Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by SEI Private Trust Company ("SEI"), the trustee and custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that SEI holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from SEI as of and for the years ended December 31, 2017 and 2016, that the information provided to the Plan administrator by SEI is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Plan Termination and Liquidation Basis of Accounting

As described in Notes 1 and 2 to the financial statements, the sole general partner of Connell Limited Partnership approved a plan of liquidation on May 31, 2018 and management determined liquidation was imminent. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting to the liquidation basis used in presenting the 2017 financial statements. Our disclaimer of an opinion is not modified with respect to that matter.

CLP PENSION PLAN

Notes to Financial Statements

Note 1 - Description of the Plan

The following description of the CLP Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a non-contributory defined benefit pension plan covering all eligible employees of Connell Limited Partnership (“CLP”) and affiliates (the “Employer”) under various component plan designs.

All components of the Plan are closed to new entrants. As of August 1, 2017, all components of the Pension Plan were frozen. Prior to July 31, 2017, certain employees who were subject to a collective bargaining agreement which provided for participation in this Plan became Plan participants as of the first day coinciding with the later of (i) the date on which he or she completed one hour of service or (ii) the day on which his or her employment was subject to a collective bargaining agreement. Effective April 21, 2011, participation in the Plan was frozen for newly hired employees under the collective bargaining agreement. As a result of the collective bargaining agreement dated February 21, 2015, the Plan was amended to provide that effective July 31, 2017, the Plan is frozen and there would be no further benefit accruals.

The Cash Balance Component Plan was frozen on December 31, 2009. Current participants in the Cash Balance Component Plan receive no pay credits after that date. Current Plan participants continue to earn vesting service after the freeze date. Prior to January 1, 2010, certain employees (primarily hourly and salaried employees) who were employed by one of CLP’s divisions and who were not subject to a collective bargaining agreement became Plan participants as of the first day of the first pay period coinciding or later than the date on which he or she completed a twelve-month period with at least 1,000 hours of service, if such person qualified as an eligible employee at such time.

All other component plans of the CLP Pension Plan were frozen prior to 2009.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). All investments are non-participant directed.

Plan Termination

On May 31, 2018, the Employer’s sole general partner voted and approved the termination of the Plan with an effective date of August 31, 2018.

Note 1 - Description of the Plan (Continued)

Plan Termination (Continued)

As a result of the Plan termination noted above, the Plan adopted the liquidation basis of accounting during 2017, in conformity with accounting principles generally accepted in the United States of America. Under the liquidation basis of accounting, assets are stated at their net realizable values, (which approximates fair value), liabilities are stated at their settlement amount and all expenses in liquidation have been recognized. The Employer shall pay to the Plan the amount necessary to ensure that on the date that the Plan distributes the assets of the Plan, the Plan is able to provide all Plan benefits. The Plan assets are sufficient to provide all Plan benefits.

The Plan Administrator has applied for a determination letter for the Plan's termination on June 26, 2018 and is awaiting a reply. Substantially all Plan assets were distributed as of October 3, 2018.

Funding Policy

The Employer makes annual contributions, if necessary, to the Plan in amounts required to provide the benefits under the Plan determined by the application of accepted actuarial methods and assumptions, as calculated by an enrolled actuary using the entry age normal cost method to meet the minimum funding requirements of ERISA. There were no contributions for 2017 and 2016 necessary to meet the minimum funding requirement of ERISA.

Pension Benefits

Participants in the Cash Balance Component Plan are entitled to an actuarially determined benefit based on an account balance composed of an annual contribution percentage of a participant's annual compensation (as defined) through December 31, 2009 and interest credited through December 31, 2017 under the terms of the Plan. Annual compensation was defined as an employee's annual cash compensation less bonuses and reimbursements, and the annual contribution was limited to 4% of annual compensation. The annual investment credit on cash balance accounts is the Constant Maturity Treasury rate as of the last business day of November of the preceding Plan year, subject to a maximum rate of 10% per annum. Interest is credited at the end of each year based on account balances as of the beginning of the year.

For Anchor Danly LLC Hourly Union (formerly Danly IEM Division) participants, the Plan provides for monthly benefits for each year of credited service as follows:

January 1, 1998 - February 22, 1998	\$	24.00
February 23, 1998 - February 28, 1999		26.00
March 1, 1999 - February 24, 2002		29.00
February 25, 2002 - February 18, 2007		30.00
February 19, 2007 - thereafter		32.00

CLP PENSION PLAN

Notes to Financial Statements

Note 1 - Description of the Plan (Continued)

Pension Benefits (Continued)

For certain other participants, the Plan provides for monthly benefits for each year of credited service using a monthly benefit multiplier of \$12.00 - \$41.25. The multiplier used is based on the highest wage grade at which the Participant worked 1,000 hours or more during the 10 years before retirement.

For certain participants, upon early, normal or postponed retirement, a participant's benefit is payable in one of the following optional forms on an actuarial equivalent basis: lump sum, life annuity (level or increasing), 10-year certain and continuous annuity (level or increasing), 50%, 75% or 100% joint and survivor annuity (level or increasing), and 50%, 75% or 100% joint and survivor with 10 years certain annuity (level or increasing). Certain participants who work beyond normal retirement will continue to receive benefit accruals (annual contribution credits and annual investment credits). The Plan also provides normal, early and postponed benefits, paid monthly, in amounts determined based on a participant's marital status.

Terminated participants with vested benefits below the amount of \$1,000 receive a lump-sum distribution upon termination. Terminated participants with vested benefits above \$1,000 are eligible to receive benefits at age 55 provided they meet service requirements.

The Plan also provides for certain disability and death benefits.

Retirement Dates

The Plan provides for actuarially determined benefits upon retirement or death. Normal retirement is the first of the month coincident with or following age 65. The Plan also provides modified benefits for certain early and postponed retirements.

Vesting

A participant's vested interest is based on years of continuous service. A participant is fully vested in his or her benefit after five years of service with the Employer as defined in the Plan document. As of January 1, 2008, cash balance participants are fully vested after 3 years of service with the Employer as defined in the Plan document. The Employer exercised its rights to terminate the Plan effective August 31, 2018. Upon termination, participants will become 100% vested in the present value of their accrued benefits.

Note 2 - Summary of Significant Accounting Policies

Liquidation Basis

As described in Note 1, the Plan changed from the ongoing method to the liquidation basis of accounting. Under the liquidation basis of accounting, the Plan measures its assets in the Statements of Net Assets Available for Benefits - Liquidation Basis, based on their net realizable value, (which approximates fair value). With respect to the assets of the Plan as of December 31, 2017, the measurement of these items under the liquidation basis is not materially different from their measurement using fair value under the accrual basis, and thus, assets under the liquidation basis of accounting will be referred to as fair value in this report.

Investments, Investment Valuation and Income Recognition

Investments are reported at fair value (see liquidation basis noted above). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Plan Administration

The Employer is the Plan administrator and has the authority to appoint person(s) or entities to carry out the operations of the Plan. The Plan is administered by an Investment Committee whose members are appointed by the General Partner of the Employer.

Plan Expenses

The Plan's expenses are paid either by the Plan or the Employer, as provided by the Plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Use of Estimates

The preparation of financial statements in conformity with the liquidation basis of accounting requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures and actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results could vary from the estimates that were used.

CLP PENSION PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Employer has evaluated subsequent events through October 15, 2018, the date the financial statements were available to be issued. On April 26, 2018, Plan administration approved a decision to terminate the Plan. For 2017, assets are now reported under the liquidation basis of accounting. Subsequent to year end, from June 26, 2018 until July 30, 2018, participants not in pay status were permitted to elect to receive their benefit as a lump sum or start annuity payments. Lump-sum benefits totaling \$9,304,305 were paid on September 14, 2018. In October 2018, substantially all assets in the Plan were distributed. Proceeds of \$22,263,163 from the liquidation of the assets were used to purchase annuity contracts from Principal Life Insurance Company on behalf of the participants. The annuity contracts cover all future payment obligations due to participants and relieves the Plan of all liabilities related to pension benefits after November 1, 2018.

The Pension Protection Act of 2006 ("PPA") as amended by the Worker, Retiree and Employer Recovery Act of 2008 ("WRERA") imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage ("FTAP"). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The 2018 AFTAP for the Plan is 111.46%. Because the Plan's AFTAP equals or exceeds 80%, the Plan is not subject to any benefit restrictions.

Note 3 - Investments

Plan investments are held in shares of mutual funds and an escrow account managed by SEI Private Trust Company. The fair value of investments and all investment transactions, including interest, dividends and net appreciation/depreciation in fair values, are reported to the Plan and certified as complete and accurate by SEI Private Trust Company, the trustee and custodian. Information included in the supplemental information has also been derived from information certified by SEI Private Trust Company.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

CLP PENSION PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

Level II – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2017 and 2016:

Description	Investments at Fair Value as of December 31, 2017

Note 5 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future benefit payments, including lump-sum distributions, attributable under the Plan's provisions to service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries.

Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances; retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the benefit information date and the expected payment dates. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The significant actuarial assumptions underlying the actuarial computation of the present value of accumulated plan benefits for contributions are as follows:

	2017	2016
Interest rate	5.25%	5.25%
Accumulation rate on cash balance account	2.50%	2.50%
Mortality	RP - 2014 Static Mortality Table	RP - 2014 Static Mortality Table
Average retirement age	Age 60	
Form of payment	Lump sum payable at retirement - Cash balance component Life Annuity - All other components	

CLP PENSION PLAN

Notes to Financial Statements

Note 5 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2017 and 2016.

The actuarial present value of accumulated plan benefits as of January 1, 2017 and 2016 are as follows:

	2017	2016
Vested benefits:		
Participants currently receiving payments	\$ 20,372,030	\$ 21,286,071
Other participants	<u>11,056,318</u>	<u>11,384,949</u>
Total vested benefits	31,428,348	32,671,020
Nonvested benefits	<u>288,925</u>	<u>273,733</u>
Total actuarial present value of accumulated plan benefits	\$ <u>31,717,273</u>	\$ <u>32,944,753</u>

The changes in the actuarial present value of accumulated plan benefits resulted from the following:

	2017	2016
Actuarial present value of accumulated plan benefits at beginning of year	\$ <u>32,944,753</u>	\$ <u>43,965,799</u>
Change from year to year:		
Benefits accumulated (including the effects of non-investment experience)	149,868	143,831
Change in interest rates, due to decrease in the discount period	1,665,013	1,918,646
Benefits paid	(2,795,944)	(15,323,986)
Actuarial (gains)/losses	<u>(246,417)</u>	<u>2,240,463</u>
Change for the year	<u>(1,227,480)</u>	<u>(11,021,046)</u>
Actuarial present value of accumulated plan benefits at end of year	\$ <u>31,717,273</u>	\$ <u>32,944,753</u>

CLP PENSION PLAN

Notes to Financial Statements

Note 6 - Plan Termination

The Employer exercised its right to terminate the Plan effective August 31, 2018. Upon termination, participants will become 100% vested in the present value of their accrued benefits, which were distributed in accordance with methods permitted by the Plan (refer to Note 1 for changes in vesting resulting from Plan termination). As of October 3, 2018, substantially all benefits had been distributed to participants or converted to an insured annuity.

As a result of termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limits.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC when the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Note 7 - Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

CLP PENSION PLAN

Notes to Financial Statements

Note 8 - Related-Party Transactions and Party-In-Interest Transactions

Plan investments include shares of mutual funds managed by an affiliate of SEI Trust Company. SEI Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. For the years ended December 31, 2017 and 2016, fees reported by the Plan to the trustee for administrative services and to other parties-in-interest for actuarial, recordkeeping and audit services amounted to \$264,833 and \$211,050, respectively, including \$39,706 and \$33,240, respectively, in fees accrued for administrative services.

Note 9 - Tax Status

The Plan obtained its latest determination letter on October 20, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan requested a determination letter on June 26, 2018 in anticipation of Plan termination. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that, therefore, the Plan continues to qualify under Section 401(a) and the related trust continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Unpredictable Contingent Event Benefit (UCEB) assumptions	The plan does not provide any UCEBs to any non-frozen participant groups.
Benefit commencement dates	
■ Preretirement death benefit	Immediately upon death.
■ Deferred vested benefit	For Cash Balance Component Plan participants, later of age 58 and one year after valuation date. For deferred vested participants in other component plans, the later of current age or age 62.
■ Retirement benefit	Upon termination of employment
Form of payment	For Cash Balance Component Plan: 100% elect a lump sum. Lump sum amounts are equal to the cash balance account. For all other Component Plans: 100% elect a Single Life Annuity.
Percent married	Not applicable for Cash Balance Component Plan since full death benefit is payable regardless of marital status. 85% of participants for all other component plans.
Spouse age	Wife three years younger than husband. This assumption is used for non-cash balance component plans to value (1) pre-retirement surviving spouse benefits, and (2) post-retirement survivor benefits in cases where spouse birth dates are not available.
Covered pay	Not applicable
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>Willis Towers Watson has reviewed the plan provisions with Connell Limited Partnership and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays small benefits with a present value up to \$1,000 in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such participants are valued using the benefit choice assumptions described above.</p>

Unpredictable Contingent Event Benefit (UCEB) assumptions	The plan does not provide any UCEBs to any non-frozen participant groups.
Benefit commencement dates	
■ Preretirement death benefit	Immediately upon death.
■ Deferred vested benefit	For Cash Balance Component Plan participants, later of age 58 and one year after valuation date. For deferred vested participants in other component plans, the later of current age or age 62.
■ Retirement benefit	Upon termination of employment
Form of payment	For Cash Balance Component Plan: 100% elect a lump sum. Lump sum amounts are equal to the cash balance account. For all other Component Plans: 100% elect a Single Life Annuity.
Percent married	Not applicable for Cash Balance Component Plan since full death benefit is payable regardless of marital status. 85% of participants for all other component plans.
Spouse age	Wife three years younger than husband. This assumption is used for non-cash balance component plans to value (1) pre-retirement surviving spouse benefits, and (2) post-retirement survivor benefits in cases where spouse birth dates are not available.
Covered pay	Not applicable
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>Willis Towers Watson has reviewed the plan provisions with Connell Limited Partnership and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>The plan pays small benefits with a present value up to \$1,000 in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such participants are valued using the benefit choice assumptions described above.</p>
