INDEPENDENT AUDITOR'S REPORT

Pension Plan Administrative Committee
Pension Plan for the Employees of
Government Employees Companies
Chevy Chase, Maryland

We have audited the accompanying financial statements of the Pension Plan for the Employees of Government Employees Companies (the Plan), which comprise the statements of net assets available for plan benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2017 and 2016, and the changes in its financial status for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of the Schedule of Assets Held at End of Year as of December 31, 2017 and the Schedule of Reportable Transactions for the year ended December 31, 2017 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Form of payment	Lump sum benefits included in the funding target are valued using annuity substitution, so that the interest rates assumed are effectively the same as described above for the discount rate. 50% of married active participants are assumed to elect a single life annuity, and 50% are assumed to elect a joint and survivor annuity. Single active employees are assumed to elect a single life annuity.
Percent married	80% of eligible participants. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.
Spouse age	Wives three years younger than husbands.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Tax Policy	The actuarial valuation performed for the plan year ending December 31, 2017 is used to determine the maximum deductible contribution for the tax year ending December 31, 2017.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	The actuarial value of assets is equal to the market value of assets as of the valuation date plus the discounted present value of contributions made after the valuation date for the 2016 plan year, discounted using the effective interest rate for the 2016 plan year.
Benefits not valued	<p>All benefits described in the Plan Provisions section of this report were valued based on discussions with GEICO regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with GEICO and, based on that review, is not aware of any significant benefits required to be valued that were not.</p> <p>Willis Towers Watson has reviewed the plan provisions with GEICO and, based on that review, is not aware of any other significant benefits required to be valued that were not.</p>

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Expected return on plan assets	We understand that the expected return on assets assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions. The analysis was informed by analysis of historical data and recent trends for CPI, GDP growth, and real returns on the various classes of assets held by the trust.
Rates of increase in Compensation	Assumed compensation increases were based on an experience study conducted in December 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Plan-related Expenses	Plan-related expenses are estimated based on the actual expense paid from the trust during the preceding year, adjusted for expected changes in PBGC premiums in the upcoming year.
------------------------------	---

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates were based on an experience study conducted in November 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by service and gender because of observed differences in termination rates by gender and service.</p>
Retirement	Retirement rates were based on an experience study conducted in November 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Form of payment	For measurement of the funding target, the percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on expectations of future elections.

Source of Data and Other Information

GEICO furnished participant data as of 1/1/2017. Information on plan provisions was supplied by GEICO. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with GEICO, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any such significant event, so no adjustments were made. In consultation with GEICO, the following assumptions were made for missing or apparently inconsistent data element:

- Certain demographic information (e.g. gender) for participants where it was not requested or provided on the pension census files as of 1/1/2017 was carried forward from previous years' data.
- Certain benefit information (e.g. monthly benefit) for participants where it was not requested or, provided on the pension census files as of 1/1/2017 was assumed to be the average benefit amounts of the current year's data.

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

The compensation increase assumption for increases after January 1, 2017 was lowered at all age bands based on a review of recent plan experience and expectations for future experience.

The assumed plan-related expenses added to the target normal cost were changed from \$5,800,000 in 2016 to \$8,900,000 in 2017 to reflect an expected increase in the administrative expenses paid from the trust.

Plan

Pension Plan for the Employees of Government Employees Companies

Effective Date and Most Recent Amendment

The plan was originally effective January 1, 1976. The last amendment reflected herein is effective January 1, 2015.

Plan Year

The twelve-month period ending December 31.

Coverage and Participation

Employee: Any persons employed on a full-time or part-time basis.

- Each Employee who was a Participant on December 31, 1975 will remain a Participant on January 1, 1976. Each other Employee who was employed on December 31, 1975 prior to his 60th birthday will become a Participant on January 1, 1976.
- Each Employee who was a Participant on December 31, 1994 will remain a Participant as of January 1, 1995.
- Each Employee hired on or after January 1, 1995 and before September 1, 2004 will become a Participant on the January 1 of the Plan Year in which he has completed one year of service and attained age 21.

Credited Service

Years of service prior to January 1, 1976 plus years and partial years of service on and after January 1, 1976 and before January 1, 1995, while working full-time. On and after January 1, 1995, years and partial years of service while working full-time or part time. Partial years of service are credited for months in which the Employee is compensated for at least one hour of service. Excluding service prior to the Employee's 21st birthday if hired on or after January 1, 1976.

Vesting Service

The sum of years of service prior to January 1, 1976 and years of service on and after January 1, 1976 in which the Employee completes at least six months of service, excluding service prior to age 18, but not less than would have been credited on December 31, 1975.

Final Average Compensation/Salary

Average of the Earnings paid to a Participant during the 60 consecutive calendar months that produce the highest amount.

Normal Retirement Benefit

Normal Retirement Date: The first day of the month on or after attainment of age 65.

Annual Benefit: the greatest of (a), (b), or (c):

- 2% of Final Average Annual Earnings times Years of Benefit Service (maximum of 25), plus 1% of Final Average Annual Earnings multiplied by Years of Benefit Service between 25 and 35, plus $\frac{3}{4}$ of 1% of Final Average Annual Earnings multiplied by Years of Benefit Service in excess of 35, less 50% of the Primary Social Security Benefit.
- \$240 times Years of Benefit Service.
- The amount payable to the Participant under the Predecessor Plan assuming that his "Base Earnings" on December 1, 1971 remain unchanged to Normal Retirement Date.

Early Retirement Benefit

Eligibility: Age 50 and 15 Years of Vesting Service.

Annual Benefit: The Normal Retirement Income is reduced $\frac{5}{12}$ of 1% for each full month of the first 10 years by which the Early Retirement Date precedes the Normal Retirement Date and reduced actuarially below age 55. The amount of the Normal Retirement Income is based on Years of Benefit Service to the date of retirement and the Primary Social Security Benefit is calculated as follows: The amount that would be payable to the Participant at his Normal Retirement Date determined under provisions of the Federal Social Security Act in effect on the date of termination assuming a constant annual earnings rate to the Normal Retirement Date multiplied by the ratio of Years of Benefit Service at termination to Years of Benefit Service to Normal Retirement Date.

Disability Benefit

Eligibility: 5 Years of Vesting Service.

Annual Benefit: The Normal Retirement Income payable at Normal Retirement Date assuming a constant rate of earnings from date of disability to Normal Retirement Date, and including all years of disability in Years of Benefit Service.

Vested Benefits upon Termination of Service

Eligibility: 5 Years of Vesting Service.

Plan Name:	Pension Plan for the Employees of Government Employees Companies

SCHEDULE SB ATTACHMENTS

Annual Benefit: The Normal Retirement Income above based on Years of Benefit Service to date of termination and Primary Social Security Benefit calculated as follows: The amount that would be payable to the Participant at his Normal Retirement Date determined under provisions of the Federal Social Security Act in effect on the date of termination assuming a constant annual earnings rate to the Normal Retirement Date multiplied by the ratio of Years of Benefit Service at termination to Years of Benefit Service to Normal Retirement Date. The vested terminated Participant may elect Early Retirement with at least 15 years of Vesting Service. The Early Retirement Benefit is reduced in the same manner as for active Participants.

Death Benefits for Participants in Active Service

Eligibility: The spouse of any Participant who is entitled to a vested benefit and dies while actively employed or after the termination of employment but before his annuity start date.

Annual Benefit:

- If eligible for Early Retirement, the amount which would have been payable to the spouse had the Participant retired on the first day of the month in which death occurred, having elected a 50% joint and survivor annuity with his spouse named as the survivor. Monthly payments will begin as of the first day of the month following the Participant's death and will continue for the spouse's life. Alternatively, the surviving spouse may elect to defer payments to a date no later than the participant's normal retirement date. If such an election is made the benefit amount will be adjusted to reflect the timing of payments.
- If not eligible for Early Retirement, the amount which would have been payable to the spouse had the Participant terminated on the date he died, survived to his earliest retirement age, retired (having elected a 50% joint and survivor annuity with his spouse named as the survivor) and then died the day after retirement. Monthly payments will begin on what would have been the Participant's earliest retirement date and continue for the spouse's life. Alternatively, the surviving spouse may elect to defer payments to a date no later than the participant's normal retirement date. If such an election is made, the benefit amount will be adjusted to reflect the timing of payments.

The participant's retirement income will be actuarially reduced to reflect the cost of providing the pre-retirement survivor annuity.

Optional Forms of Retirement Income in Lieu of Normal Form

Normal Form:

- Single participant: single life annuity.
- Married participant: actuarially equivalent 50% joint and survivor.

Optional forms: lump sum for participants terminating on or after June 1, 2014, contingent annuitant option or Social Security adjustment option.

INDEPENDENT AUDITOR'S REPORT

Pension Plan Administrative Committee
Pension Plan for the Employees of
Government Employees Companies
Chevy Chase, Maryland

We have audited the accompanying financial statements of the Pension Plan for the Employees of Government Employees Companies (the Plan), which comprise the statements of net assets available for plan benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2017 and 2016, and the changes in its financial status for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of the Schedule of Assets Held at End of Year as of December 31, 2017 and the Schedule of Reportable Transactions for the year ended December 31, 2017 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

PENSION PLAN FOR THE EMPLOYEES OF
GOVERNMENT EMPLOYEES COMPANIES

NOTES TO FINANCIAL STATEMENTS

Years ended December 31, 2017 and 2016

NOTE A: DESCRIPTION OF PLAN

The Pension Plan for the Employees of Government Employees Companies (the Plan) is a defined benefit plan covering substantially all employees of the Government Employees Companies (the Companies), including GEICO Corporation and certain of its subsidiaries, who were hired prior to September 1, 2004. Employees hired after August 31, 2004 are not eligible to participate or accrue benefits in the Plan.

Retirement benefits for participants normally begin at the later of age 65 or 5 years of participation in the Plan. Early retirement benefits may be elected if the participant has attained the age of 50 and has completed at least 15 years of credited service with the Plan. The annual retirement benefit will be equal to 2% of the participant's final average annual earnings multiplied by his years of benefit service to a maximum of 25 years, plus 1% of the participant's final average annual earnings multiplied by his years of benefit service in excess of 25 years, but not in excess of 35 years, plus 3/4% of the participant's final average annual earnings multiplied by his years of benefit service in excess of 35 years, less 50% of his primary social security benefit.

Effective January 1, 2015, the Plan was amended to provide a voluntary lump sum option for all terminations and retirements on or after June 1, 2014. During 2017, payments related to the voluntary lump sum option were made to 276 eligible terminated vested participants in the amount of \$43,782,674. During 2016, payments related to the voluntary lump sum option were made to 304 eligible terminated vested participants in the amount of \$31,032,128.

Further information about the Plan document, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation's (PBGC) benefit guaranty is included in the Summary Plan Description (SPD) of the Pension Plan. Copies of the SPD are available from the Administrative Committee of the Plan.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting: The Plan maintains its accounting records on the accrual basis in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

Subsequent Events: The Plan has performed an evaluation of subsequent events through October 15, 2018, which is the date the financial statements were available to be issued, and has considered relevant matters in the preparation of the financial statements and notes. See Note K regarding subsequent event.

Use of Estimates: Preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalent: The cash equivalent consists of a money market fund. The fair value of the money market fund approximates cost due to the short maturity of the investments underlying the fund.

Investments: Investments are stated at fair value. Investments in U.S. Government securities, government-sponsored enterprises and corporate bonds are valued by a pricing service based upon market prices and observable inputs, and equity securities are valued based upon quoted market prices. The net change in unrealized appreciation or depreciation of investments and the net realized gains and losses on sales of investments are reflected in investment income. Realized gains and losses on sales of investments are determined using average cost. Investments for which the current fair value has declined below cost are reviewed.

Benefits: Benefits are recorded when paid.

Administrative Services: The Companies provide certain administrative services to the Plan for which no fees are charged. The Companies were reimbursed by the Plan for \$335,520 and \$313,385 of administrative services in 2017 and 2016, respectively.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

NOTE C: FUNDING POLICY

The Companies have agreed to voluntarily contribute such amounts as are necessary to meet the cost of the benefits payable under the Plan. The contributions of the Companies are made at levels which at a minimum would meet the Employee Retirement Income Security Act of 1974 (ERISA) funding requirements, including amortization of prior service costs, and at a maximum would be based on tax deductible limitations. No contribution was required for 2017 and 2016. The Companies contributed \$215,000,000 on August 31, 2018 for the 2017 Plan year.

NOTE D: PLAN TERMINATION

The Companies have the right under the Plan to discontinue contributions at any time and terminate the Plan. In the event of a termination of the Plan, the net assets of the Plan would be allocated among the participants in accordance with the order of priority as defined in the Plan document. However, in the event of termination of the Plan, the PBGC guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA.

NOTE E: INVESTMENTS

A three-level hierarchy exists that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the assets or liabilities fall within different levels of the hierarchy, the classification is based on the lowest input that is significant to the fair value measurement of the asset or liability. Classification of assets and liabilities within the hierarchy considers the markets in which the assets and liabilities are traded and the reliability and transparency of the assumptions used to determine fair value. The hierarchy requires the use of observable market data when available. The levels of the hierarchy and those investments included in each are as follows:

Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities traded in active markets. Equity securities are traded on an exchange in active markets and fair values are based on the closing prices as of the balance sheet date.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and market-corroborated input. Fair values for U.S. government securities, government-sponsored enterprises and corporate bonds are based on price evaluations which incorporate market prices for identical instruments in inactive markets and market data available for instruments with similar characteristics.

Level 3 – Inputs to the valuation methodology are unobservable for the asset or liability and are significant to the fair value measurement.

These valuation techniques involve some level of management estimation and judgment. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model or input used and are reflective of the assumptions that market participants would use in valuing assets or liabilities.

NOTE F: ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' earnings, as defined under the Plan, using the average earnings for the 60 consecutive months that produces the highest amount. The accumulated plan benefits for active employees are projected based on their earnings as of the valuation date.

Consulting actuaries have estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of December 31, 2017 and 2016 is as follows:

	December 31,	
	2017	2016
Vested benefits:		
Participants currently receiving payments	\$ 345,582,578	\$ 329,281,409
Other participants	<u>749,053,646</u>	<u>725,767,203</u>
	1,094,636,224	1,055,048,612
Nonvested benefits	<u>5,533,428</u>	<u>8,907,759</u>
Actuarial present value of accumulated plan benefits	<u>\$ 1,100,169,652</u>	<u>\$ 1,063,956,371</u>

NOTE F: ACCUMULATED PLAN BENEFITS - CONTINUED

The change in the actuarial present value of accumulated plan benefits for the years ended December 31, 2017 and 2016 are as follows:

	For the Years Ended December 31,	
	2017	2016
Additional benefits accumulated	\$ 52,556,377	\$ 56,940,511
Interest due to decrease in the discount period	74,492,868	70,494,227
Benefits paid	(85,786,525)	(71,736,683)
Change of assumptions	(5,049,439)	7,395,252
Increase in actuarial present value of plan benefits	36,213,281	63,093,307
Actuarial present value of accumulated plan benefits, at beginning of year	<u>1,063,956,371</u>	<u>1,000,863,064</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 1,100,169,652</u>	<u>\$ 1,063,956,371</u>

The traditional credit cost method is used to determine the actuarial present value of accumulated benefits. The significant actuarial assumptions used in the valuation as of December 31, 2017 and 2016 were a) life expectancy of participants, b) retirement age (actual experience with all participants assumed to be retired by age 70), and c) discount rate (7.0%). The assumed life expectancy of participants at December 31, 2017 was based on the Retired Pensioners Mortality Table (RP-2014) with mortality improvements projected forward from 2006 using the Mortality Improvement Scale (MP-2017). The assumed life expectancy of participants at December 31, 2016 was based on the Retired Pensioners Mortality Table (RP-2014) with mortality improvements projected forward from 2006 using the Mortality Improvement Scale (MP-2016). The change of assumptions of \$(5,049,439) in 2017 is primarily due to the changes in mortality assumptions. The change of assumptions of \$7,395,252 in 2016 is primarily due to the changes in form of payment, mortality assumptions, and lump sum conversion rate. These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE G: FEDERAL INCOME TAX STATUS

The Plan is exempt from federal income taxes in accordance with provisions of the Internal Revenue Code; however, it is subject to federal tax for activities that constitute unrelated business income.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Internal Revenue Service (IRS) informed the Plan, by a letter dated November 15, 2017, that the Plan is designed in accordance with the requirements for tax qualification under Section 401(a) of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan's Administrator and the Plan's tax counsel represent that the Plan continues to be designed and operated in accordance with the applicable requirements of the IRC. Accordingly, no provision for income taxes is made in the accompanying financial statements.

NOTE H: RELATED PARTY TRANSACTIONS

At December 31, 2016, the Plan held Wells Fargo & Company common stock with a fair value of \$64,120,485. At December 31, 2017 and 2016, the Plan held a Wells Fargo Government Money Market Fund with a fair value of \$227,302 and \$157,074, respectively. Wells Fargo & Company was the custodian of the Plan's investments and, therefore, qualifies as a party in interest.

At December 31, 2017 and 2016, the Plan held Finial Holdings Senior Notes, 7.125%, due October 15, 2023 with a par value of \$36,766,000. The fair value of the notes at December 31, 2017 and 2016 was \$42,958,865 and \$42,587,161, respectively. Finial Holdings is an indirect wholly-owned subsidiary of Berkshire Hathaway Inc. (Berkshire), the indirect parent company of GEICO Corporation and, therefore, qualifies as a party in interest.

NOTE H: RELATED PARTY TRANSACTIONS - CONTINUED

At December 31, 2016, the Plan held CE Generation, LLC notes, 7.416%, due December 15, 2018 with a par value of \$2,114,550. The fair value of the notes at December 31, 2016 was \$1,977,104. CE Generation, LLC is a joint venture in which Berkshire has an indirect 50% ownership interest and, therefore, qualified as a party in interest.

Personnel and facilities of the Companies have been used to perform administrative functions for the Plan at no charge to the Plan.

NOTE I: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to life expectancy, retirement age, salary increases and investment return, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE J: RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
