1. Description of Plan

General

The following description of the Bluecore, Inc Retirement Trust (the "Plan") of Bluecore, Inc (the "Company") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan, established on January 1, 2016 in accordance with the provisions of Internal Revenue Code ("IRC") Section 401. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration of the Plan

The Company is the Plan administrator and is responsible for providing the participants and their beneficiaries with information about their rights and benefits under the Plan. Matrix Trust Company, (the "Trustee"), holds the Plan's investments and executes investment transactions.

Eligibility

All employees of the Company, except for union employees, nonresident aliens, and independent contractors, are eligible to participate in the Plan immediately upon hire and without any age restriction.

Contributions

Participants are allowed to make pre-tax contributions up to the limitation contained in the Internal Revenue Code ("IRC") in effect for each taxable year. In 2017, participants were permitted to contribute up to a maximum of $18,000 with an additional $6,000 catch-up contribution for employees over 50 years old.

The Company has the option to contribute discretionary profit sharing contributions to participants that are employed on the last day of the Plan year. For the year ended December 31, 2017, the Company elected not to fund a discretionary contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution, Company contributions, if any, the Plan's earnings (losses), participant withdrawals, and administration expenses, if applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon as well as any employer profit sharing contributions.

Notes Receivable from Participants

Participants are allowed to borrow from their accounts an amount equal to no less than $1,000 and no greater than $50,000 or 50% of the participant's vested balance. The loans bear interest, and principal and interest are repaid ratably through payroll deductions. The loans generally bear interest at the prime rate at the time of the loan plus two percentage points. General purpose loans must be repaid within five years, and loans used to purchase a primary residence may be paid over a longer period of time subject to the provisions of the Internal Revenue Code. There were no loans outstanding at December 31, 2017 and 2016.

Investment Options
Each participant directs participant and discretionary profit sharing contributions to any of the investment options offered by the Plan. Participants may change their investment elections amongst these options at any time.

Payment of Benefits
In the event of retirement, disability or termination of employment, participants may elect a lump-sum or partial distribution equal to the value of the participant's vested balance, or to transfer their vested benefits to another qualified plan or to an individual retirement account. Participants may also request in-service distributions upon attaining age 59 ½. Vested balances under $5,000 may be automatically distributed upon a participant's severance of employment.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan have been prepared in compliance with the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates
The preparation of financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein at the date of the financial statements and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. See Note 4, Fair Value Measurements for further disclosure.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year. There were no significant amounts of investment income due from the Plan at either December 31, 2017 or 2016.

Cash and Cash Equivalents
The Plan considers all cash, money market funds, and investments with a maturity of three months or less to be cash equivalents.

Notes Receivable from Participants
Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. No allowance for losses is deemed necessary by the Plan's management as principal and interest are repaid through payroll deductions. Upon default, these receivables are deemed to be distributed to the participant.

Payment of Benefits
Benefit payments are recorded when paid.

Administrative Expenses
Plan expenses can be paid directly by the Company or by the Plan. Administrative expense paid by the Plan were $6,011 for the year ended December 31, 2017. Certain investment related expenses are netted in net appreciation and are not readily determinable.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

3. Information Certified by Trustee (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Matrix Trust Company, the Trustee of the Plan has certified the completeness and accuracy of all investments and related investment activity in the accompanying statement of net assets available for benefits as of December 31, 2017, the statement of changes in net assets available for benefits for the year ended December 31, 2017 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2017.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year). In addition, based on information provided and certified by the Trustee, there are no fixed income obligations, leases or debt instruments in default or deemed uncollectable, as defined by ERISA for the year ended December 31, 2017.

4. Fair Value Measurements

Financial Accounting Standards Board ("FASB") guidance relating to fair value measurements establishes a framework for measuring fair value and clarifies that fair value is an estimate of the exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (i.e., the exit price at the measurement date). That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy are described below:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Money market fund: Valued at the closing price as reported on the active market on which the fund is traded as of the last trading day of the Plan year. As such, the fund is valued as level 1 within the fair value hierarchy.

Registered investment companies: Registered investment companies are mutual fund investments registered with the Securities and Exchange Commission and are valued at the Net Asset Value ("NAV") as reported by the fund. These funds are required to publish their NAV daily and to transact at that price. The NAV is based on the value of the underlying assets owned by the fund minus its liabilities and then divided by the number of shares outstanding. The registered investment company investments held by the Plan are deemed to be actively traded and therefore are classified as Level 1 investments.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of:

Investments at Fair Value as of December 31, 2017

	Level 1	Level 2	Level 3	Total
Money market fund	$ 35,848	$ -	$ -	$ 35,848
Registered investment companies	1,478,074	-	-	1,478,074
Total investments, at fair value	$ 1,513,922	$ -	$ -	$ 1,513,922

Investments at Fair Value as of December 31, 2016

	Level 1	Level 2	Level 3	Total
Money market fund	$ 5,024	$ -	$ -	$ 5,024
Registered investment companies	821,180	-	-	821,180
Total investments, at fair value	$ 826,204	$ -	$ -	$ 826,204

5. Parties-in-Interest Transactions

Certain fees and expenses of the Plan are paid by the Company. Additionally, certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Tax Status

The Plan adopted a prototype profit sharing plan which obtained its latest opinion letter on March 31, 2014 in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Furthermore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. In addition, there have been no tax related interest or penalties for periods presented in these financial statements.

7. Subsequent Events

The Plan administrator has evaluated subsequent events occurring after December 31, 2017 through October 12, 2018, the date the financial statements were available to be issued. Based on this evaluation, the Plan administrator has determined that no subsequent events require recognition or disclosure in these financial statements.
