October 15, 2018

Mr. Gregory Warriner, Controller
Tribal Manufacturing, Inc.
450 Leggit Road
Marshall, Michigan 49608

We have conducted a DOL limited-scope audit of the financial statements of *Tribal Manufacturing, Inc. 401(k) Plan* (the "Plan") as of and for the year ended December 31, 2017, and have issued our report thereon dated October 15, 2018. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated June 4, 2018, our responsibility, as described by professional standards, is to conduct our audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS) except that, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and as instructed by Plan management, we did not perform any auditing procedures with respect to information prepared and certified by John Hancock Life Insurance Company, the custodian of the Plan, in accordance with DOL Regulation 2520.103-5, other than comparing the information with the related information included in the financial statements and supplemental schedules. Because of the significance of the information that we did not audit, we did not express an opinion on the financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified to by the John Hancock Life Insurance Company, were audited by us in accordance with U.S. GAAS, and were subjected to tests of the Plan's accounting records and other procedures we considered necessary to enable us to express an opinion that they are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Our audit of the financial statements does not relieve you or management of its respective responsibilities.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We have provided our comments regarding significant deficiencies noted during our audit in an attachment to this letter.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you verbally and in our engagement letter and in our Professional Services Plan.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, and our firm have complied with all relevant ethical requirements regarding independence.

Qualitative Aspects of the Plan's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the Plan is included in Note 1 to the Plan's financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during the year. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the Plan's financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the Plan's financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments. The most sensitive accounting estimates affecting the financial statements are management's estimate of the valuation of investment securities recorded at fair value.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in interacting with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the Plan's financial statements as a whole. Management has corrected all identified misstatements.

In addition, professional standards require us to communicate to you all material, corrected misstatements that were brought to the attention of management as a result of our audit procedures. There were no material misstatements detected as a result of our audit procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the Plan's financial statements or the auditors' report. No such disagreements arose during the course of the audit.

Representations Requested from Management

We have requested certain written representations from management, which are included in the attached letter dated October 15, 2018.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the Plan, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, business conditions affecting the Plan, and business plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the Plan's auditors.

Other Information in Documents Containing Audited Financial Statements

Pursuant to professional standards, our responsibility as auditors for other information in documents containing the Plan's audited financial statements does not extend beyond the financial information identified in the audit report, and we are not required to perform any procedures to corroborate such other information. In accordance with professional standards, we have read the Form 5500 and did not become aware of any instances where such information, or the manner of its presentation, was inconsistent with the financial statements.

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the Plan's financial statements.

This report is intended solely for the information and use of those charged with governance, management, and the Plan's governing regulatory agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Attachment A - Consideration of Internal Control Over Financial Reporting

For the December 31, 2017 Audit

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of *Tribal Manufacturing, Inc. 401(k) Plan* (the "Plan") as of and for the year ended December 31, 2017, we considered the Plan's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Plan's financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Our audit did not include all of the procedures required by U.S. generally accepted auditing standards and did not include a consideration of internal control relating to the information summarized in Note 2 to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. As described below, we identified deficiencies that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in internal control to be significant deficiencies.

Reconciliation Process

We noted Plan Management is not performing reconciliations of any kind related to distributions (1099 reconciliations), loans (TPA records to the client records), and contributions (TPA records to the client records) except for year-end tie-out at our request. Normal payroll runs are tied out individually to remittance advice, mitigating risks on the contribution side, however we noted that there is a lack of documentation dealing with this payroll reconciliation as there is no evidence of preparation and review. We would recommend that Plan Management begin performing these reconciliations as well as documented evidence of preparation and review.

Attachment A - Consideration of Internal Control Over Financial Reporting

For the December 31, 2017 Audit

Payroll Review

We noted that Plan Management has no formal review process of the completed payroll and no formal signature by the Controller of his review. We would recommend that Management develops a formal review process related to payroll and that this review process is documented and tracked throughout the year.

Timely Remittance of Participant Contributions

Department of Labor (DOL) regulations require that an employer segregate employee contributions from its general assets at the earliest date on which the contributions can reasonably be segregated from corporate assets. Although the DOL has not defined what constitutes “the earliest date on which the contributions can reasonably be segregated from corporate assets,” in plan audits conducted by governmental staff, the DOL is generally holding employers accountable to remit employee contributions in the same time frame that it takes to remit payroll taxes.

The DOL requires that plans contribute an additional 8% “lost opportunity cost” to participants’ accounts related to remittances that are not made within the prescribed period. The IRS may also assess penalties and interest on such remittances. The DOL’s Voluntary Fiduciary Correction Program allows employers to voluntarily report instances such as late deposits and take corrective action without becoming the subject of an enforcement action.

Based on our knowledge of the Plan sponsor’s remittance procedures to the Plan during 2017, we recommend that Plan management follow the revised guidelines of remitting employee contributions in order to avoid potential penalties and interest on remittances if such transactions were to come under regulatory review.

For the December 31, 2017 Audit

Insert appropriate pronouncements - see “Recently Implemented and Upcoming Pronouncements” on MyRehmann.

Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*

These amendments relate primarily to the reporting by an employee benefit plan (a plan) for its interest in a master trust. A master trust is a trust for which a regulated financial institution (bank, trust company, or similar financial institution that is regulated, supervised, and subject to periodic examination by a state or federal agency) serves as a trustee or custodian and in which assets of more than one plan sponsored by a single employer or by a group of employers under common control are held.

The amendments are effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. The amendments should be applied retrospectively to each period for which financial statements are presented. The amendments apply to reporting entities within the scope of Topic 960, *Plan Accounting - Defined Benefit Pension Plans*, Topic 962, *Plan Accounting - Defined Contribution Pension Plans*, or Topic 965, *Plan Accounting - Health and Welfare Benefit Plans*.

Under Topic 960, investments in master trusts are presented in a single line item in the statement of net assets available for benefits. Similar guidance is not provided in Topic 962 or 965, which has resulted in diversity in practice. For each master trust in which a plan holds an interest, the amendments require a plan's interest in that master trust and any change in that interest to be presented in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively.

Topics 960 and 962 require plans to disclose their percentage interest in the master trust and a list of the investments held by the master trust, presented by general type, within the plan's financial statements. The amendments remove the requirement to disclose the percentage interest in the master trust for plans with divided interests and require that all plans disclose the dollar amount of their interest in each of those general types of investments.

Current U.S. GAAP does not require disclosure by plans of the master trust's other assets and liabilities. Examples of those balances include amounts due from brokers for securities sold, amounts due to brokers for securities purchased, accrued interest and dividends, and accrued expenses. The amendments require all plans to disclose: (a) their master trust's other asset and liability balances; and (b) the dollar amount of the plan's interest in each of those balances.

Lastly, investment disclosures (e.g., those required by Topics 815 and 820) relating to 401(h) account assets are generally provided in both the defined benefit pension plan financial statements and the health and welfare benefit plan financial statements. Stakeholders noted that the disclosures are redundant. The amendments remove that redundancy and do not require that the investment disclosures relating to the 401(h) account assets be provided in the health and welfare benefit plan's financial statements. The amendments will require the health and welfare benefit plan to disclose the name of the defined benefit pension plan in which those investment disclosures are provided, so that participants can easily access those statements for information about the 401(h) account assets, if needed.

Attachment B - Selected Accounting and Compliance Considerations

For the December 31, 2017 Audit

New Rules for Hardship Withdrawals

The Bipartisan Budget Act passed in early 2018 relaxed some of the rules governing hardship withdrawals from 401(k) and similar plans. While not all plans offer hardship withdrawals, the ones that do will be required to comply with these new rules for plan years beginning in 2019. Following is a summary of the current and future rules impacting hardship withdrawals:

Hardship Distributions Under Current Law

401(k) plans may provide that an employee can receive a distribution of elective employee contributions (including earnings) from the plan on account of a hardship during employment. Generally, a plan may make a hardship distribution only under the following conditions:

- the plan expressly permits hardship distributions;
- distributions are made because of an “immediate and heavy” financial need of the employee; and
- distributions are made only in an amount necessary to meet that financial need.

Under the 401(k) regulations, an employee who receives a hardship distribution cannot make elective contributions or other employee contributions (pre-tax, after-tax, or Roth) to the plan (or any other plan maintained by the employer) for at least six months after receipt of the hardship distribution. Employees are also generally required to take available plan loans before they are eligible to receive a hardship distribution.

New Rules

For plan years beginning after December 31, 2018 (2019 plan calendar year ends), the following changes will take effect:

1. Participants will no longer be required to exhaust plan loan options first.
2. Withdrawal amounts can also come from the following amounts:
 - contributions to a profit-sharing (including a 401(k) plan) or stock bonus plan that has a cash-or-deferred arrangement;
 - qualified nonelective contributions (vested employer contributions such as those made to a safe harbor plan);
 - qualified matching contributions (vested employer matching contributions such as those made to a safe harbor plan); and
 - earnings on the foregoing contributions.
3. Participants will no longer be barred from contributing to the plan for six months.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm that, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves as of October 15, 2018:

TRIBAL MANUFACTURING, INC. 401(k) PLAN

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of *Tribal Manufacturing, Inc. 401k Plan* (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

Description of the Plan

General

The Plan is a defined contribution plan covering all employees of Tribal Manufacturing, Inc. and Affiliates (the “Company”) who have worked at least 90 days or 1,000 hours in a Plan year and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Each year participants may contribute a percentage of pretax annual compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company contributes 100% of each participants’ contributions, up to a maximum of 4% of their eligible compensation. The Company, at its discretion, may make an additional profit sharing contribution to the Plan at an amount equal to a percentage of each participant’s eligible compensation. No such profit sharing contributions were made in 2017 or 2016. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers pooled separate accounts as investment options for participants. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company’s matching contributions and an allocation of (a) the Company’s profit sharing contribution (when made), (b) Plan earnings, and (c) forfeitures of terminated participants’ nonvested accounts and charged with an allocation of administrative expenses, if any. Participants who initiate a loan or benefit payment are charged a fee for that transaction. Allocations are based on participant compensation, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their 401(k) voluntary contributions plus actual earnings thereon. Vesting in the Company matching and profit sharing contributions (when made) based on years of continuous service. A participant is 100% vested after three years of credited service, with no vesting in prior years.

TRIBAL MANUFACTURING, INC. 401(k) PLAN

Notes to Financial Statements

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The resulting notes receivable are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 5.25%, which are commensurate with local prevailing rates at the time the notes are issued, as determined quarterly by the Plan Administrator. Principal and interest is collected ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, as defined by the Plan agreement. For termination of service or for other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution. If the participant's account balance is \$1,000 or less, payment will be made in an immediate lump-sum without the participant's consent. If the account balance is greater than \$1,000 but less than \$5,000, payment will be made to an individual retirement account at the custodian, or such other provider as the Company designates in accordance with Department of Labor ("DOL") guidelines, unless the participant requests a different disposition of his or her account balance within the applicable election period.

In-service withdrawals of vested balances may be elected by participants who have reached 59 ½ years of age. The Plan also permits withdrawals of active participants' elective contributions and rollover contributions, only in amounts necessary to satisfy financial hardship as defined by the Plan agreement.

Forfeited Accounts

Forfeited nonvested accounts are allocated to Plan expenses or are used to reduce future employer cash contributions with any remaining amounts allocated among the accounts of participants. Approximately \$13,248 of forfeitures were allocated to pay Plan fees during 2017. At December 31, 2017 and 2016, forfeited nonvested accounts totaled \$11,535 and \$2,829, respectively.

Administrative Expenses

The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain administrative expenses, including an allocation of salaries related to Plan administration, and audit and legal costs, are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that are paid directly by the Company are excluded from these financial statements. Fees for custodial and record keeping services are paid by the Plan. Participants are charged directly for loan fees and fees related to certain distribution types.

Notes to Financial Statements

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected as a reduction of net appreciation in the aggregate fair value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the Plan Administrator deems the note receivable to be in default, the participant note receivable is reduced and a benefit payment is recorded.

Contributions

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become obligations of the Company.

Benefits Paid to Participants

Benefit payments to participants are recorded when paid.

TRIBAL MANUFACTURING, INC. 401(k) PLAN

Notes to Financial Statements

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2017, the most recent statement of net assets available for benefits presented herein, through October 15, 2018, the date these financial statements were available to be issued. No such significant events or transactions were identified, with the exception of the matter disclosed in Note 7.

2. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company ("John Hancock") as custodian, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statement of net assets available for benefits as of December 31, 2017, (2) the December 31, 2017, schedule of assets (held at end of year), and (3) the related investment activity reflected in the statement of changes in net assets available for benefits during 2017. John Hancock has also certified the completeness and accuracy of notes receivable from participants and the related interest income as of and for the year ended December 31, 2017.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Pooled separate accounts are valued using the net asset value ("NAV") of units held by the Plan at year-end as provided by John Hancock and are not assigned a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the account net of investment management fees. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

Investment Type	Fair Value		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
	2017	2016			
Pooled separate accounts	\$ 1,745,495	\$ 1,314,642	\$ -	Daily	Daily

TRIBAL MANUFACTURING, INC. 401(k) PLAN

Notes to Financial Statements

4. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by John Hancock. John Hancock is the custodian of the Plan and, therefore, transactions related to these investments qualify as party-in-interest. Fees paid by the Plan for the custodial and record keeping services amounted to \$22,619 for 2017. Fees paid by the Plan for investment management services are included in net appreciation in fair value of investments.

5. INCOME TAX STATUS

The Company adopted the KDP Retirement Plan Services Inc. Prototype Non-standardized Cash or Deferred Profit Sharing plan document. The prototype plan document has received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2014.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2017, the Company was untimely in remitting certain participant contributions in the amount of \$23,178. Late remittances of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Company remitted the delinquent participant contributions, as well as the related Company matching contributions of \$19,407 in 2017 and 2018. In addition, the Company will reimburse the Plan for any lost earnings in 2018.

TRIBAL MANUFACTURING, INC. 401(k) PLAN

Notes to Financial Statements

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities in the form of pooled separate accounts. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
