NOTE A—DESCRIPTION OF PLAN

The following description of the Laredo Transit Management, Inc. Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees who had at least one year of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Administration of Plan Net Assets

The Plan's assets are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants (if applicable). Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Contributions

Each year, participants may contribute pretax annual compensation, as defined in the Plan. Participants who have attained age 55 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment on their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective investment trust as investment options for participants. The Company may make up to $1,200 in discretionary contributions to eligible employees.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution if any, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in any of ten investment options.

Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years. The notes are secured by the balance in the participant's account and bear interest at a rate at Wall Street Prime Lending Rate plus 2%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump sum distribution if the vested account balance does not exceed $5,000. If the vested balance exceeds $5,000, the plan gives the participant specific options regarding when elections to receive distributions from the Plan can be made. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2017 and 2016, forfeited non vested accounts totaled $60 and $60 respectively. These accounts will be used to reduce future employer contributions in the plan year following the plan year in which the designated forfeiture occurs.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review of Subsequent Events

Subsequent events were evaluated through October 12, 2018 which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2017 and 2016, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between

market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plans gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants in excess of amounts allowed by the IRS are recorded as accounts payable, with a corresponding reduction to 2017 contributions. The plan did not distribute any excess contribution for the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

NOTE C—FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical asset (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset value of shares as reported by the fund. The mutual funds held by the plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at the price. The mutual funds held by the Plan are considered to be actively traded.

Level 2 Fair Value Measurements

The fair value of collective trust funds is based on the net asset value of units of a bank collective trust. Participant transactions (purchased and sales) may occur daily and are based on unit values as of the valuation date.

Level 3 Fair Value Measurements

The fair value of guaranteed investment contracts (if any) is determined using an income approach and discounting the related cash flows based on current yields of similar instruments with comparable durations. The fair value of mortgages (if any) is based on the future principal and interest payments discounted at prevailing interest rates for similar investments. The fair value of real estate investments (if any), principally rental property subject to long-term leases, has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with the risks involved.

The Plan administrator determines the fair value measurement policies and procedures, subject to oversight by the Company's employee benefit committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

(continued on next page)

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016 prior to adoption of ASU 2015-12 and ASU 2015-07.

Changes in Fair Value Levels

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2017 and 2016, are reported in net appreciation in fair value of investments.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2017 and 2016, there were no transfers between the different Levels.

NOTE D—INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The plan administrator has elected the alternative method of compliance permitted by 29 CFR 2520.103.-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Trustee, Wells Fargo, have certified that the following data included in the accompanying financials statements and supplemental schedule is complete and accurate.

	2017	2016

Investments, at fair value:		
Mutual Funds	$ 1,189,449	$ 1,043,078

Investment Income	196,533	64,149

Benefit Payments	190,048	21,861

The Plan's independent accounts did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

NOTE E—PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE G—RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

This party-in-interest transaction is exempt from prohibited transaction rules of ERISA.

NOTE H—TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require that the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

NOTE I—RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE A—DESCRIPTION OF PLAN

The following description of the Laredo Transit Management, Inc. Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees who had at least one year of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Administration of Plan Net Assets

The Plan's assets are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants (if applicable). Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Contributions

Each year, participants may contribute pretax annual compensation, as defined in the Plan. Participants who have attained age 55 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment on their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective investment trust as investment options for participants. The Company may make up to $1,200 in discretionary contributions to eligible employees.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution if any, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in any of ten investment options.

Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years. The notes are secured by the balance in the participant's account and bear interest at a rate at Wall Street Prime Lending Rate plus 2%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump sum distribution if the vested account balance does not exceed $5,000. If the vested balance exceeds $5,000, the plan gives the participant specific options regarding when elections to receive distributions from the Plan can be made. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2017 and 2016, forfeited non vested accounts totaled $60 and $60 respectively. These accounts will be used to reduce future employer contributions in the plan year following the plan year in which the designated forfeiture occurs.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review of Subsequent Events

Subsequent events were evaluated through October 12, 2018 which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2017 and 2016, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between

market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plans gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants in excess of amounts allowed by the IRS are recorded as accounts payable, with a corresponding reduction to 2017 contributions. The plan did not distribute any excess contribution for the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

NOTE C—FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical asset (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset value of shares as reported by the fund. The mutual funds held by the plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at the price. The mutual funds held by the Plan are considered to be actively traded.

Level 2 Fair Value Measurements

The fair value of collective trust funds is based on the net asset value of units of a bank collective trust. Participant transactions (purchased and sales) may occur daily and are based on unit values as of the valuation date.

Level 3 Fair Value Measurements

The fair value of guaranteed investment contracts (if any) is determined using an income approach and discounting the related cash flows based on current yields of similar instruments with comparable durations. The fair value of mortgages (if any) is based on the future principal and interest payments discounted at prevailing interest rates for similar investments. The fair value of real estate investments (if any), principally rental property subject to long-term leases, has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with the risks involved.

The Plan administrator determines the fair value measurement policies and procedures, subject to oversight by the Company's employee benefit committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

(continued on next page)

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016 prior to adoption of ASU 2015-12 and ASU 2015-07.

Changes in Fair Value Levels

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2017 and 2016, are reported in net appreciation in fair value of investments.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2017 and 2016, there were no transfers between the different Levels.

NOTE G—RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

This party-in-interest transaction is exempt from prohibited transaction rules of ERISA.

NOTE H—TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require that the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

NOTE I—RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE A—DESCRIPTION OF PLAN

The following description of the Laredo Transit Management, Inc. Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees who had at least one year of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Administration of Plan Net Assets

The Plan's assets are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants (if applicable). Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Contributions

Each year, participants may contribute pretax annual compensation, as defined in the Plan. Participants who have attained age 55 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment on their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective investment trust as investment options for participants. The Company may make up to $1,200 in discretionary contributions to eligible employees.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution if any, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions in any of ten investment options.

Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years. The notes are secured by the balance in the participant's account and bear interest at a rate at Wall Street Prime Lending Rate plus 2%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump sum distribution if the vested account balance does not exceed $5,000. If the vested balance exceeds $5,000, the plan gives the participant specific options regarding when elections to receive distributions from the Plan can be made. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2017 and 2016, forfeited non vested accounts totaled $60 and $60 respectively. These accounts will be used to reduce future employer contributions in the plan year following the plan year in which the designated forfeiture occurs.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review of Subsequent Events

Subsequent events were evaluated through October 12, 2018 which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2017 and 2016, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between

market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plans gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants in excess of amounts allowed by the IRS are recorded as accounts payable, with a corresponding reduction to 2017 contributions. The plan did not distribute any excess contribution for the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

NOTE C—FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical asset (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 3 inputs for the periods presented.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset value of shares as reported by the fund. The mutual funds held by the plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at the price. The mutual funds held by the Plan are considered to be actively traded.

Level 2 Fair Value Measurements

The fair value of collective trust funds is based on the net asset value of units of a bank collective trust. Participant transactions (purchased and sales) may occur daily and are based on unit values as of the valuation date.

Level 3 Fair Value Measurements

The fair value of guaranteed investment contracts (if any) is determined using an income approach and discounting the related cash flows based on current yields of similar instruments with comparable durations. The fair value of mortgages (if any) is based on the future principal and interest payments discounted at prevailing interest rates for similar investments. The fair value of real estate investments (if any), principally rental property subject to long-term leases, has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with the risks involved.

The Plan administrator determines the fair value measurement policies and procedures, subject to oversight by the Company's employee benefit committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

(continued on next page)

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016 prior to adoption of ASU 2015-12 and ASU 2015-07.

		Fair Value Measurements at the End of the Reporting Period Using:		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2017				
Mutual Funds	$ 1,189,449	$ 1,189,449	$ -	$ -
Collective Trust Fund	183,811	-	183,811	-
Total	$ 1,373,260	$ 1,189,449	$ 183,811	$ -

		Fair Value Measurements at the End of the Reporting Period Using:		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2016				
Mutual Funds	$ 1,043,078	$ 1,043,078	$ -	$ -
Collective Trust Fund	251,666	-	251,666	-
Total	$ 1,294,744	$ 1,043,078	$ 251,666	$ -

Changes in Fair Value Levels

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2017 and 2016, are reported in net appreciation in fair value of investments.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2017 and 2016, there were no transfers between the different Levels.

NOTE D—INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The plan administrator has elected the alternative method of compliance permitted by 29 CFR 2520.103.-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Trustee, Wells Fargo, have certified that the following data included in the accompanying financials statements and supplemental schedule is complete and accurate.

Benefit Payments	190,048	21,861

The Plan's independent accounts did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

NOTE E—PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE G—RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Wells Fargo. Wells Fargo is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

This party-in-interest transaction is exempt from prohibited transaction rules of ERISA.

NOTE H—TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require that the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.
