INTERGRO RESOURCES, INC. 401(k) PROFIT SHARING PLAN

NOTES TO THE FINANCIAL STATEMENTS
JANUARY 16, 2018 AND DECEMBER 31, 2017

NOTE 1 – Description of the Plan

The following description of the Intergro Resources, Inc. (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which covers eligible employees of the Company who have completed 12 months of service and are age 21 or older. Effective March 8, 2017, the minimum service requirement was eliminated. Union employees, nonresident aliens, and leased employees are not eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan administrator is responsible for oversight of the Plan. The plan administrative committee works with the Plan's investment advisers who review and determine the appropriateness of the Plan's investment offerings, monitor investment performance, and report to the plan administrative committee.

Plan Merger and Asset Transfer

The Company's Board of Directors executed a resolution to approve the merger of the Plan into the ConnectMe 401(k) Plan effective January 1, 2018. On December 4, 2017, the Trustee of the Plan entered into a service termination agreement with AXA Equitable Life Insurance Company (AXA), the custodian of the Plan, to have assets transferred out on January 16, 2018 into Transamerica Life Insurance Company as the custodian under a multi-employer plan. The asset transfer was completed on January 16, 2018.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. After-tax contributions are not permitted. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Beginning January 1, 2016, the Plan includes an auto-enrollment provision whereby all current eligible employees who have not entered into a salary deferral election and newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

NOTE 1 – Description of the Plan (Continued)

Contributions (Continued)

The Company may also make a discretionary employer contribution. In order to be eligible for the discretionary employer contribution, participants must complete 1,000 hours of service and be employed with the Company at the end of the plan year, unless employment termination is due to death or disability. During the year ended December 31, 2017, the Company did not make any discretionary employer contributions. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company discretionary matching contributions, as well as plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portions of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through semi-monthly payroll deductions.

NOTE 1 – Description of the Plan (Continued)

Payment of Benefits

On termination of service for reasons other than death, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account in the form of a cash distribution. For termination of service due to death, a beneficiary may elect, on an individual basis, to receive the participant's vested account balance by the end of the fifth year following the year of the participant's death.

In-Service Withdrawals

Participants who are at least 59-½ years of age are entitled to receive a distribution of all or any portion of their vested account balance.

Hardship withdrawals, which meet a hardship purpose of immediate and heavy financial need, are permitted as provided in the plan agreement. Such amounts may be drawn from a participant's deferral contributions only, and may be subjected to certain income tax penalties.

Forfeited Accounts

There were no forfeited nonvested accounts as of December 31, 2017 and 2016. The Company may decide in its discretion how to use the forfeitures. These forfeited nonvested accounts may be used to pay administrative expense or to reduce future company discretionary match contributions.

NOTE 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 – Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrative committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value investments.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2018, the date the financial statements were available to be issued.

NOTE 3 – Certified Investments

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, AXA Equitable Life Insurance Company, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments and notes receivable from participants:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest
- Schedule of assets held at end of year

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 4 – Fair Value Measurements (Continued)

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts: Valued at net unit values (NUV) which represents the NAV of the underlying mutual fund less daily charges. The NAV represents the daily per share value of the portfolio of investments of the mutual funds, at which sufficient volumes of transactions occur. The separate account may invest in open-ended mutual funds, available to contract holders of group or individual variable annuity or insurance policies. Contract holders may, without restriction, transact at the daily NUV.

NOTE 4 – Fair Value Measurements (Continued)

Unallocated contract: Valued at fair value as determined by AXA Equitable Life Insurance Company, which is equal to contributions, transfers to the guaranteed interest option, plus interest, minus withdrawals and transfers out of the option and administrative expenses. Withdrawals are not subject to any market value adjustment. Interest rates are determined periodically and subject to change. The cash surrender value equals the contract value. The guaranteed interest crediting rate is 1.75% as of December 31, 2017 and the contract minimum interest rate is 1.00%. The contract does not provide a defined maturity date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value measurements at December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 5,745,397	$ -	$ -	$ 5,745,397
Unallocated contract	-	307,504	-	307,504
Total assets at fair value	$ 5,745,397	$ 307,504	$ -	$ 6,052,901

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ 4,543,810	$ -	$ -	$ 4,543,810
Unallocated contract	-	73,724	-	73,724
Total assets at fair value	$ 4,543,810	$ 73,724	$ -	$ 4,617,534

NOTE 5 – Related-Party Transactions and Party-in-Interest Transactions

Certain plan investments are shares of pooled separate accounts, and a guaranteed interest account, which are or were managed by AXA. AXA is the custodian and recordkeeper for the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. Fees paid by the Plan to AXA for administrative services amounted to $4,164 and $4,548 for the final period ended January 16, 2018 and for the year ended December 31, 2017, respectively.

NOTE 6 – Tax Status

On March 31, 2014, the Internal Revenue Service (IRS) stated that the volume submitter profit sharing plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
