Note 1 - Description of Plan

The following description of Tully Group Employee Savings and Protection Plan (the "Plan") (Formerly known as Tully Construction Company Employee Savings and Protection Plan) is provided only for general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan covers all nonunion employees of Tully Construction Co., Inc. and affiliates (the "Company"). Employees become eligible to participate in the Plan upon completion of three months of service and attaining 21 years of age. The Plan trustee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

On February 2, 2017, Falco Construction Company Employee Savings and Protection Plan, along with Galasso Materials Retirement Plan and Thalle Construction Company, Inc. 401(k) Corporate Plan for Retirement on February 15, 2017, merged their assets into the Plan.

Contributions

Each year, participants may make voluntary contributions to the Plan as a percentage of their pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan has automatic contribution arrangements. Unless an election is made by the participant, the employer will automatically withhold 3% from the participant's compensation each payroll period. If an amendment election has not been made, contributions will be automatically invested in accordance with the Plans investment policies. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

The Plan is authorized to make discretionary matching contributions each year. If making contributions are made during the year it will be determined as a percentage of salary deferrals or as a uniform dollar amount. There were no discretionary matching contributions made during the year ended December 31, 2017.

The Plan also provides for participants to make contributions to a Roth 401(k) component which is includable in the participant's gross income.

Participant accounts

Each participant's account is credited with the participant's contribution and allocation of Plan earnings and charged with an allocation of administrative costs. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions are based on years of continuous service. A participant is 100% vested after 5 years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate similar to the rate charged for a loan made under similar circumstances by persons in the business of lending money. Principal and interest ranging from 3.25% to 9.50% is paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, retirement, termination or any other reason, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account, either in lump-sum or pursuant to the election of the participant or beneficiary. Those participants with less than $5,000 must receive a lump-sum distribution of their account. In the event of a serious financial hardship, participants may withdraw a portion of their participant accounts not to exceed the amount required to meet the immediate need.

Forfeited accounts

At December 31, 2017 and 2016, forfeited nonvested accounts totaled $68,119 and $0, respectively. These accounts will be used to pay plan expenses and reduce future employer contributions.

Note 2 - Summary of significant accounting policies

Basis of presentation

The financial statements of the Plan are prepared on the modified cash basis of accounting. The primary differences from financial statements prepared under accounting principles generally accepted in the United States of America arise from accounting for investment income and contributions which are recorded when received, purchases and sales of securities are recorded on a settlement-date basis, and investment and administrative expenses and return of excess contributions are recorded when paid, rather than recording such items on an accrual basis. Accordingly, the financial statements are not intended to be presented in conformity with accounting principles generally accepted in the United States of America.

The Plan presents the net appreciation or depreciation in the fair value of its investments in the statement of changes in net assets available for benefits which consists of interest and dividend income, the realized gains and losses and the unrealized appreciation/depreciation of those investments.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the value of the investment contracts at contract value which approximates fair value.

Use of estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a settlement-date basis. Interest and dividend income are recorded when received. Net appreciation includes the Plan's interest and dividend income, gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded when received. Related fees are recorded as administrative expenses and are expensed when they are paid. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Payment of benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events
The Plan has evaluated subsequent events through October 15, 2018, the date the financial statements were available to be issued.

Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 or 2016.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: The Plan's interest in the pooled separate account funds is valued based on information reported by the investment advisor using the financial statements of the pooled separate account funds at year end. The net asset value practical expedient is based on the value of the underlying assets owned by the funds, minus its liabilities, and then divided by the number of units outstanding.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 or 2016:

	2017			
	Level 1	Level 2	Level 3	Total
Money Market Mutual Funds	$ 71,664	$ -	$ -	$ 71,664
Mutual Funds	24,806,115	-	-	24,806,115
Total investments at fair value	$ 24,877,779	$ -	$ -	$ 24,877,779

	2016			
	Level 1	Level 2	Level 3	Total
Investments measured at NAV (a)	$ -	$ -	$ -	$ 11,777,659
Total investments at fair value	$ -	$ -	$ -	$ 11,777,659

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share practical expedient (or its equivalent) have not been classified in the fair value hierarchy. The

fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

For years ended December 31, 2017 or 2016, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Note 4 - Related party transactions and party-in-interest transactions

In 2016, certain Plan investments were pooled separate accounts managed by Transamerica. Transamerica was the custodian and record keeper as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions.

Transamerica provided certain administrative services to the Plan pursuant to a Master Plan Services Agreement ("MSA") between the Company and Transamerica. Transamerica received revenue from mutual fund service providers for services Transamerica provided to the funds. This revenue is used to offset certain amounts owed to Transamerica for its administrative services to the Plan.

If the revenue received by Transamerica from such mutual fund service providers exceeds the amount owed under the MSA, Transamerica remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants.

Note 5 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 6 - Tax status

The Plan is a prototype of a standardized profit sharing plan, which has received a favorable opinion letter dated May 30, 2008 from the IRS stating that it is qualified under the provisions of Section 401 of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Risk and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2017 and 2016, and investment income for the year ended December 31, 2017, that are disclosed in the accompanying financial statements and supplemental schedule, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the custodian of the Plan.

Note 9 - Nonexempt transactions

As reported on the supplemental schedule of delinquent participant contributions (Schedule H, Line 4a), certain Plan contributions were not remitted to the trust within the time frame specified by the Department of Labor's Regulation 29 (CFR 2510.3-102), thus constituting nonexempt transactions between the Plan and the Company. For the year ended December 31, 2017, there were untimely remittances in the amount of $14,959. In October 2018, the Plan made corrective contributions in the amount of $18.

Note 10 - Reconciliation of financial statements to Form 5500
