NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the ROICOM USA, LLC (Company) 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

General: The Plan is sponsored by the Company. The Plan is a defined contribution plan and it was established for the benefit of the employees of the Company. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration of Plan Assets: The Plan is administered by the Company. The Plan's assets, which consist principally of mutual funds, are held by the custodian of the Plan, VOYA Retirement Insurance and Annuity Company (VOYA). Contributions are held and managed by the custodian, which invests cash received, interest, and dividend income and makes distributions to participants.

Eligibility: Full time employees are eligible to make elective deferrals on the first Plan entry date after date of hire. Part time employees become eligible when they have worked 1,000 or more hours in the plan's calendar year. Full and part time eligible and enrolled employees can receive employer matching contributions and discretionary non-elective contributions.

Contributions: Each year, participants may make contributions up to the maximum percentage allowable by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions The Company currently makes matching contributions up to 1% of participants' compensation per payroll period. The Company may decide each plan year whether to make a discretionary non-elective contribution on behalf of eligible active participants. Such contribution is allocated based upon an integrated formula, as defined in the Plan document.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of the accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Investment Options: Upon enrollment in the Plan, a participant must direct amounts contributed to selected investments as made available and determined by the Plan Investment Committee. Participants may change their investment options any time throughout the year.

Payment of Benefits: On termination of service due to death, disability, retirement, or termination for other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Note 1. Plan Description (continued)

Forfeited accounts: Forfeited, non-vested account balances at December 31, 2017 and 2016 totaled $180 and $0, respectively. As specified in the Plan documents, such balances will be used to pay administrative expenses of the Plan or to offset future employer contributions.

Note 2. Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: The plan does not permit Participant loans.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The plan has evaluated subsequent events through October 12, 2018 the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

FASB ASC 820-10-35, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10-35 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 3. Fair Value Measurements (continued)

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Variable Investment Funds (Mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fixed Investment Funds: The credited rate is communicated to the plan and credited daily. Any market value adjustment or Contract surrender charge will be based on the formulas and schedules observable in the Contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Variable Investment Funds	$ 124,399	$ -	$ -	$ 124,399
	$ 124,399	$ -	$ -	$ 124,399

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Variable Investment Funds	$ 13,738	$ -	$ -	$ 13,738
	$ 13,738	$ -	$ -	$ 13,738

Note 4. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid by the Company.

Note 5. Information Certified by Custodian

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information presented in Note 3 certified by VOYA, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

VOYA also certified to the completeness and accuracy of $9,082 net increase in fair value of investments for the year ended December 31, 2017, including gains and losses on investments bought and sold, as well as held during the year.

Note 6. Plan Termination

Although it has not expressed any intent to do so, The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. Any unallocated assets of the plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7. Tax Status

Effective January 1st, 2016 the Plan adopted a non-standardized form of a prototype plan sponsored by Actuaries & Associates. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2017, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by VOYA. VOYA is the custodian as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the custodian amounted to $261 for the year ended December 31, 2017.

Note 9. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Prohibited Transactions

During 2017, the Plan sponsor inadvertently failed to deposit approximately $283 of participant contributions within the required timeframe as stated by the United States Department of Labor regulations. The Plan sponsor deposited lost earnings in the amount totaling $283 to correct this failure in 2018. The Plan sponsor will file Form 5330 and pay applicable excise tax to the IRS. The correction will be made from the Plan sponsor's assets and not from assets of the Plan.

Note 11. Reconciliation of Financial Statement Items to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2017 and 2016 to Form 5500:

	2017	2016
Net assets available per the financial statements	$ 127,822	$ 15,526
Less: Employee contributions receivable	(283)	-
Net assets available for benefits per the form 5500	$ 127,539	$ 15,526

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements at December 31, 2017 to Form 5500:

Increase in net assets available for benefits per the financial statements	$ 112,296
