Hourly Employees Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pilkington North America, Inc. Hourly Employees Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits - modified cash basis as of December 31, 2017 and 2016 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the modified cash basis financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investment assets and execute related transactions. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

To the Members of the Pension
Investment Review Board
Pilkington North America, Inc.
Hourly Employees Pension Plan

Other Matter

The modified cash basis supplemental schedule of assets held at year end as of December 31, 2017 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Pilkington North America, Inc. Hourly Employees Pension Plan

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 1 - Plan Description

The following description of Pilkington North America, Inc. Hourly Employees Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that provides retirement and disability benefits to certain hourly employees represented by the United Steelworkers of America, AFL-CIO, CLC (the "Union") at certain Pilkington North America, Inc. (the "Company") plants, former represented employees of the Company, and former employees of Pilkington Visioncare, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan also includes participants who transferred from the Restated Salaried Retirement Plan, part of a group of plans that were established on October 7, 1985 also related to Pilkington North America, Inc. Upon receiving approval from the Pension Benefit Guaranty Corporation (PBGC), the assets of the original plans were used to purchase annuity contracts for payment of participant benefits accrued to October 7, 1985.

Eligibility and Vesting

The Plan was frozen with respect to new participants effective December 31, 1986 (June 30, 1987 for certain other participants, as defined in the plan agreement); therefore, participants' benefits are fully vested.

Pension Benefits

The normal monthly retirement benefit is calculated as either (a) certain percentages of average monthly compensation (defined by the Plan), multiplied by the participant's years of benefit service, or (b) years of benefit service multiplied by fixed dollar amounts, as set forth in the applicable attachments to the Plan. The normal benefit is adjusted for early or late retirement, disability, or upon the participant's death, as stated in the Plan.

Funding

Contributions are made by the Company in actuarially determined amounts to fund the Plan's current service costs and to fund, over a maximum of 30 years, the Plan's past service costs. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Party-in-interest Transactions

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Certain plan assets are in investment funds managed by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company or their affiliates. The Northern Trust Company and Prudential Retirement Insurance and Annuity Company are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The fair value of the Plan's interest in the Pilkington North America, Inc. Master Retirement Trust (the "Master Trust") is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's and Plan's investments are stated at fair value.

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 2 - Summary of Significant Accounting Policies (Continued)

The pooled separate accounts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. The U.S. corporate bonds are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The money market fund is valued at fair value based on its outstanding balance. All other investments are valued based on quoted market prices reported in active markets. See Notes 4 and 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Basis of Accounting

The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received and expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligations are incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon Hewitt Associates, LLC and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2017 are summarized as follows:

Actuarial cost method	Projected unit credit cost method
Retirement	Various rates of retirement are assumed beginning at age 55. All participants are assumed to retire by age 63.
Assumed rate of return	4.50 percent per annum
Mortality Table	RP-2014 Employees and Healthy Annuitants Mortality Table with Blue Collar adjustment with mortality improvement using Scale MP-2017

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact and no additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Significant estimates are used in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 10, 2018, which is the date the financial statements were available to be issued. See Note 10.

Upcoming Accounting Pronouncement

In February 2017, the FASB issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the Master Trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management has not completed their analysis of the impact from the adoption of this ASU on the Plan's financial statements.

Note 3 - Unaudited Information

The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees") hold the Plan's investments and execute all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including master trust information included in Note 4, are based solely on information certified by the Trustees.

Note 4 - Interest in Master Trust

A majority of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and Pilkington North America, Inc. Restated Salaried Retirement Plan. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by The Northern Trust Company.

Note 4 - Interest in Master Trust (Continued)

At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 70 percent. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The fair value of investments for the Master Trust at December 31, 2017 and 2016 are as follows:

	2017	2016
Master trust investments:		
Money market fund	\$ 717,046	\$ 2,771,876
Corporate bonds	190,837,533	188,922,625
Common stocks	-	4,694,815
Total master trust investments	<u>\$ 191,554,579</u>	<u>\$ 196,389,316</u>

The investment income for the Master Trust for the years ended December 31, 2017 and 2016 is as follows:

	2017	2016
Net realized and unrealized gains and losses	\$ 17,372,996	\$ 14,834,934
Interest	7,912	4,287
Net investment income	<u>\$ 17,380,908</u>	<u>\$ 14,839,221</u>

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the postretirement benefit obligation attributable to participants in the Plan, which were made as of and for the year ended January 1, 2017, the most recent actuarial valuation by Aon Hewitt Associates, LLC, are as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Retired employees	\$ 143,653,459
Active, terminated, and transferred employees not presently receiving benefits	16,013,611
Total vested benefits	159,667,070
Nonvested benefits	103,485
Total actuarial present value of accumulated plan benefits	<u>\$ 159,770,555</u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2017 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 166,450,548
Increase (decrease) during the year attributable to:	
Interest accumulation	7,905,056
Benefits paid	(16,905,058)
Changes in actuarial assumptions	4,240,417
Other	(1,920,408)
Net decrease	(6,679,993)
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 159,770,555</u>

Note 5 - Accumulated Plan Benefits (Continued)

The assumption changes relate to a change in the mortality improvement scale from MP-2016 to MP-2017. The expected long-term rate of return on plan assets decreased from 5.00 percent to 4.50 percent.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's and Master Trust's assets measured at fair value on a recurring basis at December 31, 2017 and 2016. The Plan did not hold assets outside of the Master Trust at December 31, 2016.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

	Assets Measured at Fair Value at December 31, 2017		
	Master Trust Balance	Level 1	Level 2

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to "substantial owners" of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Rossford, Ottawa, and Lathrop

Normal Retirement
Eligibility

An employee is eligible to receive normal retirement benefits upon attaining age 65 after attaining five years of continuous service.

Benefit

The monthly benefit payable at normal retirement age is determined based on the following benefit rates per year of credited service:

Plant	Effective	Years <18	Years >=18 and <28	Years 28+
Lathrop	11/01/1995	\$23.00	\$25.00	\$27.30
Ottawa	11/01/1995	\$19.50	\$23.00	\$25.30
Rossford	07/01/1987	\$16.00	\$19.00	\$21.30

Early Retirement
Eligibility

An employee is eligible for early retirement benefits upon attaining the earlier of (i) age 60 with 10 years of continuous service or (ii) age 55 with age plus service at least 85.

Benefit

The monthly benefit payable upon attaining early retirement eligibility is the normal retirement benefit multiplied by the following early retirement factor (ERF) based on age at benefit commencement.

Age	ERF
55	0.579
56	0.635
57	0.694
58	0.752
59	0.808
60	0.867
61	0.933
62	1.000

EIN: 34-1506654 PN: 040

Deferred Vested Early Retirement
Eligibility

An employee who terminates with at least five years of continuous service is eligible to receive deferred vested early retirement benefits as early as age 60.

Benefit

The deferred vested early retirement benefit is as calculated under the normal retirement benefit reduced by 5/900 for each month retirement precedes age 65.

Participant Past Normal Retirement Age

The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.

Special Early (Double Dip)
Eligibility

An employee is eligible for special early (Double Dip) retirement benefits upon attaining age 60 (but must not have attained age 65) with 15 years of continuous service.

Benefit

The special early (Double Dip) benefit is two times the benefit calculated under normal retirement plus a \$200 temporary monthly supplement payable from retirement under special early retirement eligibility until age 65, at which time the normal retirement benefit is payable.

Special Thirty Retirement
Eligibility

An employee is eligible for special thirty retirement benefits upon attainment of age 56 and 30 years of continuous service. However, an employee who attained 30 years of continuous service by December 31, 1995 is grandfathered and allowed to retire on or after May 1, 1996 prior to age 56.

Benefit

The special thirty benefit provides for a supplement to bring monthly benefit payments defined under early retirement up to the level indicated in the following:

Plant	Effective	Benefit Until Age 62	Monthly Benefit
			After Age 62
Lathrop	10/01/1998	\$1,315.00	Normal Benefit
Ottawa	07/01/1995	\$1,315.00	Normal Benefit
Rossford	03/01/1995	\$1,215.00	Normal Benefit

Schedule SB Attachment (Form 5500)—2017 Plan Year
Pilkington North America, Inc. Hourly Employees Pension Plan

Disability Retirement
Eligibility

An employee with 10 years of continuous service is eligible for disability benefits if totally and permanently disabled for at least six months while in active employment or within the first two years of layoff. Eligibility for disability benefits ends when the employee is no longer totally and permanently disabled.

Benefit

The benefit determined under normal retirement (not less than \$100 per month) is payable immediately for life. In addition, a temporary monthly benefit of \$14 per year of service (not more than 25 years) is payable until age 65 for those employees who do not qualify for Social Security disability benefits. Participants with 30 years of continuous service are also eligible for the supplements described under Special Thirty Benefits.

Supplemental Benefit

In addition to the benefits described above, a supplemental benefit of \$5.06 per month is payable over the life of the participant only. This benefit is not doubled under Special Early.

Preretirement Survivor Retirement
Eligibility/Benefit

An employee who dies prior to retirement benefit commencement is deemed to have terminated on the date of death, survived to the deferred vested early retirement age, retired under the 50% joint and survivor form of benefit and died the next day.

Postretirement Survivor Retirement
Eligibility/Benefit

At the time of retirement, an employee may elect to receive 95% of the life only form of benefit which is payable as the 60% joint and survivor form of benefit if the age of the employee and spouse are the same. The conversion factor of 95% is increased by $\frac{1}{2}\%$ (up to a maximum of 100%) for each 12 months in excess of five years the spouse's age exceeds the employee's age and decreased by $\frac{1}{2}\%$ for each 12 months in excess of five years by which the spouse's age is less than the employee's age. 60% of the benefit payable while the employee is alive is payable to the surviving spouse after the employee dies.

Laurinburg

Normal Retirement
Eligibility

A member shall be eligible to retire on the first of the month after having reached age 65.

1974 Benefit

The basic monthly benefit will be 1% of the covered effective compensation for each year of credited service plus 1.5% of the excess effective covered compensation for each year of credited service. The benefit is payable for the lifetime of the member, with 50% continued to the member's surviving spouse or children under a specified age, after the member's death.

For retirement on and after January 1, 2000, the 1974 benefit is increased by 10%.

Early Retirement
Eligibility

An employee is eligible for an early retirement allowance upon attaining the earlier of age 55 and 10 years of eligibility service, or age 60 and five years of eligibility service.

1974 Benefit

The early retirement allowance will be the normal retirement basic monthly benefit, reduced by 0.5% for each month before age 62.

Disability Retirement
Eligibility

Having completed five years of eligibility service, and having been totally and permanently disabled for at least six consecutive months, the employee shall be eligible for a disability retirement allowance.

1974 Benefit

The disability retirement allowance will be the normal retirement basic monthly benefit payable on an actuarially reduced basis. Employees at the Laurinburg location receive this benefit without any reduction. The disability retirement benefit is reduced by any other company-provided disability benefits.

Deferred Vested Retirement
Eligibility

Five years of service and termination of employment, other than by death, entitles a member to a deferred vested retirement allowance.

1974 Benefit

The normal retirement basic monthly benefit allowance for all participants after five years of service. Benefits may be received as early as age 55 on an actuarially reduced basis from age 65.

Covered Effective Compensation

The 35-year average of Social Security taxable wage bases ending in the year a participant attains Social Security normal retirement age. The Social Security wage base is projected level forward in making this determination.

Effective for participants who retire on or after January 1, 2000, this value is determined based on the Social Security taxable wage bases through 1999 and does not increase based on any increases to the Social Security taxable wage bases in the year 2000 or later. However, the covered effective compensation is determined by projecting the Social Security taxable wage base in effect during the most recent year that compensation was used in the determination of effective compensation.

Credited Service

Effective December 31, 1986 (June 30, 1987 for participants in the Modern Tools Plan), credited service used to determine the amount of plan benefits was frozen.

Eligibility Service

Although credited service was frozen, eligibility service continues to accrue for purposes of determining eligibility for retirement benefits.

An employee who transfers to salaried status covered by the plan from a status not covered by the plan shall have the period of service while not covered by the plan included solely for the purpose of determining eligibility for benefits.

Actuarial Equivalence

For optional forms of benefit, use the immediate annuity rate published by the Pension Benefit Guaranty Corporation as of the first day of each plan year, and the UP-1984 Mortality table. For distributions after December 1995, the single lump sum value of a participant's benefit is determined using the "applicable mortality table" and "applicable interest rate" determined under Section 417(e)(3)(A) of the Internal Revenue Code.

Determined based on the 1951 Group Annuity Mortality table projected to 1975 by Scale C, with a one-year setback for pensioners and a six-year setback for spouses. Interest is the "Factor K-1" promulgated by the Pension Guaranty Corporation as of January 1 (for retirements after February 1, 1991).

A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse).

Minimum Benefits Under the
1974 Plan (Article III Benefits)

A salaried employee actively employed at the time of his retirement and who retires after January 1, 1987 may elect to receive the following minimum benefits in lieu of and in substitution for any other benefits under this plan. (For the purpose of valuation calculations, it has been assumed that this election is made whenever it produces a larger benefit.)

Forms of Benefits
Minimum Normal Retirement

With at least 10 years of eligibility service at normal retirement, the participant may elect to receive a pension equal to the number of years of credited service as of the earlier of the normal retirement date (or current age for employees over age 65) and December 31, 1986 (June 30, 1987 with respect to former participants in the Modern Tools Plan) multiplied by the following amounts:

Minimum Early Retirement

Upon age 60 and 10 years of eligibility service or age 55, with age plus eligibility service at least 85, the minimum normal benefit is payable after applying the following factor prorated for intermediate ages.

Age	Factor
55	0.579
56	0.635
57	0.694
58	0.752
59	0.808
60	0.867
61	0.933
62	1.000

If, at the time of retirement, the participant is actively employed and has attained age 62 with 15 or more years of eligibility service, the minimum early benefit is doubled for each monthly payment up to and including the earlier of the month in which age 65 is attained or until eligible for an unreduced old age or disability Social Security allowance.

Minimum Special Thirty

An active salaried employee who retires with 30 years of eligibility service may elect to receive a benefit equal to the amount of the minimum early retirement benefit, plus a special allowance to bring his annual benefit to \$10,980.

A person that qualifies for this benefit and has less than 30 years of credited service as of December 31, 1986 shall receive a fraction of this benefit relative to credited service as of December 31, 1986 divided by 30 years.

At age 62, the minimum normal retirement benefit is payable.

Minimum Survivor Option

In lieu of minimum normal, minimum early, or special thirty benefits, a participant may elect to receive an allowance of 95% (if the participant and spouse's ages are the same) of the amounts otherwise payable with a survivor benefit payable to the spouse for the spouse's lifetime of 60% of the reduced amount.

Schedule SB Attachment (Form 5500)—2017 Plan Year
Pilkington North America, Inc. Hourly Employees Pension Plan
EIN: 34-1506654 PN: 040

95% is increased by $\frac{1}{2}\%$ (up to a maximum of 100%) for each 12 months in excess of five years by which the spouse's age exceeds the participant's age and decreased by $\frac{1}{2}\%$ for each 12 months in excess of five years by which the spouse's age is less than the participant's age.

Minimum Preretirement Survivor

For a salaried employee who dies prior to retirement but after becoming eligible for these minimum benefits, the surviving spouse shall be entitled to a monthly benefit for life, commencing the first of the month after the employee's death. The monthly benefit is the amount the spouse would have been entitled to receive under the minimum survivor benefit option if the employee had retired on the date of death.

The surviving spouse of a salaried employee who dies after attaining 10 or more years of eligibility service but prior to becoming eligible for retirement benefits shall be entitled to a monthly benefit commencing at any time after the employee would have attained age 60. The amount of this benefit is 50% of the minimum normal benefit reduced as defined under the minimum survivor benefit option and additionally reduced by $\frac{5}{9}\%$ for each complete calendar month prior to the date the employee would have attained age 65.

Deferred Vested
Eligibility/Benefit

An employee who terminates with at least five years of vesting service is eligible to receive deferred vested early retirement benefits as early as age 50 on an actuarially reduced basis.

Participant Past Normal Retirement Age

The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.

Preretirement Survivor Retirement
Eligibility/Benefit

An employee who dies prior to retirement benefit commencement is deemed to have terminated on the date of death, survived to earliest retirement age, retired under the 50% joint and survivor form of benefit and died the next day.

Definitions
Actuarial Equivalence

The optional payment form conversion factors are based on the 1984 Unisex Pensioner Mortality table set back two years, and an 8% interest rate.

Forms of Payment

Lump sum if the present value of the benefit is \$5,000 or less; single life annuity; 10-year certain only annuity; 10 year certain and continuous annuity; 50%, 75%, or 100% joint and survivor annuity.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date Originally effective: May 15, 1949. The plan was restated as of January 1, 2009, and most recently amended September 10, 2015.

Participation Any employee of the company who is a member of a bargaining unit covered by the plan on or before December 31, 1988 is a participant under the terms of the plan.

Plan Status The credited service and pay were frozen on the following dates:

Plant	Service	Pay
Rossford, Ottawa, Lathrop	12/31/1988	N/A
Laurinburg	12/31/1986	12/31/1999

Rossford, Ottawa, and Lathrop

Normal Retirement
Eligibility

An employee is eligible to receive normal retirement benefits upon attaining age 65 after attaining five years of continuous service.

Benefit

The monthly benefit payable at normal retirement age is determined based on the following benefit rates per year of credited service:

Plant	Effective	Years <18	Years >=18 and <28	Years 28+
Lathrop	11/01/1995	\$23.00	\$25.00	\$27.30
Ottawa	11/01/1995	\$19.50	\$23.00	\$25.30
Rossford	07/01/1987	\$16.00	\$19.00	\$21.30

Early Retirement
Eligibility

An employee is eligible for early retirement benefits upon attaining the earlier of (i) age 60 with 10 years of continuous service or (ii) age 55 with age plus service at least 85.

Benefit

The monthly benefit payable upon attaining early retirement eligibility is the normal retirement benefit multiplied by the following early retirement factor (ERF) based on age at benefit commencement.

Age	ERF
55	0.579
56	0.635
57	0.694
58	0.752
59	0.808
60	0.867
61	0.933
62	1.000

EIN: 34-1506654 PN: 040

Deferred Vested Early Retirement
Eligibility

An employee who terminates with at least five years of continuous service is eligible to receive deferred vested early retirement benefits as early as age 60.

Benefit

The deferred vested early retirement benefit is as calculated under the normal retirement benefit reduced by 5/900 for each month retirement precedes age 65.

Participant Past Normal Retirement Age

The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.

Special Early (Double Dip)
Eligibility

An employee is eligible for special early (Double Dip) retirement benefits upon attaining age 60 (but must not have attained age 65) with 15 years of continuous service.

Benefit

The special early (Double Dip) benefit is two times the benefit calculated under normal retirement plus a \$200 temporary monthly supplement payable from retirement under special early retirement eligibility until age 65, at which time the normal retirement benefit is payable.

Special Thirty Retirement
Eligibility

An employee is eligible for special thirty retirement benefits upon attainment of age 56 and 30 years of continuous service. However, an employee who attained 30 years of continuous service by December 31, 1995 is grandfathered and allowed to retire on or after May 1, 1996 prior to age 56.

Benefit

The special thirty benefit provides for a supplement to bring monthly benefit payments defined under early retirement up to the level indicated in the following:

Plant	Effective	Benefit Until Age 62	Monthly Benefit
			After Age 62
Lathrop	10/01/1998	\$1,315.00	Normal Benefit
Ottawa	07/01/1995	\$1,315.00	Normal Benefit
Rossford	03/01/1995	\$1,215.00	Normal Benefit

Schedule SB Attachment (Form 5500)—2017 Plan Year
Pilkington North America, Inc. Hourly Employees Pension Plan
EIN: 34-1506654 PN: 040

Disability Retirement
Eligibility

An employee with 10 years of continuous service is eligible for disability benefits if totally and permanently disabled for at least six months while in active employment or within the first two years of layoff. Eligibility for disability benefits ends when the employee is no longer totally and permanently disabled.

Benefit

The benefit determined under normal retirement (not less than \$100 per month) is payable immediately for life. In addition, a temporary monthly benefit of \$14 per year of service (not more than 25 years) is payable until age 65 for those employees who do not qualify for Social Security disability benefits. Participants with 30 years of continuous service are also eligible for the supplements described under Special Thirty Benefits.

Supplemental Benefit

In addition to the benefits described above, a supplemental benefit of \$5.06 per month is payable over the life of the participant only. This benefit is not doubled under Special Early.

Preretirement Survivor Retirement
Eligibility/Benefit

An employee who dies prior to retirement benefit commencement is deemed to have terminated on the date of death, survived to the deferred vested early retirement age, retired under the 50% joint and survivor form of benefit and died the next day.

Postretirement Survivor Retirement
Eligibility/Benefit

At the time of retirement, an employee may elect to receive 95% of the life only form of benefit which is payable as the 60% joint and survivor form of benefit if the age of the employee and spouse are the same. The conversion factor of 95% is increased by $\frac{1}{2}\%$ (up to a maximum of 100%) for each 12 months in excess of five years the spouse's age exceeds the employee's age and decreased by $\frac{1}{2}\%$ for each 12 months in excess of five years by which the spouse's age is less than the employee's age. 60% of the benefit payable while the employee is alive is payable to the surviving spouse after the employee dies.

Laurinburg

Normal Retirement
Eligibility

A member shall be eligible to retire on the first of the month after having reached age 65.

1974 Benefit

The basic monthly benefit will be 1% of the covered effective compensation for each year of credited service plus 1.5% of the excess effective covered compensation for each year of credited service. The benefit is payable for the lifetime of the member, with 50% continued to the member's surviving spouse or children under a specified age, after the member's death.

For retirement on and after January 1, 2000, the 1974 benefit is increased by 10%.

Early Retirement
Eligibility

An employee is eligible for an early retirement allowance upon attaining the earlier of age 55 and 10 years of eligibility service, or age 60 and five years of eligibility service.

1974 Benefit

The early retirement allowance will be the normal retirement basic monthly benefit, reduced by 0.5% for each month before age 62.

Disability Retirement
Eligibility

Having completed five years of eligibility service, and having been totally and permanently disabled for at least six consecutive months, the employee shall be eligible for a disability retirement allowance.

1974 Benefit

The disability retirement allowance will be the normal retirement basic monthly benefit payable on an actuarially reduced basis. Employees at the Laurinburg location receive this benefit without any reduction. The disability retirement benefit is reduced by any other company-provided disability benefits.

Deferred Vested Retirement
Eligibility

Five years of service and termination of employment, other than by death, entitles a member to a deferred vested retirement allowance.

1974 Benefit

The normal retirement basic monthly benefit allowance for all participants after five years of service. Benefits may be received as early as age 55 on an actuarially reduced basis from age 65.

Participant Past Normal Retirement Age	The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.
Preretirement Surviving Spouse's Benefit Eligibility	Death of a married member, after having fulfilled vesting eligibility, entitles the surviving spouse to a benefit.
1974 Benefit	The monthly benefit will be one-half of the early retirement benefit which the employee would have received if he/she had retired the first day of the month preceding death. The benefit should be payable to the surviving spouse at the employee's earliest retirement age.
Postretirement Surviving Spouse's Benefit Eligibility	Death of a retired member, disabled retiree or vested termination receiving benefits, entitles the family to a monthly payment.
1974 Benefit	The monthly benefit will be one-half of the retirement allowance. This amount is payable to the surviving spouse as long as he/she is alive, or to parentless children until age 18 or age 23, if in school.
Forms of Payment	A participant may elect to receive the 1974 normal retirement benefit, 1974 early retirement benefit, 1974 disability benefit, or the 1974 deferred vested benefit on an actuarially reduced basis in the form of a 10-year certain and continuous annuity, or 50%, 66⅔%, 75%, or 100% joint and survivor annuity form based on the definition of actuarial equivalence defined below. A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse.)
Optional Forms of Payment	50% contingent annuity, beneficiary other than spouse.
Definitions	
Effective Compensation	The average annual compensation during the five highest paid consecutive calendar years of service through December 31, 1999. Effective for participants who retire on or after January 1, 2000, compensation earned after December 31, 1999 is not used to determine retirement benefits.

Schedule SB Attachment (Form 5500)—2017 Plan Year
Pilkington North America, Inc. Hourly Employees Pension Plan
EIN: 34-1506654 PN: 040

Covered Effective Compensation

The 35-year average of Social Security taxable wage bases ending in the year a participant attains Social Security normal retirement age. The Social Security wage base is projected level forward in making this determination.

Effective for participants who retire on or after January 1, 2000, this value is determined based on the Social Security taxable wage bases through 1999 and does not increase based on any increases to the Social Security taxable wage bases in the year 2000 or later. However, the covered effective compensation is determined by projecting the Social Security taxable wage base in effect during the most recent year that compensation was used in the determination of effective compensation.

Credited Service

Effective December 31, 1986 (June 30, 1987 for participants in the Modern Tools Plan), credited service used to determine the amount of plan benefits was frozen.

Eligibility Service

Although credited service was frozen, eligibility service continues to accrue for purposes of determining eligibility for retirement benefits.

An employee who transfers to salaried status covered by the plan from a status not covered by the plan shall have the period of service while not covered by the plan included solely for the purpose of determining eligibility for benefits.

Actuarial Equivalence

For optional forms of benefit, use the immediate annuity rate published by the Pension Benefit Guaranty Corporation as of the first day of each plan year, and the UP-1984 Mortality table. For distributions after December 1995, the single lump sum value of a participant's benefit is determined using the "applicable mortality table" and "applicable interest rate" determined under Section 417(e)(3)(A) of the Internal Revenue Code.

Determined based on the 1951 Group Annuity Mortality table projected to 1975 by Scale C, with a one-year setback for pensioners and a six-year setback for spouses. Interest is the "Factor K-1" promulgated by the Pension Guaranty Corporation as of January 1 (for retirements after February 1, 1991).

Participants may elect to receive benefits on an actuarially adjusted basis in the form of a 10-year certain and continuous annuity, or 50%, 66⅔%, 75%, or 100% joint and survivor annuity form based on the definition of actuarial equivalence. A married participant must have notarized spousal consent to receive a form of benefit other than a qualified joint and survivor annuity (including the designation of a beneficiary other than his spouse).

Minimum Benefits Under the
1974 Plan (Article III Benefits)

A salaried employee actively employed at the time of his retirement and who retires after January 1, 1987 may elect to receive the following minimum benefits in lieu of and in substitution for any other benefits under this plan. (For the purpose of valuation calculations, it has been assumed that this election is made whenever it produces a larger benefit.)

Forms of Benefits
Minimum Normal Retirement

With at least 10 years of eligibility service at normal retirement, the participant may elect to receive a pension equal to the number of years of credited service as of the earlier of the normal retirement date (or current age for employees over age 65) and December 31, 1986 (June 30, 1987 with respect to former participants in the Modern Tools Plan) multiplied by the following amounts:

Credited Service	Annual Multiplier
< = 19	\$180.00
> 19, < = 29	\$216.00
> 29	\$240.00

Retirements after October 1, 1987:

Credited Service	Annual Multiplier
< = 18	\$192.00
> 18, < = 28	\$228.00
> 28	\$255.60

This benefit is payable as a life only annuity.

If, at the time of retirement, the participant is actively employed and has attained age 62 with 15 or more years of eligibility service, the minimum early benefit is doubled for each monthly payment up to and including the earlier of the month in which age 65 is attained or until eligible for an unreduced old age or disability Social Security allowance.

Minimum Special Thirty

An active salaried employee who retires with 30 years of eligibility service may elect to receive a benefit equal to the amount of the minimum early retirement benefit, plus a special allowance to bring his annual benefit to \$10,980.

A person that qualifies for this benefit and has less than 30 years of credited service as of December 31, 1986 shall receive a fraction of this benefit relative to credited service as of December 31, 1986 divided by 30 years.

At age 62, the minimum normal retirement benefit is payable.

Minimum Survivor Option

In lieu of minimum normal, minimum early, or special thirty benefits, a participant may elect to receive an allowance of 95% (if the participant and spouse's ages are the same) of the amounts otherwise payable with a survivor benefit payable to the spouse for the spouse's lifetime of 60% of the reduced amount.

Schedule SB Attachment (Form 5500)—2017 Plan Year

EIN: 34-1506654 PN: 040

95% is increased by $\frac{1}{2}\%$ (up to a maximum of 100%) for each 12 months in excess of five years by which the spouse's age exceeds the participant's age and decreased by $\frac{1}{2}\%$ for each 12 months in excess of five years by which the spouse's age is less than the participant's age.

Minimum Preretirement Survivor

For a salaried employee who dies prior to retirement but after becoming eligible for these minimum benefits, the surviving spouse shall be entitled to a monthly benefit for life, commencing the first of the month after the employee's death. The monthly benefit is the amount the spouse would have been entitled to receive under the minimum survivor benefit option if the employee had retired on the date of death.

The surviving spouse of a salaried employee who dies after attaining 10 or more years of eligibility service but prior to becoming eligible for retirement benefits shall be entitled to a monthly benefit commencing at any time after the employee would have attained age 60. The amount of this benefit is 50% of the minimum normal benefit reduced as defined under the minimum survivor benefit option and additionally reduced by $\frac{5}{9}\%$ for each complete calendar month prior to the date the employee would have attained age 65.

Deferred Vested
Eligibility/Benefit

An employee who terminates with at least five years of vesting service is eligible to receive deferred vested early retirement benefits as early as age 50 on an actuarially reduced basis.

Participant Past Normal Retirement Age

The participant receives a make-up payment to reflect any missed payments from the retroactive annuity starting date (normal retirement date) to the date of the actual make-up payment with an appropriate adjustment for interest on the missed payments.

Preretirement Survivor Retirement
Eligibility/Benefit

An employee who dies prior to retirement benefit commencement is deemed to have terminated on the date of death, survived to earliest retirement age, retired under the 50% joint and survivor form of benefit and died the next day.

Definitions
Actuarial Equivalence

The optional payment form conversion factors are based on the 1984 Unisex Pensioner Mortality table set back two years, and an 8% interest rate.

Forms of Payment

Lump sum if the present value of the benefit is \$5,000 or less; single life annuity; 10-year certain only annuity; 10 year certain and continuous annuity; 50%, 75%, or 100% joint and survivor annuity.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pilkington North America, Inc. Hourly Employees Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits - modified cash basis as of December 31, 2017 and 2016 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the modified cash basis financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investment assets and execute related transactions. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter

The modified cash basis supplemental schedule of assets held at year end as of December 31, 2017 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Pilkington North America, Inc. Hourly Employees Pension Plan

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 1 - Plan Description

The following description of Pilkington North America, Inc. Hourly Employees Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that provides retirement and disability benefits to certain hourly employees represented by the United Steelworkers of America, AFL-CIO, CLC (the "Union") at certain Pilkington North America, Inc. (the "Company") plants, former represented employees of the Company, and former employees of Pilkington Visioncare, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan also includes participants who transferred from the Restated Salaried Retirement Plan, part of a group of plans that were established on October 7, 1985 also related to Pilkington North America, Inc. Upon receiving approval from the Pension Benefit Guaranty Corporation (PBGC), the assets of the original plans were used to purchase annuity contracts for payment of participant benefits accrued to October 7, 1985.

Eligibility and Vesting

The Plan was frozen with respect to new participants effective December 31, 1986 (June 30, 1987 for certain other participants, as defined in the plan agreement); therefore, participants' benefits are fully vested.

Pension Benefits

The normal monthly retirement benefit is calculated as either (a) certain percentages of average monthly compensation (defined by the Plan), multiplied by the participant's years of benefit service, or (b) years of benefit service multiplied by fixed dollar amounts, as set forth in the applicable attachments to the Plan. The normal benefit is adjusted for early or late retirement, disability, or upon the participant's death, as stated in the Plan.

Funding

Contributions are made by the Company in actuarially determined amounts to fund the Plan's current service costs and to fund, over a maximum of 30 years, the Plan's past service costs. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Party-in-interest Transactions

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Certain plan assets are in investment funds managed by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company or their affiliates. The Northern Trust Company and Prudential Retirement Insurance and Annuity Company are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The fair value of the Plan's interest in the Pilkington North America, Inc. Master Retirement Trust (the "Master Trust") is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's and Plan's investments are stated at fair value.

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 2 - Summary of Significant Accounting Policies (Continued)

The pooled separate accounts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. The U.S. corporate bonds are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The money market fund is valued at fair value based on its outstanding balance. All other investments are valued based on quoted market prices reported in active markets. See Notes 4 and 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Basis of Accounting

The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received and expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligations are incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon Hewitt Associates, LLC and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2017 are summarized as follows:

Actuarial cost method	Projected unit credit cost method
Retirement	Various rates of retirement are assumed beginning at age 55. All participants are assumed to retire by age 63.
Assumed rate of return	4.50 percent per annum
Mortality Table	RP-2014 Employees and Healthy Annuitants Mortality Table with Blue Collar adjustment with mortality improvement using Scale MP-2017

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 2 - Summary of Significant Accounting Policies (Continued)

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact and no additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Significant estimates are used in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 10, 2018, which is the date the financial statements were available to be issued. See Note 10.

Upcoming Accounting Pronouncement

In February 2017, the FASB issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the Master Trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management has not completed their analysis of the impact from the adoption of this ASU on the Plan's financial statements.

Note 3 - Unaudited Information

The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees") hold the Plan's investments and execute all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including master trust information included in Note 4, are based solely on information certified by the Trustees.

Note 4 - Interest in Master Trust

A majority of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and Pilkington North America, Inc. Restated Salaried Retirement Plan. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by The Northern Trust Company.

Pilkington North America, Inc. Hourly Employees Pension Plan

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 4 - Interest in Master Trust (Continued)

At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 70 percent. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The fair value of investments for the Master Trust at December 31, 2017 and 2016 are as follows:

	2017	2016
Master trust investments:		
Money market fund	\$ 717,046	\$ 2,771,876
Corporate bonds	190,837,533	188,922,625
Common stocks	-	4,694,815
Total master trust investments	<u>\$ 191,554,579</u>	<u>\$ 196,389,316</u>

The investment income for the Master Trust for the years ended December 31, 2017 and 2016 is as follows:

	2017	2016
Net realized and unrealized gains and losses	\$ 17,372,996	\$ 14,834,934
Interest	7,912	4,287
Net investment income	<u>\$ 17,380,908</u>	<u>\$ 14,839,221</u>

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the postretirement benefit obligation attributable to participants in the Plan, which were made as of and for the year ended January 1, 2017, the most recent actuarial valuation by Aon Hewitt Associates, LLC, are as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Retired employees	\$ 143,653,459
Active, terminated, and transferred employees not presently receiving benefits	16,013,611
Total vested benefits	159,667,070
Nonvested benefits	103,485
Total actuarial present value of accumulated plan benefits	<u>\$ 159,770,555</u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2017 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 166,450,548
Increase (decrease) during the year attributable to:	
Interest accumulation	7,905,056
Benefits paid	(16,905,058)
Changes in actuarial assumptions	4,240,417
Other	(1,920,408)
Net decrease	<u>(6,679,993)</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 159,770,555</u>

Pilkington North America, Inc. Hourly Employees Pension Plan

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 5 - Accumulated Plan Benefits (Continued)

The assumption changes relate to a change in the mortality improvement scale from MP-2016 to MP-2017. The expected long-term rate of return on plan assets decreased from 5.00 percent to 4.50 percent.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's and Master Trust's assets measured at fair value on a recurring basis at December 31, 2017 and 2016. The Plan did not hold assets outside of the Master Trust at December 31, 2016.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

	Assets Measured at Fair Value at December 31, 2017		
	Master Trust Balance	Level 1	Level 2

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to "substantial owners" of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pilkington North America, Inc. Hourly Employees Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits - modified cash basis as of December 31, 2017 and 2016 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the modified cash basis financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investment assets and execute related transactions. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2017 and 2016 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter

The modified cash basis supplemental schedule of assets held at year end as of December 31, 2017 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Pilkington North America, Inc. Hourly Employees Pension Plan

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 1 - Plan Description

The following description of Pilkington North America, Inc. Hourly Employees Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan that provides retirement and disability benefits to certain hourly employees represented by the United Steelworkers of America, AFL-CIO, CLC (the "Union") at certain Pilkington North America, Inc. (the "Company") plants, former represented employees of the Company, and former employees of Pilkington Visioncare, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan also includes participants who transferred from the Restated Salaried Retirement Plan, part of a group of plans that were established on October 7, 1985 also related to Pilkington North America, Inc. Upon receiving approval from the Pension Benefit Guaranty Corporation (PBGC), the assets of the original plans were used to purchase annuity contracts for payment of participant benefits accrued to October 7, 1985.

Eligibility and Vesting

The Plan was frozen with respect to new participants effective December 31, 1986 (June 30, 1987 for certain other participants, as defined in the plan agreement); therefore, participants' benefits are fully vested.

Pension Benefits

The normal monthly retirement benefit is calculated as either (a) certain percentages of average monthly compensation (defined by the Plan), multiplied by the participant's years of benefit service, or (b) years of benefit service multiplied by fixed dollar amounts, as set forth in the applicable attachments to the Plan. The normal benefit is adjusted for early or late retirement, disability, or upon the participant's death, as stated in the Plan.

Funding

Contributions are made by the Company in actuarially determined amounts to fund the Plan's current service costs and to fund, over a maximum of 30 years, the Plan's past service costs. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA. No participant contributions are permitted.

Party-in-interest Transactions

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Certain plan assets are in investment funds managed by The Northern Trust Company and Prudential Retirement Insurance and Annuity Company or their affiliates. The Northern Trust Company and Prudential Retirement Insurance and Annuity Company are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The fair value of the Plan's interest in the Pilkington North America, Inc. Master Retirement Trust (the "Master Trust") is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's and Plan's investments are stated at fair value.

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 2 - Summary of Significant Accounting Policies (Continued)

The pooled separate accounts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. The U.S. corporate bonds are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. The money market fund is valued at fair value based on its outstanding balance. All other investments are valued based on quoted market prices reported in active markets. See Notes 4 and 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Basis of Accounting

The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received and expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligations are incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon Hewitt Associates, LLC and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2017 are summarized as follows:

Actuarial cost method	Projected unit credit cost method
Retirement	Various rates of retirement are assumed beginning at age 55. All participants are assumed to retire by age 63.
Assumed rate of return	4.50 percent per annum
Mortality Table	RP-2014 Employees and Healthy Annuitants Mortality Table with Blue Collar adjustment with mortality improvement using Scale MP-2017

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 2 - Summary of Significant Accounting Policies (Continued)

Allocated Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact and no additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Significant estimates are used in determining the actuarial present value of accumulated plan benefits.

Risks and Uncertainties

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 10, 2018, which is the date the financial statements were available to be issued. See Note 10.

Upcoming Accounting Pronouncement

In February 2017, the FASB issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the Master Trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management has not completed their analysis of the impact from the adoption of this ASU on the Plan's financial statements.

Note 3 - Unaudited Information

The Northern Trust Company and Prudential Retirement Insurance and Annuity Company (collectively, the "Trustees") hold the Plan's investments and execute all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including master trust information included in Note 4, are based solely on information certified by the Trustees.

Note 4 - Interest in Master Trust

A majority of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and Pilkington North America, Inc. Restated Salaried Retirement Plan. Each participating benefit plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by The Northern Trust Company.

Pilkington North America, Inc. Hourly Employees Pension Plan

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 4 - Interest in Master Trust (Continued)

At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 70 percent. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The fair value of investments for the Master Trust at December 31, 2017 and 2016 are as follows:

	2017	2016
Master trust investments:		
Money market fund	\$ 717,046	\$ 2,771,876
Corporate bonds	190,837,533	188,922,625
Common stocks	-	4,694,815
Total master trust investments	<u>\$ 191,554,579</u>	<u>\$ 196,389,316</u>

The investment income for the Master Trust for the years ended December 31, 2017 and 2016 is as follows:

	2017	2016
Net realized and unrealized gains and losses	\$ 17,372,996	\$ 14,834,934
Interest	7,912	4,287
Net investment income	<u>\$ 17,380,908</u>	<u>\$ 14,839,221</u>

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries. The calculations of the postretirement benefit obligation attributable to participants in the Plan, which were made as of and for the year ended January 1, 2017, the most recent actuarial valuation by Aon Hewitt Associates, LLC, are as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Retired employees	\$ 143,653,459
Active, terminated, and transferred employees not presently receiving benefits	16,013,611
Total vested benefits	159,667,070
Nonvested benefits	103,485
Total actuarial present value of accumulated plan benefits	<u>\$ 159,770,555</u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2017 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 166,450,548
Increase (decrease) during the year attributable to:	
Interest accumulation	7,905,056
Benefits paid	(16,905,058)
Changes in actuarial assumptions	4,240,417
Other	(1,920,408)
Net decrease	(6,679,993)
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 159,770,555</u>

Pilkington North America, Inc. Hourly Employees Pension Plan

Notes to Modified Cash Basis Financial Statements

December 31, 2017 and 2016

Note 5 - Accumulated Plan Benefits (Continued)

The assumption changes relate to a change in the mortality improvement scale from MP-2016 to MP-2017. The expected long-term rate of return on plan assets decreased from 5.00 percent to 4.50 percent.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's and Master Trust's assets measured at fair value on a recurring basis at December 31, 2017 and 2016. The Plan did not hold assets outside of the Master Trust at December 31, 2016.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Provide benefits for all participants or beneficiaries whose benefits have been, or could have been, in pay status for the entire three-year period prior to termination, based on the plan provisions in effect during the five-year period ending on such date under which such benefit would be the least
2. Provide all other benefits guaranteed under Title IV of the Employee Retirement Income Security Act of 1974 (without regard to the limitation of Section 4022(b)(3) or the limitation on benefits payable to "substantial owners" of Section 4022(b)(5))
3. Provide all other vested benefits other than those becoming nonforfeitable solely on account of the termination of the Plan
4. Provide all other benefits under the Plan

The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Note 8 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
