Note 1. Description of Plan

The following description of the Prestige Services Corp. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution 401(k) plan established on April 1, 1991, for the benefit of all eligible employees of Prestige Services Corp. (the Sponsor). The Plan and the Trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees of the Sponsor who are at least 18 years of age, and are not residents of Puerto Rico, covered by a collective bargaining agreement, nonresident aliens, or independent contractors, are immediately eligible to participate in the Plan.

Contributions: Each year, participants may make salary deferral contributions to the Plan through payroll deductions as a percentage of compensation, as defined, or by a specific dollar amount, in amounts not in excess of the maximum permitted by Federal law. Post-tax Roth Deferral contributions are also permitted under the Plan. The Plan provides that participants, who are projected to attain age 50 or older by the end of the calendar year and are making deferral contributions to the Plan, may also make additional catch-up contributions of up to $6,000 in 2017. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Those participants who have made salary deferral contributions may receive a 401(k) matching contribution from the Sponsor. The Sponsor will make a matching contribution in an amount equal to 65% of participants' deferrals up to 6% of the participants' eligible compensation. The Sponsor may also, at its sole discretion, make a discretionary contribution to the Plan. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts: Each participant's account is credited or charged with the participant's contributions, sponsor matching contributions, an allocation of the Sponsor's discretionary contributions, if any, transfers, withdrawals and an allocation of Plan earnings and losses. Allocations are based on a participant's account balance and the rate each participant's compensation bears to the total compensation of all participants, as defined in the Plan. The investment of each participant's trust fund is directed by the participant from the options available under the Plan.

Payment of benefits: In-service withdrawals are permitted in the case of demonstrated financial hardship or after attaining age 59½. Upon termination of service, a participant may elect to receive a lump sum amount equal to the value of his or her account or distributions over their life expectancy. In the event of disability of a participant, the participant shall be 100% vested in their accounts under the Plan. In the event of death of the participant, the value of the account will be paid to the spouse or other named beneficiary in a lump sum or installments. In the event of termination for any reason other than retirement, death or disability, the vested account balance will also become distributable to the participant.

Note 1. Description of Plan (Continued)

Participants' investment options: Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time throughout the year.

Vesting: Participants are immediately vested in 100% of their own salary deferral contributions. Sponsor matching contributions and Sponsor discretionary contributions, if any, vest ratably over a three-year service period as follows:

Years of Service	Vested Percentage
One year	33%
Two years	66%
Three years	100%

Forfeitures: All unvested employer matching contributions are forfeited by the participant at time of termination of employment. Forfeitures may be used to pay Plan administrative expenses or to reduce employer contributions. At December 31, 2017 and 2016, there were $29,835 and $11,886 of unallocated forfeited amounts, respectively. These amounts were applied to future employer contributions in the following year.

Notes receivable from participants: Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate as determined by the Sponsor that is comparable to similar loans made by commercial lenders. Loan terms range from one to five years, or longer for the purchase of a principal residence. Principal and interest are paid ratably through payroll deductions.

Plan termination: Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 2. Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan agreement.

Note 2. Significant Accounting Policies (Continued)

Income taxes: Accounting principles generally accepted in the United States of America (U.S. GAAP) require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years prior to 2014.

Use of estimates: The preparation of the Plan's financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of benefits: Benefit payments to participants are recorded when paid.

Administrative expenses: Administrative fees paid by the Plan for the year ended December 31, 2017 totaled $3,292. The Plan Sponsor has paid all other administrative expenses such as trustee fees, professional fees, facilities and personnel expenses.

Risks and uncertainties: The Plan provides for various investment securities. These investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk and uncertainty associated with certain investment securities, it is possible that participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits could be materially affected in the near term.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Fidelity Management Trust Company (the trustee or Fidelity) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2017	2016
Investments at fair value:		
Mutual funds	$ 19,542,784	$ 15,516,416
Money market fund	848,172	759,783
Total investments	$ 20,390,956	$ 16,276,199
Notes receivable from participants	$ 307,439	$ 114,521

Note 3. Information Certified and Provided by Fidelity Management Trust Company (Continued)

Fidelity also certified to the completeness and accuracy of $2,082,616 of net appreciation in fair value of investments, $1,057,267 of interest and dividend income on investments, and $8,133 of interest income on notes receivable from participants for the year ended December 31, 2017.

Note 4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this guidance are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive market
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement**.**

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at the NAV of shares held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016.

	Investments at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 19,542,784	$ -	$ -	$ 19,542,784
Investments measured at NAV (a)				848,172
				$ 20,390,956

	Investments at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,516,416	$ -	$ -	$ 15,516,416
Investments measured at NAV (a)				759,783
				$ 16,276,199

(a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no significant transfers in or out of Levels 1, 2 or 3.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using the NAV per share (or its equivalent) as of December 31, 2017 and 2016:

	Fair Value December 31		Unfunded	Redemption	Redemption
Investment	2017	2016	Commitment	Frequency	Notice Period
Money Market	$ 848,172	$ 759,783	None	Daily	None

Note 5. Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to Section 401(k) of the IRC and, accordingly, the trust's net investment income is exempt from income taxes. The Plan obtained its latest determination letter on March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan Administrator believes the Plan continues to be designed and operated in compliance with the applicable requirements of the IRC.

Note 6. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds or other short-term investment funds managed by Fidelity, the trustee, and therefore, these transactions qualify as party-in-interest transactions as defined by ERISA.

Note 7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to Form 5500 as of December 31, 2017 and 2016.

Note 1. Description of Plan

The following description of the Prestige Services Corp. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution 401(k) plan established on April 1, 1991, for the benefit of all eligible employees of Prestige Services Corp. (the Sponsor). The Plan and the Trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees of the Sponsor who are at least 18 years of age, and are not residents of Puerto Rico, covered by a collective bargaining agreement, nonresident aliens, or independent contractors, are immediately eligible to participate in the Plan.

Contributions: Each year, participants may make salary deferral contributions to the Plan through payroll deductions as a percentage of compensation, as defined, or by a specific dollar amount, in amounts not in excess of the maximum permitted by Federal law. Post-tax Roth Deferral contributions are also permitted under the Plan. The Plan provides that participants, who are projected to attain age 50 or older by the end of the calendar year and are making deferral contributions to the Plan, may also make additional catch-up contributions of up to $6,000 in 2017. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Those participants who have made salary deferral contributions may receive a 401(k) matching contribution from the Sponsor. The Sponsor will make a matching contribution in an amount equal to 65% of participants' deferrals up to 6% of the participants' eligible compensation. The Sponsor may also, at its sole discretion, make a discretionary contribution to the Plan. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts: Each participant's account is credited or charged with the participant's contributions, sponsor matching contributions, an allocation of the Sponsor's discretionary contributions, if any, transfers, withdrawals and an allocation of Plan earnings and losses. Allocations are based on a participant's account balance and the rate each participant's compensation bears to the total compensation of all participants, as defined in the Plan. The investment of each participant's trust fund is directed by the participant from the options available under the Plan.

Payment of benefits: In-service withdrawals are permitted in the case of demonstrated financial hardship or after attaining age 59½. Upon termination of service, a participant may elect to receive a lump sum amount equal to the value of his or her account or distributions over their life expectancy. In the event of disability of a participant, the participant shall be 100% vested in their accounts under the Plan. In the event of death of the participant, the value of the account will be paid to the spouse or other named beneficiary in a lump sum or installments. In the event of termination for any reason other than retirement, death or disability, the vested account balance will also become distributable to the participant.

Note 1. Description of Plan (Continued)

Participants' investment options: Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options any time throughout the year.

Vesting: Participants are immediately vested in 100% of their own salary deferral contributions. Sponsor matching contributions and Sponsor discretionary contributions, if any, vest ratably over a three-year service period as follows:

Years of Service	Vested Percentage
One year	33%
Two years	66%
Three years	100%

Forfeitures: All unvested employer matching contributions are forfeited by the participant at time of termination of employment. Forfeitures may be used to pay Plan administrative expenses or to reduce employer contributions. At December 31, 2017 and 2016, there were $29,835 and $11,886 of unallocated forfeited amounts, respectively. These amounts were applied to future employer contributions in the following year.

Notes receivable from participants: Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate as determined by the Sponsor that is comparable to similar loans made by commercial lenders. Loan terms range from one to five years, or longer for the purchase of a principal residence. Principal and interest are paid ratably through payroll deductions.

Plan termination: Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 2. Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan agreement.

Note 2. Significant Accounting Policies (Continued)

Income taxes: Accounting principles generally accepted in the United States of America (U.S. GAAP) require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years prior to 2014.

Use of estimates: The preparation of the Plan's financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of benefits: Benefit payments to participants are recorded when paid.

Administrative expenses: Administrative fees paid by the Plan for the year ended December 31, 2017 totaled $3,292. The Plan Sponsor has paid all other administrative expenses such as trustee fees, professional fees, facilities and personnel expenses.

Risks and uncertainties: The Plan provides for various investment securities. These investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk and uncertainty associated with certain investment securities, it is possible that participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits could be materially affected in the near term.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Fidelity Management Trust Company (the trustee or Fidelity) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2017	2016
Investments at fair value:		
Mutual funds	$ 19,542,784	$ 15,516,416
Money market fund	848,172	759,783
Total investments	$ 20,390,956	$ 16,276,199
Notes receivable from participants	$ 307,439	$ 114,521

Note 3. Information Certified and Provided by Fidelity Management Trust Company (Continued)

Fidelity also certified to the completeness and accuracy of $2,082,616 of net appreciation in fair value of investments, $1,057,267 of interest and dividend income on investments, and $8,133 of interest income on notes receivable from participants for the year ended December 31, 2017.

Note 4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this guidance are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive market
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement**.**

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at the NAV of shares held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016.

	Investments at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 19,542,784	$ -	$ -	$ 19,542,784
Investments measured at NAV (a)				848,172
				$ 20,390,956

	Investments at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 15,516,416	$ -	$ -	$ 15,516,416
Investments measured at NAV (a)				759,783
				$ 16,276,199

(a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no significant transfers in or out of Levels 1, 2 or 3.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using the NAV per share (or its equivalent) as of December 31, 2017 and 2016:

	Fair Value December 31		Unfunded	Redemption	Redemption
Investment	2017	2016	Commitment	Frequency	Notice Period
Money Market	$ 848,172	$ 759,783	None	Daily	None

Note 5. Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to Section 401(k) of the IRC and, accordingly, the trust's net investment income is exempt from income taxes. The Plan obtained its latest determination letter on March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan Administrator believes the Plan continues to be designed and operated in compliance with the applicable requirements of the IRC.

Note 6. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds or other short-term investment funds managed by Fidelity, the trustee, and therefore, these transactions qualify as party-in-interest transactions as defined by ERISA.
