Independent Auditor's Report

To the Plan Trustees
United Laboratories, Inc. Combined Employee
Stock Ownership Plan

Report on the Financial Statements

We audited the accompanying financial statements of United Laboratories, Inc. Combined Employee Stock Ownership Plan (the "Plan"), which comprise the statement of net assets as of December 31, 2017 and 2016 and the related statement of changes in net assets for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2017 and 2016 and the changes in net assets for the year ended December 31, 2017 in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As explained in Note 3, the financial statements include investments valued at $15,890,416 at December 31, 2017 and $13,621,257 at December 31, 2016, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on an independent appraisal and management's projections. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2017 and reportable transactions for the year ended December 31, 2017 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Plan Description

The following description of United Laboratories, Inc. Combined Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by United Laboratories Inc. (the "Company") on August 1, 1975 and restated August 1, 1996 and originally named United Laboratories Employee Stock Ownership Plan (ESOP). Effective January 1, 2015, United Laboratories, Inc. Leveraged Employee Stock Ownership Plan (LESOP) merged with and into United Laboratories Employee Stock Ownership Plan (ESOP). The plan documents of the two plans were amended, restated, and renamed to create United Laboratories, Inc. Combined Employee Stock Ownership Plan (the "Plan"). The Plan is designed to invest primarily in stock of the Company and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The LESOP originally purchased company common stock using proceeds from the Company's bank borrowings and loans from former stockholders and held the stock in a trust established under the Plan. The bank borrowing and loans from former stockholders were repaid in 2011. During 2011, the LESOP borrowed from the Company to purchase additional company common stock. The note was paid in full in 2016. The borrowings were collateralized by the unallocated shares of stock. The Company has no rights against shares as they are fully allocated under the Plan.

Administration of Plan Assets

Invictus Fiduciary Services, LLC (the "Trustee") is the trustee of the Plan, as well as the custodian of the cash balance portion of the Plan. The Plan's assets, which consist primarily of sponsor company common shares, are held by Principal Life Insurance Company.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Eligibility

The Plan is a defined contribution plan covering substantially all employees who have completed at least one year of service, providing they worked at least 1,000 hours during such plan year. Participants who did not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of company contributions for such year. Nonresident aliens are excluded for participation in the Plan.

Employer Contributions

Employer contributions are determined by the board of directors of the Company at their discretion subject to conditions and limitations of the Plan. During 2017, the Company made a cash contribution of $990,602, of which the plan used to purchase additional shares of company stock. Employee contributions are not permitted.

Participant Accounts and Forfeitures

Each participant's account is credited with an allocation of (a) employer cash or stock contribution, (b) forfeitures of terminated participants' nonvested accounts, (c) company stock dividends, and (d) other plan earnings and losses. The employer's contribution and forfeitures are allocated to each participant in the ratio that each participant's compensation bears to the total compensation of all participants. Investment income or losses are allocated on the basis that the participant's investment account balance bears to the total account balance of all participants.

Note 1 - Plan Description (Continued)

Vesting

Vesting in the Company's contributions and earnings thereon is based on participant's years of credited service. The vested portion is determined in accordance with the schedule below:

Years of Service	Vested Percentage
2 full years	20.00 %
3 full years	40.00 %
4 full years	60.00 %
5 full years	80.00 %
6 or more full years	100.00 %

A participant will be eligible for normal retirement on the first day of the next month following the participant's 62nd birthday. Upon normal retirement, a participant will become 100 percent vested, regardless of years of service.

Payment of Benefits

Participants will be eligible to receive distributions from the Plan upon termination of service due to retirement or death. Benefits may be paid in cash, common stock of the Company, or a combination of both. Benefits are recorded when cash is paid or shares of stock are distributed.

Under terms of the plan agreement, shares of stock received as a distribution must be sold immediately by terminated participants to the Company. Participants with vested balances equal to or less than $15,000 will receive a lump-sum payment. Distributions valued over $15,000 will receive payment in equal annual installments over a period not to exceed five years for which notes payable will be recorded by the Company.

Distributions will generally commence no later than 60 days following the year during which the latest of the following events occur: the participant reaches normal retirement (age 62), the date the participant reaches the 10th anniversary of his or her participation in the Plan, or the termination date of the participant.

Put Option

Under federal income tax regulations, the employer stock that is held by a plan and its participants and is not readily tradable on established market includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The fair value of such shares shall be determined by an independent appraiser. The purpose of the put option is to ensure that the participant has the ability ultimately obtain cash.

Voting Rights

Each participant (or beneficiary) is entitled to direct the trustee as to the exercise of any voting rights attributable to shares of stock then allocated to his or her account, but only to the extent required by the Internal Revenue Code Section 409(e)(3) and the regulations there under. The trustee shall vote any unallocated stock and any allocated stock in the trust fund as to which no voting instructions have been received.

Note 1 - Plan Description (Continued)

Postretirement Diversification Rights

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of company shares credited to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify received distributions as defined in the plan document.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Company allocates forfeitures to participants based on the participant's compensation, as defined. Allocations of forfeitures are considered additional company contributions and are subject to the vesting provisions of company contributions.

Termination

The Company reserves the right to terminate the Plan at any time, subject to the Plan's provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the IRC. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Invictus Fiduciary Services, LLC or its affiliates. Invictus Fiduciary Services, LLC is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. Certain plan assets are in investments in the Company's stock. The Company is the sponsor of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value. The common shares of United Laboratories, Inc. are valued at fair value, as determined by an annual independent appraisal.

Cash is valued at fair value based on its outstanding balance. See Note 3 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Note 2 - Summary of Significant Accounting Policies (Continued)

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from these estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 11, 2018, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan’s assets measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. The company common stock is classified as Level 3 in the hierarchy and is based on the fair value determined through third-party appraisal, which utilized a combination of both market and income approaches, including the discounted cash flow method, the guideline public company method, and the merged and acquired method. The unobservable inputs for the discounted cash flow method were the weighted average cost of capital, revenue growth, and discount for lack of marketability. The unobservable input for the merged and acquired method was revenue growth.

Note 3 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

United Laboratories, Inc. common stock	-	-	13,621,257
Total investments at fair value	$ -	$ 80,238	$ 13,621,257

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during 2017.

The valuation process includes plan management's annual engagement of a qualified independent valuation firm. Plan management accumulates the data for the appraisal from the Company's audited financial statements and forecasts. The appraiser prepares a preliminary report, which plan management, along with the trustee, reviews in detail, discusses, and approves.

Changes in Level 3 assets measured at fair value on a recurring basis for the years ended December 31, 2017 are as follows:

	United Laboratories, Inc. Common Stock
Balance at January 1, 2017	$ 13,621,257
Purchases, issuances, sales, and settlements:	
Purchases	990,602
Sales	(954,005)
Total unrealized gains	2,228,261
Other	4,301
Balance at December 31, 2017	$ 15,890,416

Of the Level 3 assets still held by the Plan at December 31, 2017, the unrealized gains for the year ended December 31, 2017 totaled $2,228,261, which are recognized in the statement of changes in net assets.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Independent Auditor's Report

To the Plan Trustees
United Laboratories, Inc. Combined Employee
Stock Ownership Plan

Report on the Financial Statements

We audited the accompanying financial statements of United Laboratories, Inc. Combined Employee Stock Ownership Plan (the "Plan"), which comprise the statement of net assets as of December 31, 2017 and 2016 and the related statement of changes in net assets for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2017 and 2016 and the changes in net assets for the year ended December 31, 2017 in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As explained in Note 3, the financial statements include investments valued at $15,890,416 at December 31, 2017 and $13,621,257 at December 31, 2016, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on an independent appraisal and management's projections. Our opinion is not modified with respect to this matter.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2017 and reportable transactions for the year ended December 31, 2017 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Plan Description

The following description of United Laboratories, Inc. Combined Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by United Laboratories Inc. (the "Company") on August 1, 1975 and restated August 1, 1996 and originally named United Laboratories Employee Stock Ownership Plan (ESOP). Effective January 1, 2015, United Laboratories, Inc. Leveraged Employee Stock Ownership Plan (LESOP) merged with and into United Laboratories Employee Stock Ownership Plan (ESOP). The plan documents of the two plans were amended, restated, and renamed to create United Laboratories, Inc. Combined Employee Stock Ownership Plan (the "Plan"). The Plan is designed to invest primarily in stock of the Company and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The LESOP originally purchased company common stock using proceeds from the Company's bank borrowings and loans from former stockholders and held the stock in a trust established under the Plan. The bank borrowing and loans from former stockholders were repaid in 2011. During 2011, the LESOP borrowed from the Company to purchase additional company common stock. The note was paid in full in 2016. The borrowings were collateralized by the unallocated shares of stock. The Company has no rights against shares as they are fully allocated under the Plan.

Administration of Plan Assets

Invictus Fiduciary Services, LLC (the "Trustee") is the trustee of the Plan, as well as the custodian of the cash balance portion of the Plan. The Plan's assets, which consist primarily of sponsor company common shares, are held by Principal Life Insurance Company.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Eligibility

The Plan is a defined contribution plan covering substantially all employees who have completed at least one year of service, providing they worked at least 1,000 hours during such plan year. Participants who did not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of company contributions for such year. Nonresident aliens are excluded for participation in the Plan.

Employer Contributions

Employer contributions are determined by the board of directors of the Company at their discretion subject to conditions and limitations of the Plan. During 2017, the Company made a cash contribution of $990,602, of which the plan used to purchase additional shares of company stock. Employee contributions are not permitted.

Participant Accounts and Forfeitures

Each participant's account is credited with an allocation of (a) employer cash or stock contribution, (b) forfeitures of terminated participants' nonvested accounts, (c) company stock dividends, and (d) other plan earnings and losses. The employer's contribution and forfeitures are allocated to each participant in the ratio that each participant's compensation bears to the total compensation of all participants. Investment income or losses are allocated on the basis that the participant's investment account balance bears to the total account balance of all participants.

Note 1 - Plan Description (Continued)

Vesting

Vesting in the Company's contributions and earnings thereon is based on participant's years of credited service. The vested portion is determined in accordance with the schedule below:

Years of Service	Vested Percentage
2 full years	20.00 %
3 full years	40.00 %
4 full years	60.00 %
5 full years	80.00 %
6 or more full years	100.00 %

A participant will be eligible for normal retirement on the first day of the next month following the participant's 62nd birthday. Upon normal retirement, a participant will become 100 percent vested, regardless of years of service.

Payment of Benefits

Participants will be eligible to receive distributions from the Plan upon termination of service due to retirement or death. Benefits may be paid in cash, common stock of the Company, or a combination of both. Benefits are recorded when cash is paid or shares of stock are distributed.

Under terms of the plan agreement, shares of stock received as a distribution must be sold immediately by terminated participants to the Company. Participants with vested balances equal to or less than $15,000 will receive a lump-sum payment. Distributions valued over $15,000 will receive payment in equal annual installments over a period not to exceed five years for which notes payable will be recorded by the Company.

Distributions will generally commence no later than 60 days following the year during which the latest of the following events occur: the participant reaches normal retirement (age 62), the date the participant reaches the 10th anniversary of his or her participation in the Plan, or the termination date of the participant.

Put Option

Under federal income tax regulations, the employer stock that is held by a plan and its participants and is not readily tradable on established market includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The fair value of such shares shall be determined by an independent appraiser. The purpose of the put option is to ensure that the participant has the ability ultimately obtain cash.

Voting Rights

Each participant (or beneficiary) is entitled to direct the trustee as to the exercise of any voting rights attributable to shares of stock then allocated to his or her account, but only to the extent required by the Internal Revenue Code Section 409(e)(3) and the regulations there under. The trustee shall vote any unallocated stock and any allocated stock in the trust fund as to which no voting instructions have been received.

Note 1 - Plan Description (Continued)

Postretirement Diversification Rights

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of company shares credited to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify received distributions as defined in the plan document.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Company allocates forfeitures to participants based on the participant's compensation, as defined. Allocations of forfeitures are considered additional company contributions and are subject to the vesting provisions of company contributions.

Termination

The Company reserves the right to terminate the Plan at any time, subject to the Plan's provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the IRC. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Invictus Fiduciary Services, LLC or its affiliates. Invictus Fiduciary Services, LLC is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. Certain plan assets are in investments in the Company's stock. The Company is the sponsor of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value. The common shares of United Laboratories, Inc. are valued at fair value, as determined by an annual independent appraisal.

Cash is valued at fair value based on its outstanding balance. See Note 3 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Note 2 - Summary of Significant Accounting Policies (Continued)

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results could differ from these estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 11, 2018, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan’s assets measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. The company common stock is classified as Level 3 in the hierarchy and is based on the fair value determined through third-party appraisal, which utilized a combination of both market and income approaches, including the discounted cash flow method, the guideline public company method, and the merged and acquired method. The unobservable inputs for the discounted cash flow method were the weighted average cost of capital, revenue growth, and discount for lack of marketability. The unobservable input for the merged and acquired method was revenue growth.

Note 3 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2017		
	Level 1	Level 2	Level 3
Cash	$ -	$ 76,659	$ -
United Laboratories, Inc. common stock	-	-	15,890,416
Total investments at fair value	$ -	$ 76,659	$ 15,890,416

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2016		
	Level 1	Level 2	Level 3
Cash	$ -	$ 80,238	$ -
United Laboratories, Inc. common stock	-	-	13,621,257
Total investments at fair value	$ -	$ 80,238	$ 13,621,257

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during 2017.

The valuation process includes plan management's annual engagement of a qualified independent valuation firm. Plan management accumulates the data for the appraisal from the Company's audited financial statements and forecasts. The appraiser prepares a preliminary report, which plan management, along with the trustee, reviews in detail, discusses, and approves.

Changes in Level 3 assets measured at fair value on a recurring basis for the years ended December 31, 2017 are as follows:

	United Laboratories, Inc. Common Stock
Balance at January 1, 2017	$ 13,621,257
Purchases, issuances, sales, and settlements:	
Purchases	990,602
Sales	(954,005)
Total unrealized gains	2,228,261
Other	4,301
Balance at December 31, 2017	$ 15,890,416

Of the Level 3 assets still held by the Plan at December 31, 2017, the unrealized gains for the year ended December 31, 2017 totaled $2,228,261, which are recognized in the statement of changes in net assets.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
