AMERICAN COMMERCIAL BARGE LINE LLC PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 1 - DESCRIPTION OF PLAN

The following description of the American Commercial Barge Line LLC Pension Plan (the Plan) provides only general information about the Plan's provisions. More detailed information concerning the Plan may be found by consulting the Summary Plan Description, which is available from the American Commercial Barge Line LLC Benefits Department.

General: The Plan is a non-contributory defined benefit pension plan sponsored by American Commercial Barge Line LLC (the Company and Plan Sponsor) that covers certain employees of the Company and other subsidiaries of the Company's parent and provides for retirement, death, and disability benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Funding: The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan participants. The Company's contributions for 2017 and 2016 have met the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Participant contributions are not permitted under the Plan.

Pension Benefits: Under the terms of the Plan, participants are eligible for monthly benefit payments upon reaching normal retirement age of 62 for hourly and 65 for salaried members, or upon early retirement age of 55 with five or more years of service for hourly and ten or more years of service for salaried members. In February 2007, new entry/ re-entry to the Plan was closed for all employees. Effective December 31, 2017, benefit accruals for active hourly and salaried employees were frozen. Benefit accruals for Jeffboat employees were not frozen and those employees will continue to accrue benefits.

Participants that meet certain criteria may elect to receive a portion of the value of their accumulated plan benefits as a lump-sum distribution upon retirement and/or they may elect to receive their benefits as a life annuity payable monthly. If a vested employee dies, a benefit equal to the survivorship value of the employee's accumulated pension benefits is paid to the employee's surviving spouse upon eligibility. Active hourly employees and Jeffboat Participants who become totally disabled are eligible to receive annual disability benefit.

Death and Disability Benefits: If a vested active employee dies at age 55 or older, a benefit equal to the 50% survivorship value of the employee's accumulated pension benefits is paid to the employee's surviving spouse upon eligibility. Active salaried employees who become totally disabled and are receiving the long term disability benefit through the company provider will continue to accrue service and credited service under the plan as if they were still working and receiving the rate of base pay earned on their last day worked up to the earlier of normal retirement age 65, the long term disability coverage ends on December 31, 2017 when the accrual was frozen. Salaried retirement benefits may begin as indicated under an early or normal retirement as eligibility allows. Jeffboat employee's disability benefit is calculated based on one-half (1/2) the multiplier in effect at the time of their last day worked as an active employee paid for the date they apply and are determined to be totally disabled for their lifetime. Hourly employees determined to be totally disabled are eligible for an unreduced accrued benefit for the date they apply and are determined to be totally disabled for their lifetime. If a disability benefit ends due to no longer being totally and permanently disabled, the participant can then elect, at a future date, a benefit amount calculated at the normal or early retirement date actuarially offset by the benefits already received under the disability retirement.

Administrative and Investment Management Expenses: The Plan's trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan.

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Plan Termination: Although it has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Plan terminate at some future time, the Plan provides for the payment of benefits in a prescribed order of priority for participants' claims to the assets. Retired participants, surviving spouses who are receiving pensions, and participants whose age and service would permit retirement under the Plan have first claim to plan assets. The remaining assets, if any, would be available to pay benefits to other participants. If plan assets are insufficient to pay benefits at plan termination, the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, may provide benefit payments. Generally, PBGC guarantees most vested normal age and early retirement benefits, as well as certain survivor benefits, but does not guarantee all types of benefits, and the amount of benefit protection is subject to certain limitations.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value, as further described in Note 5. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits and the fair values of the Plan's interest in various hedge funds.

Risks and Uncertainties: Investments are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain Plan investments as well as the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of certain Plan investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Benefit Payments: Benefit payments to participants are recorded when paid.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits for retired or terminated employees or their beneficiaries are based on different calculation methods depending upon whether the employee was a salaried or hourly participant or a Jeffboat Participant. For salaried participants, the benefit for credited service rendered prior to February 1, 2000, is based on pension-eligible compensation during the five consecutive years of credited service affording the highest such average. (For this purpose, average compensation is determined as of February 1, 2000.) The benefit for credited service rendered between February 1, 2000, and the valuation date is 1% of pension-eligible compensation during this period. For hourly participants and Jeffboat Participants, the benefit is based on a flat dollar rate for each year of credited service rendered prior to the valuation date.

Benefits payable under all circumstances, retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Conduent Human Resource Services and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2016 were as follows:

Assumed investment return 7.75%

Retirement rate	<u>Age</u>	<u>Salaried Rate</u>	<u>Hourly Rate</u>	<u>Jeffboat</u>
	55	9%	14%	15%
	56	9	14	5

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefit information as of December 31, 2016 was as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 79,102,262
Other participants	<u>87,795,750</u>
	166,898,012
Non-vested benefits	<u>1,886,954</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 168,784,966</u>

The changes in the actuarial present value of the accumulated plan benefits information during 2016 are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 163,191,476
Increase (decrease) during the year attributed to:	
Interest	12,244,038
Benefits accumulated	5,711,448
Change in actuarial assumptions **	(1,756,332)
Benefits paid	<u>(10,605,664)</u>
Net increase	<u>5,593,490</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 168,784,966</u>

**The change in actuarial assumptions line is due to a change in the mortality improvement scale from MP-2014 to MP-2016, and a change in the retirement rates from December 31, 2015.

An actuarial valuation of the Plan's accumulated plan benefits as of December 31, 2017 has not yet been completed.

NOTE 4 - INVESTMENTS - UNAUDITED INFORMATION

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Wells Fargo Bank, N.A. the trustee of the Plan. This certified information has not been audited by independent accountants.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds and Common Stocks: The fair values of mutual fund and common stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trust: The fair value of participation units held in the collective trust is based on the net asset value reported by the fund managers as of the financial statement date and recent transaction price. The collective trust provides for daily redemption at the reported unit value, no advance notification is required.

Hedge Funds: The fair values of the hedge funds are based on the net asset values per share as reported by the investment manager as of the financial statement dates and recent transaction prices. In determining the reasonableness of the methodology used to estimate fair value, management reviews the funds' audited financial statements and evaluates a variety of factors including the investment manager's assumptions, economic conditions and industry and market developments.

As of December 31, 2017 and 2016 the Plan held investments in the Kohinoor Core Fund, the Hayman Capital IRT Mirrored Holding Fund, the Winton Futures Fund Ltd, the Mesa West Core Lending Fund, LP, and multiple share classes of the Blackgold Opportunity Offshores Fund, Ltd. As of December 31, 2016 the Plan added four share classes of the Blackgold Opportunity Offshore Fund Ltd. The Kohinoor Core Fund is an offshore feeder fund with substantially all of its investments in the Kohinoor Core Master Fund. At December 31, 2017, the fund's holding in the Kohinoor Core Master Fund accounts for 0.34% of the Kohinoor Core Master Fund's net assets. The fund's objective is to seek to profit from extreme price and volatility movements in the world financial markets. The Kohinoor Core Fund is redeemable on a monthly basis with a 30-day notice.

The investment objective of the Master Fund is to maximize capital appreciation by investing in securities of companies in the energy and energy related industries, with an emphasis on highly illiquid and/or privately-held companies. Limited partner withdrawals may be made on the last day of the fiscal calendar quarter upon 45 days prior written notice subject to certain other provisions and restrictions outlined in the partnership agreements.

The Mesa West Core Lending Fund, LP is an open ended Delaware limited partnership that was established to originate and purchase fixed and floating rate first mortgage loans secured by commercial and multifamily residential real estate properties. Limited partner redemptions are permitted through written notices to the general partner on an ongoing basis during any calendar quarter, effective the last day of such calendar quarter in minimum increments of \$1,000.

The Plan had no unfunded commitments related to hedge fund interests at December 31, 2017 and 2016.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

AMERICAN COMMERCIAL BARGE LINE LLC PENSION PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 6 - INCOME TAX STATUS (Continued)

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain tax positions taken or expected to be taken that would require a recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. At December 31, 2017 and 2016 the Plan held an investment in collective trust fund and common stock offered by Wells Fargo Bank, N.A., trustee of the Plan.

NOTE 8 - SUBSEQUENT EVENTS

Management evaluated subsequent events for the Plan through October 11, 2018, the date the financial statements were available to be issued. Subsequent to year end there was a partial plan termination that did not impact the valuation of the accumulated plan benefits as of December 31, 2016.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Asset valuation method

The Valuation Assets are determined using a method that spreads assets gains/(losses) over 2 years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. The discounted value of accrued contributions, if any, is included in the Valuation Assets.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2017 Expected Return	7.75%	6.48%	6.48%
2016 Expected Return	8.00%	6.65%	6.65%
2015 Expected Return	8.00%	6.81%	6.81%

Future Measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Summary of Changes from the January 1, 2016 Valuation

Prescribed changes:

- The interest rate and mortality were updated to those applicable to the current plan year in accordance with PPA. The interest rates are constrained according to HATFA.
- The change in mortality and interest rates increased the plan's Funding Target by \$8,040,000.

Non Prescribed changes:

- Expected plan administrative expenses added to the Target Normal Cost increased to \$2,638,932 from \$2,599,256. This was due to the increase in anticipated PBGC premiums plus administrative expenses of 200,000.
- The addition of late retirement increases for salaried active participants and terminated vested deferred participants increased the funding target by \$4,103,000

Summary of Changes Used in Determining the Increase in Funding Target due to Plan Amendment during 2017

- As part of the mid-year plan amendment, the Retirement Rates for Age 62 for Salaried and Hourly participants were increased from 30% and 25% to 45% and 35%, respectively. Additionally, Late Retirement Increases were extended to Hourly participants who retire after their Normal Retirement Date. If the plan change were made at 1/1/2017, these changes would increase the plan's 1/1/2017 Funding Target by \$1,353,882

Summary of Changes from the January 1, 2016 Valuation

- Expected plan administrative expenses added to the Target Normal Cost increased to \$2,638,932 from \$2,599,256. This was due to the increase in anticipated PBGC premiums plus administrative expenses of \$200,000.

Summary of Changes Used in Determining the Increase in Funding Target due to Plan Amendment during 2017

- As part of the mid-year plan amendment, the Retirement Rates for Age 62 for Salaried and Hourly participants were increased from 30% and 25% to 45% and 35%, respectively. Additionally, Late Retirement Increases were extended to Hourly participants who retire after their Normal Retirement Date. If the plan change were made at 1/1/2017, these changes would increase the plan's 1/1/2017 Funding Target by \$1,353,882.
