Post Acute Partners Retirement Plan:

Report on the Financial Statement
We were engaged to audit the accompanying financial statements of the Post Acute Partners Retirement Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2017, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Bank and Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company, the custodians of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodians as of and for the year ended December 31, 2017, that the information provided to the plan administrator by the custodians is complete and accurate.

1. DESCRIPTION OF PLAN

The following description of the Post Acute Partners Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed, defined contribution plan covering all full-time, nonunion employees of Post Acute Partners, LLC and Affiliates (collectively the "Company") who are over the age of 18. Prudential Bank and Trust, F.S.B. (PBT) serves as the trustee and custodian of the Plan and Prudential Retirement Insurance and Annuity Company (PRIAC) serves as a custodian to the Plan. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may make pre-tax or post-tax contributions from their compensation, up to amounts permissible under ERISA and the Internal Revenue Service. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Salary deferrals from participants and employer contributions are directed by participants to investment options made available by the Plan.

For the plan year ended December 31, 2016 the Company had the ability to make discretionary matching contributions as deemed appropriate. Effective January 1, 2017, the employer match is no longer discretionary. For the 2017 and 2016 plan years, the Company's matching contributions are equal to 50% of up to the first 4% of eligible compensation. To be eligible for a Company match, a participant is required to have one year of service, complete 1,000 hours of service during the plan year, and be employed on the last day of the year.

The Company may also make discretionary profit sharing contributions to all eligible participants based on eligible compensation. To be eligible for a Company discretionary profit sharing contribution, a participant is required to have one year of service and be an active employee at the end of the year. There were no discretionary profit sharing contributions made for 2017 or 2016.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) plan earnings/losses, and (c) charged with an allocation of plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. The maximum loan term is 60 months or up to 360 months for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions. The default of a loan is deemed a taxable distribution of the unpaid balance.

1. DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants (Continued)

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

Vesting

Participants are immediately vested in their elective and rollover deferral contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits

Active participants may receive distributions from their elective contribution account and their rollover contribution account at any time after attaining the age of 59 1/2 or due to hardships as defined in the Plan. Upon termination of service, disability, or retirement (age 65), a participant is entitled to a lump-sum payment if their account balance is equal to or less than $5,000 at the time of distribution. Benefit payments are recorded when paid.

Forfeitures

During 2017 and 2016, $101,000 and $87,570 in forfeited non-vested accounts were used to reduce employer contributions. At December 31, 2017 and 2016, unallocated forfeitures totaled $128,024 and $112,639. These accounts will be used to offset future employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments in mutual funds and pooled separate accounts are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements. The Plan's investment in its guaranteed income fund is stated at contract value as reported by Prudential Retirement.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in the net appreciation in the fair market value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses

Expenses of administering the Plan, other than loans fees, are paid by the Plan. Certain administrative expenses are paid with forfeitures.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, political, currency, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

3. GUARANTEED INVESTMENT CONTRACT

Plan investments include a guaranteed income fund with PRIAC, which is a fully benefit-responsive investment contract. The fund is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses. The guaranteed investment fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2017 was $1,588,203. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 2%. Such interest rates are reviewed on a semi-annual basis for resetting.

For the year ended December 31, 2016, the Plan had a guaranteed group annuity contract with Principal Life Insurance Company, which is a fully benefit-responsive investment contract, backed by the assets of the general account of Principal Life Insurance Company. Principal maintained the contributions in their general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Benefit payments are made at contract value (no termination or surrender charges) for Plan benefit events and investment transfers initiated by Plan participants.

Because the guaranteed investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2016 was $1,204,573. The crediting interest rate, which is based on a formula agreed upon with the issuer, was 1.75% for the year ended December 31, 2016.

4. CERTIFIED INVESTMENT INFORMATION

The Plan Administrator has obtained certifications from the plan custodians, PBT and PRIAC (custodians to the Plan), as of and for the year ended December 31, 2017 and Principal Life Insurance Company for the year ended December 31, 2016, that the following information is complete and accurate at December 31:

	2017	2016
Investments, at fair value	$ 28,302,300	$ 21,850,510
Investments, at contract value	$ 1,588,203	$ 1,204,573

5. FAIR VALUE MEASUREMENTS

ASC 820-10 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds
Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

5. FAIR VALUE MEASUREMENTS (Continued)

Pooled Separate Accounts
Valued at fair value using the NAV per share practical expedient, which is derived from the market value of the underlying investments. The net asset value of the funds are calculated and posted daily by the custodians. The investment strategies of the pooled separate account funds are generally to invest in underlying funds with the goal of producing favorable long-term returns and growth and to provide a reliable source of income to plan participants, depending on the overall fund objectives. There are no restrictions on redemption of the pooled separate accounts. There are no unfunded commitments.

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 28,302,300	$ -	$ -	$ 28,302,300
Investments at fair value	$ 28,302,300	-	-	$ 28,302,300

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 20,892,091	$ -	$ -	$ 20,892,091
Investments, measured using the net asset value as a practical expedient (a)				958,419
Total investments at fair value				$ 21,850,510

(a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

6. INVESTMENTS MEASURED AT NET ASSET VALUE (NAV) PER SHARE

For the year ended December 31, 2017, the Plan held no investments for which fair value is measured using the net asset value per share practical expedient.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Available)
Pooled separate accounts	$ 958,419	n/a	Daily

7. PARTY-IN-INTEREST TRANSACTIONS

PBT and PRIAC are custodians of the Plan's investments. As such, transactions between these parties and the Plan qualify as party-in-interest transactions under ERISA. Additionally, transactions involving notes receivable from participants qualify as party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are entitled to the entire amount of their account.

9. INCOME TAX STATUS

The Plan obtained its latest determination letter on December 14, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. SUBSEQUENT EVENTS

Subsequent events have been evaluated though October 11, 2018, which is the date the financial statements were available to be issued.

1. DESCRIPTION OF PLAN

The following description of the Post Acute Partners Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed, defined contribution plan covering all full-time, nonunion employees of Post Acute Partners, LLC and Affiliates (collectively the "Company") who are over the age of 18. Prudential Bank and Trust, F.S.B. (PBT) serves as the trustee and custodian of the Plan and Prudential Retirement Insurance and Annuity Company (PRIAC) serves as a custodian to the Plan. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may make pre-tax or post-tax contributions from their compensation, up to amounts permissible under ERISA and the Internal Revenue Service. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Salary deferrals from participants and employer contributions are directed by participants to investment options made available by the Plan.

For the plan year ended December 31, 2016 the Company had the ability to make discretionary matching contributions as deemed appropriate. Effective January 1, 2017, the employer match is no longer discretionary. For the 2017 and 2016 plan years, the Company's matching contributions are equal to 50% of up to the first 4% of eligible compensation. To be eligible for a Company match, a participant is required to have one year of service, complete 1,000 hours of service during the plan year, and be employed on the last day of the year.

The Company may also make discretionary profit sharing contributions to all eligible participants based on eligible compensation. To be eligible for a Company discretionary profit sharing contribution, a participant is required to have one year of service and be an active employee at the end of the year. There were no discretionary profit sharing contributions made for 2017 or 2016.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) plan earnings/losses, and (c) charged with an allocation of plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. The maximum loan term is 60 months or up to 360 months for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions. The default of a loan is deemed a taxable distribution of the unpaid balance.

1. DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants (Continued)

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

Vesting

Participants are immediately vested in their elective and rollover deferral contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits

Active participants may receive distributions from their elective contribution account and their rollover contribution account at any time after attaining the age of 59 1/2 or due to hardships as defined in the Plan. Upon termination of service, disability, or retirement (age 65), a participant is entitled to a lump-sum payment if their account balance is equal to or less than $5,000 at the time of distribution. Benefit payments are recorded when paid.

Forfeitures

During 2017 and 2016, $101,000 and $87,570 in forfeited non-vested accounts were used to reduce employer contributions. At December 31, 2017 and 2016, unallocated forfeitures totaled $128,024 and $112,639. These accounts will be used to offset future employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments in mutual funds and pooled separate accounts are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements. The Plan's investment in its guaranteed income fund is stated at contract value as reported by Prudential Retirement.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in the net appreciation in the fair market value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses

Expenses of administering the Plan, other than loans fees, are paid by the Plan. Certain administrative expenses are paid with forfeitures.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, political, currency, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

3. GUARANTEED INVESTMENT CONTRACT

Plan investments include a guaranteed income fund with PRIAC, which is a fully benefit-responsive investment contract. The fund is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses. The guaranteed investment fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2017 was $1,588,203. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 2%. Such interest rates are reviewed on a semi-annual basis for resetting.

For the year ended December 31, 2016, the Plan had a guaranteed group annuity contract with Principal Life Insurance Company, which is a fully benefit-responsive investment contract, backed by the assets of the general account of Principal Life Insurance Company. Principal maintained the contributions in their general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Benefit payments are made at contract value (no termination or surrender charges) for Plan benefit events and investment transfers initiated by Plan participants.

Because the guaranteed investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2016 was $1,204,573. The crediting interest rate, which is based on a formula agreed upon with the issuer, was 1.75% for the year ended December 31, 2016.

4. CERTIFIED INVESTMENT INFORMATION

The Plan Administrator has obtained certifications from the plan custodians, PBT and PRIAC (custodians to the Plan), as of and for the year ended December 31, 2017 and Principal Life Insurance Company for the year ended December 31, 2016, that the following information is complete and accurate at December 31:

	2017	2016
Investments, at fair value	$ 28,302,300	$ 21,850,510
Investments, at contract value	$ 1,588,203	$ 1,204,573

5. FAIR VALUE MEASUREMENTS

ASC 820-10 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds
Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

5. FAIR VALUE MEASUREMENTS (Continued)

Pooled Separate Accounts
Valued at fair value using the NAV per share practical expedient, which is derived from the market value of the underlying investments. The net asset value of the funds are calculated and posted daily by the custodians. The investment strategies of the pooled separate account funds are generally to invest in underlying funds with the goal of producing favorable long-term returns and growth and to provide a reliable source of income to plan participants, depending on the overall fund objectives. There are no restrictions on redemption of the pooled separate accounts. There are no unfunded commitments.

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 28,302,300	$ -	$ -	$ 28,302,300
Investments at fair value	$ 28,302,300	-	-	$ 28,302,300

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 20,892,091	$ -	$ -	$ 20,892,091
Investments, measured using the net asset value as a practical expedient (a)				958,419
Total investments at fair value				$ 21,850,510

(a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

6. INVESTMENTS MEASURED AT NET ASSET VALUE (NAV) PER SHARE

For the year ended December 31, 2017, the Plan held no investments for which fair value is measured using the net asset value per share practical expedient.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Available)
Pooled separate accounts	$ 958,419	n/a	Daily

7. PARTY-IN-INTEREST TRANSACTIONS

PBT and PRIAC are custodians of the Plan's investments. As such, transactions between these parties and the Plan qualify as party-in-interest transactions under ERISA. Additionally, transactions involving notes receivable from participants qualify as party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are entitled to the entire amount of their account.

9. INCOME TAX STATUS

The Plan obtained its latest determination letter on December 14, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. SUBSEQUENT EVENTS

Subsequent events have been evaluated though October 11, 2018, which is the date the financial statements were available to be issued.

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Bank and Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company, the custodians of the Plan, except for comparing the information with the related information included in the financial statements. 1. DESCRIPTION OF PLAN

The following description of the Post Acute Partners Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed, defined contribution plan covering all full-time, nonunion employees of Post Acute Partners, LLC and Affiliates (collectively the "Company") who are over the age of 18. Prudential Bank and Trust, F.S.B. (PBT) serves as the trustee and custodian of the Plan and Prudential Retirement Insurance and Annuity Company (PRIAC) serves as a custodian to the Plan. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may make pre-tax or post-tax contributions from their compensation, up to amounts permissible under ERISA and the Internal Revenue Service. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Salary deferrals from participants and employer contributions are directed by participants to investment options made available by the Plan.

For the plan year ended December 31, 2016 the Company had the ability to make discretionary matching contributions as deemed appropriate. Effective January 1, 2017, the employer match is no longer discretionary. For the 2017 and 2016 plan years, the Company's matching contributions are equal to 50% of up to the first 4% of eligible compensation. To be eligible for a Company match, a participant is required to have one year of service, complete 1,000 hours of service during the plan year, and be employed on the last day of the year.

The Company may also make discretionary profit sharing contributions to all eligible participants based on eligible compensation. To be eligible for a Company discretionary profit sharing contribution, a participant is required to have one year of service and be an active employee at the end of the year. There were no discretionary profit sharing contributions made for 2017 or 2016.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) plan earnings/losses, and (c) charged with an allocation of plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. The maximum loan term is 60 months or up to 360 months for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions. The default of a loan is deemed a taxable distribution of the unpaid balance.

1. DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants (Continued)

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

Vesting

Participants are immediately vested in their elective and rollover deferral contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits

Active participants may receive distributions from their elective contribution account and their rollover contribution account at any time after attaining the age of 59 1/2 or due to hardships as defined in the Plan. Upon termination of service, disability, or retirement (age 65), a participant is entitled to a lump-sum payment if their account balance is equal to or less than $5,000 at the time of distribution. Benefit payments are recorded when paid.

Forfeitures

During 2017 and 2016, $101,000 and $87,570 in forfeited non-vested accounts were used to reduce employer contributions. At December 31, 2017 and 2016, unallocated forfeitures totaled $128,024 and $112,639. These accounts will be used to offset future employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments in mutual funds and pooled separate accounts are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements. The Plan's investment in its guaranteed income fund is stated at contract value as reported by Prudential Retirement.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in the net appreciation in the fair market value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses

Expenses of administering the Plan, other than loans fees, are paid by the Plan. Certain administrative expenses are paid with forfeitures.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, political, currency, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

3. GUARANTEED INVESTMENT CONTRACT

Plan investments include a guaranteed income fund with PRIAC, which is a fully benefit-responsive investment contract. The fund is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses. The guaranteed investment fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2017 was $1,588,203. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 2%. Such interest rates are reviewed on a semi-annual basis for resetting.

For the year ended December 31, 2016, the Plan had a guaranteed group annuity contract with Principal Life Insurance Company, which is a fully benefit-responsive investment contract, backed by the assets of the general account of Principal Life Insurance Company. Principal maintained the contributions in their general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Benefit payments are made at contract value (no termination or surrender charges) for Plan benefit events and investment transfers initiated by Plan participants.

Because the guaranteed investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2016 was $1,204,573. The crediting interest rate, which is based on a formula agreed upon with the issuer, was 1.75% for the year ended December 31, 2016.

4. CERTIFIED INVESTMENT INFORMATION

The Plan Administrator has obtained certifications from the plan custodians, PBT and PRIAC (custodians to the Plan), as of and for the year ended December 31, 2017 and Principal Life Insurance Company for the year ended December 31, 2016, that the following information is complete and accurate at December 31:

	2017	2016
Investments, at fair value	$ 28,302,300	$ 21,850,510

Schedule of Assets (Held at End of Year)	Schedule I	

5. FAIR VALUE MEASUREMENTS

ASC 820-10 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds
Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

5. FAIR VALUE MEASUREMENTS (Continued)

Pooled Separate Accounts
Valued at fair value using the NAV per share practical expedient, which is derived from the market value of the underlying investments. The net asset value of the funds are calculated and posted daily by the custodians. The investment strategies of the pooled separate account funds are generally to invest in underlying funds with the goal of producing favorable long-term returns and growth and to provide a reliable source of income to plan participants, depending on the overall fund objectives. There are no restrictions on redemption of the pooled separate accounts. There are no unfunded commitments.

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 28,302,300	$ -	$ -	$ 28,302,300
Investments at fair value	$ 28,302,300	-	-	$ 28,302,300

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 20,892,091	$ -	$ -	$ 20,892,091
Investments, measured using the net asset value as a practical expedient (a)				958,419
Total investments at fair value				$ 21,850,510

(a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

6. INVESTMENTS MEASURED AT NET ASSET VALUE (NAV) PER SHARE

For the year ended December 31, 2017, the Plan held no investments for which fair value is measured using the net asset value per share practical expedient.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Available)
Pooled separate accounts	$ 958,419	n/a	Daily

7. PARTY-IN-INTEREST TRANSACTIONS

PBT and PRIAC are custodians of the Plan's investments. As such, transactions between these parties and the Plan qualify as party-in-interest transactions under ERISA. Additionally, transactions involving notes receivable from participants qualify as party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants are entitled to the entire amount of their account.

9. INCOME TAX STATUS

The Plan obtained its latest determination letter on December 14, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

10. SUBSEQUENT EVENTS

Subsequent events have been evaluated though October 11, 2018, which is the date the financial statements were available to be issued.
