Note 1—Plan description

Plan Description – The Caspers Company 401(k) Plan (the "Plan") was established by JTS Enterprises of Tampa, Limited (d/b/a Caspers Company) (the "Company" or "Plan Sponsor") as a defined contribution plan effective June 30, 1971, as amended and restated effective December 1, 2015. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following is a summary of major plan provisions. Participants should refer to the Plan document for more complete information.

Participation – All employees of the Plan Sponsor or its participating affiliates (Caspers Distribution, LLC and Caspers Service Company, LLC) who have completed at least one year of service and have attained the age of 21 are eligible to participate. Participants may enter the plan after completion of the service requirements on January 1st or July 1st. Participants must have completed 1,000 hours of service within the Plan year and be actively employed on the last day of the Plan year to share in the employer contribution.

Contributions – Participants may contribute up to 80% of their total annual compensation, not to exceed certain Internal Revenue Code ("IRC") limitations, on an annual basis. Participants who have attained the age of 50 are eligible to make pre-tax catch-up contributions, subject to certain IRC limitations. The Company may make discretionary matching contributions, based on a percentage determined by management, which is computed based on the participants' elective contributions. The Company may also make additional discretionary contributions to the Plan, which shall be allocated to eligible participants based on a specified formula, as defined. Discretionary matching contributions to the Plan are made by the Company as determined annually by management of the Company.

Participant Accounts – Each participant's account is credited with the participant's contribution, and allocation of employer contributions, if any, and Plan earnings. Allocations are based on participant investment account earnings, elective deferrals or account balances, as defined. The benefit to which a participant is entitled is the vested balance in the participant's account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as defined by the Plan. An active participant who is less than 100% vested is deemed to be 100% vested upon death or total disability. Vesting is determined according to the following schedule:

Years of Service	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5 or more	100%

Forfeitures – Pursuant to the Plan document, forfeiture balances are to be used to reduce current period employer contributions. There were $4,200 and $2,434 of forfeitures available as of December 31, 2017 and 2016, respectively. The amounts available as of December 31, 2017 were applied by the Company toward the employer matching contribution for the 2017 Plan year when funded in 2018.

Note 1—Plan description (continued)

Payment of Benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount not to exceed the value of the participant's vested interest in his or her account in either a lump-sum amount, annual installments over the life of the participant and beneficiary, or installments over a period of time not to exceed the assumed life expectancy of the participant or beneficiary. The beneficiary of a deceased participant may also elect to receive benefits over a period of time not exceeding the life expectancy of the beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or an annuity.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments, Investment Valuation, and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations, other than those made using net asset value ("NAV") as a practical expedient, are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies;

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Common/Collective Investment Trusts – These investments are investment vehicles valued using the NAV provided by the administrator of the fund, as a practical expedient. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is excluded from the valuation hierarchy consistent with accounting principles generally accepted in the United States ("U.S. GAAP").

Note 2—Summary of significant accounting policies (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants – Benefits are recorded when processed and paid by the Plan.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Such estimates include those regarding fair value. Actual results could differ from those estimates.

Subsequent Events – Management has evaluated subsequent events through October 12, 2018 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Note 3—Information certified by the Trustee (unaudited)

The following information included in the accompanying financial statements as of December 31, 2017 and 2016 and for the year ended December 31, 2017 and the supplemental schedule as of December 31, 2017 was obtained from data that has been prepared and certified to as complete and accurate by SunTrust Bank, N.A. (the "Trustee"), as permitted by Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

Note 4—Investments at fair value

The following summarizes the Plan's investments based upon the fair value hierarchy discussed in Note 2:

As of December 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds [(a)]	$ 9,887,070	$ -	$ -	$ 9,887,070
Total assets in fair value hierarchy	$ 9,887,070	$ -	$ -	9,887,070
Common/collective investment trust, measured at net asset value [(a) (b)]				1,097,319
Investments, at fair value				$ 10,984,389

As of December 31, 2016	(Level 1)	(Level 2)	(Level 3)	Total
Mutual funds [(a)]	$ 10,867,108	$ -	$ -	$ 10,867,108
Total assets in fair value hierarchy	$ 10,867,108	$ -	$ -	10,867,108
Common/collective investment trust, measured at net asset value [(a) (b)]				931,908
Investments at fair value				$ 11,799,016

(a) Amounts are unaudited, see Note 3.

(b) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

The common/collective trust is valued based upon NAV, which is not readily determinable and is comprised by the following:

As of December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Federated Capital Preservation Fund ISP [(a)]	$ 1,097,319	None	Daily	Daily
As of December 31, 2016				
Federated Capital Preservation Fund ISP [(a)]	$ 931,908	None	Daily	Daily

(a) The primary investment objective of the Federated Capital Preservation Fund ISP (the "Capital Fund") is to pursue current income consistent with stability of principal and liquidity. The Capital Fund seeks to avoid excessive yield volatility and unnecessary risk through a conservative maturity range. The Capital Fund's portfolio is comprised of short-term, high-quality, fixed-income securities issued by banks, corporations and the U.S. government.

Note 5—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the employer contributions in their accounts.

Note 6—Income tax status

The Plan is identical to the SunTrust Prototype Defined Contribution Plan ("SunTrust Prototype Plan") approved by the Internal Revenue Service ("IRS"). The SunTrust Prototype Plan is a qualified plan under Section 401(k) of the IRC and, as such, is exempt from federal income taxes under Section 501(a) of the IRC. The SunTrust Prototype Plan obtained its latest determination letter on March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7—Plan expenses

Administrative expenses are comprised primarily of investment fees and are paid by the Plan. Additionally, any professional fees incurred on behalf of the Plan are paid by the Plan Sponsor. During the year ended December 31, 2017, approximately $13,000 of professional fees were paid by the Plan Sponsor.

Note 8—Party-in-interest transactions

Certain Plan investments are in mutual funds managed by the Trustee and, therefore, these transactions qualify as party-in-interest transactions. Financial Administrative Services Corporation ("FASCOR") is the Plan record keeper. The services performed by FASCOR qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 9—Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits included in the December 31, 2017 and 2016 financial statements to those included in Form 5500:

	December 31,	
	2017	2016
Net assets available for benefits per the financial statements	$ 11,117,126	$ 11,926,237
Less employer contributions receivable	(132,737)	(127,221)
Net assets available for benefits per the Form 5500	$ 10,984,389	$ 11,799,016

The following is a reconciliation of change in net assets available for benefits included in the statement of changes in net assets available for benefits for the year ended December 31, 2017, to Form 5500:

Total change in net assets available for benefits per the financial statements	$ (809,111)
Add December 31, 2016 employer contribution receivable	127,221
Less December 31, 2017 employer contribution receivable	(132,737)
Total change in net assets available for benefits per Form 5500	$ (814,627)

Note 10—Risks and uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 11—Subsequent Events

Effective July 1, 2018 the Plan was restated and amended to include the following entities within the Plan: Oxford Exchange, LLC and Oxford Exchange Design Studio, LLC.
