SENECA MEDICAL
EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

Note 1–Plan description and basis of presentation

Seneca Medical, Inc. established the Seneca Medical Employee Stock Ownership Plan and Trust (the Plan) effective as of July 1, 1998. Effective March 31, 2016, the shareholders of Seneca Medical, Inc. contributed their shares to acquire membership interest in Seneca Medical Holdings, Inc. dba Seneca Medical Inc. (the Company or Plan Sponsor).

The plan document was amended and restated effective January 1, 2016 in accordance with the Company's S-Corporation election. The Plan operates as an internally leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended, (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Plan Trustee. Effective January 1, 2016, the Plan amended the definition of the plan year. The Plan's accounting year of twelve months will commence on January 1 of each year and end the following December 31.

Effective March 31, 2016, with the acquisition of membership interest in Seneca Medical Holdings, Inc., the Plan was frozen and no longer accepted contributions into the Plan as a result of the merger of Seneca Medical, Inc. with two other companies to form Concordance Healthcare Solutions, LLC. All participants accounts became 100% vested at March 31, 2016. The Company makes S-Corporation distributions to the Plan to cover tax liability resulting from membership interest in the Company. The Company made S-Corporation distributions to the Plan amounting to $940,149 for 2017.

The Plan had purchased 468,025 shares of Seneca Medical Inc. common stock using the proceeds of two loans totaling $8,009,400 from Seneca Medical Inc., and holds the stock in a trust established under the Plan. The last loan payment was due in April 2009, and was paid with funds available from the fully deductible Seneca Medical, Inc. contributions to the trust fund. As the Plan made payments of principal, an appropriate percentage of shares of Seneca Medical, Inc. common stock were allocated to eligible participants' accounts in accordance with applicable regulations under the Code. Shares were allocated to participants' accounts annually as of the plan year-end. Allocated shares vest based upon a graduated vesting schedule, with full vesting after six years of credited service.

The loans were collateralized by the unallocated shares of Seneca Medical, Inc. common stock. The Company has no rights against shares once they are allocated under the ESOP. As of December 31, 2017 and 2016, all of the Seneca Medical, Inc. shares have been allocated.

Employees of Seneca Medical, Inc. were generally eligible to participate in the Plan after one year of service providing they worked at least 500 hours during such plan year. Employees who did not have at least 500 hours of service during a plan year or were not employed on the last working day of a plan year were generally not eligible for an allocation of Seneca Medical, Inc. contributions for such year.

Note 1–Plan description and basis of presentation-continued

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary, or, if none, his or her legal representatives), diversifies (as noted in the next paragraph), or otherwise terminates employment with the Company. Distributions are made in the form of either a lump sum payment or equal installment payments over a given period, at the discretion of the Company. The benefit to which a participant is entitled is the benefit that can be provided from the vested value of the participants' account.

The Plan permits the participants to directly transfer up to 50% of their account balance from the Plan to the Seneca Medical Holdings, Inc. 401(k) Plan. To be eligible to transfer funds, the participant must be 55 years old and completed 10 years of service. This diversification occurs at the end of each plan year. Effective 1/31/18, the Seneca Medical Holdings, Inc. 401(k) plan was merged into another plan.

The Plan Trustee is responsible for voting the Company common stock held by the ESOP, although, in certain circumstances, participants will be notified they have the right to direct the vote of the Trustee.

The Company reserves the right to terminate the Plan at any time, subject to the plan and ERISA provisions. Under such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the Code. Upon termination of the Plan, Crowe LLP, the Trustee will pay all liabilities and expenses of the Plan. In addition, remaining unallocated shares shall be allocated to the accounts of all participants in accordance with the provisions of the plan document.

Note 2–Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Participant distributions are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments held by the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of disclosures related to fair value measurements.

Note 2–Summary of significant accounting policies –continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Employer S-corporation distributions from membership interest in Seneca Medical Holdings, Inc. are recorded on the declaration date. Net appreciation (depreciation) includes gains and losses on investments bought, sold and held during the year.

New Accounting Pronouncements

In August 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern (ASU 2014-15). ASU 2014-15 defines management's responsibility to evaluate whether there is a substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. In connection with preparing financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about an organization's ability to continue as a going concern within one year after the date that the financial statements are issued. ASU 2014-15 is effective for fiscal years ending after December 15, 2016. Management has performed this assessment as of the date these financial statements were issued and no going concern uncertainties were identified.

Reclassifications

Certain 2016 amounts have been reclassified for comparative purposes to conform to the presentation of the 2017 financial statements. These reclassifications have no effect on the previously reported net assets available for benefits.

Subsequent events

The Plan has evaluated all events subsequent to the statement of net assets available for benefits date of December 31, 2017 through October 10, 2018, the date the financial statements were available to be issued.

Note 3–Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under the FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 3–Fair value measurements-continued

Level 2. Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in inactive markets;

c. Inputs other than quoted prices that are observable for the asset or liability;

d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Seneca Medical Holdings, Inc. Common Stock – valued at fair value, as determined by independent appraisals as of December 31, 2017 and 2016.

Mutual Funds and Exchange Traded Funds – valued at the quoted closing market price on an active market held by the Plan at the end of the year. Mutual funds held by the Plan are open end mutual funds that are registered with the Securities and Exchange Commission.

Note 3–Fair value measurements-continued

The following tables present the Plan's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis:

		Fair Value Measurements at December 31, 2017 Using

Note 4–Income tax status

The Plan has received a determination letter from the Internal Revenue Service dated July 20, 2017, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 5–Administration of Plan assets

The Plan's investment in Company common stock is held in a trust established under the Plan. Certain administrative functions are performed by officers or employees of the Company without compensation from the Plan. Administrative expenses are paid directly by the Company.

Note 7–Risk and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in a near term that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8–Related party transactions and party in interest transactions

Certain Plan investments are shares of the Company stock and money markets managed by Captrust, the custodian of the Plan, and therefore, these transactions qualify as party in interest transactions.
