		128798
c	Total available at beginning of current plan year to add to prefunding balance		2025593
d	Portion of (c) to be added to prefunding balance		2025593
12	Other reductions in balances due to elections or deemed elections	0	0
13	Balance at beginning of current year (line 9 + line 10 + line 11d – line 12)	0	2025593

Part III Funding Percentages

14	Funding target attainment percentage	14	94.19%
15	Adjusted funding target attainment percentage	15	94.19%
16	Prior year's funding percentage for purposes of determining whether carryover/prefunding balances may be used to reduce current year's funding requirement	16	96.01%
17	If the current value of the assets of the plan is less than 70 percent of the funding target, enter such percentage.	17	%

Part IV Contributions and Liquidity Shortfalls

18 Contributions made to the plan for the plan year by employer(s) and employees:

(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees	(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees
04/09/2018	440000	0			
07/10/2018	445000	0			
09/12/2018	500000				
			Totals ► 18(b)	1385000	18(c) 0

19	Discounted employer contributions – see instructions for small plan with a valuation date after the beginning of the year:		
a	Contributions allocated toward unpaid minimum required contributions from prior years.	19a	0
b	Contributions made to avoid restrictions adjusted to valuation date	19b	0
c	Contributions allocated toward minimum required contribution for current year adjusted to valuation date	19c	1275012

20 Quarterly contributions and liquidity shortfalls:

a Did the plan have a "funding shortfall" for the prior year? [X] Yes [ ] No

b If line 20a is "Yes," were required quarterly installments for the current year made in a timely manner? [X] Yes [ ] No

c If line 20a is "Yes," see instructions and complete the following table as applicable:

Liquidity shortfall as of end of quarter of this plan year

(1) 1st	(2) 2nd	(3) 3rd	(4) 4th
0	0	0	0

Part V Assumptions Used to Determine Funding Target and Target Normal Cost

21 Discount rate:

a Segment rates:

1st segment:	2nd segment:	3rd segment:	
4.16%	5.72%	6.48%	☐ N/A, full yield curve used

b Applicable month (enter code)	**21b**	4
22 Weighted average retirement age	**22**	62

23 Mortality table(s) (see instructions) ☐ Prescribed - combined ☒ Prescribed - separate ☐ Substitute

Part VI Miscellaneous Items

24 Has a change been made in the non-prescribed actuarial assumptions for the current plan year? If "Yes," see instructions regarding required attachment.	☒ Yes	☐ No
25 Has a method change been made for the current plan year? If "Yes," see instructions regarding required attachment.	☐ Yes	☒ No
26 Is the plan required to provide a Schedule of Active Participants? If "Yes," see instructions regarding required attachment.	☒ Yes	☐ No

27 If the plan is subject to alternative funding rules, enter applicable code and see instructions regarding attachment	**27**	

Part VII Reconciliation of Unpaid Minimum Required Contributions For Prior Years

28 Unpaid minimum required contributions for all prior years	**28**	0
29 Discounted employer contributions allocated toward unpaid minimum required contributions from prior years (line 19a)	**29**	0
30 Remaining amount of unpaid minimum required contributions (line 28 minus line 29)	**30**	0

Part VIII Minimum Required Contribution For Current Year

31 Target normal cost and excess assets (see instructions):

a Target normal cost (line 6)	**31a**	755000
b Excess assets, if applicable, but not greater than line 31a	**31b**	0

32 Amortization installments:	Outstanding Balance	Installment
a Net shortfall amortization installment	3668344	1030102
b Waiver amortization installment		

33 If a waiver has been approved for this plan year, enter the date of the ruling letter granting the approval (Month _____ Day _____ Year _____) and the waived amount	**33**	
34 Total funding requirement before reflecting carryover/prefunding balances (lines 31a - 31b + 32a + 32b - 33)	**34**	1785102

	Carryover balance	Prefunding balance	Total balance
35 Balances elected for use to offset funding requirement	0	1785102	1785102

36 Additional cash requirement (line 34 minus line 35)	**36**	0
37 Contributions allocated toward minimum required contribution for current year adjusted to valuation date (line 19c)	**37**	1275012
38 Present value of excess contributions for current year (see instructions)		
a Total (excess, if any, of line 37 over line 36)	**38a**	1275012
b Portion included in line 38a attributable to use of prefunding and funding standard carryover balances	**38b**	1275012
39 Unpaid minimum required contribution for current year (excess, if any, of line 36 over line 37)	**39**	0
40 Unpaid minimum required contributions for all years	**40**	0

Part IX Pension Funding Relief Under Pension Relief Act of 2010 (See Instructions)

41 If an election was made to use PRA 2010 funding relief for this plan:

a Schedule elected ☐ 2 plus 7 years ☐ 15 years

b Eligible plan year(s) for which the election in line 41a was made ☐ 2008 ☐ 2009 ☐ 2010 ☐ 2011

42 Amount of acceleration adjustment	**42**	
43 Excess installment acceleration amount to be carried over to future plan years	**43**

SCHEDULE H (Form 5500)

Department of the Treasury
Internal Revenue Service

Department of Labor
Employee Benefits Security Administration

Pension Benefit Guaranty Corporation

Financial Information

This schedule is required to be filed under section 104 of the Employee Retirement Income Security Act of 1974 (ERISA), and section 6058(a) of the Internal Revenue Code (the Code).

▶ **File as an attachment to Form 5500.**

OMB No. 1210-0110

2017

This Form is Open to Public Inspection

For calendar plan year 2017 or fiscal plan year beginning 01/01/2017 and ending 12/31/2017

A Name of plan
RESTATED SALARIED RETIREMENT PLAN

B Three-digit plan number (PN) ▶ 030

C Plan sponsor's name as shown on line 2a of Form 5500
PILKINGTON NORTH AMERICA, INC.

D Employer Identification Number (EIN)
34-1506654

Part I Asset and Liability Statement

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Assets		(a) Beginning of Year	(b) End of Year
a Total noninterest-bearing cash	1a		
b Receivables (less allowance for doubtful accounts):			
(1) Employer contributions	1b(1)	2345000	1385000

k	Total liabilities (add all amounts in lines 1g through1j)	1k	0	0
	Net Assets			
l	Net assets (subtract line 1k from line 1f)	1l	60993358	60091616

Part II Income and Expense Statement

2 Plan income, expenses, and changes in net assets for the year. Include all income and expenses of the plan, including any trust(s) or separately maintained fund(s) and any payments/receipts to/from insurance carriers. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 2a, 2b(1)(E), 2e, 2f, and 2g.

	Income		(a) Amount	(b) Total
a	**Contributions:**			
	(1) Received or receivable in cash from: **(A)** Employers	2a(1)(A)	1385000	
	(B) Participants	2a(1)(B)		
	(C) Others (including rollovers)	2a(1)(C)		
	(2) Noncash contributions	2a(2)		
	(3) Total contributions. Add lines **2a(1)(A), (B), (C),** and line **2a(2)**	2a(3)		1385000
b	**Earnings on investments:**			
	(1) Interest:			
	(A) Interest-bearing cash (including money market accounts and certificates of deposit)	2b(1)(A)		
	(B) U.S. Government securities	2b(1)(B)		
	(C) Corporate debt instruments	2b(1)(C)		
	(D) Loans (other than to participants)	2b(1)(D)		
	(E) Participant loans	2b(1)(E)		
	(F) Other	2b(1)(F)		
	(G) Total interest. Add lines **2b(1)(A)** through **(F)**	2b(1)(G)		0
	(2) Dividends: **(A)** Preferred stock	2b(2)(A)		
	(B) Common stock	2b(2)(B)		
	(C) Registered investment company shares (e.g. mutual funds)	2b(2)(C)		
	(D) Total dividends. Add lines **2b(2)(A)**, **(B)**, and **(C)**	2b(2)(D)		0
	(3) Rents	2b(3)		
	(4) Net gain (loss) on sale of assets: **(A)** Aggregate proceeds	2b(4)(A)		
	(B) Aggregate carrying amount (see instructions)	2b(4)(B)		
	(C) Subtract line **2b(4)(B)** from line **2b(4)(A)** and enter result	2b(4)(C)		0
	(5) Unrealized appreciation (depreciation) of assets: **(A)** Real estate	2b(5)(A)		
	(B) Other	2b(5)(B)		
	(C) Total unrealized appreciation of assets. Add lines **2b(5)(A)** and **(B)**	2b(5)(C)		0

		(a) Amount	(b) Total
(6) Net investment gain (loss) from common/collective trusts	2b(6)		
(7) Net investment gain (loss) from pooled separate accounts	2b(7)		
(8) Net investment gain (loss) from master trust investment accounts	2b(8)		4994996
(9) Net investment gain (loss) from 103-12 investment entities	2b(9)		
(10) Net investment gain (loss) from registered investment companies (e.g., mutual funds)	2b(10)		
c Other income	2c		
d Total income. Add all **income** amounts in column (b) and enter total	2d		6379996
Expenses			
e Benefit payment and payments to provide benefits:			
(1) Directly to participants or beneficiaries, including direct rollovers	2e(1)	6706036	
(2) To insurance carriers for the provision of benefits	2e(2)		
(3) Other	2e(3)		
(4) Total benefit payments. Add lines **2e(1)** through **(3)**	2e(4)		6706036
f Corrective distributions (see instructions)	2f		
g Certain deemed distributions of participant loans (see instructions)	2g		
h Interest expense	2h		
i Administrative expenses: (1) Professional fees	2i(1)		
(2) Contract administrator fees	2i(2)		
(3) Investment advisory and management fees	2i(3)		
(4) Other	2i(4)	575702	
(5) Total administrative expenses. Add lines **2i(1)** through **(4)**	2i(5)		575702
j Total expenses. Add all **expense** amounts in column (b) and enter total	2j		7281738
Net Income and Reconciliation			
k Net income (loss). Subtract line **2j** from line **2d**	2k		-901742
l Transfers of assets:			
(1) To this plan	2l(1)		
(2) From this plan	2l(2)		

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) [ ] Unqualified **(2)** [ ] Qualified **(3)** [X] Disclaimer **(4)** [ ] Adverse

b Did the accountant perform a limited scope audit pursuant to 29 CFR 2520.103-8 and/or 103-12(d)? [X] Yes [ ] No

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: PLANTE & MORAN, PLLC **(2)** EIN: 38-1357951

d The opinion of an independent qualified public accountant is **not attached** because:

(1) [ ] This form is filed for a CCT, PSA, or MTIA. **(2)** [ ] It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l.

During the plan year:

		Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)	4a		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)	4b		X	

			Yes	No	Amount
c	Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)	4c		X	
d	Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)	4d		X	
e	Was this plan covered by a fidelity bond?	4e	X		3500000
f	Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?	4f		X	
g	Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?	4g		X	
h	Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?	4h		X	
i	Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	4i	X		
j	Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked, and see instructions for format requirements.)	4j		X	
k	Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?	4k		X	
l	Has the plan failed to provide any benefit when due under the plan?	4l		X	
m	If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)	4m			
n	If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.	4n			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☐ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	**5b(2)** EIN(s)	**5b(3)** PN(s)

5c If the plan is a defined benefit plan, is it covered under the PBGC insurance program (See ERISA section 4021.)? ..... ☒ Yes ☐ No ☐ Not determined
If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year 4095822. (See instructions.)

SCHEDULE R (Form 5500)

Department of the Treasury
Internal Revenue Service

Department of Labor
Employee Benefits Security Administration

Pension Benefit Guaranty Corporation

Retirement Plan Information

This schedule is required to be filed under sections 104 and 4065 of the Employee Retirement Income Security Act of 1974 (ERISA) and section 6058(a) of the Internal Revenue Code (the Code).

▶ **File as an attachment to Form 5500.**

OMB No. 1210-0110

2017

This Form is Open to Public Inspection.

For calendar plan year 2017 or fiscal plan year beginning 01/01/2017 and ending 12/31/2017

A Name of plan
RESTATED SALARIED RETIREMENT PLAN

B Three-digit plan number (PN) ▶ 030

C Plan sponsor's name as shown on line 2a of Form 5500
PILKINGTON NORTH AMERICA, INC.

D Employer Identification Number (EIN)
34-1506654

Part I Distributions

All references to distributions relate only to payments of benefits during the plan year.

1 Total value of distributions paid in property other than in cash or the forms of property specified in the instructions **1** 0

2 Enter the EIN(s) of payor(s) who paid benefits on behalf of the plan to participants or beneficiaries during the year (if more than two, enter EINs of the two payors who paid the greatest dollar amounts of benefits):

EIN(s): 36-3046063

Profit-sharing plans, ESOPs, and stock bonus plans, skip line 3.

3 Number of participants (living or deceased) whose benefits were distributed in a single sum, during the plan year **3** 0

Part II Funding Information (If the plan is not subject to the minimum funding requirements of section 412 of the Internal Revenue Code or ERISA section 302, skip this Part.)

4 Is the plan administrator making an election under Code section 412(d)(2) or ERISA section 302(d)(2)? ..... ☐ **Yes** ☐ **No** ☒ **N/A**

If the plan is a defined benefit plan, go to line 8.

5 If a waiver of the minimum funding standard for a prior year is being amortized in this plan year, see instructions and enter the date of the ruling letter granting the waiver. **Date:** Month _____ Day _____ Year _____

If you completed line 5, complete lines 3, 9, and 10 of Schedule MB and do not complete the remainder of this schedule.

6 **a** Enter the minimum required contribution for this plan year (include any prior year accumulated funding deficiency not waived) **6a**

b Enter the amount contributed by the employer to the plan for this plan year **6b**

c Subtract the amount in line 6b from the amount in line 6a. Enter the result (enter a minus sign to the left of a negative amount) **6c**

If you completed line 6c, skip lines 8 and 9.

7 Will the minimum funding amount reported on line 6c be met by the funding deadline? ..... ☐ **Yes** ☐ **No** ☐ **N/A**

8 If a change in actuarial cost method was made for this plan year pursuant to a revenue procedure or other authority providing automatic approval for the change or a class ruling letter, does the plan sponsor or plan administrator agree with the change? ..... ☐ **Yes** ☐ **No** ☒ **N/A**

Part III Amendments

9 If this is a defined benefit pension plan, were any amendments adopted during this plan year that increased or decreased the value of benefits? If yes, check the appropriate box. If no, check the "No" box. ..... ☐ **Increase** ☐ **Decrease** ☐ **Both** ☒ **No**

Part IV ESOPs (see instructions). If this is not a plan described under section 409(a) or 4975(e)(7) of the Internal Revenue Code, skip this Part.

10 Were unallocated employer securities or proceeds from the sale of unallocated securities used to repay any exempt loan? ..... ☐ **Yes** ☐ **No**

11 **a** Does the ESOP hold any preferred stock? ..... ☐ **Yes** ☐ **No**

b If the ESOP has an outstanding exempt loan with the employer as lender, is such loan part of a "back-to-back" loan? (See instructions for definition of "back-to-back" loan.) ..... ☐ **Yes** ☐ **No**

12 Does the ESOP hold any stock that is not readily tradable on an established securities market? ..... ☐ **Yes** ☐ **No**

Part V Additional Information for Multiemployer Defined Benefit Pension Plans

13 Enter the following information for each employer that contributed more than 5% of total contributions to the plan during the plan year (measured in dollars). See instructions. *Complete as many entries as needed to report all applicable employers.*

Independent Auditor's Report

To the Members of the Pension
Investment Review Board
Pilkington North America, Inc.
Restated Salaried Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pilkington North America, Inc. Restated Salaried Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits - modified cash basis as of December 31, 2017 and 2016 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the modified cash basis financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investment assets and execute related transactions. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Praxity MEMBER GLOBAL ALLIANCE OF INDEPENDENT FIRMS

To the Members of the Pension
Investment Review Board
Pilkington North America, Inc.
Restated Salaried Retirement Plan

Other Matter

The modified cash basis supplemental schedule of assets held at year end as of December 31, 2017 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of Pilkington North America, Inc. Restated Salaried Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that provides for retirement and disability benefits for salaried employees of Pilkington North America, Inc. (the “Company”), except those who are covered by other company-sponsored plans and former employees of Pilkington Aerospace, Inc. (Aerospace). Aerospace was sold on September 30, 2003. Aerospace participants became fully vested in the Plan as of that date. The Plan was frozen to new participants and benefit calculation as of December 31, 1986. Effective January 1, 2004, the Plan may provide benefits based on a retroactive annuity starting date if certain requirements are met.

Restated Salaried Retirement Plan, Restated Sherman Plant Salaried Employees Retirement Plan, and Restated Laurinburg Plant Salaried Employees Retirement Plan were established on October 7, 1985 through a spin-off termination of the Libbey-Owens-Ford Company Salaried Retirement Plan for LOF Glass Employees, the Libbey-Owens-Ford Company Sherman Plant Salaried Employee Retirement Plan, and the Libbey-Owens-Ford Company Laurinburg Plant Salaried Employees Retirement Plan (collectively, the “Original Plans”). Upon receiving approval from the Pension Benefit Guaranty Corporation (PBGC), the assets of the Original Plans were used to purchase annuity contracts for payment of participant benefits accrued to October 7, 1985.

Eligibility and Vesting

The Plan was frozen with respect to new participants effective December 31, 1986 (June 30, 1987 for certain other participants, as defined in the plan agreement); therefore, participants' benefits are fully vested.

Pension Benefits

The normal monthly retirement benefit is generally calculated as certain percentages of compensation (defined by the Plan), multiplied by the participant's years of benefit service. The normal benefit is adjusted for early or late retirement, disability, or upon the participant's death, as stated in the Plan.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Party-in-interest Transactions

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Certain plan assets are in investment funds managed by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company or their affiliates. The Northern Trust Company and Prudential Retirement Insurance and Annuity Company are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The fair value of the Plan's interest in the Pilkington North America, Inc. Master Retirement Trust (the "Master Trust") is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value.

The pooled separate accounts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. The U.S. corporate bonds are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The money market fund is valued at fair value based on its outstanding balance. All other investments are valued based on quoted market prices reported in active markets. See Notes 4 and 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Basis of Accounting

The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received, expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligations are incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon Hewitt Associates, LLC and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2017 are summarized as follows:

Actuarial cost method	Projected unit credit cost method
Retirement	Various rates of retirement are assumed beginning at age 50. All participants are assumed to retire by age 62.
Assumed rate of return	4.50 percent per annum
Mortality Table	RP-2014 Employees and Healthy Annuitants Mortality Table with White Collar adjustment with mortality improvement using Scale MP-2017

Note 2 - Summary of Significant Accounting Policies (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact, and no additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Significant estimates are used in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 10, 2018, which is the date the financial statements were available to be issued. See Note 10.

Upcoming Accounting Pronouncement

In February 2017, the FASB issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the master trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management has not completed their analysis of the impact from the adoption of this ASU on the Plan's financial statements.

Note 3 - Unaudited Information

The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees") hold the Plan's investments and execute all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including Master Trust information included in Note 4, are based solely on information certified by the Trustees.

Note 4 - Interest in Master Trust

A majority of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and other Pilkington North America, Inc. sponsored benefit plans. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by The Northern Trust Company.

At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 30 percent. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The fair value of investments for the Master Trust at December 31, 2017 and 2016 are as follows:

	2017	2016
Master trust investments:		
Money market fund	$ 717,046	$ 2,771,876
Corporate bonds	190,837,533	188,922,625
Common stocks	-	4,694,815
Total master trust investments	$ 191,554,579	$ 196,389,316

The investment income for the Master Trust for the years ended December 31, 2017 and 2016 is as follows:

	2017	2016
Net realized and unrealized gains and losses	$ 17,372,996	$ 14,834,934
Interest	7,912	4,287
Net investment income	$ 17,380,908	$ 14,839,221

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the postretirement benefit obligation attributable to participants in the Plan, which were made as of and for the year ended January 1, 2017, the most recent actuarial valuation, by Aon Hewitt Associates, LLC are as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Retired employees	$ 63,234,637
Active, terminated, and transferred employees not presently receiving benefits	11,796,590
Total vested benefits	75,031,227
Nonvested benefits	65,849
Total actuarial present value of accumulated plan benefits	$ 75,097,076

Note 5 - Accumulated Plan Benefits (Continued)

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2017 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	$ 75,401,120
Increase (decrease) during the year attributable to:	
Interest accumulation	3,603,210
Benefits paid	(6,756,257)
Changes in actuarial assumptions	2,626,031
Other	222,972
Net decrease	(304,044)
Actuarial present value of accumulated plan benefits - End of year	$ 75,097,076

The assumption changes relate to a change in the mortality improvement scale from MP-2016 to MP-2017. The expected long-term rate of return on plan assets decreased from 5.00 percent to 4.50 percent.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's and Master Trust's assets measured at fair value on a recurring basis at December 31, 2017 and 2016. The Plan did not hold assets outside of the Master Trust at December 31, 2016.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Fair Value Measurements (Continued)

	Assets Measured at Fair Value at December 31, 2017		
	Master Trust Balance	Level 1	Level 2
Corporate bonds	$ 190,837,533	$ -	$ 190,837,533
Money market fund	717,046	-	717,046
Total investments at fair value	191,554,579	$ -	$ 191,554,579
Investments measured at NAV - Pooled separate account	1,100,115		
Total investments at fair value	$ 192,654,694		

	Assets Measured at Fair Value at December 31, 2016		
	Master Trust Balance	Level 1	Level 2
Common stock	$ 4,694,815	$ 4,694,815	$ -
Corporate bonds	188,922,625	-	188,922,625
Money market fund	2,771,876	-	2,771,876
Total	196,389,316	$ 4,694,815	$ 191,694,501
Investments measured at NAV	-		
Total investments at fair value	$ 196,389,316		

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to “substantial owners” of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9 - Reconciliation of the Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2017 and 2016 to Form 5500:

	2017	2016
Net assets available for benefits per the financial statements	$ 58,706,616	$ 58,648,358
Contributions receivable	1,385,000	2,345,000
Net assets available for benefits per Form 5500	$ 60,091,616	$ 60,993,358

The following is a reconciliation of contribution revenue per the financial statements for the years ended December 31, 2017 and 2016 to Form 5500:

	2017	2016
Contribution revenue per the financial statements	$ 2,345,000	$ 1,933,941
Add contribution receivable - Current year	1,385,000	2,345,000
Less contribution receivable - Prior year	(2,345,000)	(1,933,941)
Contribution revenue per Form 5500	$ 1,385,000	$ 2,345,000

Note 10 - Subsequent Events

On January 1, 2018, the Plan changed trustees from The Northern Trust Company to Morgan Stanley. The Prudential Retirement Insurance and Annuity Company continues to remain a trustee of the Plan in 2018.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	Originally effective: October 1, 1985. The plan was restated as of January 1, 2009 and most recently amended September 10, 2015.
Employees Covered by the Plan	Every salaried employee who receives compensation from the company, and is not represented by a labor organization, is eligible to participate on the first of the month, having completed one year of continuous service, and attained age 21. An employee must work at least 1,000 hours during a year to be credited with a year of continuous service. No employee may enter the plan on or after January 1, 1987.
Plan Status	Credited service was frozen effective December 31, 1986 (June 30, 1987 for participants in the Modern Tools Plan) and pay was frozen December 31, 1999.
Normal Retirement	
Eligibility	A member shall be eligible to retire on the first of the month after having reached age 65.
1974 Benefit	The basic monthly benefit will be 1% of the covered effective compensation for each year of credited service plus 1.5% of the excess effective covered compensation for each year of credited service. The benefit is payable for the lifetime of the member, with 50% continued to the member's surviving spouse or children under a specified age, after the member's death. For retirements on and after January 1, 2000, the 1974 benefits are increased by 10%.
Early Retirement	
Eligibility	An employee is eligible for an early retirement allowance upon attaining the earlier of age 55 and 10 years of eligibility service, or age 60 and five years of eligibility service.
1974 Benefit	The early retirement allowance will be the normal retirement basic monthly benefit, reduced by 0.5% for each month before age 62.
Disability Retirement	
Eligibility	Having completed five years of eligibility service, and having been totally and permanently disabled for at least six consecutive months, the employee shall be eligible for a disability retirement allowance.

1974 Benefit	The disability retirement allowance will be the normal retirement basic monthly benefit payable on an actuarially reduced basis. Employees at the Laurinburg location receive this benefit without any reduction. The disability retirement benefit is reduced by any other company-provided disability benefits.
Deferred Vested Retirement	
Eligibility	Five years of service and termination of employment, other than by death, entitles a member to a deferred vested retirement allowance.
1974 Benefit	The normal retirement basic monthly benefit allowance for all participants after five years of service. Benefits may be received as early as age 55 on an actuarially reduced basis from age 65.
Participant Past Normal Retirement Age	The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.
Preretirement Surviving Spouse's Benefit	
Eligibility	Death of a married member, after having fulfilled vesting eligibility, entitles the surviving spouse to a benefit.
1974 Benefit	The monthly benefit will be one-half of the early retirement benefit which the employee would have received if he/she had retired the first day of the month preceding death. The benefit should be payable to the surviving spouse at the employee's earliest retirement age.
Postretirement Surviving Spouse's Benefit	
Eligibility	Death of a retired member, disabled retiree or vested termination receiving benefits, entitles the family to a monthly payment.
1974 Benefit	The monthly benefit will be one-half of the retirement allowance. This amount is payable to the surviving spouse as long as he/she is alive, or to parentless children until age 18 or age 23, if in school.

Forms of Payment	A participant may elect to receive the 1974 normal retirement benefit, 1974 early retirement benefit, 1974 disability benefit, or the 1974 deferred vested benefit on an actuarially reduced basis in the form of a 10-year certain and continuous annuity, or 50%, 66⅔%, 75%, or 100% joint and survivor annuity form based on the definition of actuarial equivalence defined below. A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse.)
Optional Forms of Payment	50% contingent annuity, beneficiary other than spouse.
Definitions	
Effective Compensation	The average annual compensation during the five highest-paid consecutive calendar years of service through December 31, 1999. Effective for participants who retire on or after January 1, 2000, compensation earned after December 31, 1999 is not used to determine retirement benefits.
Covered Effective Compensation	The 35-year average of Social Security taxable wage bases ending in the year a participant attains Social Security normal retirement age. The Social Security wage base is projected level forward in making this determination. Effective for participants who retire on or after January 1, 2000, this value is determined based on the Social Security taxable wage bases through 1999 and does not increase based on any increases to the Social Security taxable wage bases in the year 2000 or later. However, the covered effective compensation is determined by projecting the Social Security taxable wage base in effect during the most recent year that compensation was used in the determination of effective compensation.
Credited Service	Effective December 31, 1986 (June 30, 1987 for participants in the Modern Tools Plan), credited service used to determine the amount of plan benefits was frozen.

Eligibility Service	Although credited service was frozen, eligibility service continues to accrue for purposes of determining eligibility for retirement benefits. An employee who transfers to salaried status covered by the plan from a status not covered by the plan shall have the period of service while not covered by the plan included solely for the purpose of determining eligibility for benefits.
Actuarial Equivalence	For optional forms of benefit, use the immediate annuity rate published by the Pension Benefit Guaranty Corporation as of the first day of each plan year, and the UP-1984 Mortality table. For distributions after December , 1995, the single lump sum value of a participant's benefit is determined using the "applicable mortality table" and "applicable interest rate" determined under Section 417(e)(3)(A) of the Internal Revenue Code. Determined based on the 1951 Group Annuity Mortality table projected to 1975 by Scale C, with a one-year setback for pensioners and a six-year setback for spouses. Interest is the "Factor K-1" promulgated by the Pension Guaranty Corporation as of January 1 (for retirements after February 1, 1991). Participants may elect to receive benefits on an actuarially adjusted basis in the form of a 10-year certain and continuous annuity, or 50%, 66⅔%, 75%, or 100% joint and survivor annuity form based on the definition of actuarial equivalence. A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse).
Minimum Benefits Under the 1974 Plan (Article III Benefits)	A salaried employee actively employed at the time of his retirement and who retires after January 1, 1987 may elect to receive the following minimum benefits in lieu of and in substitution for any other benefits under this plan. (For the purpose of valuation calculations, it has been assumed that this election is made whenever it produces a larger benefit.)

Forms of Benefits

Minimum Normal Retirement

With at least 10 years of eligibility service at normal retirement, the participant may elect to receive a pension equal to the number of years of credited service as of the earlier of the normal retirement date (or current age for employees over age 65) and December 31, 1986 (June 30, 1987 with respect to former participants in the Modern Tools Plan) multiplied by the following amounts:

Credited Service	Annual Multiplier
< = 19	$180.00
> 19, < = 29	$216.00
> 29	$240.00

Retirements after October 1, 1987:

Credited Service	Annual Multiplier
< = 18	$192.00
> 18, < = 28	$228.00
> 28	$255.60

This benefit is payable as a life only annuity.

Minimum Early Retirement

Upon age 60 and 10 years of eligibility service or age 55, with age plus eligibility service at least 85, the minimum normal benefit is payable after applying the following factor prorated for intermediate ages.

Age	ERF
55	0.579
56	0.635
57	0.694
58	0.752
59	0.808
60	0.867
61	0.933
62	1.000

	If, at the time of retirement, the participant is actively employed and has attained age 62 with 15 or more years of eligibility service, the minimum early benefit is doubled for each monthly payment up to and including the earlier of the month in which age 65 is attained or until eligible for an unreduced old age or disability Social Security allowance.
Minimum Special Thirty	An active salaried employee who retires with 30 years of eligibility service may elect to receive a benefit equal to the amount of the minimum early retirement benefit, plus a special allowance to bring his annual benefit to $10,980. A person who qualifies for this benefit and has less than 30 years of credited service as of December 31, 1986 shall receive a fraction of this benefit relative to credited service as of December 31, 1986 divided by 30 years. At age 62, the minimum normal retirement benefit is payable.
Minimum Survivor Option	In lieu of minimum normal, minimum early, or special thirty benefits, a participant may elect to receive an allowance of 95% (if the participant and spouse's ages are the same) of the amounts otherwise payable with a survivor benefit payable to the spouse for the spouse's lifetime of 60% of the reduced amount. 95% is increased by ½% (up to a maximum of 100%) for each 12 months in excess of five years by which the spouse's age exceeds the participant's age and decreased by ½% for each 12 months in excess of five years by which the spouse's age is less than the participant's age. Other forms of benefit are available as described in the Definitions section, below.
Minimum Preretirement Survivor	For a salaried employee who dies prior to retirement but after becoming eligible for these minimum benefits, the surviving spouse shall be entitled to a monthly benefit for life, commencing the first of the month after the employee's death. The monthly benefit is the amount the spouse would have been entitled to receive under the minimum survivor benefit option if the employee had retired on the date of death.

The surviving spouse of a salaried employee who dies after attaining 10 or more years of eligibility service but prior to becoming eligible for retirement benefits shall be entitled to a monthly benefit commencing at any time after the employee would have attained age 60. The amount of this benefit is 50% of the minimum normal benefit reduced as defined under the minimum survivor benefit option and additionally reduced by 5/9% for each complete calendar month prior to the date the employee would have attained age 65.

Benefits Under the 1950 Plus 1944 Plan (Article IV)

An eligible salaried employee may elect to have benefits payable under the 1950 plan plus benefits under the 1944 plan in lieu of and in substitution for any benefits under the 1974 plan. (For the purpose of valuation calculations, it has been assumed that this election is made whenever it produces a larger benefit.)

For retirements on and after January 1, 2000, Article IV benefits are increased by 10%.

Forms of Benefits

Article IV Normal Retirement Benefit

An employee is eligible to receive normal retirement benefits the first day of the month following the month in which an employee reaches the sixty-fifth anniversary of his date of birth. The participant is eligible for the 1950 benefit provided 10 years of eligibility service are earned by the normal retirement date. The Article IV normal retirement benefit is calculated as:

The 1950 benefit payable as a life only annuity;

PLUS

The 1944 benefit, payable in the 10-year certain and life continuous annuity form.

The 1950 benefit is defined as 2.8% of the first $3,000 of effective compensation times credited service. The definition of the 1950 benefit is commonly described as $7 per month for each year of credited service (2.8% x $3,000/12 = $7).

The 1944 benefit is defined as (1) plus (2), below:

(1) 1.667% x effective compensation over $3,000 x minimum credited service, 15

	(2) 0.25% x effective compensation over $3,000 x credited service since 1941. Item (2) is reduced pro rata for less than 15 years of credited service.
Article IV Early Retirement Benefit	A salaried employee who has attained age 55 is eligible to receive the following: The actuarial equivalent of the 1944 benefit; PLUS If (i) age 60 with 10 years of eligibility service or (ii) age 55, with age plus eligibility service at least 85, the 1950 benefit multiplied by the same factors defined under “Minimum Early Retirement Benefits,” above, provided that if actively employed at the time of retirement and age 62 with at least 15 years of eligibility service, the 1950 benefit is doubled for each monthly payment up to and including the month in which age 65 is attained or until eligible for disability or regular old-age allowance under the Federal Social Security Act.
Article IV Disability Retirement Benefit	At five years of eligibility service or upon attaining age 55, a participant who becomes totally and permanently disabled will be entitled to receive the 1944 benefit on an actuarially reduced basis; PLUS The sum of (i) the 1950 benefit but not less than $100 per month (if has 10 years of eligibility service) and (ii) 3.0% of the first $3,000 of effective compensation x credited service at the earlier of retirement or December 31, 1986, but not more than $187.50 per month (provided that upon attaining normal retirement date or when entitled to an unreduced old-age or disability Social Security allowance, this part of the allowance is reduced to the 1950 benefit). The 10% increase in benefits for retirements on and after January 1, 2000 is not applied to the $100 minimum in (i) and the $187.50 maximum in (ii) above.

Article IV Survivor Benefit Option	In lieu of the 1950 benefit payable as a normal, early, deferred vested, or disability benefit, a participant may elect to receive an allowance of 95% (if the participant and spouse's ages are the same) of the amounts otherwise payable with a survivor benefit payable to the spouse for the spouse's lifetime of 55% of the reduced amount. 95% is increased by ½% (up to a maximum of 100%) for each 12 months in excess of five years by which the spouse's age exceeds the participant's age and decreased by ½% for each 12 months in excess of five years by which the spouse's age is less than the participant's age. In lieu of the 1944 benefit payable as a normal, early, deferred vested, or disability benefit, a participant may elect to convert the benefits otherwise payable in an actuarially equivalent 50% joint and survivor form of benefit. Other forms of benefit are available as described under the definition of actuarial equivalence below.
Article IV Preretirement Survivor Death Benefits	Upon death of an active employee or of an employee at least age 55 at termination with 10 years of eligibility service, benefits are as follows: The actuarial equivalent of the 1944 benefit which would have been paid if employment had terminated on the date of death to his designated beneficiary in a lump sum, or installments over a period certain (which, as to beneficiaries other than a surviving spouse, may not exceed five years and which, as to a surviving spouse, may not exceed such spouse's life expectancy); PLUS The 1950 benefit payable as the Article IV survivor benefit option to the surviving spouse of a participant who died after reaching age 60 or after reaching age 55 with age plus eligibility service of at least 85.

Aerospace Participants

Aerospace Effective Date	April 1, 1972 The most recent amendment and restatement to the plan is effective January 1, 2004.
Employees Covered by the Plan	Any person employed by the company with the exception of: (a) Board of Directors member not serving the company (b) Persons covered by other plan to which the company contributes (c) Persons represented by a labor organization (d) Leased employees (e) Persons employed by SDC Coatings, Inc.
Plan Status	The plan was frozen effective September 30, 2003.
Normal Retirement	
Eligibility	A participant is eligible to receive normal retirement benefits the first day of the month coincident with or next following the month in which age 65 is attained, once the fifth anniversary of participation is reached, in the form of a life only annuity.
Aerospace Benefit	The benefit payable is defined as the greater of (1) + (2) and (3), as follows: (1) 1% of the lesser of average monthly compensation and covered compensation, multiplied by credited service; plus (2) 1.45% of average monthly compensation in excess of covered compensation multiplied by credited service up to 40 years. (3) $25 multiplied by continuous service.

Early Retirement

Eligibility

A participant is eligible to receive early retirement benefits the first day of the month coincident with or next following the month in which age 55 is attained, if 10 or more years of continuous service have been earned. Individuals who terminated employment prior to April 30, 1997 were required to earn 15 years of continuous service for early retirement benefit eligibility.

Aerospace Benefit

The early retirement benefit is defined as the normal retirement benefit reduced based on the participant's age in terms of years and completed months according to the following table of early retirement factors (ERFs):

Age	ERF
55	0.500
56	0.533
57	0.567
58	0.600
59	0.633
60	0.667
61	0.733
62	0.800
63	0.867
64	0.933
65	1.000

This table of ERFs represents a reduction of 5/900ths for the first 60 months and 5/1800ths for each of the next 60 months by which the benefit commencement date precedes normal retirement.

Disability Retirement

Eligibility

Once five years of continuous service has been earned, a participant is eligible to receive disability retirement benefits the first day of the month coincident with or next following six months from the date when the participant becomes totally and permanently disabled, as determined by the Social Security Administration.

Aerospace Benefit

The disability retirement benefit payable is the same as defined for the normal retirement benefit.

Deferred Vested Retirement	
Eligibility	Completion of five years of continuous service.
Benefit	The normal retirement benefit is payable the first month coincident with or next following attainment of age 65.
Participant Past Normal Retirement Age	The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.
Surviving Spouse Benefit	For a vested participant who dies subsequent to attaining age 55, the monthly survivor's benefit is 60% of the amount determined under normal retirement benefits (actuarially reduced if the surviving spouse has not attained age 55). For a vested participant who dies prior to attaining age 55, the monthly survivor's benefit is determined assuming the participant terminated employment on the date of death, survived to the earliest retirement age, retired under the normal form of benefit (the 50% joint and survivor form of benefit) and died the next day.
Late Retirement	Retirement may be delayed beyond normal retirement. The benefit payable is defined as the greater of (1) + (2), (3) + (4), and (5), as follows: (1) 1% of the lesser of average monthly compensation and covered compensation, both determined at the late retirement date, multiplied by credited service earned as of the normal retirement date and an actuarial increase factor to reflect the period of credited service from the normal retirement date to the late retirement date; plus (2) 1.45% of average monthly compensation in excess of covered compensation, both determined at the late retirement date, multiplied by credited service up to 40 years earned as of the normal retirement date and an actuarial increase factor to reflect the period of credited service from the normal retirement date to the late retirement date. (3) 1% of the lesser of average monthly compensation, multiplied by credited service, all determined at the late retirement date; plus

(4) 1.45% of average monthly compensation in excess of covered compensation, multiplied by credited service up to 40 years, all determined at the late retirement date.

(5) $25 multiplied by continuous service to the late retirement date.

Forms of Payment

The participant will be paid the single lump sum value of their benefit if the present value of their benefits at the payment date is less than $5,000. If the present value of the benefits is greater than $5,000, and if the participant has an eligible spouse, the normal form of payment is an actuarially reduced 50% joint and survivor benefit. Otherwise, the normal form of payment is a single life annuity. Optional forms of payment may not be elected for the disability retirement benefit. For the normal retirement benefit, the early retirement benefit and the late retirement benefit, optional forms of payment may be elected with spousal consent, as follows: Single life annuity; 10-year or 15-year certain and continuous annuity; or a 50%, 66⅔%, 75%, or 100% joint and survivor benefit. Single lump sum values over $5,000 are not available under the terms of the plan.

Definitions

Participation

Participation is granted on the first day of the month following completion of one year of continuous service in 12 months of employment.

Continuous Service

After April 1, 1981, continuous service is determined based on the elapsed time period. In determination of service under the elapsed time method, the last day of the month coinciding with or following the date of termination is considered the date when employment ceased.

Credited Service

Effective September 30, 2003, credited service used to determine the amount of plan benefits was frozen.

Vesting Schedule

Participants are 100% vested once they have earned five years of continuous service. Participants who terminate employment prior to attaining five years of continuous service are 0% vested and are not due a benefit under the plan.

Compensation	Total cash remuneration paid to an eligible employee by the employer during each calendar year or fraction thereof for personal services, as reported on the employee federal income tax withholding statement, including contributions to a cafeteria plan as defined under Internal Revenue Code Sections 401(k) and 125.
Average Monthly Compensation	The monthly average of compensation for the five consecutive calendar years of highest compensation (or using all calendar years of compensation if less than five calendar years have been worked) during the 10 calendar years of continuous service preceding termination of employment (or using all years of continuous service if less than 10 years have been worked).
Covered Compensation	The 35-year average of Social Security taxable wage bases ending in the year a Participant attains Social Security normal retirement age. The Social Security wage base is projected level forward after the employee separates from service in making this determination.
Extended Wear-Away	Prior to the 1994 plan year, annual compensation is limited to $235,840. For the 1994 plan year and later, annual compensation is limited to $150,000 as indexed by the Commissioner of the Internal Revenue Service. A participant's normal retirement benefit is the greater of (1) + (2) and (3), as follows: (1) The normal retirement benefit determined as of March 31, 1994 without regard to the $150,000 limit on compensation (but using the $235,840 limit on compensation); plus (2) The normal retirement benefit based on credited service earned after March 31, 1994 determined by application of the $150,000 limit on compensation. (3) The normal retirement benefit based on all years of credited service and determined by applying the $150,000 limit on compensation.

Actuarial Equivalence	For optional forms of benefit, use the immediate annuity rate published by the Pension Benefit Guaranty Corporation as of the first day of each plan year, and the UP-1984 Mortality table. For distributions after December 31, 1995, the single lump sum value of a participant's benefit is determined using the "applicable mortality table" and "applicable interest rate" determined under Section 417(e)(3)(A) of the Internal Revenue Code.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	Originally effective: October 1, 1985. The plan was restated as of January 1, 2009 and most recently amended September 10, 2015.
Employees Covered by the Plan	Every salaried employee who receives compensation from the company, and is not represented by a labor organization, is eligible to participate on the first of the month, having completed one year of continuous service, and attained age 21. An employee must work at least 1,000 hours during a year to be credited with a year of continuous service. No employee may enter the plan on or after January 1, 1987.
Plan Status	Credited service was frozen effective December 31, 1986 (June 30, 1987 for participants in the Modern Tools Plan) and pay was frozen December 31, 1999.
Normal Retirement	
Eligibility	A member shall be eligible to retire on the first of the month after having reached age 65.
1974 Benefit	The basic monthly benefit will be 1% of the covered effective compensation for each year of credited service plus 1.5% of the excess effective covered compensation for each year of credited service. The benefit is payable for the lifetime of the member, with 50% continued to the member's surviving spouse or children under a specified age, after the member's death. For retirements on and after January 1, 2000, the 1974 benefits are increased by 10%.
Early Retirement	
Eligibility	An employee is eligible for an early retirement allowance upon attaining the earlier of age 55 and 10 years of eligibility service, or age 60 and five years of eligibility service.
1974 Benefit	The early retirement allowance will be the normal retirement basic monthly benefit, reduced by 0.5% for each month before age 62.
Disability Retirement	
Eligibility	Having completed five years of eligibility service, and having been totally and permanently disabled for at least six consecutive months, the employee shall be eligible for a disability retirement allowance.

1974 Benefit	The disability retirement allowance will be the normal retirement basic monthly benefit payable on an actuarially reduced basis. Employees at the Laurinburg location receive this benefit without any reduction. The disability retirement benefit is reduced by any other company-provided disability benefits.
Deferred Vested Retirement	
Eligibility	Five years of service and termination of employment, other than by death, entitles a member to a deferred vested retirement allowance.
1974 Benefit	The normal retirement basic monthly benefit allowance for all participants after five years of service. Benefits may be received as early as age 55 on an actuarially reduced basis from age 65.
Participant Past Normal Retirement Age	The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.
Preretirement Surviving Spouse's Benefit	
Eligibility	Death of a married member, after having fulfilled vesting eligibility, entitles the surviving spouse to a benefit.
1974 Benefit	The monthly benefit will be one-half of the early retirement benefit which the employee would have received if he/she had retired the first day of the month preceding death. The benefit should be payable to the surviving spouse at the employee's earliest retirement age.
Postretirement Surviving Spouse's Benefit	
Eligibility	Death of a retired member, disabled retiree or vested termination receiving benefits, entitles the family to a monthly payment.
1974 Benefit	The monthly benefit will be one-half of the retirement allowance. This amount is payable to the surviving spouse as long as he/she is alive, or to parentless children until age 18 or age 23, if in school.

Forms of Payment	A participant may elect to receive the 1974 normal retirement benefit, 1974 early retirement benefit, 1974 disability benefit, or the 1974 deferred vested benefit on an actuarially reduced basis in the form of a 10-year certain and continuous annuity, or 50%, 66⅔%, 75%, or 100% joint and survivor annuity form based on the definition of actuarial equivalence defined below. A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse.)
Optional Forms of Payment	50% contingent annuity, beneficiary other than spouse.
Definitions	
Effective Compensation	The average annual compensation during the five highest-paid consecutive calendar years of service through December 31, 1999. Effective for participants who retire on or after January 1, 2000, compensation earned after December 31, 1999 is not used to determine retirement benefits.
Covered Effective Compensation	The 35-year average of Social Security taxable wage bases ending in the year a participant attains Social Security normal retirement age. The Social Security wage base is projected level forward in making this determination. Effective for participants who retire on or after January 1, 2000, this value is determined based on the Social Security taxable wage bases through 1999 and does not increase based on any increases to the Social Security taxable wage bases in the year 2000 or later. However, the covered effective compensation is determined by projecting the Social Security taxable wage base in effect during the most recent year that compensation was used in the determination of effective compensation.
Credited Service	Effective December 31, 1986 (June 30, 1987 for participants in the Modern Tools Plan), credited service used to determine the amount of plan benefits was frozen.

Eligibility Service	Although credited service was frozen, eligibility service continues to accrue for purposes of determining eligibility for retirement benefits. An employee who transfers to salaried status covered by the plan from a status not covered by the plan shall have the period of service while not covered by the plan included solely for the purpose of determining eligibility for benefits.
Actuarial Equivalence	For optional forms of benefit, use the immediate annuity rate published by the Pension Benefit Guaranty Corporation as of the first day of each plan year, and the UP-1984 Mortality table. For distributions after December , 1995, the single lump sum value of a participant's benefit is determined using the "applicable mortality table" and "applicable interest rate" determined under Section 417(e)(3)(A) of the Internal Revenue Code. Determined based on the 1951 Group Annuity Mortality table projected to 1975 by Scale C, with a one-year setback for pensioners and a six-year setback for spouses. Interest is the "Factor K-1" promulgated by the Pension Guaranty Corporation as of January 1 (for retirements after February 1, 1991). Participants may elect to receive benefits on an actuarially adjusted basis in the form of a 10-year certain and continuous annuity, or 50%, 66⅔%, 75%, or 100% joint and survivor annuity form based on the definition of actuarial equivalence. A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse).
Minimum Benefits Under the 1974 Plan (Article III Benefits)	A salaried employee actively employed at the time of his retirement and who retires after January 1, 1987 may elect to receive the following minimum benefits in lieu of and in substitution for any other benefits under this plan. (For the purpose of valuation calculations, it has been assumed that this election is made whenever it produces a larger benefit.)

Forms of Benefits

Minimum Normal Retirement

With at least 10 years of eligibility service at normal retirement, the participant may elect to receive a pension equal to the number of years of credited service as of the earlier of the normal retirement date (or current age for employees over age 65) and December 31, 1986 (June 30, 1987 with respect to former participants in the Modern Tools Plan) multiplied by the following amounts:

Credited Service	Annual Multiplier
< = 19	$180.00
> 19, < = 29	$216.00
> 29	$240.00

Retirements after October 1, 1987:

Credited Service	Annual Multiplier
< = 18	$192.00
> 18, < = 28	$228.00
> 28	$255.60

This benefit is payable as a life only annuity.

Minimum Early Retirement

Upon age 60 and 10 years of eligibility service or age 55, with age plus eligibility service at least 85, the minimum normal benefit is payable after applying the following factor prorated for intermediate ages.

Age	ERF
55	0.579
56	0.635
57	0.694
58	0.752
59	0.808
60	0.867
61	0.933
62	1.000

	If, at the time of retirement, the participant is actively employed and has attained age 62 with 15 or more years of eligibility service, the minimum early benefit is doubled for each monthly payment up to and including the earlier of the month in which age 65 is attained or until eligible for an unreduced old age or disability Social Security allowance.
Minimum Special Thirty	An active salaried employee who retires with 30 years of eligibility service may elect to receive a benefit equal to the amount of the minimum early retirement benefit, plus a special allowance to bring his annual benefit to $10,980. A person who qualifies for this benefit and has less than 30 years of credited service as of December 31, 1986 shall receive a fraction of this benefit relative to credited service as of December 31, 1986 divided by 30 years. At age 62, the minimum normal retirement benefit is payable.
Minimum Survivor Option	In lieu of minimum normal, minimum early, or special thirty benefits, a participant may elect to receive an allowance of 95% (if the participant and spouse's ages are the same) of the amounts otherwise payable with a survivor benefit payable to the spouse for the spouse's lifetime of 60% of the reduced amount. 95% is increased by ½% (up to a maximum of 100%) for each 12 months in excess of five years by which the spouse's age exceeds the participant's age and decreased by ½% for each 12 months in excess of five years by which the spouse's age is less than the participant's age. Other forms of benefit are available as described in the Definitions section, below.
Minimum Preretirement Survivor	For a salaried employee who dies prior to retirement but after becoming eligible for these minimum benefits, the surviving spouse shall be entitled to a monthly benefit for life, commencing the first of the month after the employee's death. The monthly benefit is the amount the spouse would have been entitled to receive under the minimum survivor benefit option if the employee had retired on the date of death.

The surviving spouse of a salaried employee who dies after attaining 10 or more years of eligibility service but prior to becoming eligible for retirement benefits shall be entitled to a monthly benefit commencing at any time after the employee would have attained age 60. The amount of this benefit is 50% of the minimum normal benefit reduced as defined under the minimum survivor benefit option and additionally reduced by 5/9% for each complete calendar month prior to the date the employee would have attained age 65.

Benefits Under the 1950 Plus 1944 Plan (Article IV)

An eligible salaried employee may elect to have benefits payable under the 1950 plan plus benefits under the 1944 plan in lieu of and in substitution for any benefits under the 1974 plan. (For the purpose of valuation calculations, it has been assumed that this election is made whenever it produces a larger benefit.)

For retirements on and after January 1, 2000, Article IV benefits are increased by 10%.

Forms of Benefits

Article IV Normal Retirement Benefit

An employee is eligible to receive normal retirement benefits the first day of the month following the month in which an employee reaches the sixty-fifth anniversary of his date of birth. The participant is eligible for the 1950 benefit provided 10 years of eligibility service are earned by the normal retirement date. The Article IV normal retirement benefit is calculated as:

The 1950 benefit payable as a life only annuity;

PLUS

The 1944 benefit, payable in the 10-year certain and life continuous annuity form.

The 1950 benefit is defined as 2.8% of the first $3,000 of effective compensation times credited service. The definition of the 1950 benefit is commonly described as $7 per month for each year of credited service (2.8% x $3,000/12 = $7).

The 1944 benefit is defined as (1) plus (2), below:

(1) 1.667% x effective compensation over $3,000 x minimum credited service, 15

	(2) 0.25% x effective compensation over $3,000 x credited service since 1941. Item (2) is reduced pro rata for less than 15 years of credited service.
Article IV Early Retirement Benefit	A salaried employee who has attained age 55 is eligible to receive the following: The actuarial equivalent of the 1944 benefit; PLUS If (i) age 60 with 10 years of eligibility service or (ii) age 55, with age plus eligibility service at least 85, the 1950 benefit multiplied by the same factors defined under “Minimum Early Retirement Benefits,” above, provided that if actively employed at the time of retirement and age 62 with at least 15 years of eligibility service, the 1950 benefit is doubled for each monthly payment up to and including the month in which age 65 is attained or until eligible for disability or regular old-age allowance under the Federal Social Security Act.
Article IV Disability Retirement Benefit	At five years of eligibility service or upon attaining age 55, a participant who becomes totally and permanently disabled will be entitled to receive the 1944 benefit on an actuarially reduced basis; PLUS The sum of (i) the 1950 benefit but not less than $100 per month (if has 10 years of eligibility service) and (ii) 3.0% of the first $3,000 of effective compensation x credited service at the earlier of retirement or December 31, 1986, but not more than $187.50 per month (provided that upon attaining normal retirement date or when entitled to an unreduced old-age or disability Social Security allowance, this part of the allowance is reduced to the 1950 benefit). The 10% increase in benefits for retirements on and after January 1, 2000 is not applied to the $100 minimum in (i) and the $187.50 maximum in (ii) above.

Article IV Survivor Benefit Option	In lieu of the 1950 benefit payable as a normal, early, deferred vested, or disability benefit, a participant may elect to receive an allowance of 95% (if the participant and spouse's ages are the same) of the amounts otherwise payable with a survivor benefit payable to the spouse for the spouse's lifetime of 55% of the reduced amount. 95% is increased by ½% (up to a maximum of 100%) for each 12 months in excess of five years by which the spouse's age exceeds the participant's age and decreased by ½% for each 12 months in excess of five years by which the spouse's age is less than the participant's age. In lieu of the 1944 benefit payable as a normal, early, deferred vested, or disability benefit, a participant may elect to convert the benefits otherwise payable in an actuarially equivalent 50% joint and survivor form of benefit. Other forms of benefit are available as described under the definition of actuarial equivalence below.
Article IV Preretirement Survivor Death Benefits	Upon death of an active employee or of an employee at least age 55 at termination with 10 years of eligibility service, benefits are as follows: The actuarial equivalent of the 1944 benefit which would have been paid if employment had terminated on the date of death to his designated beneficiary in a lump sum, or installments over a period certain (which, as to beneficiaries other than a surviving spouse, may not exceed five years and which, as to a surviving spouse, may not exceed such spouse's life expectancy); PLUS The 1950 benefit payable as the Article IV survivor benefit option to the surviving spouse of a participant who died after reaching age 60 or after reaching age 55 with age plus eligibility service of at least 85.

Aerospace Participants

Aerospace Effective Date	April 1, 1972 The most recent amendment and restatement to the plan is effective January 1, 2004.
Employees Covered by the Plan	Any person employed by the company with the exception of: (a) Board of Directors member not serving the company (b) Persons covered by other plan to which the company contributes (c) Persons represented by a labor organization (d) Leased employees (e) Persons employed by SDC Coatings, Inc.
Plan Status	The plan was frozen effective September 30, 2003.
Normal Retirement	
Eligibility	A participant is eligible to receive normal retirement benefits the first day of the month coincident with or next following the month in which age 65 is attained, once the fifth anniversary of participation is reached, in the form of a life only annuity.
Aerospace Benefit	The benefit payable is defined as the greater of (1) + (2) and (3), as follows: (1) 1% of the lesser of average monthly compensation and covered compensation, multiplied by credited service; plus (2) 1.45% of average monthly compensation in excess of covered compensation multiplied by credited service up to 40 years. (3) $25 multiplied by continuous service.

Early Retirement

Eligibility

A participant is eligible to receive early retirement benefits the first day of the month coincident with or next following the month in which age 55 is attained, if 10 or more years of continuous service have been earned. Individuals who terminated employment prior to April 30, 1997 were required to earn 15 years of continuous service for early retirement benefit eligibility.

Aerospace Benefit

The early retirement benefit is defined as the normal retirement benefit reduced based on the participant's age in terms of years and completed months according to the following table of early retirement factors (ERFs):

Age	ERF
55	0.500
56	0.533
57	0.567
58	0.600
59	0.633
60	0.667
61	0.733
62	0.800
63	0.867
64	0.933
65	1.000

This table of ERFs represents a reduction of 5/900ths for the first 60 months and 5/1800ths for each of the next 60 months by which the benefit commencement date precedes normal retirement.

Disability Retirement

Eligibility

Once five years of continuous service has been earned, a participant is eligible to receive disability retirement benefits the first day of the month coincident with or next following six months from the date when the participant becomes totally and permanently disabled, as determined by the Social Security Administration.

Aerospace Benefit

The disability retirement benefit payable is the same as defined for the normal retirement benefit.

Deferred Vested Retirement	
Eligibility	Completion of five years of continuous service.
Benefit	The normal retirement benefit is payable the first month coincident with or next following attainment of age 65.
Participant Past Normal Retirement Age	The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.
Surviving Spouse Benefit	For a vested participant who dies subsequent to attaining age 55, the monthly survivor's benefit is 60% of the amount determined under normal retirement benefits (actuarially reduced if the surviving spouse has not attained age 55). For a vested participant who dies prior to attaining age 55, the monthly survivor's benefit is determined assuming the participant terminated employment on the date of death, survived to the earliest retirement age, retired under the normal form of benefit (the 50% joint and survivor form of benefit) and died the next day.
Late Retirement	Retirement may be delayed beyond normal retirement. The benefit payable is defined as the greater of (1) + (2), (3) + (4), and (5), as follows: (1) 1% of the lesser of average monthly compensation and covered compensation, both determined at the late retirement date, multiplied by credited service earned as of the normal retirement date and an actuarial increase factor to reflect the period of credited service from the normal retirement date to the late retirement date; plus (2) 1.45% of average monthly compensation in excess of covered compensation, both determined at the late retirement date, multiplied by credited service up to 40 years earned as of the normal retirement date and an actuarial increase factor to reflect the period of credited service from the normal retirement date to the late retirement date. (3) 1% of the lesser of average monthly compensation, multiplied by credited service, all determined at the late retirement date; plus

(4) 1.45% of average monthly compensation in excess of covered compensation, multiplied by credited service up to 40 years, all determined at the late retirement date.

(5) $25 multiplied by continuous service to the late retirement date.

Forms of Payment

The participant will be paid the single lump sum value of their benefit if the present value of their benefits at the payment date is less than $5,000. If the present value of the benefits is greater than $5,000, and if the participant has an eligible spouse, the normal form of payment is an actuarially reduced 50% joint and survivor benefit. Otherwise, the normal form of payment is a single life annuity. Optional forms of payment may not be elected for the disability retirement benefit. For the normal retirement benefit, the early retirement benefit and the late retirement benefit, optional forms of payment may be elected with spousal consent, as follows: Single life annuity; 10-year or 15-year certain and continuous annuity; or a 50%, 66⅔%, 75%, or 100% joint and survivor benefit. Single lump sum values over $5,000 are not available under the terms of the plan.

Definitions

Participation

Participation is granted on the first day of the month following completion of one year of continuous service in 12 months of employment.

Continuous Service

After April 1, 1981, continuous service is determined based on the elapsed time period. In determination of service under the elapsed time method, the last day of the month coinciding with or following the date of termination is considered the date when employment ceased.

Credited Service

Effective September 30, 2003, credited service used to determine the amount of plan benefits was frozen.

Vesting Schedule

Participants are 100% vested once they have earned five years of continuous service. Participants who terminate employment prior to attaining five years of continuous service are 0% vested and are not due a benefit under the plan.

Compensation	Total cash remuneration paid to an eligible employee by the employer during each calendar year or fraction thereof for personal services, as reported on the employee federal income tax withholding statement, including contributions to a cafeteria plan as defined under Internal Revenue Code Sections 401(k) and 125.
Average Monthly Compensation	The monthly average of compensation for the five consecutive calendar years of highest compensation (or using all calendar years of compensation if less than five calendar years have been worked) during the 10 calendar years of continuous service preceding termination of employment (or using all years of continuous service if less than 10 years have been worked).
Covered Compensation	The 35-year average of Social Security taxable wage bases ending in the year a Participant attains Social Security normal retirement age. The Social Security wage base is projected level forward after the employee separates from service in making this determination.
Extended Wear-Away	Prior to the 1994 plan year, annual compensation is limited to $235,840. For the 1994 plan year and later, annual compensation is limited to $150,000 as indexed by the Commissioner of the Internal Revenue Service. A participant's normal retirement benefit is the greater of (1) + (2) and (3), as follows: (1) The normal retirement benefit determined as of March 31, 1994 without regard to the $150,000 limit on compensation (but using the $235,840 limit on compensation); plus (2) The normal retirement benefit based on credited service earned after March 31, 1994 determined by application of the $150,000 limit on compensation. (3) The normal retirement benefit based on all years of credited service and determined by applying the $150,000 limit on compensation.

Actuarial Equivalence	For optional forms of benefit, use the immediate annuity rate published by the Pension Benefit Guaranty Corporation as of the first day of each plan year, and the UP-1984 Mortality table. For distributions after December 31, 1995, the single lump sum value of a participant's benefit is determined using the "applicable mortality table" and "applicable interest rate" determined under Section 417(e)(3)(A) of the Internal Revenue Code.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption change:

- A change in the unlimited expected rate of return on plan assets from 5.00% to 4.50%.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall more than the thresholds stated in the Internal Revenue Section 430(h)(5), as such approval of the Commissioner is not required.

Independent Auditor's Report

To the Members of the Pension
Investment Review Board
Pilkington North America, Inc.
Restated Salaried Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pilkington North America, Inc. Restated Salaried Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits - modified cash basis as of December 31, 2017 and 2016 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the modified cash basis financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investment assets and execute related transactions. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Praxity MEMBER GLOBAL ALLIANCE OF INDEPENDENT FIRMS

To the Members of the Pension
Investment Review Board
Pilkington North America, Inc.
Restated Salaried Retirement Plan

Other Matter

The modified cash basis supplemental schedule of assets held at year end as of December 31, 2017 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of Pilkington North America, Inc. Restated Salaried Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that provides for retirement and disability benefits for salaried employees of Pilkington North America, Inc. (the “Company”), except those who are covered by other company-sponsored plans and former employees of Pilkington Aerospace, Inc. (Aerospace). Aerospace was sold on September 30, 2003. Aerospace participants became fully vested in the Plan as of that date. The Plan was frozen to new participants and benefit calculation as of December 31, 1986. Effective January 1, 2004, the Plan may provide benefits based on a retroactive annuity starting date if certain requirements are met.

Restated Salaried Retirement Plan, Restated Sherman Plant Salaried Employees Retirement Plan, and Restated Laurinburg Plant Salaried Employees Retirement Plan were established on October 7, 1985 through a spin-off termination of the Libbey-Owens-Ford Company Salaried Retirement Plan for LOF Glass Employees, the Libbey-Owens-Ford Company Sherman Plant Salaried Employee Retirement Plan, and the Libbey-Owens-Ford Company Laurinburg Plant Salaried Employees Retirement Plan (collectively, the “Original Plans”). Upon receiving approval from the Pension Benefit Guaranty Corporation (PBGC), the assets of the Original Plans were used to purchase annuity contracts for payment of participant benefits accrued to October 7, 1985.

Eligibility and Vesting

The Plan was frozen with respect to new participants effective December 31, 1986 (June 30, 1987 for certain other participants, as defined in the plan agreement); therefore, participants' benefits are fully vested.

Pension Benefits

The normal monthly retirement benefit is generally calculated as certain percentages of compensation (defined by the Plan), multiplied by the participant's years of benefit service. The normal benefit is adjusted for early or late retirement, disability, or upon the participant's death, as stated in the Plan.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Party-in-interest Transactions

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Certain plan assets are in investment funds managed by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company or their affiliates. The Northern Trust Company and Prudential Retirement Insurance and Annuity Company are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The fair value of the Plan's interest in the Pilkington North America, Inc. Master Retirement Trust (the "Master Trust") is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value.

The pooled separate accounts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. The U.S. corporate bonds are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The money market fund is valued at fair value based on its outstanding balance. All other investments are valued based on quoted market prices reported in active markets. See Notes 4 and 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Basis of Accounting

The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received, expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligations are incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon Hewitt Associates, LLC and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2017 are summarized as follows:

Actuarial cost method	Projected unit credit cost method
Retirement	Various rates of retirement are assumed beginning at age 50. All participants are assumed to retire by age 62.
Assumed rate of return	4.50 percent per annum
Mortality Table	RP-2014 Employees and Healthy Annuitants Mortality Table with White Collar adjustment with mortality improvement using Scale MP-2017

Note 2 - Summary of Significant Accounting Policies (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact, and no additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Significant estimates are used in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 10, 2018, which is the date the financial statements were available to be issued. See Note 10.

Upcoming Accounting Pronouncement

In February 2017, the FASB issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the master trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management has not completed their analysis of the impact from the adoption of this ASU on the Plan's financial statements.

Note 3 - Unaudited Information

The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees") hold the Plan's investments and execute all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including Master Trust information included in Note 4, are based solely on information certified by the Trustees.

Note 4 - Interest in Master Trust

A majority of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and other Pilkington North America, Inc. sponsored benefit plans. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by The Northern Trust Company.

At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 30 percent. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The fair value of investments for the Master Trust at December 31, 2017 and 2016 are as follows:

	2017	2016
Master trust investments:		
Money market fund	$ 717,046	$ 2,771,876
Corporate bonds	190,837,533	188,922,625
Common stocks	-	4,694,815
Total master trust investments	$ 191,554,579	$ 196,389,316

The investment income for the Master Trust for the years ended December 31, 2017 and 2016 is as follows:

	2017	2016
Net realized and unrealized gains and losses	$ 17,372,996	$ 14,834,934
Interest	7,912	4,287
Net investment income	$ 17,380,908	$ 14,839,221

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the postretirement benefit obligation attributable to participants in the Plan, which were made as of and for the year ended January 1, 2017, the most recent actuarial valuation, by Aon Hewitt Associates, LLC are as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Retired employees	$ 63,234,637
Active, terminated, and transferred employees not presently receiving benefits	11,796,590
Total vested benefits	75,031,227
Nonvested benefits	65,849
Total actuarial present value of accumulated plan benefits	$ 75,097,076

Note 5 - Accumulated Plan Benefits (Continued)

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2017 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	$ 75,401,120
Increase (decrease) during the year attributable to:	
Interest accumulation	3,603,210
Benefits paid	(6,756,257)
Changes in actuarial assumptions	2,626,031
Other	222,972
Net decrease	(304,044)
Actuarial present value of accumulated plan benefits - End of year	$ 75,097,076

The assumption changes relate to a change in the mortality improvement scale from MP-2016 to MP-2017. The expected long-term rate of return on plan assets decreased from 5.00 percent to 4.50 percent.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's and Master Trust's assets measured at fair value on a recurring basis at December 31, 2017 and 2016. The Plan did not hold assets outside of the Master Trust at December 31, 2016.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Fair Value Measurements (Continued)

	Assets Measured at Fair Value at December 31, 2017		
	Master Trust Balance	Level 1	Level 2
Corporate bonds	$ 190,837,533	$ -	$ 190,837,533
Money market fund	717,046	-	717,046
Total investments at fair value	191,554,579	$ -	$ 191,554,579
Investments measured at NAV - Pooled separate account	1,100,115		
Total investments at fair value	$ 192,654,694		

	Assets Measured at Fair Value at December 31, 2016		
	Master Trust Balance	Level 1	Level 2
Common stock	$ 4,694,815	$ 4,694,815	$ -
Corporate bonds	188,922,625	-	188,922,625
Money market fund	2,771,876	-	2,771,876
Total	196,389,316	$ 4,694,815	$ 191,694,501
Investments measured at NAV	-		
Total investments at fair value	$ 196,389,316		

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to “substantial owners” of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9 - Reconciliation of the Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2017 and 2016 to Form 5500:

	2017	2016
Net assets available for benefits per the financial statements	$ 58,706,616	$ 58,648,358
Contributions receivable	1,385,000	2,345,000
Net assets available for benefits per Form 5500	$ 60,091,616	$ 60,993,358

The following is a reconciliation of contribution revenue per the financial statements for the years ended December 31, 2017 and 2016 to Form 5500:

	2017	2016
Contribution revenue per the financial statements	$ 2,345,000	$ 1,933,941
Add contribution receivable - Current year	1,385,000	2,345,000
Less contribution receivable - Prior year	(2,345,000)	(1,933,941)
Contribution revenue per Form 5500	$ 1,385,000	$ 2,345,000

Note 10 - Subsequent Events

On January 1, 2018, the Plan changed trustees from The Northern Trust Company to Morgan Stanley. The Prudential Retirement Insurance and Annuity Company continues to remain a trustee of the Plan in 2018.

Independent Auditor's Report

To the Members of the Pension
Investment Review Board
Pilkington North America, Inc.
Restated Salaried Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pilkington North America, Inc. Restated Salaried Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits - modified cash basis as of December 31, 2017 and 2016 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the modified cash basis financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investment assets and execute related transactions. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Praxity MEMBER GLOBAL ALLIANCE OF INDEPENDENT FIRMS

To the Members of the Pension
Investment Review Board
Pilkington North America, Inc.
Restated Salaried Retirement Plan

Other Matter

The modified cash basis supplemental schedule of assets held at year end as of December 31, 2017 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

See notes to modified cash basis financial statements.

Note 1 - Plan Description

The following description of Pilkington North America, Inc. Restated Salaried Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that provides for retirement and disability benefits for salaried employees of Pilkington North America, Inc. (the “Company”), except those who are covered by other company-sponsored plans and former employees of Pilkington Aerospace, Inc. (Aerospace). Aerospace was sold on September 30, 2003. Aerospace participants became fully vested in the Plan as of that date. The Plan was frozen to new participants and benefit calculation as of December 31, 1986. Effective January 1, 2004, the Plan may provide benefits based on a retroactive annuity starting date if certain requirements are met.

Restated Salaried Retirement Plan, Restated Sherman Plant Salaried Employees Retirement Plan, and Restated Laurinburg Plant Salaried Employees Retirement Plan were established on October 7, 1985 through a spin-off termination of the Libbey-Owens-Ford Company Salaried Retirement Plan for LOF Glass Employees, the Libbey-Owens-Ford Company Sherman Plant Salaried Employee Retirement Plan, and the Libbey-Owens-Ford Company Laurinburg Plant Salaried Employees Retirement Plan (collectively, the “Original Plans”). Upon receiving approval from the Pension Benefit Guaranty Corporation (PBGC), the assets of the Original Plans were used to purchase annuity contracts for payment of participant benefits accrued to October 7, 1985.

Eligibility and Vesting

The Plan was frozen with respect to new participants effective December 31, 1986 (June 30, 1987 for certain other participants, as defined in the plan agreement); therefore, participants' benefits are fully vested.

Pension Benefits

The normal monthly retirement benefit is generally calculated as certain percentages of compensation (defined by the Plan), multiplied by the participant's years of benefit service. The normal benefit is adjusted for early or late retirement, disability, or upon the participant's death, as stated in the Plan.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Party-in-interest Transactions

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Certain plan assets are in investment funds managed by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company or their affiliates. The Northern Trust Company and Prudential Retirement Insurance and Annuity Company are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The fair value of the Plan's interest in the Pilkington North America, Inc. Master Retirement Trust (the "Master Trust") is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value.

The pooled separate accounts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. The U.S. corporate bonds are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The money market fund is valued at fair value based on its outstanding balance. All other investments are valued based on quoted market prices reported in active markets. See Notes 4 and 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Basis of Accounting

The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received, expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligations are incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon Hewitt Associates, LLC and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2017 are summarized as follows:

Actuarial cost method	Projected unit credit cost method
Retirement	Various rates of retirement are assumed beginning at age 50. All participants are assumed to retire by age 62.
Assumed rate of return	4.50 percent per annum
Mortality Table	RP-2014 Employees and Healthy Annuitants Mortality Table with White Collar adjustment with mortality improvement using Scale MP-2017

Note 2 - Summary of Significant Accounting Policies (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact, and no additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Significant estimates are used in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 10, 2018, which is the date the financial statements were available to be issued. See Note 10.

Upcoming Accounting Pronouncement

In February 2017, the FASB issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the master trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management has not completed their analysis of the impact from the adoption of this ASU on the Plan's financial statements.

Note 3 - Unaudited Information

The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees") hold the Plan's investments and execute all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including Master Trust information included in Note 4, are based solely on information certified by the Trustees.

Note 4 - Interest in Master Trust

A majority of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and other Pilkington North America, Inc. sponsored benefit plans. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by The Northern Trust Company.

At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 30 percent. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The fair value of investments for the Master Trust at December 31, 2017 and 2016 are as follows:

	2017	2016
Master trust investments:		
Money market fund	$ 717,046	$ 2,771,876
Corporate bonds	190,837,533	188,922,625
Common stocks	-	4,694,815
Total master trust investments	$ 191,554,579	$ 196,389,316

The investment income for the Master Trust for the years ended December 31, 2017 and 2016 is as follows:

	2017	2016
Net realized and unrealized gains and losses	$ 17,372,996	$ 14,834,934
Interest	7,912	4,287
Net investment income	$ 17,380,908	$ 14,839,221

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the postretirement benefit obligation attributable to participants in the Plan, which were made as of and for the year ended January 1, 2017, the most recent actuarial valuation, by Aon Hewitt Associates, LLC are as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Retired employees	$ 63,234,637
Active, terminated, and transferred employees not presently receiving benefits	11,796,590
Total vested benefits	75,031,227
Nonvested benefits	65,849
Total actuarial present value of accumulated plan benefits	$ 75,097,076

Note 5 - Accumulated Plan Benefits (Continued)

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2017 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	$ 75,401,120
Increase (decrease) during the year attributable to:	
Interest accumulation	3,603,210
Benefits paid	(6,756,257)
Changes in actuarial assumptions	2,626,031
Other	222,972
Net decrease	(304,044)
Actuarial present value of accumulated plan benefits - End of year	$ 75,097,076

The assumption changes relate to a change in the mortality improvement scale from MP-2016 to MP-2017. The expected long-term rate of return on plan assets decreased from 5.00 percent to 4.50 percent.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's and Master Trust's assets measured at fair value on a recurring basis at December 31, 2017 and 2016. The Plan did not hold assets outside of the Master Trust at December 31, 2016.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Fair Value Measurements (Continued)

	Assets Measured at Fair Value at December 31, 2017		
	Master Trust Balance	Level 1	Level 2
Corporate bonds	$ 190,837,533	$ -	$ 190,837,533
Money market fund	717,046	-	717,046
Total investments at fair value	191,554,579	$ -	$ 191,554,579
Investments measured at NAV - Pooled separate account	1,100,115		
Total investments at fair value	$ 192,654,694		

	Assets Measured at Fair Value at December 31, 2016		
	Master Trust Balance	Level 1	Level 2
Common stock	$ 4,694,815	$ 4,694,815	$ -
Corporate bonds	188,922,625	-	188,922,625
Money market fund	2,771,876	-	2,771,876
Total	196,389,316	$ 4,694,815	$ 191,694,501
Investments measured at NAV	-		
Total investments at fair value	$ 196,389,316		

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to “substantial owners” of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9 - Reconciliation of the Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2017 and 2016 to Form 5500:

	2017	2016
Net assets available for benefits per the financial statements	$ 58,706,616	$ 58,648,358
Contributions receivable	1,385,000	2,345,000
Net assets available for benefits per Form 5500	$ 60,091,616	$ 60,993,358

The following is a reconciliation of contribution revenue per the financial statements for the years ended December 31, 2017 and 2016 to Form 5500:

	2017	2016
Contribution revenue per the financial statements	$ 2,345,000	$ 1,933,941
Add contribution receivable - Current year	1,385,000	2,345,000
Less contribution receivable - Prior year	(2,345,000)	(1,933,941)
Contribution revenue per Form 5500	$ 1,385,000	$ 2,345,000

Note 10 - Subsequent Events

On January 1, 2018, the Plan changed trustees from The Northern Trust Company to Morgan Stanley. The Prudential Retirement Insurance and Annuity Company continues to remain a trustee of the Plan in 2018.

Pilkington North America, Inc. Restated Salaried Retirement Plan
