INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Moody National Bank 401(k) Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Moody National Bank 401(k) Plan (the "Plan"), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Massachusetts Mutual Life Insurance Company (the "Custodian"), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the Custodian as of and for the years ended December 31, 2017 and 2016, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedule

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2017, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of Moody National Bank 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, effective May 1, 2003, covering all full-time employees of Moody National Bank (the "Company") meeting participation requirements described below. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and all requirements of Section 401(a) of the Internal Revenue Code ("IRC").

Effective January 1, 2016, the Plan was amended and restated in order to comply with the latest tax laws and regulations, among other things.

Participation

All Company employees who have completed a minimum of one year of service, consisting of at least 1,000 hours of service during a Plan year, and have attained the age of 19, are eligible to participate in the Plan except (i) collectively-bargained employees, (ii) non-resident aliens who do not have United States income and (iii) covered employees acquired in an asset or stock acquisition merger or similar transaction described in IRC Section 410(b)(6)(c).

Administration

The Plan is administered by the Company. Moody National Bank Trust Department serves as trustee of the Plan. Massachusetts Mutual Life Insurance Company ("MassMutual" or "Custodian") serves as the custodian of the Plan. MassMutual Retirement Services Division serves as the Plan's recordkeeper.

Contributions

Employees may elect to contribute up to 100% of their eligible compensation as a pre-tax elective deferral or a Roth elective deferral not to exceed the limitation ($18,000 in both 2017 and 2016) as set forth in Section 402(g) of the IRC. Participants may make catch-up contributions, pre-tax contributions that exceed the annual elective deferral limit, during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions during 2017 and 2016 cannot exceed $6,000. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes safe harbor matching contributions on behalf of each participant equal to the sum of 100% of the first 3% of the eligible employee's compensation that he or she contributes to the Plan plus 50% of the next 2% of the eligible employee's compensation that he or she contributes to the Plan. For the years ended December 31, 2017 and 2016, the Company made safe harbor matching contributions of $308,431 and $134,925, respectively.

The Company may also make employer matching contributions at a discretionary percentage of a participant's compensation or a discretionary dollar amount. Additionally, the Company, at its discretion, may elect to make annual contributions for all eligible Plan participants employed on the last day of the Plan year which must be designated as qualified non-elective profit sharing contributions. These contributions are allocated in the same ratio that each participant's compensation for the Plan year bears to the total compensation of all participants for the Plan year, subject to certain limitations required for Plan qualifications under the IRC. For the years ended December 31, 2017 and 2016, the Company made employer matching contributions of $176,570 and $0, respectively. The Company made no qualified non-elective contributions during 2017 or 2016.

Participant Accounts

Each participant's account is credited with the participant's salary deferrals and rollover contributions and allocations of the Company's contributions and Plan earnings and losses. Plan earnings and losses, net of appreciation (depreciation), are allocated as of the last day of each calendar quarter in the same proportion that each participant's and former participant's non-segregated accounts bear to the total of all participant's and former participant's non-segregated accounts as of the last day of each calendar quarter. Participants self-direct the allocation of contributions to investment choices offered under the Plan.

1. Description of Plan, continued

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charge directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Vesting

Participants are immediately vested in their employee contributions and earnings thereon as well as balances rolled over into the Plan from other qualified benefit plans under ERISA. Participants are immediately vested in safe harbor matching contributions from the Company. Participants' vesting in employer matching contributions and employer non-elective profit sharing contributions are based on years of continuous service. A participant is 100% vested after three years of credited service.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. A participant with an account balance of $2,000 or greater may borrow from his or her account a minimum of $1,000 up to a maximum amount not to exceed the lesser of 50% of his or her account balance, or $50,000. Loan terms range from 1 to 5 years except in the case of a loan used to acquire a principal residence which will be a reasonable period of time determined at the time the loan is made. The interest rate for all loans shall be a reasonable rate commensurate with current rates for loans made under similar circumstances. The loans are secured by the balance in the participant's account. Loan repayments are to be made ratably through payroll deductions. Participant loans outstanding as of December 31, 2017 and 2016 were $201,445 and $212,502, respectively. As of December 31, 2017 and 2016, interest rates on outstanding loans ranged from 4.25% to 5.50% and 4.25% to 4.75%, respectively.

Payment of Benefits

The Plan does not allow withdrawals of Company contributions or earnings thereon by active employees of the Company unless the employee has attained age 59 1/2. Upon termination of service due to attaining normal retirement age, disability or death, a participant or his beneficiary may elect to receive an amount equal to the value of his or her account balance in either a single lump-sum or in the form of a joint and survivor annuity. An employee who terminates employment before reaching normal retirement age may elect to receive a distribution of his or her vested account balance net of early distribution penalties or request a direct rollover distribution to another eligible retirement plan.

Forfeitures

Forfeited nonvested accounts, subject to Plan administrator's discretion, may be applied to employer contributions or Plan expenses. At December 31, 2017 and 2016, forfeitures available to reduce future employer contributions or pay Plan expenses were $9,597 and $7,370, respectively. During the years ended December 31, 2017 and 2016, no forfeitures were used to reduce employer contributions or pay Plan expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

2. Summary of Significant Accounting Policies, continued

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments in pooled separate accounts are valued at fair value based on the quoted market prices of the underlying assets and the number of units owned by the Plan at the reporting date.

The Plan invests in a fully benefit-responsive investment contract ("FBRIC") which is accounted for at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to FBRICs because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation (depreciation) of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is accrued as earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. Delinquent notes receivable from participants are reclassified as distributions upon the terms of the Plan document.

Benefit Payments

Benefits are recorded when paid

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* ASU No. 2015-07 applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) as a practical expedient. Under the amendments in this update, investments for which fair value is measured using NAV per share (or its equivalent) as the practical expedient should not be categorized in the fair value hierarchy. Removing those investments from the fair value hierarchy not only eliminates the diversity in practice resulting from the way in which investments measured at NAV per share (or its equivalent) with future redemption dates are classified, but also ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied, will continue to be included in the fair value hierarchy. A reporting entity should continue to disclose information on investments for which fair value is measured at NAV (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from NAV. ASU No. 2015-07 is effective for fiscal years beginning after December 15, 2016 on a retrospective basis. Early adoption is permitted and accordingly, Plan management elected to early adopt ASU No. 2015-07 during the 2015 Plan year. The adoption of ASU 2015-07 in 2015 impacted disclosures only by removing those investments measured at fair value using NAV as a practical expedient from classification in the fair value hierarchy in Note 3.

3. Fair Value Measurements

FASB Accounting Standards Codification Topic 820 ("ASC 820"), *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels and gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used by the Plan for investments measured at fair value. There has been no change in the methodology used at December 31, 2017 and 2016.

Pooled separate accounts: The Plan's investments in the pooled separate accounts are stated at fair value and represent the number of participation units owned by the Plan valued at the net asset unit of the separate account as of year-end. As discussed in Note 2, the Plan adopted ASU 2015-07, which removed the requirement to categorize and disclose investments for which fair value is measured using the NAV per share as the practical expedient within the fair value hierarchy. The net asset value is used as a practical expedient to determine fair value for these accounts. The calculated NAV is directly related to the net asset value of the underlying investment adjusted for dividends or distributions received by the Custodian and the daily equivalent of any fees charged. Pooled separate accounts invest primarily in long-term bonds, domestic and international stocks, or single mutual funds. The underlying investments held by each pooled separate account are traded on an active market. Due to the nature of these investments, there are no unfunded commitments or redemption restrictions.

The valuation methodology described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with ASU No. 2015-07, investments measured at NAV per share (or its equivalent) as a practical expedient, are not classified in the fair value hierarchy. Except as discussed in Note 4, Plan investments, at both December 31, 2017 and 2016, are in pooled separate accounts and measured at NAV as a practical expedient. Accordingly, no fair value hierarchy is presented.

Investment Strategies

(a) These funds are generally intended for investors expecting to retire at a specific date and are designed to provide exposure to a variety of asset classes through investments in underlying funds. Funds in this category seek a high total return with a shift to current income and some capital appreciation as the fund approaches and passes the target retirement date.

(b) These funds seek capital appreciation and may seek income as a secondary goal. The funds primarily invest in the equity securities of mid-cap companies. These funds invest primarily in domestic securities, but may invest in the securities of foreign companies as well.

(c) Funds in this category seek long-term growth of capital. These funds invest primarily in the equity of large-cap companies located in the United States; however, these funds may invest in the equity of foreign companies as well.

(d) These funds seek the highest level of capital return. These funds invest at least 40% of their assets in equity funds with the balance invested in fixed income funds. The overall asset allocation varies from fund to fund in this category.

(e) Funds in this category seek total returns by investing primarily in the equity securities of companies that currently pay a dividend. They may invest in companies that expect to begin paying dividends in the near future and the investments may be in either domestic or foreign equities.

(f) These funds seek investment returns while also seeking to preserve capital. These funds invest mainly in fixed income securities with varying maturities. The funds in this category may focus on governmental bonds, but may also invest in the debt of foreign entities. Funds in this category may invest a portion of their total assets in high-yield securities.

(g) This investment seeks capital appreciation and invests primarily in common stock of U.S. and foreign companies. It can invest without limit in foreign securities and in any country, including countries with developing emerging markets. However, this fund currently emphasizes its investments in developed markets such as the United States, Western European countries and Japan. It does not limit its investments to companies in a particular capitalization range, but primarily invests in mid- and large-cap companies. The fund normally will invest in at least three countries (one of which may be the United States).

(h) These investments seek long-term capital growth. Under normal market conditions these funds invest at least 80% of net assets in foreign securities. These funds invest primarily in equity securities, and may invest in smaller and midsize companies. These funds may have significant positions in particular companies or sectors.

(i) These investments seek current income while striving for capital growth. The funds primarily invest in income producing securities, such as stocks and bonds.

(j) These investments seek to provide capital appreciation. The funds invest primarily in equity securities of companies of a particular industry. Under normal circumstances, they invests at least 80% of its net assets in securities of the industry companies.

(k) These investments seek total return. The funds normally invests at least 80% of its net assets in debt securities. They typically invest in at least three countries other than the United States. The funds invest in debt securities of issuers in both developed and emerging markets throughout the world. They invest mainly in debt securities of foreign government and corporate issuers. The funds may buy securities issued by companies of any size or market capitalization range and at times might emphasize securities of issuers in a particular capitalization range. They are non-diversified.

(l) These investments seek long-term growth of capital. The funds invest, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in securities of small-capitalization issuers. They invest primarily in equity securities. The principal type of equity security in which the funds invest is common stock.

3. Fair Value Measurements, continued

Investment Strategies, continued

(m) These investments seek total return. The fund invests at least 80% of its net assets (including borrowings for investment purposes) in common stocks and other equity securities of real estate companies.

(n) This investment seeks capital appreciation. The fund normally invests at least 80% of assets in stocks. It normally invests primarily in common stocks of leveraged companies (companies that issue lower-quality debt and other companies with leveraged capital structures). The fund potentially invests in lower-quality debt securities (those of less than investment-grade quality, also referred to as high yield debt securities or junk bonds). It invests in domestic and foreign issuers. The fund invests in either "growth" stocks or "value" stocks or both.

(o) These investments seek to achieve the approximate aggregate total return of a mid-cap U.S. domestic equity market index. Investment managers try to match the performance of the S&P Mid Cap 400 Index by holding all, or a representative sample of, the securities that comprise the Index.

(p) This investment seeks capital appreciation. The fund invests primarily in the equity securities of smaller companies that the Adviser believes to be undervalued relative to the underlying earnings potential of the company. Under normal circumstances, the fund will invest at least 80% of its assets in equity securities of small companies. "Small companies" are companies that at the time of purchase have market capitalizations within the range of companies comprising the Russell 2000 Value Index.

(q) This investment seeks long-term growth of capital. The fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of small-capitalization issuers. The principal type of equity securities in which the fund invests is common stock.

4. Group Annuity Contract with Insurance Company

The Plan invests in a group annuity contract that holds a fully benefit-responsive guaranteed investment contract with The Hartford Life Insurance Company ("Hartford"). Contributions are maintained in a fixed account backed by the general assets of Hartford. The account is credited with earnings and charged for participant withdrawals and administrative expenses. The issuer of the guaranteed investment contract is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract is fully benefit-responsive and accordingly, is presented in the accompanying Statements of Net Assets Available for Benefits at contract value. Contract value, as reported to the Plan by Hartford, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The initial guaranteed interest rate is equal to 1.00% and is re-determined annually so that it equals an annual effective rate of the lessor of (i) 3.00% or, (ii) the average of the five-year Constant Maturity Rate reported by the Federal Reserve Bank using the most recent twelve month-end values ending on October 31st prior to the redetermination date rounded to the nearest 0.05%, minus 1.25%. However, under no circumstance will the re-determined rate be less than 1.00%.

The guaranteed interest rate for the years ended December 31, 2017 and 2016 was 1.50% and 1.60%, respectively.

5. Information Certified by the Plan's Custodian (Unaudited)

The Plan Administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2017 and 2016, and net appreciation (depreciation) in the fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Custodian.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balances.

7. Tax Status

The Plan adopted by the Company is a volume submitter ("VS") plan that is designed to comply with provisions of the IRC's Economic Growth and Tax Reconciliation Act of 2001 ("EGTRRA"). Such VS plans are pre-approved by the Internal Revenue Service ("IRS") by reference to the Cumulative List of Changes in Plan Qualification Requirements (the "Cumulative List") provided under EGTRRA. Accordingly, the Plan was eligible for a six-year remedial amendment cycle. Because the Plan is a VS plan, the Company is not authorized to amend the Plan except to comply with changes in the Cumulative List. The Plan received a favorable determination letter from the IRS on March 31, 2014. Plan management believes the Plan complies with and is being operated in accordance with the applicable requirements of the IRC.

U. S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Party-In-Interest Transactions

Certain Plan investments are in accounts managed by the Custodian, and the Plan issues notes receivable from participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

9. Subsequent Events

Plan management has evaluated subsequent events through October 12, 2018, which is the date the financial statements were available to be issued, and has concluded that there are no significant events to be reported.
