Southeastern Printing Company, Inc. 401(k) Retirement Plan

Notes to Financial Statements December 31, 2017 and 2016

1. Plan Description

The following description of the Southeastern Printing Company, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Southeastern Printing Company, Inc. 401(k) Retirement Plan (the "Plan") was originally established effective January 1, 1997 by Southeastern Printing Company, Inc. The Plan was amended and restated effective May 30, 2012, to adopt multiple employer plan provisions and to change the service eligibility to a period of 90 days. Fort Dearborn Company became a participating employer June 2015 and stopped participating in the Plan effective January 2016. In June 2016, Southeastern Printing Company, Inc. bought Franklin Dodd Communications Print, LLC, which became a participating employer at that time. The Plan qualifies as a profit sharing plan permitting discretionary employer contributions, but not requiring that such contributions be made from employer profits, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and Sections 401 (a), 401 (k) and 501(a) of the Internal Revenue Code. The Plan is considered a multiple employer plan for the benefit of employees of the following companies within a controlled group: Southeastern Printing Company, Inc. and Franklin Dodd Communications Print, LLC. The Plan is a defined contribution plan covering all employees who have completed 90 days of service and are at least 21 years of age.

Contributions

Plan participants may elect participation in the Plan on a quarterly basis and each year contribute up to the maximum amount allowed by law of pretax annual compensation, as defined in the Plan agreement, as permitted by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a Target Retirement Fund based on the participant's age and projected retirement date until changed by the participant. Participants may also make a rollover transfer to the Plan from a 401 (k) qualified retirement plan which may include after tax amounts, a 403(b) tax-deferred annuity, a governmental 457(b) deferred compensation plan, and/or taxable IRA. Effective January 2016, the Company implemented a safe harbor employer match of 100% on deferrals up to 3% and 50% on deferrals between 3% and 5%. The Company may make profit sharing contributions to the Plan, at its discretion, at an amount equal to a percentage of the participants' eligible compensation. No such contributions were made in 2017 or 2016. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers twenty-four mutual funds and a common collective trust as investment options for participants. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Notes to Financial Statements

December 31, 2017 and 2016

1. Plan Description (cont.)

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contributions and an allocation of (a) the Company's discretionary profit sharing contributions (when made), (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Participants who initiate a loan or benefit payment are charged a fee for that transaction. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their 401 (k) voluntary contributions plus actual earnings thereon. Vesting in the Company matching and profit sharing contributions is based on years of continuous service. A participant is 100% vested after five years of credited service, with no vesting in prior years.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes receivable are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 4.50%, which are commensurate with local prevailing rates at the time the notes are issued, as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installment payments, as defined by the Plan agreement. Participants with vested benefits less than \$5,000 (i.e., small accounts) are required by the Employer to be removed from the Plan and a lump sum payment is processed as soon as administratively feasible. For termination of service or for other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also permits withdrawals of active participants' elective contributions and rollover contributions only in amounts necessary to satisfy financial hardship as defined by the Plan agreement.

1. Plan Description (cont.)

Forfeited Accounts

Forfeited nonvested accounts are first allocated to Plan expenses and then used to reduce future employer cash contributions. Plan expenses were reduced by \$0 and \$226 from forfeited nonvested accounts during 2017 and 2016, respectively. At December 31, 2017 and 2016, forfeited nonvested accounts totaled \$0.

Administrative Expenses

The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain administrative expenses, including an allocation of salaries related to Plan administration, accounting and legal costs, are paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that are paid directly by the Company are excluded from these financial statements. Fees for custodial and record keeping services are paid by the Plan. Participants are charged directly for loan fees and fees related to certain distribution types.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates and these differences could be material.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in aggregate fair value includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (cont.)

Management fees and operating expenses charged to the Plan for investments in mutual funds and the common collective trust funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected as a reduction of net appreciation or an addition to net depreciation in the fair value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the note receivable to be in default, the participant note receivable is reduced and a benefit payment is recorded.

Contributions

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become obligations of the Company.

Payment of Benefits

Benefit payments to participants are recorded when paid.

3. Concentrations of Credit Risk

The following presents investments that represent 10% or more of the Plan's net assets available for benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liabilities has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds

Shares held in mutual funds are valued at quoted market prices that represent the NAV of shares held by the Plan at year end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by the fund, less its liabilities, then divided by the number of shares outstanding. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

4. Fair Value Measurements (cont.)

Stable Value Common Collective Trust

The stable value fund is composed primarily of fully benefit-responsive investment contracts, is valued at the NAV of units of the collective trust, is classified as "other" and is not assigned a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require a 12 month notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31:

Investment Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total

4. Fair Value Measurements (cont.)

- (1) Certain investments are measured at NAV per share (or its equivalent) practical expedient and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

<u>Investment Type</u>	2017			
	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Reliance Trust Company Stable Value Fund Collective Investment Trust	\$ 293,263	\$ -	Daily	Daily

5. Related Party Transactions

Fidelity Investments is the custodian as defined by the Plan and Newport Group, Inc. acts as the Plan's record keeper and assists with Plan administration and, therefore, transactions with these service providers qualify as parties-in-interest. Administrative fees paid by the Plan to these parties totaled \$61,428 and \$45,441 for 2017 and 2016, respectively.

Notes to Financial Statements

6. Income Tax Status

The Company's Board of Directors adopted the Volume Submitter Profit Sharing Plan with CODA plan document. The Plan document has received an opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the written form of the underlying prototype plan document is qualified under Section 401 (a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401 (a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan's Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

8. Delinquent Participant Contributions

During 2016, the Company was untimely in remitting certain participant contributions in the amount of \$3,000 (reflected in participant contributions receivable in the 2016 statement of net assets available for benefits). Late remittances of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The delinquent participant contributions, as well as the related lost earnings for 2016 (reflected in employer contributions receivable in the 2016 statement of net assets available for benefits), were remitted by the Company in 2017.

During certain payroll periods in the 2017 Plan year, employee withholdings totaling \$21,776 were not remitted timely to the Plan by the Company. Plan management is in the process of correcting these errors and will remit to the Plan any lost earnings related to these errors.

9. Risks and Uncertainties

The Plan invests in mutual funds and a common collective trust with the underlying assets consisting of any combination of stocks, bonds, fixed income securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

10. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits reported in these financial statements to the amounts reported on Schedule H of Form 5500 at December 31:

	2017	2016
Net assets available for benefit reported in these financial statements	\$ 8,306,687	\$ 6,496,118

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the amounts reported on Schedule H of Form 5500 for the years ended December 31:

	2017
Net increase in net assets available for benefits reported in these financial statements	\$ 1,810,569

11. Terminated Participants

When participants terminate employment with the plan sponsor, they may choose to leave their investments in the Plan, as long as their balance is greater than \$5,000. As of December 31, 2017 and 2016, there were 21 and 14 terminated participants, respectively, who had not withdrawn their account balances totaling \$480,540 and \$405,167, respectively.

12. Subsequent Events

Subsequent events have been evaluated through the date of the independent auditors' report. Management did not identify any events requiring recording or disclosure to the financial statements as of and for the year ended December 31, 2017, except as described below.

On March 25, 2018, the Plan sponsor amended the Plan to eliminate safe harbor provisions for all employees except those union employees who are members of GCC/IBT Local 197-M of the Graphics Communications Conference/International Brotherhood Teamsters ("union"). As a result, Plan participants other than those in the union will no longer receive Company matching contributions.
