SELWAY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2017 AND DECEMBER 31, 2016

Note 1. DESCRIPTION OF THE PLAN:

The following brief description of Selway Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

General:

The Plan was created by Selway Machine Tool Company, Inc. ("the Company") as a defined contribution plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

All money that is contributed to the Plan is held in a trust fund. The trustees are responsible for the safekeeping of the trust fund and must hold and invest plan assets in a prudent manner and in the best interest of the plan participants and their beneficiaries.

Participation:

Immediately upon meeting the eligibility requirements, employees can join the Plan and begin deferring a portion of their compensation. An employee is eligible to participate in the Plan after completing three months of service. The Plan does not have an age requirement. Upon meeting eligibility criteria, employees will be automatically enrolled in the Plan with an initial pre-tax deferral contribution of 6%.

For the purposes of elective deferrals, the entry date will be the first day of the month coinciding with or next following the date the employee satisfies the eligibility requirements.

Participant contributions:

Participation in the Plan is voluntary. The maximum annual amount that can be contributed to a 401(k) arrangement as an elective deferral, that is, as a pre-tax contribution, is $18,000 for 2017 and 2016. Individuals age 50 or over by the end of the plan year are allowed to make additional contributions to a 401(k) plan, in excess of the standard limits. Such additional contributions will be limited to the lesser of a specified dollar amount ($6,000 in 2017 and 2016) or the participant's compensation for the year reduced by the participant's other elective deferrals.

Participants may also make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. All contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer contributions:

The employer may make a discretionary matching contribution. The percentage of elective deferral contributions matched, if any, shall be a percentage determined by the employer and shall apply to all eligible persons for the entire plan year. For the year ended December 31, 2017, the percentage of elective deferral contributions matched was 25% of the participant's contribution per period. For the year ended December 31, 2017, total discretionary matching contributions of $192,671 were made by the plan sponsor.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2017 AND DECEMBER 31, 2016

Note 1. DESCRIPTION OF THE PLAN (Continued):

Participant accounts:

Each participant's account is credited with the participant's contribution and allocation of the plan sponsor's contribution and the Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting of plan benefits:

Participants are 100% immediately vested in their deferral contributions and employer contributions.

Notes receivables from participants:

Under the terms of the Plan, participants may borrow from their account, a minimum of $1,000 up to a maximum of $50,000 or 50% of the participant's account balance, whichever is less. The loans are secured by the balance in the participant's account. Loans bear a fixed rate of interest determined on the date of advance. Principal and interest is paid ratably through payroll deductions.

Payment of benefits:

Participant accounts are available for withdrawal at the participant's death, retirement, total disability, age 62, or termination of employment with the Company. Participants who qualify for benefits and withdrawals are entitled to a lump-sum distribution of his or her vested account balance. Participants may elect to have their account balance distributed as soon as administratively feasible following termination of employment.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment valuation and income recognition:

Investments are generally included in the financial statements at fair value as reported to the Plan by the asset custodian. Shares are stated at quoted market value. Gains and losses on investments are recognized in the period in which the appreciation or depreciation occurs. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in fair value of investments, which consists of the net realized gains or losses and unrealized appreciation or depreciation on those investments.

As described in the Professional Accounting Standards, investment contracts held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contract because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2017 AND DECEMBER 31, 2016

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation in the fair value of investments.

Date of management's review:

Management has evaluated events through October 10, 2018, the date which the financial statements were available for issue. Management has concluded that there were no subsequent events to be disclosed or recognized in the financial statements.

Note 3. NATURE OF ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United State of America requires the Administrative Committee to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Note 4. SIGNIFICANT CONCENTRATION OF CREDIT RISK:

The Plan's investments are held in a trust fund administered by Principal Financial Group.

The Plan provides for various investment options in any one of a combination of pooled separate accounts that invest in stocks, bonds, fixed income securities and other investment securities. These investments are exposed to various risks, such as credit, interest rate and market. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 5. INFORMATION PREPARED AND CERTIFIED BY ASSET CUSTODIAN (UNAUDITED):

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). As permitted under such election, Principal Life Insurance Company and Principal Trust Company, the asset custodian of the Plan, certified information regarding the cost and fair value of all investments and notes receivable from participants as of December 31, 2017 and December 31, 2016 and investments and notes receivable from participants transactions entered into during 2017, which was used in the preparation of the accompanying financial statements and supplemental schedules.

Note 6. FAIR VALUE MEASUREMENTS:

Professional Accounting Standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under professional accounting standards are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts: Valued at the net asset value (NAV) of separate accounts held by the plan at year-end.

Benefit responsive investments: Valued based on the credited rate or the underlying unit value communicated to the plan. Any market value adjustment or surrender charge will be based on the formulas and schedules in the contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. FAIR VALUE MEASUREMENTS (Continued):

The following tables set forth by level, the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

Investments at Fair Value as of December 31, 2017

	Level 1	Level 2	Level 3	Total

NOTES TO FINANCIAL STATEMENTS - DECEMBER 31, 2017 AND DECEMBER 31, 2016

Note 7. BENEFIT-RESPONSIVE INVESTMENT (GUARANTEED INTEREST CONTRACT):

The Plan entered into a benefit-responsive investment contract with Principal Life Insurance Company. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

As described in Note 2, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to benefit-responsive investment. Contract value, as reported to the Plan by Principal Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

As of December 31, 2017, the Plan had $108,060 in guaranteed interest contracts, a benefit-responsive investment.

Contract value is the only required measure for fully-benefit responsive investment contracts. Under professional accounting standards, the contract value is now presented as fair value.

Note 8. PLAN TERMINATION:

Although it has not expressed the intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 9. INCOME TAX STATUS:

The Plan obtained a determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 10. RELATED PARTY TRANSACTIONS:

Plan investments are held and managed by Principal Life Insurance Company and Principal Trust Company. Principal Life Insurance Company and Principal Trust Company are the asset custodian as defined by the Plan. Fees paid by the Plan to Principal Life Insurance Company and Principal Trust Company for investment management services amounted to $1,279 for the year ended December 31, 2017. These transactions qualify as party-in-interest transactions, which are exempt from the ERISA prohibited transaction rules.
