PINNACLE EMPLOYEE SERVICES, LLC 401(k) AND PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of plan

The following description of the Pinnacle Employee Services, LLC 401(k) and Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General - The Plan is a prototype qualified defined contribution profit sharing plan under Section 401(a) of the Internal Revenue Code with a Section 401(k) provision covering all full-time employees of Pinnacle Employee Services, LLC and participating affiliated entities (the “Participating Employers”). The Plan is a multiple-employer plan. All assets acquired under the Plan are the result of employee and employer contributions thereto and all income and other additions thereto are administered, distributed, forfeited or otherwise governed by the provisions of the Plan and ERISA.

Contributions - Participants are allowed to make elective 401(k) salary deferrals up to the maximum amount allowed by the Internal Revenue Code and may direct their contributions, as well as employer discretionary matching contributions, in any of the investment options offered by the Plan. Participating employers have the option to elect automatic enrollment in the Plan with an initial deferral rate of 3% of their annual compensation to the 401(k) plan, which is increased automatically by 1% each year, up to a maximum of 10%, unless the participant elects a different percentage or expressly elects not to participate in the plan. Participants who meet certain age requirements are allowed to make catch-up elective deferrals. Rollover and transfer contributions from other plans are permitted.

Each Participating Employer elects to make discretionary matching contributions to each respective eligible participant’s account. Discretionary matching contributions were \$92,804 for the year ended December 31, 2017. There were no discretionary profit-sharing contributions for the year ended December 31, 2017.

Participant accounts - Each participant’s account is credited with the participant’s elective deferral contribution plus the Company’s discretionary matching contribution and plan earnings. Allocations of contributions are based on participant compensation and allocation of plan earnings are based on account balances as defined by the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Vesting - Participants are immediately vested in their elective salary contributions plus actual earnings thereon. Vesting in the Participating Employer’s discretionary matching portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant in the Plan becomes 100% vested in any Participating Employer discretionary matching contributions after three, five or six years of credited service, depending on the specific Participating Employer’s vesting schedule. Forfeited non-vested accounts totaled \$1,348 at December 31, 2017. These amounts can be used to offset plan administration expenses or future Participating Employer discretionary matching contributions.

Investment options - Upon enrollment in the Plan, a participant may direct contributions to the Plan in various investment options. Participants may change their investment options on a daily basis; however, some investment options included in the Plan are subject to trading restrictions.

Notes receivable from participants - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account and bear interest at a rate equal to the prime rate plus 1.00% (5.50% at December 31, 2017) at the time the loan is approved. Principal and interest are repaid through payroll deductions. According to requirements of the participant note receivable program, the Trustees will consider a note in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter in which the participant missed the scheduled payment. Any notes that are in default as defined by the plan document are reported as either deemed distributions or benefit payments.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on notes receivable from participants who are actively participating in the Plan and have not continued to make payments on the outstanding notes as required under the notes receivable from participants program. There were no deemed distributions for the year ended December 31, 2017.

Hardship withdrawals - A participant may apply for a hardship withdrawal to assist in the payment of several types of personal hardships, as defined by the plan agreement.

Payment of benefits - Upon termination of service due to death, disability, retirement, or other reasons, a participant or beneficiary may receive the value of the vested interest in his or her account as a lump sum distribution.

Plan mergers - The Plan is a multiple employer plan. Therefore, if an employer has an existing 401k plan it will be merged with the Plan. The Plan had assets of \$294,474 from merged in plans for the year ended December 31, 2017.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become fully vested in their account balances.

Note 2 - Summary of significant accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of plan income and expenses during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties - The Plan provides for various investment securities in any combination of pooled separate accounts, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Valuation of investments and income recognition - Investments held by the Plan are stated at net asset value (see below), with the exception of the Transamerica Stable Value Core Account, which is fully benefit responsive and therefore valued at contract value (see below). All investment values have been determined and certified by Transamerica Retirement Solutions, LLC (Transamerica), the Custodian of the Plan (see Note 4). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Pooled separate accounts invest primarily in equities, bonds, real estate and mutual funds, which are mainly publicly traded securities. Pooled separate accounts are valued at net asset value (NAV) per share, which serves as the practical expedient to estimate its fair value. The NAV of each pooled separate account is not publicly quoted in the active markets. Each pooled separate account can be redeemed at NAV as of the measurement date and can be redeemed on a daily basis. There were no unfunded commitments or redemption restrictions on these investments as of December 31, 2017 and 2016. Investments measured at net asset value per share used as a practical expedient are not required to be classified in the fair value hierarchy.

The Plan holds an investment in the Transamerica Stable Value Core Account, a fully benefit responsive investment contract stated in accordance with the Financial Accounting Standards Board's authoritative guidance regarding accounting for fully benefit responsive contracts held by certain investment companies, which states that contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Investments measured at contract value are not required to be classified in the fair value hierarchy.

The crediting interest rates of the contract are based on agreed upon formulas with the issuer, as defined in the contract agreements, but cannot be less than 0%. Such interest rates are reviewed on a periodic basis for resetting. The key factors that influence future crediting rates could include the following: the level of market interest rates, the amount and timing of participant contributions, transfers and withdrawals into/out of the contract and the duration of the underlying investments backing the contract.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the sponsor or other sponsor event (e.g., divestures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; (iv) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA; or (v) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and also would limit the ability of the Plan to transact at contract value with the Participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (i) an uncured violation of the Plan's investment guidelines; (ii) a breach of material obligation under the contract; (iii) a material misrepresentation; and (iv) a material amendment to the agreement without the consent of the issuer.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed forty-five days from the date of the most recent payment and, based on the assessment of credit worthiness, estimates the portion, if any, of the balance that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible participant notes receivable becomes material. If a participant defaults on a note receivable and distribution from the participant account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statement of changes in net assets available for benefits and deducted from the receivable balance.

Administrative costs - Administrative costs, including investment management costs and custodian fees, are the obligation of the Plan; however, the plan sponsor may pay for such expenses or reimburse the Plan for any payment of these expenses. Costs of managing the investments are paid directly out of the plan assets (see Note 3).

Payment of benefits - Benefits are recorded when paid.

Economic dependency and concentration of credit risk - Approximately 87% and 78% of the Plan's investments are invested in Transamerica Funds as of December 31, 2017 and 2016, respectively. Accordingly, the Plan is dependent upon the financial condition of Transamerica.

Subsequent events - Effective January 1, 2018, the Plan was amended to include an enhanced Safe Harbor Matching Contribution in an amount equal to the sum of 100 percent of eligible employees elective contributions that do not exceed 4 percent of the eligible employees compensation for the Plan year. These Safe Harbor Matching Contributions should be made each payroll period and there is no true-up provision. In addition, Matching Contributions and Non-Matching Contributions do not apply to employees of the Principal Participating Employer, except for the Safe Harbor Enhanced Matching Contributions. During 2018, the Plan has had two large companies merge into the Plan. The two mergers have generated additional merged-in assets of approximately \$12,787,000. Management has evaluated subsequent events through October 10, 2018, the date that the financial statements were available for issue.

Note 3 - Related party transactions

Transamerica provided investment custodial services to the Plan for the year ended December 31, 2017. Therefore, these transactions qualify as exempt party-in-interest transactions. The investment fees paid to Transamerica are included in net appreciation in investments in the accompanying statements of changes in net assets available for benefits. Certain administrative expenses were paid to Transamerica Retirement Services by the Plan, which amounted to \$9,528 for the year ended December 31, 2017.

Note 4 - Investments

The Trustees have elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations and Disclosure under ERISA. Accordingly, Transamerica, the Custodian, has certified that the investments and investment income included in the accompanying financial statements as of December 31, 2017 and 2016 and for the year ended December 31, 2017, and the supplemental schedule as of December 31, 2017, are complete and accurate. Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5 - Tax status of plan

The Plan has adopted Transamerica Volume Submitter for Defined Contribution Plans. The IRS has determined and informed the plan sponsor that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. Accordingly, the Plan has been accounted for as a tax-exempt plan.

The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the year ended December 31, 2017. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2015.

The plan sponsor is in the process of completing certain required non-discrimination tests required by the Code. While these tests are not complete at the date of these financial statements, management believes that the results of these tests would not have a material impact to these financial statements.
