Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above, of Behr America Cash Balance Pension Plan and Behr Dayton Thermal Products IUE Pension Agreement, present fairly, in all material respects, the net assets of the Plans as of December 31, 2017 and 2016 and the changes in net assets for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### Note 1 - Plan Description

The following description of Behr America Cash Balance Pension Plan (the "Cash Balance Plan") and Behr Dayton Thermal Products IUE Pension Agreement (the "IUE Plan") (collectively, the "Plans") provides only general information. Participants should refer to the plan agreements for a more complete description of each plan's provisions.

#### **General**

The Plans are defined benefit pension plans that were established on May 1, 2002. MAHLE Behr USA Inc. and MAHLE Behr Dayton, LLC (collectively, the "Companies") are the plan sponsors of the Cash Balance Plan and IUE Plan, respectively. The Cash Balance Plan covers substantially all employees of MAHLE Behr USA Inc. hired prior to January 1, 2014 and provides for retirement and death benefits. The IUE Plan covers certain union employees of MAHLE Behr Dayton, LLC and provides for retirement, death, and disability benefits. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 31, 2013, all benefit accruals under the Cash Balance Plan were frozen, with the exception of interest credits. No new participants are permitted to join the Cash Balance Plan after December 31, 2013.

In October 2007, MAHLE Behr Dayton, LLC and the Industrial Division of the Communications Workers of America (IUE) approved a collective bargaining agreement, which provided that benefit accrual service under the IUE Plan ceased to accrue or increase for all Local 84775 Tier 3 employees, as defined by the IUE Plan, as of December 31, 2007. Benefit accruals for the other plan participants remain unchanged, as defined by the IUE Plan. All new employees of MAHLE Behr Dayton, LLC hired on or after October 22, 2007 are not eligible to participate in the IUE Plan.

#### **Eligibility and Vesting**

Employees become participants in the Plans following completion of the eligibility requirements, as described in the plan documents. Participants of the Cash Balance Plan are fully vested for normal retirement benefits after three years of service. Tier 1 employees, as defined by the IUE Plan, are fully vested for normal retirement benefits in the IUE Plan after one year of service. Tier 2 and 3 employees, as defined by the IUE Plan, are fully vested for normal retirement benefits in the IUE Plan after 10 years of service (five years of service for a deferred vested pension).

#### **Pension Benefits - Cash Balance Plan**

A participant's accrued benefit in the Cash Balance Plan is defined as a notional cash balance account. Participant cash balance accounts were frozen as of January 1, 2014. Additionally, interest is credited to participant cash balance accounts each quarter. The interest crediting rate is based on the 10-year U.S. Treasury Constant Maturity Yield in effect two months prior to the beginning of that quarter, divided by 4. The Cash Balance Plan has a minimum quarterly interest crediting rate of 0.925 percent (3.7 percent annual).

#### **Pension Benefits - IUE Plan**

Participant benefits in the IUE Plan are accrued on an annual basis based on the benefit rate multiplied by years of service, as defined by the IUE Plan. The benefit rate is based on union classification and date of hire and ranges from \$17.00 to \$51.65.

#### **Death Benefits**

If an active or terminated employee who has a vested interest in the Plans dies prior to his or her normal retirement age, a death benefit, as defined by the Plans, will be paid to the surviving spouse.

**December 31, 2017 and 2016****Note 1 - Plan Description (Continued)*****Funding***

Contributions to the Cash Balance Plan and the IUE Plan are made by the Companies at actuarially determined amounts. The Companies' policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA.

***Payment of Benefits***

Distributions are payable upon retirement, death, disability, or termination of employment. Participants of the Cash Balance Plan may elect to receive the value of their accumulated plan benefits as an annuity payable monthly or a lump-sum payment. Participants of the IUE Plan receive the value of their accumulated plan benefits as an annuity payable monthly.

Effective July 1, 2017 through October 31, 2017, the IUE Plan offered a lump-sum payout option to certain terminated vested participants and beneficiaries of the Plan.

***Party-in-interest Transactions***

Certain plan assets are in investment funds managed by Comerica Bank. Comerica Bank is the trustee of the Plans; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. In addition, one benefit payment in the Behr Dayton Thermal Products IUE Pension Agreement resulted in an inadvertent loan to the plan sponsor, as disclosed in the schedule of nonexempt transactions. This transaction qualifies as a party-in-interest transaction, as defined under ERISA guidelines.

**Note 2 - Summary of Significant Accounting Policies*****Investment Valuation and Income Recognition***

The Plans invest in the MAHLE Behr USA, Inc. Master Trust (the "Master Trust"), which was established to hold the investment of assets of these Plans and other defined benefit retirement plans sponsored by the Companies. The Master Trust's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Investment income consists of interest and dividend income, as well as the realized gains or losses on investments sold during the year and the unrealized appreciation (depreciation) on investments held at the end of the year. Dividend income is recorded on the ex-dividend date.

See Note 3 for additional information.

***Benefit Payments***

Benefits are recorded when paid.

***Administrative Expenses***

Various administrative costs are paid by the Companies.

**December 31, 2017 and 2016****Note 2 - Summary of Significant Accounting Policies (Continued)*****Actuarial Present Value of Accumulated Plan Benefits***

Accumulated plan benefits are those future periodic payments that are attributable, under the Plans' provisions, to the service employees have rendered. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

***Actuarial Assumptions***

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plans at December 31, 2016 are summarized as follows:

|                                              |                                                                                                       |
|----------------------------------------------|-------------------------------------------------------------------------------------------------------|
| Actuarial cost method                        | Standard unit credit                                                                                  |
| Interest rate                                | 6.0 percent per annum                                                                                 |
| Mortality basis                              | RP-2014 Generational mortality table projected using Scale MP-2014                                    |
| Assumed retirement age for Cash Balance Plan | Various rates ranging from 10.0 percent at age 55 to 100 percent at age 70+                           |
| Assumed retirement age for IUE Plan          | Various rates ranging from 0.0 percent at age 48 with 0-29 years of service to 100 percent at age 70+ |

The foregoing actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

***Risks and Uncertainties***

Contributions to the Plans and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

**December 31, 2017 and 2016**

**Note 2 - Summary of Significant Accounting Policies (Continued)**

***Upcoming Accounting Pronouncement***

In February 2017, FASB issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plans' interest in the Master Trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management does not expect the adoption of this ASU to have a significant impact on the Plans' financial statements.

***Subsequent Events***

The financial statements and related disclosures include evaluation of events up through and including October 11, 2018, which is the date the financial statements were available to be issued.

**Note 3 - Interest in Master Trust**

Each participating retirement plan has an undivided interest in the Master Trust. The fair value of the Plans' interest in the Master Trust represents each plan's allocated portion. The Plans' allocated portion is equal to the beginning of the year value of the Plans' interest in the Master Trust plus actual plan contributions and allocated investment income, less actual plan distributions and allocated administrative expenses. Investment income and administrative expenses are allocated proportionately on a monthly basis based on each plan's interest in the Master Trust.

At December 31, 2017 and 2016, the Plans' respective interests in the Master Trust were as follows:

|                   | 2017   | 2016   |
|-------------------|--------|--------|
| Cash Balance Plan | 49.8 % | 45.4 % |
| IUE Plan          | 49.5   | 54.0   |

***Fair Value***

Accounting standards require that certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

***Level 1***

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plans have the ability to access.

***Level 2***

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset, such as interest rates and yield curves, that are observable at commonly quoted intervals.

***Level 3***

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

**December 31, 2017 and 2016**
**Note 3 - Interest in Master Trust (Continued)**

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plans' assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Master Trust's investments:

***Common Collective Trust***

The common collective trust is valued at net asset value per share (or its equivalent), based on the fair value of the fund's underlying net assets. There are no unfunded commitments or redemption restrictions on these investments.

***Fixed-income Securities***

The U.S. government securities, corporate debt securities, and municipal bonds are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures.

***Mutual Funds***

The mutual funds are valued at quoted prices reported in active markets.

**Note 5 - Tax Status**

The Plans have received a determination letter from the Internal Revenue Service indicating that the Plans, as designed, are qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plans have been amended since receiving the determination letter, management believes that the Plans are designed and are currently being operated in compliance with the applicable requirements of the IRC.

**Note 6 - Plan Termination**

Should the Plans terminate at some future time, their net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty while other benefits may not be provided for at all.

| Valuation of Plan Assets                      | <p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p> |

Decrement Timing

Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)

Surviving Spouse Benefit

It is assumed that 75% of males and 75% of females have an eligible spouse, and that males are three years older than their spouses.

Benefit Limits

Projected benefits are limited by the current IRC section 415 maximum benefit of \$215,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
