1. Plan Description

The following brief description of the OTG Management, LLC 401(k) Profit Sharing Plan (the Plan) is for general information only. Participants should refer to the Plan document for complete information.

General

The Plan is a defined contribution plan that was established on January 1, 2006 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees of OTG Management, LLC and its subsidiaries (collectively referred to as the Company or Employer) are eligible to participate in the Plan, except for employees eligible to receive Employer contributions to a union retirement plan, as defined.

Eligibility

All full-time employees of the Company are eligible to participate in the Plan on the first day of the month following the completion of six months of service and the attainment of age 21.

Contributions

Participant contributions are made on a pre-tax basis as defined by the Plan, not to exceed statutory limits. Participants also may contribute amounts representing distributions from other qualified defined contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company may make discretionary profit-sharing contributions to the Plan in accordance with the provisions contained in the Plan document. No discretionary profit-sharing Employer contributions were made by the Company for the year ended December 31, 2017.

The Company is required to make a safe harbor matching contribution equal to 100% of a participant's salary deferral contributions up to 3% of their eligible compensation and 50% of the participant's salary deferral contributions that exceed 3% of their eligible compensation, not to exceed 5% of their eligible compensation.

Participant Accounts

Each participant's account is credited with their deferred contributions, Employer contributions and earnings thereon. Contributions are invested based upon the percent allocation elected by the participant into one or more of the investment options available to the Plan.

Notes Receivable from Participants

Each participant is permitted to borrow from their account an amount not to exceed 50% of their vested account balance, up to a maximum of $50,000. The minimum amount that may be borrowed is $1,000. Only one loan may be outstanding at a time. Loan terms may not exceed five years, except to purchase a primary residence, the term of which cannot exceed ten years. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined by the Plan administrator.

Vesting

Participants are fully vested at all times in their elective deferrals, the safe harbor matching contributions, and discretionary profit-sharing Employer contributions, plus earnings thereon.

Payment of Benefits

A participant's vested interest in the Plan's assets is distributable generally upon termination, disability, retirement or death. Participants may withdraw from their individual accounts pursuant to specific guidelines as set forth in the Plan document.

Administrative Expenses

Most administrative expenses of the Plan are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and, when applicable, disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for a discussion of fair value measurements.

The sales and purchases of investment securities, and gains and losses on the sale of investments, are recognized at the trade date. Net appreciation includes the Plan's gains (and losses) on investments bought and sold, as well as held during the year. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Payments to participants are recorded upon distribution.

Notes Receivable from Participants

Notes receivable from participants are stated at their unpaid principal balance plus any accrued but unpaid interest. Defaulted notes are recorded as benefit payments according to the terms of the Plan document. Fees charged by the trustees relating to notes receivable from participants are paid from the related participants' accounts. No allowance for credit losses has been recorded as of December 31, 2017 and 2016.

3. Risks and Uncertainties

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amount reported in the statements of net assets available for benefits.

4. Information Certified by the Trustees

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company and Boston Financial Data Services, Inc. as agent for State Street Bank and Trust Company, the trustees, have certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

December 31,	**2017**	2016
Investments, at fair value:		
Mutual funds	**$ 9,830,538**	$ 6,095,280
Money market funds	**997,804**	914,114
Notes receivable from participants	**281,236**	134,271

Year ended December 31, 2017	
Net appreciation in fair value of investments	$ 1,078,159
Dividend income	394,150
Interest on notes receivable from participants	10,284

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedules.

5. Fair Value Measurement

The Plan follows the provisions of Accounting Standards Codification (ASC) 820, "Fair Value Measurement." ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds - Valued at unadjusted quoted prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Money market funds – Value is based upon the NAV, as a practical expedient, of the shares held by the Plan. NAV is based upon the fair value of the underlying investments. The funds' objective is the preservation of capital, liquidity and, consistent with these goals, the highest possible current income. The Plan's investment in the money market funds may be redeemed daily. There are no redemption fees or notice periods and no unfunded commitments as of December 31, 2017 and 2016.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the valuation methodologies of these items held at December 31, 2017 and 2016.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

December 31, 2017

	Assets at Fair Value

Total investments, at fair value	$ 6,095,280	$ -	$ -	$ 7,009,394

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The Plan had no financial assets that were measured at fair value on a nonrecurring basis during the years ended December 31, 2017 and 2016. There were no transfers between levels during the year ended December 31, 2017 and 2016.

6. Party-in-Interest Transactions

All investments are issued and managed by T. Rowe Price, the recordkeeper of the Plan. Any purchases and sales transactions of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Notes receivable from participants also qualify as exempt party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Late Remittances

During the Plan year ended December 31, 2017, employee withholdings in the amount of $148,573 were not remitted within the appropriate time period by the Employer. For prior years, employee withholdings in the amount of $371 were not remitted within the appropriate time period by the Employer. These transactions constitute prohibited transactions as defined by ERISA. The Employer will take the appropriate steps to correct the issue, and has further implemented a procedure to ensure all future remittances are done within the prescribed time period.

9. Tax Status

Effective January 1, 2015, the Plan has adopted DST Retirement Solutions LLC's non-standardized 401(k) Profit Sharing Plan to incorporate the 401(k) Safe Harbor provisions. The prototype non-standardized plan received a favorable opinion letter from the Internal Revenue Service (IRS) on June 1, 2015, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (Code) and that any employer adopting the prototype non-standardized plan is considered to have a qualified plan under the Code and qualify as exempt from taxation.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
