December 31, 2017 and 2016

(1) Plan Description

(a) General

The Quality Mold, Inc. (the Company) 401(k) Savings Plan & Trust (the Plan) was established effective March 1, 1996 and is a defined contribution plan covering all full-time employees who have at least 90 days of service with the Company and are age 19 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

The participating employees make contributions to the Plan according to their elected salary reduction agreement with the Company, not to exceed limits imposed by IRS Code Section 402(g). Participant contributions may be changed on the first day of each month. The Plan also allows rollover contributions from other qualified plans. The Company may make a discretionary contribution in an amount determined by resolution of the Board of Directors on an annual basis. There were no discretionary Company contributions during 2017 and 2016.

(c) Participant Accounts

Participant account balances are maintained to reflect each participant's interest in the Plan's funds. Participant account balances are increased by participant and Company contributions, an allocated share of investment income, and the net appreciation in the fair value of investments. Account balances are decreased by participant distributions, administrative expenses, and any net depreciation in the fair value of investments. Approximately 37.7% of the plan investments are in accounts of participants who are no longer employees of the Company.

(d) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance which must be repaid within five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions.

(e) Vesting

Participants are immediately vested in their voluntary contributions, employer contributions and related earnings.

(f) Payment of Benefits

During their employment, participants may withdraw their employee vested account balances in the event of financial hardship. The balance in an employee's account not previously withdrawn may be paid to the participants or their designated beneficiary in the event of death, permanent disability, retirement, or other termination of employment with the Company. Participants with a vested interest in their accounts of \$5,000 or more may elect to receive a lump sum distribution, roll over the amount into another qualified plan or leave the funds invested in the Plan.

QUALITY MOLD, INC.
401(k) Savings Plan & Trust
Notes to Financial Statements
December 31, 2017 and 2016

Participants with a vested interest in their account of \$5,000 or less who do not contact the plan sponsor will have benefits paid in a lump sum or have an individual IRA account created and the participant's funds will be rolled over into the new IRA account. There were no individuals who elected to withdraw from the plan but had not been paid at December 31, 2017 and 2016.

(g) Withdrawals

Withdrawals are not permitted before age 59 1/2, except in the event of death, disability, termination of employment, or reasons of proven financial hardship. In service withdrawals are also permitted if the participant has attained the age of 59 1/2.

(h) Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested and the custodian shall distribute account balances in accordance with the Plan.

The foregoing description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The Plan's policy is to prepare its financial statements and supplemental schedule on the modified cash basis. Specifically, benefits and expenses are recorded when paid rather than when incurred. Additionally, contributions and income are recorded when received rather than when withheld from payroll for employee contributions or when declared for discretionary Company contributions.

(b) Investment Valuation

The plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 6 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the modified cash basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year and is reflected in the statements of changes in net assets available for benefits – modified cash basis.

(c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

QUALITY MOLD, INC.
401(k) Savings Plan & Trust
Notes to Financial Statements
December 31, 2017 and 2016

(d) Administrative Expenses

Certain administrative costs are paid by the Plan. Administrative expenses incurred and paid by the Plan totaled \$4,086 in 2017 and \$2,926 in 2016, respectively.

(e) Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan sponsor to make estimates and assumptions that affect certain amounts and disclosures. While actual results could differ from those estimates, the plan sponsor does not expect those differences to be significant to the financial statements.

(f) Risks and Uncertainties

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits – modified cash basis and the statements of changes in net assets available for benefits – modified cash basis.

(g) Excess Participant Contributions

Amounts payable to participants for contributions, if any, in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction in contributions.

(3) Custodian Certification

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by John Hancock Life Insurance Company (USA) (the Plan custodian) as of December 31:

	2017	2016
Investments, at fair value	\$ 1,431,792	1,984,574

(4) Investments

The following presents investments held by the Plan custodian that represent 5% or more of the Plan's net assets at December 31:

	Fair value	
	2017	2016
John Hancock Retirement Living at 2010	\$ 127,419	115,792
John Hancock Retirement Living at 2015	101,619	91,797
John Hancock Retirement Living at 2020	381,010	629,866
John Hancock Retirement Living at 2025	119,301	397,068
John Hancock Retirement Living at 2030	407,864	454,142
John Hancock Retirement Living at 2035	156,359	160,263

The Plan's investments (including investments bought, sold, as well as held during the year) appreciated in value as determined by quoted market prices as follows:

	2017	2016
Pooled separate accounts	\$ 265,190	136,740

The Plan maintains its investments in brokerage accounts which are not federally insured. The Plan has not experienced any significant losses in such accounts. The plan sponsor believes the Plan is not exposed to any significant credit risk on its investments.

(5) Income Tax Status

The Plan uses a prototype plan document sponsored by Huntington National Bank, Trust Division. Huntington National Bank received an opinion letter from the IRS dated February 1, 2018, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code. The Plan itself has not obtained a determination letter from the Internal Revenue Service. However, management of the plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision for income tax has been included in the Plan's financial statements.

The Plan accounts for uncertainties in income taxes, which provides for financial statements recognition and measurement of tax positions taken or expected to be taken in tax returns that have a greater than 50% chance of not being allowed under examination. No such positions have been recorded in the December 31, 2017 and 2016 financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. As of December 31, 2017 the Plan's Federal informational returns are subject to examination by the Internal Revenue Service for the tax years 2014 and thereafter.

(6) Fair Value Measurements

The Plan measures its assets in accordance with the Financial Accounting Standards Board's (FASB) framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs to the valuation methodology includes: 1) quoted prices for similar assets or liabilities in active markets; 2) quoted prices for identical or similar assets or liabilities in inactive markets; 3) inputs other than quoted prices that are observable for the asset or liability; 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or the liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled Separate Accounts

Valued at fair value by using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The participation unit value is adjusted periodically, usually each business day, to reflect investment results under the separate account. The NAV is classified within Level 2 of the valuation hierarchy based on the ability to redeem the fund's investment on a daily basis, as this is considered indicative of a Level 2 observable input.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(7) Party-In-Interest Transactions

Certain Plan investments are units of pooled separate accounts managed by the custodian, and therefore, these investments qualify as party-in-interest transactions.
