The Union Community Bank 401(k) Profit Sharing Plan (the "Plan") is a defined contribution plan covering all eligible employees of Union Community Bank (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

An employee shall be eligible to make a salary deferral election upon the date of hire. Employees are also eligible to receive matching contributions and discretionary profit sharing contributions upon the date of hire. Entry into the Plan is permitted on the first day of the month coinciding with or next following the date on which the eligibility requirements are satisfied.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan up to the maximum limits of the Internal Revenue Code ("IRC"). Participants may designate all or a portion of their deferral contributions as after-tax contributions into a Roth account. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans ("rollovers").

Participant contributions to the Plan are recorded in the period that payroll deductions are made from participants. The Company matches 100% of the first 1% of eligible participant compensation and 50% of the next 5% of eligible participant compensation, for a maximum match of 3.5% of eligible participant compensation. At year-end, the Company performs a true-up calculation of the employer matching contribution for all participants and makes any necessary additional matching contribution in the subsequent year. The matching contribution was \$205,624 for the year ended December 31, 2017. Additionally, the Company may make profit sharing contributions as approved by the Company Board of Directors. There were no profit sharing contributions for the Plan for the years ended December 31, 2017 and 2016. Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participants are automatically enrolled into the Plan at 3% of eligible compensation. Employee deferrals will automatically be increased by 1% each year beginning with the third year until the deferred percentage reaches 6%. Employees not selecting an investment option for their deferrals have their contributions invested in a moderate growth model. Employees have the option to opt out of participation or change their elective deferral at any time following automatic contribution. If a Participant elects to opt out of automatic enrollment within 90 days of being enrolled the Employer can refund employee deferral contributions.

Notes to Financial Statements

Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of (a) the Company's profit sharing contributions and (b) plan earnings (loss) and charged with an allocation of administrative expenses. Allocations are based on participant earnings, deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings (loss) thereon. Vesting in the Company's contributions is based on years of continuous service. Participants are fully vested after two years of credited service for matching contributions and are fully vested after five years of credited service for profit sharing contributions, becoming 20% vested after one year of credited service and increasing by 20% per completed year of service thereafter.

Notes Receivable from Participants

Participant loans are not allowed under the Plan.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in their account.

Forfeited Accounts

Forfeitures arising from distributions to participants who are less than 100% vested will be used to reduce Company contributions per guidelines established by the Plan. At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$11,362 and \$0, respectively. Forfeitures totaling \$16,028 and \$6,328 were used in 2017 and 2016, respectively, to reduce employer contributions.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Union Community Bank 401(k) Profit Sharing Plan

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. The investments in the common collective trusts are valued at net asset value ("NAV") per unit, as determined by the trustees at year end. The NAV is used as the practical expedient to estimate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Net investment returns reflect certain fees paid by the investment funds to their affiliated investment advisors, transfer agents, and others as further described in each fund prospectus or other published documents. These fees are deducted prior to allocation of the Plan's investment earnings activity and, thus, are not separately identifiable as an expense.

Administration of Plan Assets

The Plan's assets were administered under a contract with Alerus Financial, N.A. ("Alerus") as of December 31, 2016 and for the period from January 1, 2017 to September 30, 2017 and are under a contract with Transamerica Retirement Solutions, LLC ("Transamerica") as of December 31, 2017 and for the period from October 1, 2017 to December 31, 2017, respectively, as trustees for the Plan. The trustees invest funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

Certain administrative expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan evaluated subsequent events for recognition or disclosure through October 12, 2018, the date the financial statements were available to be issued.

3. Fair Value Measurements

The Plan measures on a recurring basis its investments at fair value in accordance with U.S. GAAP. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible to the Plan for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 - Inputs to the valuation methodology include significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets or liabilities, quoted market prices in inactive markets for identical or similar assets or liabilities, and other observable inputs.

Level 3 - Inputs to the valuation methodology are unobservable inputs and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Shares of registered investment companies and money market funds are valued at the quoted net asset value of shares held by the Plan at year end.

Money market mutual funds are valued using the amortized cost method as permitted by Rule 2a-7 under the Investment Company Act of 1940, which approximates their fair value.

The common collective trust fund is valued based upon the units of the common collective trust fund held by the Plan at year end times the respective unit value. The unit value of the common collective trust fund is based upon the net asset value ("NAV"). The NAV's unit price of the common collective trust is not quoted on any market; however, the unit price is based on the underlying investments which are traded in an active market and are priced by independent providers. The Plan has no unfunded commitments relating to the common collective trust fund at December 31, 2017 and 2016.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

*Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

4. Party-in-Interest Transactions

Certain plan investments are managed by Transamerica, and therefore, these transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Notes to Financial Statements

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their Company contributions.

The Company may reduce or suspend employer matching safe harbor contributions upon satisfaction of certain requirements including a 30-day advanced notice to all eligible employees.

6. Tax Status

The Plan adopted the Alliance Benefit Group North Central States, Inc. Defined Contribution Prototype Plan which received an opinion letter from the Internal Revenue Service ("IRS") dated September 30, 2014, stating that the Prototype Plan was designed in accordance with the applicable provisions of the IRC. The Plan has been amended since the date of the letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that the Plan continues to be tax-exempt.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

8. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2017 and 2016, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2017, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Alerus and State Street Bank and Trust Company (State Street), at the direction of Transamerica Retirement Advisors, the trustees of the Plan.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.
