Report on the Financial Statements

We have audited the accompanying financial statements of Lyle Machinery Co. 401(k) Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

**The Trustees of
Lyle Machinery Co. 401(k) Retirement Plan**

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Lyle Machinery Co. 401(k) Retirement Plan as of December 31, 2017 and 2016 and the changes in net assets available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, as listed in the table of contents, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

LYLE MACHINERY CO.
401(k) RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

(1) Description of Plan

The following description of Lyle Machinery Co. 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan adoption agreement for a more complete description of the Plan’s provisions. The Plan was most recently amended and restated effective September 1, 2015.

(a) General

The Plan is a defined contribution plan covering all employees of Lyle Machinery Co. (“the Company”) who have become eligible to participate and have met length of service and age requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

(b) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution, Plan earnings, and forfeitures of terminated participants' non-vested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their contributions and any employer contributions into the various investment options offered by the Plan consisting of various mutual funds or a stable value fund.

(c) Contributions

Participants may contribute a percentage of pretax annual compensation, up to the maximum percentage allowable under law. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or contribution plans. The Company may make discretionary matching contributions equal to a percentage of the participant’s elective contributions.

(d) Participants Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. Participants may not have more than one loan outstanding at a time and only one plan loan is allowed per plan year.

(1) Description of Plan (Continued)

(e) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant is 100% vested after six (6) years of credited service.

(f) Payment of Benefits

On termination of service, or prior providing certain circumstances are met, a participant may elect to receive an amount equal to the value of the participant's vested account balance in either a lump-sum payment, partial distributions, or installment payments in accordance with the provisions of the Plan.

(g) Forfeited Accounts

Forfeited accounts totaled \$2,981 and \$1,429 as of December 31, 2017 and 2016. Forfeitures result from non-vested matching contributions that relate to excess deferrals, excess contributions, or excess aggregate contributions and may also result from the distribution of a participant's entire vested benefit due to the participant's termination of service. All forfeitures which occur shall be applied to offset expenses and employer contributions as such obligations accrue.

(2) Summary of Significant Accounting Policies

A summary of the significant accounting policies of the Plan follows:

(a) Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, and accordingly reflect all significant receivables, payables and other liabilities.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they

were to initiate permitted transactions under the terms of the Plan.

(b) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest and dividend income, when present, are recorded when received. Any dividends received from the underlying funds are reinvested on behalf of the Plan. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Participant Loans Receivable

Loans receivable from participants are measured at their unpaid balance plus any accrued interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Administrative Expenses

The Plan's administrative expenses consist principally of investment management fees and professional fees.

(2) Summary of Significant Accounting Policies (Continued)

(f) Risk and Uncertainties

The Plan invests in a variety of investment funds. Investment funds in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(g) Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements requires the Plan Trustees to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(h) Impact of New Accounting Standards and Interpretations

In July, 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-12, “Simplifying Retirement Plan Financial Statement Disclosures.” This ASU was issued, in part to reduce cost and complexity while maintaining the usefulness of the financial statement disclosures. ASU 2015-12 amends ASC Topic 960, *Defined Benefit Plans*, Topic 962, *Defined Contribution Pension Plans*, and Topic 965, *Health and Welfare Benefit Plans*. This ASU is effective for the Plan year ended December 31, 2016. This ASU did not have an effect on the Plan’s net assets available for benefits.

(3) Fair Value Measurements

The Plan follows Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements* and related FASB staff positions. The ASC defines fair market value as the price that would be received from selling an asset or the cost to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value for assets and liabilities required to be recorded at fair value, the Plan considers the principal or the most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions and risk of nonperformance. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different

LYLE MACHINERY CO.
401(k) RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

(3) Fair Value Measurements (Continued)

methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

ASC 820 also establishes a fair market value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 establishes three levels of inputs that may be used to measure fair value.

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Level 1 investments consist of mutual funds that are valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Plan has no Level 2 or 3 investments as of December 31, 2017 or 2016.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair market hierarchy. Transfers between Level 1, 2 and 3 investments can occur when changes in economic conditions or model-based valuation techniques require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the

(3) Fair Value Measurements (Continued)

reporting period. There were no transfers between Levels 1, 2, or 3 for the years ended December 31, 2017 or 2016.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2017 and 2016:

December 31, 2017

Pooled separate accounts	\$ <u>2,658,399</u>	<u>-</u>	<u>2,658,399</u>

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
Pooled separate accounts	\$ <u>2,283,273</u>	<u>-</u>	<u>2,283,273</u>

(4) Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Principal Global Investors Trust Company ("Principal"). Principal maintains the contributions in the Morley Stable Value Fund. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made, less withdrawals and administrative expenses, plus interest credited. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment with liquidity valued daily at contract value. Principal believes that, within a retirement plan, contract value is an appropriate measurement for the plan's stable value fund for reporting and financial statement purposes, and that contract value approximates fair value.

The average yield and crediting interest rate was approximately 2.01% and 1.72% for the years ended 2017 and 2016, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rate is reviewed on a monthly basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with

LYLE MACHINERY CO.
401(k) RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

(4) Investment Contract with Insurance Company (Continued)

Principal. The Plan Trustees believe the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(6) Income Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service dated March 31, 2014. The Plan has been amended since receiving the favorable determination letter, but the Plan sponsor believes that the Plan continues to qualify and to operate as designed. Therefore, no provision for income taxes has been made in the financial statements.

The Plan follows Financial Accounting Standards Board accounting standards codification guidance that requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan's management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. In general, the returns have a three-year statute of limitations.

(7) Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments ("Fidelity"). Fidelity is a party-in-interest to the Plan as defined by ERISA Section 3(14). These transactions qualify as exempt party-in-interest transactions. Fees and commissions paid to Fidelity by the Plan amounted to \$14,984 for the year ended December 31, 2017.

LYLE MACHINERY CO.
401(k) RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

(7) Related Party Transactions (Continued)

Lyle Machinery Co., the plan sponsor, paid for certain administrative fees of the Plan that are not reimbursed by the Plan.

(8) Plan Nondiscrimination Testing

In conducting the Plan's 2017 Average Deferral Percentage Test ("ADP Test") and the Actual Contribution Percentage Test ("ACP Test") as required by the Internal Revenue Service, Plan administration determined that incorrect census data was used. The testing originally determined excess contributions to highly compensated employees ("HCE's") to be \$11,577 which was corrected by refunds to the HCE's. A qualified nonelective contribution ("QNEC") in the amount of \$19,967 for non-highly compensated employees (NHCE's) qualified the Plan for the ADP test. The Plan is in the process of reperforming all applicable testing using accurate census data. The results of the nondiscrimination testing had the correct information been used is unknown. The Plan and Lyle Machinery Co. will take any necessary actions needed to bring the Plan into compliance as determined by the corrected ADP and/or ACP tests.

(9) Date of Management Evaluation

Management has evaluated subsequent events through the date of the auditors' report which is the date financial statements were available to be issued. During the period from the end of the year and through this date, no circumstances occurred that required additional recognition or disclosure in these financial statements.

INDEPENDENT AUDITORS' REPORT

**The Trustees of
Lyle Machinery Co. 401(k) Retirement Plan:**

Report on the Financial Statements

We have audited the accompanying financial statements of Lyle Machinery Co. 401(k) Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

**The Trustees of
Lyle Machinery Co. 401(k) Retirement Plan**
Page 2

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Lyle Machinery Co. 401(k) Retirement Plan as of December 31, 2017 and 2016 and the changes in net assets available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, as listed in the table of contents, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

LYLE MACHINERY CO.
401(k) RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

(1) Description of Plan

The following description of Lyle Machinery Co. 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan adoption agreement for a more complete description of the Plan’s provisions. The Plan was most recently amended and restated effective September 1, 2015.

(a) General

The Plan is a defined contribution plan covering all employees of Lyle Machinery Co. (“the Company”) who have become eligible to participate and have met length of service and age requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

(b) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution, Plan earnings, and forfeitures of terminated participants' non-vested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their contributions and any employer contributions into the various investment options offered by the Plan consisting of various mutual funds or a stable value fund.

(c) Contributions

Participants may contribute a percentage of pretax annual compensation, up to the maximum percentage allowable under law. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or contribution plans. The Company may make discretionary matching contributions equal to a percentage of the participant’s elective contributions.

(d) Participants Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. Participants may not have more than one loan outstanding at a time and only one plan loan is allowed per plan year.

(1) Description of Plan (Continued)

(e) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant is 100% vested after six (6) years of credited service.

(f) Payment of Benefits

On termination of service, or prior providing certain circumstances are met, a participant may elect to receive an amount equal to the value of the participant's vested account balance in either a lump-sum payment, partial distributions, or installment payments in accordance with the provisions of the Plan.

(g) Forfeited Accounts

Forfeited accounts totaled \$2,981 and \$1,429 as of December 31, 2017 and 2016. Forfeitures result from non-vested matching contributions that relate to excess deferrals, excess contributions, or excess aggregate contributions and may also result from the distribution of a participant's entire vested benefit due to the participant's termination of service. All forfeitures which occur shall be applied to offset expenses and employer contributions as such obligations accrue.

(2) Summary of Significant Accounting Policies

A summary of the significant accounting policies of the Plan follows:

(a) Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, and accordingly reflect all significant receivables, payables and other liabilities.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they

were to initiate permitted transactions under the terms of the Plan.

(b) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest and dividend income, when present, are recorded when received. Any dividends received from the underlying funds are reinvested on behalf of the Plan. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Participant Loans Receivable

Loans receivable from participants are measured at their unpaid balance plus any accrued interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Administrative Expenses

The Plan's administrative expenses consist principally of investment management fees and professional fees.

(2) Summary of Significant Accounting Policies (Continued)

(f) Risk and Uncertainties

The Plan invests in a variety of investment funds. Investment funds in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(g) Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements requires the Plan Trustees to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(h) Impact of New Accounting Standards and Interpretations

In July, 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-12, “Simplifying Retirement Plan Financial Statement Disclosures.” This ASU was issued, in part to reduce cost and complexity while maintaining the usefulness of the financial statement disclosures. ASU 2015-12 amends ASC Topic 960, *Defined Benefit Plans*, Topic 962, *Defined Contribution Pension Plans*, and Topic 965, *Health and Welfare Benefit Plans*. This ASU is effective for the Plan year ended December 31, 2016. This ASU did not have an effect on the Plan’s net assets available for benefits.

(3) Fair Value Measurements

The Plan follows Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements* and related FASB staff positions. The ASC defines fair market value as the price that would be received from selling an asset or the cost to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value for assets and liabilities required to be recorded at fair value, the Plan considers the principal or the most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions and risk of nonperformance. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different

(3) Fair Value Measurements (Continued)

methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

ASC 820 also establishes a fair market value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 establishes three levels of inputs that may be used to measure fair value.

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Level 1 investments consist of mutual funds that are valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Plan has no Level 2 or 3 investments as of December 31, 2017 or 2016.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair market hierarchy. Transfers between Level 1, 2 and 3 investments can occur when changes in economic conditions or model-based valuation techniques require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the

reporting period. There were no transfers between Levels 1, 2, or 3 for the years ended December 31, 2017 or 2016.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2017 and 2016:

Pooled separate accounts	\$ <u>2,283,273</u>	<u>-</u>	<u>2,283,273</u>

(4) Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Principal Global Investors Trust Company ("Principal"). Principal maintains the contributions in the Morley Stable Value Fund. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made, less withdrawals and administrative expenses, plus interest credited. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment with liquidity valued daily at contract value. Principal believes that, within a retirement plan, contract value is an appropriate measurement for the plan's stable value fund for reporting and financial statement purposes, and that contract value approximates fair value.

The average yield and crediting interest rate was approximately 2.01% and 1.72% for the years ended 2017 and 2016, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rate is reviewed on a monthly basis for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with

Principal. The Plan Trustees believe the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(6) Income Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service dated March 31, 2014. The Plan has been amended since receiving the favorable determination letter, but the Plan sponsor believes that the Plan continues to qualify and to operate as designed. Therefore, no provision for income taxes has been made in the financial statements.

The Plan follows Financial Accounting Standards Board accounting standards codification guidance that requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan's management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. In general, the returns have a three-year statute of limitations.

(7) Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Investments ("Fidelity"). Fidelity is a party-in-interest to the Plan as defined by ERISA Section 3(14). These transactions qualify as exempt party-in-interest transactions. Fees and commissions paid to Fidelity by the Plan amounted to \$14,984 for the year ended December 31, 2017.

(7) Related Party Transactions (Continued)

Lyle Machinery Co., the plan sponsor, paid for certain administrative fees of the Plan that are not reimbursed by the Plan.

(8) Plan Nondiscrimination Testing

In conducting the Plan's 2017 Average Deferral Percentage Test ("ADP Test") and the Actual Contribution Percentage Test ("ACP Test") as required by the Internal Revenue Service, Plan administration determined that incorrect census data was used. The testing originally determined excess contributions to highly compensated employees ("HCE's") to be \$11,577 which was corrected by refunds to the HCE's. A qualified nonelective contribution ("QNEC") in the amount of \$19,967 for non-highly compensated employees (NHCE's) qualified the Plan for the ADP test. The Plan is in the process of reperforming all applicable testing using accurate census data. The results of the nondiscrimination testing had the correct information been used is unknown. The Plan and Lyle Machinery Co. will take any necessary actions needed to bring the Plan into compliance as determined by the corrected ADP and/or ACP tests.

(9) Date of Management Evaluation

Management has evaluated subsequent events through the date of the auditors' report which is the date financial statements were available to be issued. During the period from the end of the year and through this date, no circumstances occurred that required additional recognition or disclosure in these financial statements.
