THALES COMMUNICATIONS PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2017 AND 2016

1. DESCRIPTION OF THE PLAN

General – The Thales Communications Pension Plan (the “Plan”) is a defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) that was established January 1, 1974, for the salaried employees of Thales Communications, Inc. and participating affiliates (the “Company”). Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

No other employees are eligible to participate under the Plan as participation was closed on December 31, 2002. On December 31, 2002, the accrual of plan benefits of the Plan was frozen. As a result of freezing the accrual of benefits, each person who was a general participant in the Plan on December 31, 2002, and who was in the employment of the Company on that date, became fully vested in their accrued benefits as of December 31, 2002.

Effective June 1, 2004, the Plan became one of the participating plans in the Thales Master Trust (Master Trust), see Note 4. The Master Trust’s custodian of the pooled separate account investments is Prudential Retirement Insurance and Annuity Company. The custodian for the Master Trust’s other investments is Prudential Bank & Trust, FSB. Both custodians are affiliated through common ownership, and will collectively be referred to as “Prudential.”

Effective March 2, 2017, the Plan’s custodian was changed to US Bank, N.A. and the Master Trust was dissolved. The mutual funds that were held in the master trust were transferred to US Bank, N.A., while all other investments were liquidated by Prudential, and the proceeds were transferred to US Bank.

Contributions – Employer contributions are based upon actuarial determinations. Under the current provisions of the plan, employees make no contributions. All contributions made by the employer are paid to the trustee and deposited in the trust fund.

Retirement Benefits – Participants become eligible for normal retirement on the first day of the month coincident with or next following the employee’s 65th birthday. Early retirement is permitted after age 55 with ten years of vested service.

Upon retirement, participants receive benefits based upon years of credited service, average annual compensation, and covered compensation, as defined by the Plan Document.

Benefit distributions upon normal retirement are in the form of a life annuity for unmarried participants, if an optional payment is not selected. Married participants receive an actuarially reduced 50% joint and survivor annuity. Optional payment forms include single life annuity, 10-year certain, joint and 50% survivor, joint and 75% survivor, joint and 100% survivor or lump sum payment of small amount.

Surviving Spouse Benefits – Upon the death of a vested participant prior to eligibility for early retirement, benefits become payable to the spouse beginning on the participant’s earliest retirement date. The benefit payable to the spouse is equal to the 50% joint and survivor annuity that would have been paid had the participant survived to their earliest retirement date.

Upon the death of a vested participant after reaching eligibility for early retirement, the benefit payable to the spouse equals the benefit that would have been paid had the participant selected the early retirement option. The benefit is payable in the form of a 50% joint and survivor annuity.

Disability Retirement Benefits – In the event that a participant's employment is terminated as a result of disability, and the participant is eligible to receive a normal or early retirement benefit, they shall receive such benefit.

Administrative Expenses – The Plan or the Company may pay the administrative and Pension Benefit Guaranty Corporation ("PBGC") insurance premiums of the Plan. During the year ended December 31, 2017, the following expenses were paid by the Plan:

Investment advisory fees	\$ 6,202
Prudential administrative fees	11,156
US Bank trustee fees	<u>5,229</u>
	<u>\$ 22,587</u>

Plan Termination – Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the Plan document.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC, as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires of the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is accrued when earned.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Investment in Master Trust – As discussed in Note 1, the Master Trust was dissolved upon the transfer of assets from Prudential to US Bank, N.A. The fair value of the Plan's Investments in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated expenses. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Funding Policy - Annual contributions, as determined by the Plan's actuary, are made by the Company to fund the Plan and have been computed in accordance with the Unit Credit Actuarial Cost Method. The Company's contributions for 2017 met the minimum funding requirements of ERISA.

Payment of Benefits – Benefits to participants are recorded when paid.

Date of Management's Review – Subsequent events have been evaluated through October 8, 2018, which is the date the financial statements were available to be issued.

3. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability, and termination of employment, are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the plan's actuary, Prudential. Significant actuarial assumptions used include the following:

Investment return – 7.25% and 6.5% per annum, compounded annually for 2017 and 2016.

Life expectancy assumptions – for the 2017 year, the RP 2014 Total Dataset Adjusted to 2006 using MP-2014 and projected forward with Scale MP-2017, and for the 2016 year, the RP-2016 Adjusted to 2006 Total Dataset with Scale MP-2016.

Discount rate – 7.25% for 2017 and 2016.

Estimated expenses – Based on the previous year's administrative expenses, adjusted for the expected change in the PBGC premiums.

The actuarial present value of accumulated plan benefits as January 1 is as follows:

	2018	2017
Vested Benefits:		
Active and terminated participants	\$ 4,495,442	\$ 5,018,439
Retired participants	7,249,284	6,885,031
	<u>11,744,726</u>	<u>11,903,470</u>
Non-Vested Benefits	3,819	6,336
	<u>3,819</u>	<u>6,336</u>
Total accumulated plan benefits	<u>\$ 11,748,545</u>	<u>\$ 11,909,806</u>

The change in accumulated plan benefits for the year ended December 31, 2017 is as follows:

Actuarial present value of accumulated plan benefits at beginning of period	\$ 11,909,806
Increase (decrease) during the year attributable to:	
Benefits accumulated	7,872
Interest due to the decrease in discount period	830,489
Assumption changes	(73,657)
Benefits paid to participants	<u>(925,965)</u>
	<u>(161,261)</u>
Actuarial present value of accumulated plan benefits at end of period	<u>\$ 11,748,545</u>

The changes in the actuarial assumptions discussed above resulted in the decrease to the accumulated plan benefits of \$73,657.

4. MASTER TRUST

Prior to March 2, 2017, the Plan's sole investment was its interest in the Master Trust which was established for the investment of assets of this Plan (referred to as Plan A below) and two other Thales Company sponsored retirement plans, the Retirement Plan of Thales, ATM, Inc. (Plan B) and Thales Pension Plan for Certain U.S. Employees (Plan C). Each participating retirement plan had a divided interest in the Master Trust. The value of the Plan's interest in the Master Trust was based on the beginning-of-year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses. Investment income (loss), investment management fees and other direct expenses relating to the Master Trust were allocated to individual plans based on the average daily balances. The Plans' respective interests in the Master Trust as of December 31, 2016, are as follows:

	Plan A	Plan B	Plan C	Total	Plan A's % Interest in Master Trust by Investment Category
Investments, at fair value:					
Pooled Sep Accts	\$ 8,456,772	\$ 9,546,480	\$ 14,028,104	\$ 32,031,356	26.40%
Mutual Funds	<u>3,869,474</u>	<u>4,568,423</u>	<u>6,698,645</u>	<u>15,136,542</u>	25.56%
	<u>\$ 12,326,246</u>	<u>\$ 14,114,903</u>	<u>\$ 20,726,749</u>	<u>\$ 47,167,898</u>	26.13%
Plan's % Interest in Master Trust	<u>26.14%</u>	<u>29.92%</u>	<u>43.94%</u>		

The following are changes in net assets for the Master Trust for the year ended December 31, 2017:

Investment income in assets of Master Trust	\$ 1,532,417
Distributions to participants	(718,638)
Expenses	(60,231)
Transfer of assets to US Bank, N.A.	<u>(47,921,446)</u>
Net decrease	(47,167,898)
Net assets of Master Trust, beginning of year	<u>47,167,898</u>
Net assets of Master Trust, end of year	<u>\$ -</u>

5. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016:

Master Trust – Valued at fair value based on the fair value of the underlying investments of the fund, which were determined based on the fair value of the underlying investments of the Master Trust. When quoted market prices were not available, the fair value of investments was estimated primarily by independent investment brokerage firms and insurance companies. The Master Trust held pooled separate accounts and mutual funds. The Master Trust was dissolved in 2017.

Pooled Separate Accounts – Prudential calculated a unit value (similar to a net asset value “NAV”) of a separate account daily. It is the sum of the market value of the underlying investments as determined by quoted market prices, less operating expenses accrued but not deducted, if any.

Mutual Funds and Money Market Fund – Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments at December 31, 2017 are reported at fair value as follows:

	Measurements Using:			Total
	Level 1	Level 2	Level 3	
December 31, 2017:				
Mutual Funds	\$ 12,457,019			\$ 12,457,019
Money Market	<u>466,970</u>			<u>466,970</u>
Investments measured at fair value	<u>\$ 12,923,989</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 12,923,989</u>

The Master Trust's investments are reported at fair value as follows at December 31, 2016:

	<u>Master Trust Assets</u>			
	Fair Value			
	<u>Measurements Using:</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
December 31, 2016:				
Mutual funds	<u>\$ 15,136,542</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 15,136,542</u>
Total assets in the fair value hierarchy				15,136,542
Investments measured at NAV:				
Pooled separate accounts (a)				<u>32,031,356</u>
				\$ 47,167,898

(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in Note 4. These investments were valued daily, could be redeemed at any time with no notice, and there were no unfunded commitments.

6. INFORMATION CERTIFIED BY CUSTODIANS

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB, and US Bank, N.A., the custodians of the Plan, have certified that the following data included in the accompanying financial statements is complete and accurate with respect to investments as of December 31, 2017 and 2016, and for the year ended December 31, 2017:

- Investments, at fair value
- Investment income from Master Trust
- Accrued investment income
- Interest and dividends
- Net appreciation on fair value of investments
- Supplemental Schedule of Assets
- Supplemental Schedule of Reportable Transactions

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

7. PORTFOLIO RISK

The Plan provides for investments in various securities that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near-term and, that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. TAX STATUS

The IRS has determined and informed the Company by a letter dated July 27, 2014, that the Plan is designed in accordance with applicable sections of the IRC. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision has been made in the financial statements for income taxes.

Generally accepted accounting principles requires Plan management to evaluate tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments held in the Master Trust were pooled separate accounts managed by Prudential. Prudential was the custodian of the Plan and therefore, these transactions qualified as party-in-interest.

N/A

APPENDIX B (Continued)

<i>Asset Method</i>	Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.
<i>Standing Elections</i>	The client has not signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement.
<i>Employees Valued</i>	Only participants as of the valuation date were valued.
<i>Selection of Assumptions</i>	<p>The segment rates and mortality table used to determine minimum funding and funded ratios were based on methodology mandated by Internal Revenue Code and rates published by the Internal Revenue Service to affect it.</p> <p>Given this is the first valuation, assumptions (other than discount rate and mortality assumptions) used by the prior actuary in the previous valuation were relied upon.</p>
<i>Changes in Assumptions and Methods since the Last Actuarial Valuation</i>	<p>The segmented interest rates used for determining the funding target were 4.43%, 5.91% and 6.65%. These rates were updated to the rates required for the current plan year.</p> <p>The mortality table for the funding target was changed as required under PPA '06.</p>
<i>Justification for Changes in Actuarial Assumptions</i>	The only assumption changes were to prescribed actuarial assumptions or as a result of At-Risk status. Therefore, the plan did not need IRS approval to change assumptions and there is no need to disclose any "Change in Actuarial Assumptions."
