## Independent Auditors' Report

Plan Administrator  
American Medical Technology, Inc.  
Cash Balance Plan and Trust  
Cleveland, Ohio

We have audited the accompanying financial statements of the American Medical Technology, Inc. Cash Balance Plan and Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in its net assets available for benefits for the year ended December 31, 2017 in accordance with accounting principles generally accepted in the United States of America.

### **Plan Termination and Liquidation Basis of Accounting**

As discussed in Note 5 to the financial statements, the governing body of the Plan approved a plan termination on June 27, 2017, and liquidation of the Plan occurred prior to December 31, 2017. As a result, the Plan has changed its basis of accounting from the going concern basis used in presenting the 2016 financial statements to the liquidation basis used in presenting the 2017 financial statements. Our opinion is not modified with respect to the matter.

NOTES TO FINANCIAL STATEMENTS

**Note 1. Description of Plan**

The following is a summary of certain provisions of the American Medical Technology, Inc. Cash Balance Plan and Trust (the "Plan"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined benefit cash balance plan established as of January 1, 2008 covering certain employees of Applied Medical Technology, Inc. and Affiliates (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is sponsored and administered by the Company. In 2017, the Plan was amended to terminate on June 27, 2017 and thereafter distribute all benefits as soon as administratively feasible.

Pension Benefits – Participants were eligible for normal retirement benefit annuity payments and lump-sum payments upon reaching age 62. The amount of an individual's benefit was based upon several factors including compensation, years of service, and category as defined by the Plan. Compensation was based upon the average compensation for the highest three consecutive calendar years of employment that produces the highest average. The Plan also provided for the payment of early and disability retirement benefits, as well as the payment of benefits to the surviving spouse of a participant.

**Note 2. Summary of Significant Accounting Policies**

Basis of Accounting – The accompanying financial statements are prepared on a liquidation basis of accounting due to the Plan termination as of and for the year ended December 31, 2017. Financial information as of and for the year ended December 31, 2016 was prepared on an accrual basis of accounting.

Plan Administration – The Company is the plan administrator. Morgan Stanley Smith Barney is the Custodian of the Plan.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers and the Custodian. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

**Note 2. Summary of Significant Accounting Policies (Continued)**

Funding Policy – The Company generally made contributions to the Plan based upon actuarial computations.

Administrative Expenses – The Plan's expenses are paid either by the Plan or the Company, at the discretion of the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Evaluation of Subsequent Events – The Plan has evaluated subsequent events through October 12, 2018, the date on which the financial statements were available to be issued.

**Note 3. Fair Value Measurements**

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs in which little or no market data exists

The following is a description of the valuation methodologies used for plan assets measured at fair value:

- Treasury and corporate bonds: Valued by the Custodian based on yields currently available on comparable securities of issuers with similar credit ratings. These securities are classified as Level 2.
- Common stock: Valued at the closing price reported in the active market in which the individual securities are traded and are classified as Level 1.
- Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end and are classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2016 to 2017. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Note 4. Obligation for Pension Benefits****Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances - retirement, death, disability, the termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

**Actuarial Assumptions**

Significant assumptions used by the actuary in determining the actuarial present value of accumulated plan benefits as of December 31, 2017 and January 1, 2017 are as follows:

- The Present Value of Accumulated Benefits ("PVAB") is equal to the Hypothetical Cash Balance Account accrued for all participants as of the valuation date.
- Mortality is not applicable since the PVAB are equal to the Hypothetical Cash Balance Accounts.
- The interest crediting rate for 2017 was 2.50% through the plan termination date, and then 3.00% thereafter until the payout date.
- The Plan was terminated and all assets were distributed during 2017.

### Note 6. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 21, 2012 that the Plan and related trust, as then designed, was in compliance with applicable sections of the Internal Revenue Code ("IRC"). The Plan had been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan was designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

## ACTUARIAL ASSUMPTIONS

---

### Funding Discount Rates

IRS-Prescribed Three-Segment Rates, for the month that includes the valuation date (Jan).

|              | Non-Stabilized | Limited to 25-Year Corridor |
|--------------|----------------|-----------------------------|
| Segment I:   | 1.57%          | 4.16%                       |
| Segment II:  | 3.77%          | 5.72%                       |
| Segment III: | 4.73%          | 6.48%                       |

The "Limited to 25 Year Corridor" rates are adjusted by the applicable maximum and applicable minimum percentages of the 25-year average segment rates, as set forth in the Highway and Transportation Funding Act of 2014 ('HATFA-14') for use in Minimum Required Contribution calculations. The IRS Maximum Deductible Limit Calculations use the rates from the "Non-Stabilized" column above.

### Effective Interest Rate

The Effective Interest Rate (EIR) for the 2017 Plan Year was 5.31%. For the prior Plan year, the EIR was 5.80%.

The EIR is the single rate of interest which, if used to determine the Funding Target, would equal the Funding Target determined using the plan sponsor's above elected discount rates. The EIR is used to discount contributions for minimum funding requirements and to accumulate excess contributions to the end of the year.

## ACTUARIAL METHODS

---

### **Minimum Funding Cost Method**

The actuarial cost method used to determine the liabilities for minimum funding calculations is the Traditional Unit Credit method. The objective under this method is to fund each participant's benefits under the plan as they accrue. Under this cost method, the actuarial accrued liability is the sum of the individual accrued liabilities for all participants and the normal cost is the sum of the individual normal costs for each participant. The individual accrued liability for a participant is the present value of the accrued benefit as of the valuation date taking into account service and/or pay as of the valuation date. The individual normal cost for a participant is the present value of the benefit expected to accrue in the plan year being valued.

If a plan is frozen, there is no normal cost attributable to benefit accruals.

### **Maximum deductible contribution method**

The actuarial cost method used to determine the liabilities for maximum deductible calculations is the Projected Unit Credit method. The objective under this method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Under this cost method, the actuarial accrued liability is the sum of the individual accrued liabilities for all participants and the normal cost is the sum of the individual normal costs for all participant. The individual accrued liability for a participant is the sum of 1) the present value of the accrued benefit earned as of the valuation date taking into account service and/or pay as of the valuation date; plus 2) the present value of the accrued benefit expected to be earned because of any expected future compensation increases.

The individual normal cost for a participant is the sum of the present value of the benefit expected to accrue in the plan year being valued taking into account any expected future compensation increases.

### **Asset Method**

We used financial data submitted by the trustee as of the valuation date without further audit. This information was not be verified by a plan's actuary. We have reviewed the information for internal consistency, and we have no reason to doubt is substantial accuracy.

### **Changes in methods since the prior valuation**

None.
