ACTION LOGISTICS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of the Plan

The following description of Action Logistics 40l(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was formed on January 1, 2009. The Plan is a defined contribution plan whereby eligible employees of Action Logistics Management, Inc., L & R of Georgia, and Action Logistics, LLC (collectively, the Company, Employer or the Sponsor) are permitted to make contributions that are tax-deferred under Section 40l(k) of the Internal Revenue Code. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and the Internal Revenue Code (IRC).

Eligibility

All employees are eligible except members of a collective bargaining unit and non-resident aliens. For purposes of plan compliance testing, highly compensated employees are employees who were five percent owners at any time during the year or received compensation from the Plan sponsor in excess of $120,000. The entry date commences at the first day of employment. Employees who have attained the age of 18, and are full time employees, are eligible to participate in elective and employer matching contributions immediately. All investments are participant directed.

Contributions

Each year, participant contributions to the Plan on a pretax basis are subject to an annual limitation ($18,000 for the year ended December 31, 2017). Participants may make contributions from eligible compensation only, as defined by the Plan. The compensation period is defined by the Plan as the Plan year. Non-highly-compensated participants may defer up to 85% of eligible compensation. Highly compensated participants may defer up to 15% of eligible compensation. The Plan does not permit voluntary after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of $6,000 for the year ended December 31, 2017. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan.

Annually, the Company may match participant contributions at a percentage determined at the discretion of the Company's board of directors. In order to qualify for the employer matching contribution, the participant must be actively employed on the last day of the Plan year and complete at least 1,000 hours of service during the Plan year. The Company may also make discretionary profit sharing contributions. During the year ended December 31, 2017, the Company made no discretionary matching or profit sharing contributions.

Participant accounts

Each participant's account is credited with the participant's contributions and the Employer's discretionary matching contributions, discretionary profit sharing contributions, and Plan earnings and losses. Each participant's earnings are invested separately according to the individual's investment direction so that each participant's account realizes appreciation or depreciation based on related investment performance. Allocations are based on participant earnings or account balances, as defined. Plan earnings are calculated and credited to each participant's account on a daily basis.

Note 1 – Description of the Plan, Continued

Participant accounts, continued

An allocation of administrative and investment management fees is charged to each participant account based upon participant earnings or account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions and related earnings thereon. Vesting in the Company's matching and discretionary contributions, if any, and related earnings thereon is based on years of continuous service which occurs at a rate of 20% per year of employment after an initial vesting of 20% at the end of the second year. A participant is 100% vested after six years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable fixed rate commensurate with local prevailing rates as determined by the Plan trustee at the time the loan is made. Principal and interest are collected ratably through periodic payroll deductions. Delinquent notes receivable from participants are reclassified as deemed distributions based upon the terms of the Plan document.

Payment of benefits

Benefits may be paid under the Plan, subject to limitations and conditions imposed by the IRC, upon a participant's termination of employment, retirement, disability, death or hardship due to an immediate and heavy financial need. The Plan specifies lump-sum only. Benefits are generally 100% vested upon retirement, death or disability. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Distributions are required for any terminated employees with a vested balance of less than $5,000 and shall exclude rollover contributions. Account balances greater than $1,000 shall be in the form of a direct rollover, subject to the participant's death, retirement, or disability.

The value of the distribution is determined on the date as soon as practicable following the date of termination and is based upon the preceding valuation date. For participants subject to death, retirement, or disability, the distribution must be distributed within a reasonable period following the distribution determination date. Hardship distributions of pre-tax elective deferrals are permitted under the Plan. In-service distributions are permitted for participants who have reached the age of 59 ½ provided that non-elective amounts have been allocated for at least 2 years, hardship, or the participant has contributed to the Plan for at least five years. Required minimum distributions are required at age 70 ½ or April 1st of the calendar year following the participant's retirement. Benefit payments to participants are recorded upon distribution.

Note 1 – Description of the Plan, Continued

Forfeitures

In the event of employee termination, the non-vested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures of employer contributions may be used to supplement employer matching contributions. In order to receive forfeited amounts, an employee must be employed on the day that the forfeiture is determined, and have received employer matching contributions during the year. The amount of forfeitures allocated is determined in the same manner as non-elective contributions. In the event that an employee is entitled to restoration of forfeitures, the Sponsor must make an additional contribution to supplement an insufficient forfeiture restoration as defined by the Plan. Forfeitures of employer discretionary contributions may be used to supplement non-elective contributions. At December 31, 2017, forfeited non-vested accounts totaled $0.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Sponsor to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This price, known as an exit price, is based upon market quotes of net asset values ("NAV") at year end. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisors and Custodian.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recognized as income on the ex-dividend date and interest is accrued as earned. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Note 2 – Summary of Significant Accounting Policies, Continued

Administrative expenses

Certain expenses for the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Concentration of credit risk

The Custodian maintains the Plan's investments with high credit-quality institutions and attempts to limit the credit exposure of any particular investment. Management retains a third party investment advisory group to review investment performance and risk.

Reclassifications

Certain amounts from the 2016 financial statements have been reclassified to conform to current year financial statement presentation.

Note 3 – Certified by the Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and participant notes receivable as shown on the statements of net assets available for benefits as of December 31, 2017 and 2016;
- Net investment activity and interest income on participant notes receivable as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2017;
- Investment information included in the footnotes and supplemental information of assets (held at end of year) as of December 31, 2017.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 – Fair Value Measurements

Accounting guidance provides a framework for measuring fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 4 – Fair Value Measurements, Continued

Level 1	Unadjusted quoted prices for identical, unrestricted assets or liabilities in active markets that a plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.
Level 3	Significant unobservable inputs.

Pooled separate accounts are valued based upon the units of such pooled separate accounts held by the Plan at year-end multiplied by the respective unit value. The unit values of the pooled separate accounts are based upon significant observable inputs, but are not based upon quoted market prices in an active market and are therefore considered Level 2 investments within the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the Plan's investments based on the valuation methodology applied by the Plan as of December 31, 2017 and 2016:

	December 31, 2017			
Description	Level 1: Quoted prices in markets for identical assets	Level 2: Significant other observable inputs	Level 3: Significant unobservable inputs	Total
Pooled separate accounts	$ -	$ 369,689	$ -	$ 369,689

	December 31, 2016			
Description	Level 1: Quoted prices in markets for identical assets	Level 2: Significant other observable inputs	Level 3: Significant unobservable inputs	Total
Pooled separate accounts	$ -	$ 311,924	$ -	$ 311,924

Note 5 –Tax Status

The Company has adopted a prototype defined contribution plan. In a letter dated March 31, 2008, the Internal Revenue Service (IRS) determined, and informed the Company, that the prototype plan and the related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Sponsor and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 – Risks and Uncertainties

The Plan provides for various variable investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near-term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and statement of changes in net assets available for benefits.

Note 8 – Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee Plan whose members are covered by the Plan, a person who owns 50 percent or more of such an employer association or relatives of such persons.

Certain Plan investments are in funds managed by the Custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were $7,017 for 2017.

Note 9 – Plan Amendment

During the year ended December 31, 2017, the Plan was amended to allow a discretionary Employer contribution and a discretionary Employer matching contribution.

Note 10 – Subsequent Events

Management evaluated activity of the Plan subsequent to December 31, 2017 through September 27, 2018, the date on which the financial statements were available to be issued, for events that require recognition in the financial statements or disclosure in the notes thereto.
