INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of Windsor Door, Inc. Pension Plan for Salaried Employees (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purposes of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Part IV, Line 4i – Schedule of Assets Held for Investment Purposes at End of Year is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statement or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

9. Actuarial Cost Method:

Actuarial Value of Assets is equal to market value less 2/3 of the prior year's gain/(loss) less 1/3 of second prior year's gain/(loss). The final Actuarial Value of Assets will be adjusted to be no less than 90% or no more than 110% of market value of assets.

11. Fiscal Year:

January 1st to December 31st.

12. Rationale for Assumptions:

The IRS segment rates and mortality tables used to determine minimum funding and maximum deductible amounts are pursuant to IRS regulations. The selection of other actuarial assumptions is based on the actuary's best estimate of future expectations based on an examination of historical results compared to expectations, periodic experience studies, Society of Actuaries mortality studies, and any reasonably certain information about future expected plan changes.

13. Changes Since Last Year:

The interest rates used to determine the Target liability were pursuant to IRS regulations.

The mortality table was updated to the IRS 2017 Combined Static Mortality Table as required by IRS regulations.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

WINDSOR DOOR, INC. PENSION PLAN FOR SALARIED EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

NOTE A - DESCRIPTION OF PLAN

The following description of the Windsor Door, Inc. Pension Plan for Salaried Employees (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan, established January 1, 1998, is a noncontributory defined benefit pension plan covering substantially all salaried employees of Windsor Door, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective December 31, 2002 (the Freeze Date), the Plan was frozen. Employees hired on or after January 1, 2003 are not eligible to participate in the Plan. No credited service will accrue on or after January 1, 2003. Any employee who is a participant in the Plan as of the Freeze Date, and who has not already ceased accruing benefits under the Plan, will cease accruing benefits under the Plan as of the Freeze Date.

Eligibility and Vesting

As of the Freeze Date, all salaried employees were eligible to participate in the Plan as of January 1 and July 1, coinciding with or following the date the employee completes one year of eligible service, as defined by the Plan.

Participants become 100% vested upon completion of five years of service, attainment of normal retirement age, or termination of the Plan. If a participant terminates employment before completing five years of service, he/she forfeits the right to receive the benefits accumulated.

Pension Benefits

At normal retirement (age 65), participants are entitled to annual pension benefits equal to 0.8% of average annual earnings, as defined, plus 0.6% of average annual earnings in excess of covered compensation multiplied by the participant's years of services up to 35 years plus 0.5% of average annual earnings multiplied by the participant's years of service in excess of 35 years. A participant is entitled to reduced monthly pension benefits upon reaching age 55 and completing 10 years of service.

If the participant is married on the date the benefits are to begin, the participant will automatically receive a joint and 50% survivor annuity, unless otherwise elected. If the participant is single on the date the benefits are to begin, the participant will automatically receive a life annuity, unless otherwise elected.

Funding Policy

The Company contributes such annual amounts as are necessary to maintain the Plan on a sound actuarial basis. The Plan has met the minimum funding requirements of ERISA. The Company's present intention is to make annual contributions in amounts sufficient to fund the Plan's initial past service cost plus interest.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event of full or partial termination of the Plan, the accrued benefits of the participants become fully vested.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Plan Termination (Continued)

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on the priority of those benefits, the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (the PBGC), and the sufficiency at the time of the Plan's net assets to fund those benefits. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided at all.

Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Administrative Expenses

The Plan paid administrative expenses of \$6,812 and \$5,961 for the years ended December 31, 2017 and 2016, respectively.

Income Tax Status

The Plan obtained a determination letter on November 24, 2015, in which the Internal Revenue Service (IRS) stated that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is exempt.

Wasting Trust

Due to the sale of the Plan Sponsor in 2003, the decision was made to freeze the Plan because there were other benefit options offered by the buyer. Participants are no longer accruing benefits, but the Plan will remain in existence as long as necessary to pay already accrued benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of these financial statements. These policies conform to accounting principles generally accepted in the United States of America, and have been applied on a consistent basis.

Method of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, the actual results may differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term, and due to uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The Plan Administrator has evaluated all activity of the Plan through October 9, 2018, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements or notes.

NOTE C - FAIR VALUE

FASB ASC 820 establishes a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described in the table below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE C - FAIR VALUE (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Money market: Valued at amortized cost, which approximates fair value and includes investments in high quality, short-term money market instruments which are issued and payable in US dollars. (Level 1)

Mutual fund and exchange traded funds: Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. (Level 1)

Common stock: Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. (Level 1)

Stable value collective trust fund: A stable value fund, which is a collective trust that consists primarily of synthetic guaranteed investment contracts, which are a combination of a portfolio of individual assets and a wrap contract typically issued by a financial institution or insurance company that provides that participant transactions are executed at net asset value. Investments in collective trust funds are reported at net asset value, which is used as a practical expedient to estimate fair value in the statements of net assets available for benefits.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

2017	Total	(Level 1)	(Level 2)	(Level 3)
Money market	603,561	\$ 603,561	\$ -	\$ -

NOTE C - FAIR VALUE (CONTINUED)

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<u>2017</u>	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>

<u>2016</u>	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Stable value collective trust	\$ 155,029	\$ -	Immediate	None

NOTE D - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries or employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits are based on the monthly benefit amount designated by the Plan and in effect at the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment, and was determined by an independent actuary. The significant actuarial assumptions and method underlying the actuarial computations as of January 1, 2018 and 2017 are as follows:

Actuarial cost method – Projected Unit Credit Actuarial Cost Method

Mortality – SOA RP-2014 Adjusted to 2006 Total Dataset Mortality Table with Scale MP-2017

Assumed rate of return – 7.5% compounded annually for 2018 and 2017

Retirement age – Between ages 55 and 65, according to a set of retirement rates for active members; age 65 for terminated members with vested rights

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.
