1. Description of the Plan

The following description of the Host Analytics, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, a defined contribution plan sponsored by Host Analytics, Inc. (the "Company"), pursuant to Section 401(a) and related provisions of the Internal Revenue Code ("IRC"), was established originally effective January 1, 2008 and restated on May 21, 2014. The Plan was designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination or financial hardship. The Plan covered all employees of the Company who met certain eligibility requirements. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Effective May 1, 2014, the Plan was terminated and merged into the TriNet 401(k) Plan. The Plan's assets were transferred to the TriNet 401(k) Plan on September 16, 2014. Total assets transferred from the Plan amounted to $2,345,804.

Plan administration

The Company was the administrator of the Plan and, as such, carried out the duties imposed by ERISA. The Company delegated certain responsibilities for the operation and administration of the Plan. Trustee and custodial services were provided by the Mid Atlantic Trust Company. Recordkeeping services were provided Paychex, Inc. ("Paychex").

Certain administrative expenses of the Plan were paid by the Company. Investment fees, which varied according to the individual funds selected, were paid out of the assets of the Plan. Participants should refer to the prospectus of the individual investment funds for further details on individual investment fees.

Eligibility

All employees, except those covered by a collective bargaining agreement, nonresident aliens and employees who became employees from an asset or stock acquisition, merger, or similar transactions, as defined by the Plan, became eligible to make elective deferral contributions upon reaching the age of 21. Such employees must have completed 500 hours of service, as defined by the Plan, to become eligible to receive employer discretionary profit sharing contributions.

1. Description of the Plan (continued)

Participant contributions

Participants elected to contribute through payroll deductions amounts up to 92% of their annual compensation as defined by the Plan, up to the maximum amount allowed by the IRC. Maximum allowed deferral amounts were $17,500 for 2014. Participants over the age of 50 could contribute an additional $5,500 catch-up contribution to the Plan for 2014. Participants were allowed to rollover contributions from other qualified retirement plans.

Participants directed the investment of their contributions into various investment options offered by the Plan.

Employer contributions

The Company had the option to make discretionary profit sharing contributions. No discretionary profit sharing contributions were made by the Company for the period ended September 16, 2014.

Participant accounts

Each participant's account was credited with the participant's contribution or rollovers and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations of investment earnings were based strictly on the participant's selection of investments and timing of purchase. Other allocations were based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary contributions, rollover contributions and actual earnings thereon. Vesting in employer profit sharing contributions was based on years of credited service, as defined. A participant was 100% vested in profit sharing contributions after six years of credited service. In the event of death or disability, participants were immediately vested in all Company contributions.

Notes receivable from participants

Under the terms of the Plan, participants could borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the value of their vested account balance. The duration of the loan was not to exceed 5 years, except for loans used to finance the purchase of a primary residence. The loans were secured by the balance in the participant's account and bore interest at a rate of prime plus 1%, which was commensurate with local prevailing rates. Principal and interest were paid ratably through semi-monthly payroll deductions.

1. Description of the Plan (continued)

Payment of benefits

Distributions and withdrawals were payable upon retirement, termination, financial hardship, disability or death. If a participant's account balance was equal to or less than $1,000, the balance was distributed immediately in a lump-sum cash payment unless a direct rollover into another qualified benefit plan was requested. If the account balance was over $1,000, the participant could consent to either a distribution paid in the form of a lump-sum cash payment, a direct rollover into another qualified plan or installments over a period not longer than life expectancy or postpone payment to a later date and remain in the Plan as described in the Plan documents.

2. Summary of Significant Accounting Policies

Basis of accounting

For the period from January 1, 2014 to September 16, 2014, the financial statements were prepared using the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). For the year ended December 31, 2013, the financial statements were prepared on the going concern basis of accounting in accordance with U.S. GAAP.

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the period ended September 16, 2014.

2. Summary of Significant Accounting Policies (continued)

Notes receivable from participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of September 16, 2014 and December 31, 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of benefits

Benefits are recorded when paid.

Excess contribution payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions.

3. Information Prepared and Certified by Trustee

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Mid Atlantic Trust Company certified information regarding the cost and fair value of all investments held at September 16, 2014 and December 31, 2013, and all investment transactions entered into during the period ended September 16, 2014, which was used in the preparation of the accompanying financial statements.

4. Fair Value Measurements

The Plan defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2013.

Money market fund: Valued at cost plus accrued interest

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

Investments measured at fair value on a recurring basis

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2013:

Fair Value Measurements Using Input Type	Level 1	Level 2	Level 3	Total
Money market fund	$ 63,360	$ -	$ -	$ 63,360
Mutual funds	2,056,559	-	-	2,056,559
Total investments measured at fair value	$2,119,919	$ -	$ -	$2,119,919

There were no investments at September 16, 2014 as assets were transferred from the Plan (See Note 1).

5. Income Tax Status

The Plan had adopted the Paychex, Inc. Flexible 401(k) Standardized Profit Sharing Plan. The Internal Revenue Service ("IRS") has informed Paychex by a letter dated March 31, 2008, that the written form of the underlying prototype plan document is qualified under Section 401(a) of the IRC, and that any employer adopting this form of the prototype Plan will be considered to have a plan qualified under applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon an examination by the IRS. No uncertain positions have been identified that would require the recognition of a tax liability (or asset) or disclosure in the financial statements as of September 16, 2014 and December 31, 2013.

6. Plan Termination

Effective May 1, 2014, the Company elected to terminate the Plan and entered into an agreement with TriNet Group, Inc. to become a participating employer in the TriNet 401(k) Plan. The Plan was frozen and all Plan assets were transferred to TriNet 401(k) Plan on September 16, 2014.

7. Commitment and Contingencies

The Company noted certain operational defects with regard to the operations of the Plan related to year ended December 31, 2013. The Company intends to calculate and pay the Qualified Nonelective Contribution ("QNEC") needed to correct these errors which will include lost earnings. The Company believes that the defects will be properly remedied and will not adversely affect the Plan's qualified status.

8. Subsequent Events

RE: 2013 & 2014 5500 for Host Analytics, Inc.

To Whom It May Concern,

Please note that the current 5500's show Plan 001. We would like it noted that there is no Plan 002. That plan was noted in error.
