1 - DESCRIPTION OF THE PLAN

The following description of the Lucky Employee 401K Retirement Plan provides only general information. Participants should refer to the plan agreement and amendments for a more complete description of the plan provisions.

General – The Plan is a defined contribution plan adopted by Lucky Chances, Inc. and its affiliates: Lucky Money, Inc., Lucky Check Cashing Inc., Lucky Tours Inc., Lucky Payday Advance, Inc., Lucky Group Advertising Inc., and Fil-Am Star Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent laws.

Plan Administration – The Plan has an administration and investment contract with Fidelity Investments and Fidelity Management Trust Company.

Eligibility – An employee who has completed 1,000 hours in his/her first twelve months of service and attained the age of 21 is eligible to participate in the Plan.

Contributions – Participants may elect to defer a portion of their eligible compensation up to the limits imposed by federal tax law. Each year, participants may contribute from 1% to 100% of their pretax eligible compensation, but in no event can the aggregate contribution exceed the maximum annual dollar limit permitted by law. Eligible compensation does not include bonus, tips and cashed paid time offs. Participants may also contribute amounts representing distributions from other retirement plans, provided all legal and Administrator's requirements are met. The respective employers contribute 25% of the first 4% of eligible compensation that a participant contributes to the plan. Additional amounts may be contributed at the option of the Companies' respective Boards of Directors. No additional amounts were contributed for years 2017 and 2016. $18,000 is the maximum employee contribution limit for 2017 and 2016, respectively. In addition, all eligible employees who have attained age 50 before the close of the Plan year shall be eligible to make catch-up contributions in accordance with, and subject to the limitations of, Code Section 414(v).

Participant Accounts – Each participant's account is credited with the participant's and Employer's contributions, and Plan earnings, and charged for services the administrator specifically performs for participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments – Participants may direct the investment of their account balance in any combination of various investment options offered by the trustee. Participants may change their investment options at any time.

Notes Receivable from Participants and Deemed Distributions – Participants may borrow against their vested account balance, subject to plan administrator approval. Loans are limited from a minimum of $1,000 to a maximum of 50% of a participant's vested account balance, but not in excess of $50,000.

The maximum loan term is five years, unless the loan qualifies as a home loan, in which case the plan administrator may permit a longer repayment term. No more than one (1) loan may be outstanding at any time except in hardship cases approved by Plan Administrator. The maximum loan term for any loan qualifying as a home loan will be 15 years. Loans bear interest at rates determined by the plan administrator and based on the prevailing interest rates. Principal and interest are paid ratably through payroll deductions. In case of default, i.e., if any of the scheduled repayments remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due, the loan balance will be deducted from the participant's account, and will be considered deemed distribution for which the participant will be liable for federal and state income taxes.

Payment of Benefits – Upon termination of service due to death, disability or retirement, a participant will be paid the vested interest in his account in lump sum as soon as administratively feasible. If the vested interest exceeds $5,000, participants can defer distribution to a later date, but not beyond his normal retirement age.

Vesting – Participants are fully vested in all deferral contributions and earnings thereon. If a participant's employment with the Company ends for a reason other than retirement, disability, or death, the participant's vesting in the employers' matching contributions is based on years of continuous service. A vesting schedule is as follows:

Years of Service for Vesting	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeitures – Forfeitures are the non-vested portion of participants' accounts that are lost upon termination of employment. Forfeitures are first used to pay administrative expenses and any remaining balance is used to reduce employer contributions. As of December 31, 2017 and 2016, the forfeitures' balance was $14,210 and $13,666 respectively.

Termination of Plan – Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

2 - SIGNIFICANT ACCOUNTING POLICIES

Recent Accounting Pronouncements – In May 2016, the Financial Accounting Standards Board ("FASB") issued ASU No. 2015-07, Fair Value Measurement (Topic 820); Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). ASU 2015-07 removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. It also eliminated certain disclosures for investments eligible to be measured at fair value using his practical expedient.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part II eliminated the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplified the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset.

Recently Issued Accounting Pronouncements Not Yet Adopted

In January 2016, the FASB issued ASU No. 2016-01, —Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. ASU 2016-01 addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. ASU 2016-01 is effective for the Plan years beginning after December 15, 2018. With certain exceptions, early adoption is not permitted. This standard is not expected to have a material impact on the Plan's financial statements.

Basis of Accounting – The Plan's financial statements are prepared under the accrual method of accounting in accordance with auditing standards generally accepted in the United States of America.

Investment Valuation and Income Recognition – Fidelity Management Trust Company serves as the Plan's trustee and holds all investments of the Plan, except for the self-directed brokerage account, which is held by Fidelity Brokerage Services. The brokerage account consists primarily of common stock, mutual funds, and short-term investments.

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 3 for further discussion of fair value measurement.

The Plan invests in fully-benefit-responsive investment contracts through the Fidelity Managed Income Portfolio (FMIP), a common collective trust. This fund is recorded at fair value (see Note 3); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits top present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

The short-term investments are stated at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported changes to net assets during the reporting periods. Actual results could differ from those estimates.

Administrative Expenses – The sponsor of the plan pays for substantially all plan administrative expenses.

Payment of Benefits – Distributions to participants are recorded when paid.

Subsequent Events – Subsequent events for the Plan have been considered through October 11, 2018 the date of the Independent Auditor's Report, which represents the date the financial statements were available to be issued.

3 – FAIR VALUE

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Quoted market prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and other inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

- Level 3: Input to the valuation methodology is unobservable and significant to the fair value measurement.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 5, 2017.

Common Collective Trust – This category includes a common collective trust fund that is Valued at fair value using a discounted cash flow methodology where individual contract cash flows are discounted at the prevailing market interpolated GIC rate as of yearend. Individual assets of the synthetic investment contract are valued at fair value, on the basis of valuation

furnished by Trustee approved independent pricing services, which determine valuations for normal institutional-size trading units of such securities using methods based on market transactions for comparable securities and various relationships, generally recognized by institutional traders, between securities, or at fair value as determined in good faith by the Trustee. Short-term investments are valued at contract value which approximates cost plus accrued interest, and approximates fair value.

Money Market Securities and Registered Investment Companies – Money market securities and registered investment companies are valued at quoted market prices in an exchange and active market and are classified as Level 1 investments.

The following tables set forth by level within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis were as follows as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017

4 – INFORMATION CERTIFIED BY THE PLAN TRUSTEE

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan for the years ended December 31, 2017 and 2016, has certified to the completeness and accuracy of the investments and notes receivable on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, the schedules of assets held at years ended as of December 31, 2017 and 2016, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016.

5 – TAX STATUS

The Plan administrator and trustees believe the Plan as designed is currently in compliance with the applicable requirements of the IRC, and therefore is qualified and the related trust is tax-exempt as of the financial statement date.

Generally Accepted Accounting Principles requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions.

6 – PARTY-IN-INTEREST TRANSACTIONS

Certain investments of the Plan are managed by the Fidelity Investments. Fidelity Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

A portion of the Plan's administrative expenses are paid for by Lucky Chances, Inc., the principal Plan sponsor. Other than these, the Plan has no agreements or transactions with any other party-in-interest.

7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit risks and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of changes in net assets available for benefits.
