Eligible employees are automatically enrolled in the Plan at pre-tax deferrals of 3 percent of their total compensation unless they elect not to enroll. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute a pretax portion up to 100 percent of their compensation, as defined, through payroll deductions not to exceed regulatory limits according to the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified plans. Catch-up contributions for those employees age 50 or older are also allowed, as defined in the plan agreement.

The Company may elect to make discretionary matching contributions. The Company may also elect to make a discretionary contribution to the Plan at the end of the year at an amount to be determined by the Company. No employer contributions were made to the Plan for the year ended December 31, 2017.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company’s discretionary matching contribution, if any, and allocations of employer discretionary contributions, if any, plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. Earnings include interest, dividends and changes in the fair value of investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. A participant is 100 percent vested after six years of credited service based on an annual 20 percent vesting schedule, which begins after the completion of two years of service, in any Company contributions. If an active participant dies or becomes disabled prior to attaining the normal retirement age, the participant’s account becomes 100 percent vested.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices within the Plan as more fully described in the Plan’s literature. Participants may change their investment options at any time.

Payment of benefits: Upon termination of service, a participant or his or her beneficiary is eligible to receive an amount equal to the value of the participant’s account in the form of a lump-sum distribution or equal installments over a fixed period, as described in the plan agreement. Under certain conditions of financial hardship, as defined in the plan agreement, participants may withdraw a portion or all of their vested account balances. If the nonforfeitable portion is $5,000 or less, the participants will receive a lump-sum cash payment.

Administrative expenses: Certain expenses of the Plan may be paid out of assets of the Plan to the extent that the Company does not pay such expenses.

Note 1. Plan Description (Continued)

Forfeitures: At December 31, 2017 and 2016, forfeited non-vested accounts totaled $3,734 and $2,062, respectively. Forfeitures not used to pay the Plan's administrative expenses shall be reallocated to participants as discretionary employer contributions. During 2017, no forfeitures were used to reduce administrative expenses and $2,061 was reallocated to participants.

Notes receivable from participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 (reduced by the participant's highest outstanding loan balance in the preceding 12 months) or one-half of the participant's vested account balance one time each plan year. Loans are collateralized by the balance in the participant's account and are to be repaid through payroll deductions over a period not to exceed five years, except for the purpose of purchasing a principal residence, in which case the term may not exceed 15 years. Interest is determined by the Plan Administrator based on prevailing market rates and is fixed over the life of the loan. Interest rates on outstanding loans range from 4.25 to 9.25 percent at December 31, 2017.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the modified cash basis method of accounting, which is a method of accounting acceptable under the Department of Labor (DOL) regulations. It differs from accounting principles generally accepted in the United States of America as contributions, interest and dividend income, and administrative expenses are accounted for on the cash basis. Accordingly, the accompanying financial statements are not intended to present net assets available for benefits and changes in net assets available for benefits in accordance with accounting principals generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment valuation and income recognition: The Plan's investments are stated at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies using information provided by the investment custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a settlement-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the date received. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Loans in default are treated as distributions based upon the terms of the plan document.

Accounting estimates: The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Significant Accounting Policies (Continued)

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 10, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC (the Custodians)

The following is a summary of the Plan's assets and income information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following information is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2017	2016
Shares of registered investment companies (at fair value)	$ 8,536,583	$ 7,416,357
Guaranteed investment contract (at contract value)	$ 2,012,126	$ 2,335,006
Notes receivable from participants	$ 626,672	$ 504,762
Net appreciation in fair value of investments	$ 860,188	
Interest and dividends	$ 389,137	
Interest income on notes receivable from participants	$ 24,561	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	2017			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 8,536,583	$ -	$ -	$ 8,536,583
Total assets at fair value	$ 8,536,583	$ -	$ -	$ 8,536,583

Note 4. Fair Value Measurements (Continued)

	2016			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 7,416,357	$ -	$ -	$ 7,416,357
Total assets at fair value	$ 7,416,357	$ -	$ -	$ 7,416,357

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no significant transfers in or out of Level 3.

Note 5. Investment Contract with Insurance Company

The Plan holds a benefit-responsive group annuity investment contract with Great-West Life & Annuity Insurance Company (Great West), an AA rated company. The Guaranteed Portfolio Fund is part of the general account of Great West. All or a portion of the participant's contributions and participant's annuity account may be allocated to the Guaranteed Portfolio Fund, which is a fixed account. The contract is included in the financial statements at contract value as reported to the Plan by Great West. Contract value represents contributions made under contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan. Amounts may be transferred from the participant's account balance in the Guaranteed Portfolio Fund at any time. The value of the Guaranteed Portfolio Fund in respect of the Participant will be determined as the value of the sum of the participant's Guaranteed Portfolio Fund Contributions, plus interest and transfers, minus the sum of any amounts distributed, transfers and premium tax. The crediting rate is based on a formula established by Great West, but may not be less than 0 percent. The crediting rate is reviewed on a quarterly basis for resetting.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Great West, represents contributions made under the contract, plus interest, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfers of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Interest will be earned on the Guaranteed Portfolio Fund value and compounded daily to the effective annual interest rate.

Note 5. Investment Contract with Insurance Company (Continued)

The interest rate to be credited to the entire value of the Guaranteed Portfolio Fund will be determined by Great West prior to the last day of each calendar quarter and will remain in effect until the end of the calendar quarter. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. As mutually agreed to by the Plan and Great West, the Plan may elect to change the interest crediting method. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

The investment policy of the Guaranteed Portfolio Fund is to invest the money with a three- to five-year average maturity. That policy may change over time based on prevailing market conditions.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on completing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemptions under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6. Related-Party Transactions

The Plan has investments in shares of registered investment companies managed by Great West, the custodian, or an affiliate thereof; therefore, these transactions qualify as party-in-interest transactions. Great West also performs administrative and recordkeeping services for the Plan. The administrative and recordkeeping expenses paid by the Plan to Great West were $8,903 for 2017. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 8. Income Tax Status

Effective January 1, 2016, the Plan adopted a prototype plan of Great-West Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since its adoption. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the Internal Revenue Code.

Note 8. Income Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credits risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2017 and 2016:

Participant loans	626,672	451,782
Net assets available for benefits per Form 5500	$ 11,175,381	$ 10,203,145

The following is a reconciliation of changes in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2017:

Changes in net assets available for benefits per the financial statements	$ 919,256
Other income/expense	31,668
Benefits paid to participants	52,980
Administrative expenses	(31,668)
Changes in net assets available for benefits per Form 5500	$ 972,236

Note 11. Subsequent Events

On July 27, 2018, the Plan Sponsor acquired Apt2B. Effective August 1, 2018, the Plan was amended to recognize employee service with Apt2B for purposes of determining eligibility, enrollment, and vesting in the Plan.
