Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note C, which was certified by Massachusetts Mutual Life Insurance Company, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that Massachusetts Mutual Life Insurance Company holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from Massachusetts Mutual Life Insurance Company as of December 31, 2017 and 2016, and for the year ended December 31, 2017, that the information provided to the Plan administrator by Massachusetts Mutual Life Insurance Company is complete and accurate.

Note A – Description of the Plan

The following description of the Capsugel Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and was established on August 1, 2011. The Plan was established by the Plan sponsor, Capsugel Holdings US, Inc. (the "Company"). Employers that are owned by Capsugel Holdings US, Inc. are also participating employers in the Plan, which includes Capsugel Manufacturing, Inc.; Capsugel US, LLC; Capsugel, Inc. and Bend Research Inc.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective January 1, 2016, the recordkeeper of the Plan is the Massachusetts Mutual Life Insurance Company ("MassMutual").

On December 31, 2017, the Xcelience 401(k) Plan ("Xcelience Plan") was legally merged into this Plan. As a result of the merger, the Xcelience Plan merged assets of $4,166,331 as shown on the Statement of Changes in Net Assets Available for Benefits for the year, which consisted of $4,054,101 cash and $112,230 in notes receivable from participants. Due to the timing of the transfers, the cash and notes receivable from participants od $4,166,331 were not received by Mass Mutual until January of 2018. As such, $4,166,331 was treated as a Transfer receivable on the Statement of Net Assets Available for Benefits as of December 31, 2017.

Contributions

Participants may contribute up to 75% of pre-tax annual eligible compensation subject to certain limitations, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. In addition, participants may contribute up to 20% of after-tax compensation, as defined by the Plan. However participants are limited to contributing a combined total of pre-tax and after-tax contributions of 75%. In no event may participant pre-tax and after-tax contributions exceed any statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Pursuant to an automatic enrollment provision, 6% of a participant's eligible compensation is automatically contributed to the Plan (unless the participant makes a different election or opts out).

The Company matches 100% of the first 3% of eligible compensation and 50% of the next 3% of eligible compensation contributed to the Plan, as defined in the Plan. Additional discretionary profit-sharing contributions may be made at the option of the Company's board of directors. Participants direct the investment of participant and employer contributions.

The Plan also provides for a Company discretionary profit-sharing contribution. Participants must be employed on the last day of the year to be eligible for this contribution. In 2017, the Company funded the 2016 contribution of $3,833,744. The Plan recorded a receivable of $3,803,166 at December 31, 2017 related to this contribution for 2017 which was subsequently funded in the first quarter of 2018.

Eligibility

Employees are eligible to participate in the Plan upon hire. No period of service or age attainment is required. Excluded employees are those (1) that are included in a unit of employees covered by a collective bargaining agreement ("CBA") who are excluded from the Plan per the CBA, (2) leased employees, (3) temporary employees of a participating employer, (4) residents of Puerto Rico, and (5) non-resident aliens with no income from a U.S. source.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, specific transactions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Participants also immediately vest in the Company's matching contributions. Participants vest in the Company's discretionary contribution portion of their accounts, plus actual earning thereon, upon attaining three years of service.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may have two outstanding loans at any given time. Loan terms range from one to five years; however, terms may exceed five years, but cannot be longer than ten years, for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates on outstanding loans range from 3.25% to 9.25%. Principal and interest are paid ratable through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

On termination of service due to death, disability, retirement or for termination of service for other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or to receive the payment as an annuity as well.

A participant can make hardship withdrawals of participant pre-tax contributions, which will preclude the participant from making additional participant pre-tax contributions to the Plan for a six-month period.

Forfeitures

Forfeited non-vested accounts are used to reduce future Company contributions and pay Plan expenses. During the year ended December 31, 2017, forfeitures of $247,623 were used to reduce employer contributions and $3,792 were used for administrative expenses. Forfeited non-vested accounts available at December 31, 2017 and 2016 were $108,150 and $231,051, respectively.

Note B – Summary of Significant Accounting Policies

Basis of accounting

The financial statements are prepared using the accrual method of accounting. Investments held by a defined-contribution plan are required to be reported at fair value except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits for a defined-contribution plan attributable to fully-benefit responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Subsequent events

The Company has evaluated subsequent events through October 15, 2018, the date the financial statements were available to be issued.

Investment valuation and income recognition

The Plan's investments are reported at fair value except for fully-benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Plan expenses

Substantially all plan expenses incurred in connection with the administration of the Plan are paid by the Company.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Excess contributions

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions.

Note C – Investment Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, MassMutual has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and the related activity in the accompanying statement of net assets available for benefits as of December 31, 2017 and 2016, the statement of changes in net assets available for benefits for the year ended December 31, 2017 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2017.

Note D – Fair Value Measurements

The FASB Accounting Standard Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds – Valued at the net asset value (NAV) of shares held by the Plan at year-end. These mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2017 and 2016:

	Investments at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Investment Assets:				
Mutual Funds	$ 118,766,380	$ -	$ -	$118,766,380
Total investments at fair value	$ 118,766,380	$ -	$ -	$118,766,380

	Investments at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Investment Assets:				
Mutual Funds	$ 97,445,452	$ -	$ -	$ 97,445,452
Total investments at fair value	$ 97,445,452	$ -	$ -	$ 97,445,452

Change in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

For the year ended December 31, 2017, there were no transfers in or out of Levels 1, 2, or 3.

Note E – Guaranteed Investment Contract With Insurance Company

In 2016, the Plan entered into a benefit-responsive guaranteed investment contract with MassMutual. MassMutual maintains the contributions in a general account. The contract is reported at contract value. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Such amounts at contract value as of December 31, 2017 and 2016 were $9,499,607 and $9,829,643, respectively.

The MassMutual Diversified SAGIC II held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 4 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code;
- Premature termination of the contracts;
- Plan termination or merger;
- Changes to the Plan's prohibition on competing investment options; or
- Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines;
- A breach of material obligation under the contract;
- A material misrepresentation; or
- A material amendment to the agreements without the consent of the issuer.

Note F – Tax Status

As of January 1, 2016, the Plan adopted a MassMutual volume submitter profit sharing plan that received an opinion letter from the Internal Revenue Service on March 31, 2014. The plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code ("IRC") and therefore, the related trust is exempt from taxation. The Plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

Note G – Related-Party and Party-in-Interest Transactions

MassMutual is the recordkeeper for the Plan, and therefore amounts paid to MassMutual qualify as party-in-interest transactions. Fees paid by the Plan to MassMutual were $33,792 for the year ended December 31, 2017. Notes receivable from participants also qualify as party-in-interest transactions.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2017 may not necessarily be indicative of amounts that could be realized in a current market exchange.

Note I – Mutual Fund Fees

Certain investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

Note J – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

Note K – Reconciliation of Financial Statements to Form 5500
