PROFIT SHARING 401(k) PLAN

Notes to Financial Statements
December 31, 2017 and 2016

1. Plan Description

The following description of the Tanimura & Antle, Inc. Profit Sharing 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan covering substantially all employees of Tanimura & Antle, Inc., and affiliated entities (the Company) who are age 18 or older. Participants who have completed one year of service are eligible for the safe harbor contribution. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Participating employers who are covered by the provisions of the Plan are:

- Tanimura & Antle Fresh Foods.

b. Contributions

Employees who participate can make voluntary contributions of up to 50% of their annual compensation (subject to Internal Revenue Code limitations). The Company matches an amount equal to 100% of the first 3% of the participant's compensation contributed, plus 50% of salary deferrals up to the next 2% of plan compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions; however, catch-up contributions are not eligible for the company match. The Company may also make discretionary profit sharing contributions to all qualified employees as determined annually by the Board of Directors. As of December 31, 2017 and 2016, the Company owed the Plan $194,228 and $130,691 as matching employer contributions for the respective years.

c. Participant Accounts and Allocations

Each participant's account is credited with the participant's contributions and allocations of Plan earnings and an allocation of administrative expenses. Earnings on investments made by the Plan, including unrealized gains and losses applicable to fluctuations in the fair values of investments held, are allocated among the various participants in proportion to their respective account balances. Discretionary profit sharing Company contributions are allocated to participant accounts based on each participant's eligible compensation.

d. Vesting

Participants are immediately vested in their voluntary contributions and in Company contributions plus actual earnings thereon. Participants fully vest in Company discretionary profit sharing contributions after three years of credited service.

e. Payments of Benefits

Upon termination from service, participants will receive their benefits in one lump sum payment in cash. Benefits are determined on the basis of the vested portion of the participant's Company account plus the amount in the participant account. Vested account balances equal to $1,000 or less are distributed in a lump sum payment as soon as practicable after the date of termination or death. If the vested account balance is greater than $1,000 and less than $5,000 and the participant has failed to elect a lump sum payment or rollover, the vested account balance is distributed into an Individual Retirement Account.

f. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 8.5%, which are commensurate with the prime rate as published by the Wall Street Journal as of January 1 of the plan year in which the loan was issued. The term of the loan may not exceed five years unless it is for the purchase of a principal residence. The loans mature from 2017 to 2046. Principal and interest is paid ratably through payroll deductions.

g. Forfeited Accounts

Forfeited nonvested accounts at December 31, 2017 and 2016 totaled $153,387 and $ –0– , respectively, and are recorded in an interest bearing account. Forfeited amounts are applied to reduce administrative expenses of the Plan, if not paid by the Company, or are used to reduce future employer contributions. Forfeited amounts used to reduce employer contributions were $ –0– as of December 31, 2017 and 2016, respectively.

2. Significant Accounting Policies

a. Method of Accounting

The Plan uses the accrual method of accounting, which is in conformity with accounting principles generally accepted in the United States of America.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

c. Reclassified Amounts

Certain prior year amounts have been reclassified to conform with the current year presentation.

d. Valuation of Investments and Income Recognition

Investments are stated at fair value as reported by Reliance Trust Company, the Plan trustee. The fair values of the Plan's investments in mutual funds are based on the quoted market value of the underlying assets on the last business day of the Plan year.

Interest income is recognized as it is earned and dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments consists of the net change in unrealized appreciation during the year on investments held during the year.

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan's investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

e. Payment of Benefits

Payments are recorded when paid.

f. Administrative Expenses

Administrative expenses may be paid by the Plan unless paid by the Plan sponsor.

g. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

h. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 11, 2018, the date the financial statements were available to be issued.

3. Certified Information

The Plan funds are held by Reliance Trust Company, the Plan trustee. All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2017 and 2016 and interest, dividends, and net appreciation of fair value of investments for the years then ended was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Plan trustee.

The following table is a summary of the Plan's asset information as certified by the Plan trustee at December 31:

	2017	2016
Investments:		
Mutual funds	$ 73,409,389	$ 54,747,152
Guaranteed investment contract	4,454,414	11,653,681
Total investments	77,863,803	66,400,833
Notes receivable from participants	2,962,135	2,570,727
Total certified assets	$ 80,825,938	$ 68,971,560

The trustee/custodian also certified to the completeness and accuracy of $7,455,132 and $1,455,204 of net appreciation in fair value of investments and $2,755,997 and $3,314,867 of interest and dividends related to the aforementioned investments and participant loans for the years ended December 31, 2017 and 2016, respectively.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs of the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of an input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$73,409,389	$ –	$ –	$73,409,389
Total investments at fair value	$73,409,389	$ –	$ –	$73,409,389

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$54,747,152	$ –	$ –	$54,747,152
Total investments at fair value	$54,747,152	$ –	$ –	$54,747,152

5. Investments Contract With Massachusetts Mutual Life Insurance Company

In 2009, the Plan entered into a benefit-responsive investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. In determining the Net Assets Available for Benefits, the Fund is included in the accompanying financial statement at contract value, which represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract.

6. Party-In-Interest

During the years ended December 31, 2017 and 2016, plan investments were invested in funds held by Massachusetts Mutual Life Insurance Company, the recordkeeper, and therefore, certain transactions qualify as party-in-interest transactions. Fees paid by the Plan to parties-in-interest for services amount to $29,835 and $24,719 for the years ended December 31, 2017 and 2016, respectively.

7. Plan Termination

While the Company has not expressed any intent to terminate the Plan, it is free to do so at any time. In the event of termination, each participant automatically becomes vested to the extent of the balance in each participant's Company account.

8. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated May 23, 2013 that the Plan and related trust are designed in accordance with the applicable sections of the Code. The Company believes that the Plan is operated in accordance with and qualifies under, the applicable requirements of the Code and related state statutes, and is exempt from federal income and state franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risk and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, and market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

10. Reconciliation of Financial Statements to Form 5500
