RR DONNELLEY SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 and 2016

NOTE 1 – PLAN DESCRIPTION

The following description of the RR Donnelley Savings Plan (the “Plan”) is provided for general information purposes only and covers current Plan provisions, except as specifically noted otherwise. For more complete information, refer to the Summary Plan Description and the Plan document, including any modifications and amendments thereto. The Plan is a defined contribution plan sponsored by R. R. Donnelley & Sons Company (the “Company”) designed to allow eligible employees to save for retirement on a tax-advantaged basis. The Plan is intended to qualify as a cash or deferred arrangement under Section 401(k) of the Internal Revenue Code of 1986, as amended (the “Code”), and is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Administration

The Plan is administered by the Plan’s Benefits Committee and its delegates. The Plan’s assets are held in the RR Donnelley Savings Plan Trust (the “Trust”). The Northern Trust Company (“Trustee”) serves as the trustee of the Trust and custodian of the Plan’s assets. Great West Financial, operating under the brand name Empower Retirement, is the Plan’s recordkeeper.

Eligibility

With certain limited exceptions, all employees of the Company and its U.S. subsidiaries are eligible to become Plan members (“participants”). Elections to participate in the Plan are effective as soon as administratively practicable. The Plan has automatic enrollment provisions pursuant to which eligible employees are automatically enrolled 30 days after being hired, in each case unless the employee opts out of automatic enrollment or elects to be enrolled earlier. Individuals who are automatically enrolled make contributions on a before-tax basis equal to 3% of eligible compensation.

Contributions

Eligible employees may elect to make before-tax, after-tax and Roth 401(k) contributions under the Plan. Subject to certain limitations, the contribution election percentages allowed are from 1%-85% of eligible compensation for before-tax, after-tax and Roth 401(k) contributions, and the total of all elections cannot exceed 85% of eligible compensation. Participants who have attained age 50 by the end of the Plan year are eligible to make catch-up contributions. Participants can change contribution elections at any time.

The Plan permits the Company to provide discretionary matching contributions. The Company did not make any discretionary matching contributions for the 2017 Plan year. Furthermore, from time to time, the Company makes matching contributions in connection with a corporate transaction, such as an acquisition. These matching contributions are generally made for only a limited time period.

Employees may also roll over amounts to the Plan that were distributed from certain types of retirement plans and accounts.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and the Company’s contributions, if any, and allocations of Plan earnings. Participant accounts are charged with an allocation of general administrative expenses and with participant specific transaction charges. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting and Forfeited Accounts

Generally, participants are 100% vested in their accounts, except that employer contributions, such as matching contributions, (and earnings thereon) are generally subject to a three-year cliff vesting schedule, although the vesting schedule may vary with respect to matching contributions made in connection with a corporate transaction.

At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$30,215 and \$434, respectively. These accounts will be used to reduce future employer contributions or administrative expenses. During 2017, no forfeitures were used to reduce employer contributions or administrative expenses.

RR DONNELLEY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017 and 2016

Notes Receivable from Participants

Subject to statutory and regulatory requirements and Plan rules, participants are generally permitted to borrow up to 50% of certain portions of their vested account balance. The minimum loan amount is \$1,000. The loans bear interest at a rate equal to 1% over the prime rate on the first business day of the month in which the loan is initiated, as published in the Wall Street Journal. Principal and interest is paid ratably through payroll deductions.

Benefit Payments and Withdrawals

A participant's account balance may be distributed in various forms and at various times depending on multiple factors, including the participant's employment status, the participant's age, the participant's financial need, the participant's uniformed services status, the classification of the contributions to the participant's account and the type of investments held in the participant's account.

Distributions can be taken as one or more lump sums or as periodic installments. Additionally, in certain situations, brokerage account assets may be distributed in-kind.

Investment Options

Participants are permitted to direct how their account balance under the Plan is invested. Subject to certain restrictions, participants can change investment elections on a daily basis. As of December 31, 2017 and 2016, the following investment options were offered under the Plan:

Core Investment Funds— investment funds that invest in different asset classes, such as fixed income funds, bond funds, stock funds, and funds that invest in alternative investments.

Target Date Funds— mix of investments in core investment funds that automatically reduce their level of equity risk over time and target retirement at age 65.

Conservative Income Fund— a conservative portfolio comprised of a mix of investments in core investment funds with equity risk maintained lower than any Target Date Fund.

Self-Directed Brokerage Accounts— participants may invest a portion of their account balance under the Plan in investment options not otherwise offered under the Plan, such as certain mutual funds, stocks, or bonds, by directing such portion of their account balance to be invested through a self-directed brokerage account under the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The accounts of the Plan are maintained on the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires the Plan Administrator to make estimates and assumptions that affect (i) the reported amounts of assets, liabilities and changes therein, and (ii) disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements, including details on inputs, valuation techniques and the fair value levels within the fair value hierarchy.

RR DONNELLEY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017 and 2016

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation of investments included in the accompanying Statement of Changes in Net Assets available for Benefits includes realized gains or losses from the sale of investments during the year, the change in unrealized appreciation or depreciation in the fair value of investments held during the year and any investment related expenses, such as investment manager fees.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016.

Plan Distributions

Benefit payments to participants are recorded upon distribution. The Trustee uses a distribution account to make all benefit payments. Amounts are transferred from the participant's investment fund(s) to this account as directed by the Plan administrator.

Administrative Expenses

Administrative expenses paid by the Plan include recordkeeping fees, investment consulting fees, custody fees, and most other administrative fees. Expenses paid by the Company include audit fees, legal fees, and some other administrative fees and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are included in the principal amount borrowed and are charged directly to a participant by reducing the amount of principal disbursed to the participant at loan origination. Investment related expenses, such as investment management fees are included in net appreciation/(depreciation) in fair value of investments.

Risks and Uncertainties

The Plan provides various options for investing in securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

NOTE 3 – PLAN MERGERS/BATCH ROLLOVERS

The Plan did not merge with any other plan during 2017, but did accept batch rollovers in connection with the Company's acquisition of Precision Dialogue during 2016. Precision Dialogue terminated its savings plan and the Company permitted Precision Dialogue employees to rollover their account balances from the Precision Dialogue plan into the Plan during 2017.

NOTE 4 – GALLIARD STABLE VALUE FUND

The Plan assets include benefit-responsive investment contracts via investment in the Galliard Stable Value Fund ("the Fund"), an investment option of the Plan. The Fund is solely owned by the Plan and therefore the Plan owns the Fund's underlying contracts and investments.

The Fund primarily invests in security-backed contracts issued by insurance companies and other financial institutions. A security-backed contract is an investment contract issued by an insurance company or other financial institution, backed by a portfolio of bonds or units of a collective fund that are owned by the Fund. The portfolio underlying the contract is maintained separately from the contract issue's general assets, usually by a third party custodian. These contracts typically allow for realized and unrealized gains and losses on the underlying assets to be amortized, usually over the duration of the underlying investments, through adjustment to the future interest crediting rate, rather than reflected immediately in the net assets of the Fund. The security-backed contracts are designed to reset their respective crediting rates on a quarterly basis and cannot credit an interest rate that is less than 0%. The issuer guarantees that all qualified participant withdrawals will be at contract value.

RR DONNELLEY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017 and 2016

The Fund's investments are reported at contract value, except for a short-term investment collective trust fund used for liquidity, which is at fair value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transaction under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Risks arise when entering into any investment contract due to the potential inability of the issuer to meet the terms of the contract. In addition, security-backed contracts have the risk of default or the lack of liquidity of the underlying portfolio assets. The credit risk of each issuer is evaluated and monitored through Galliard's credit analysis, and the underlying portfolio assets are rated investment grade at the time of purchase.

The primary variables impacting the future crediting rates of security-backed contracts include:

- The current yield of the assets underlying the contract;
- The duration of the assets underlying the contract; and
- The existing difference between the fair value and contract value of the assets within the contract.

The crediting rate of security-backed contracts will track current market yields on a trailing basis. The rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

Security-backed contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of Fund operations and are paid with a market value adjustment. Events that may trigger a market value adjustment can include the following:

- Material amendments to the Fund's structure or administration;
- Changes to the participating plans' competing investment options including the elimination of equity wash provisions;
- Complete or partial termination of the Fund, including merger with another fund;
- The failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;
- The redemption of all or a portion of the interests in the Fund held by a participating plan including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan, the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan;
- Any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Funds or participating plans; and
- The delivery of any communication to plan participants designed to influence a participant not to invest in the Fund.

At this time, the Fund does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable. Participants may redeem their shares at any time at contract value. However, there is a 90 day equity wash restriction for transfers from the Stable Value Fund to the brokerage option.

NOTE 5 – FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the Plan's investments. These inputs are categorized in the three tier value hierarchy, which prioritizes valuation methodology based on the reliability of inputs, as listed below:

Level 1 – Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2 – Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

RR DONNELLEY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2017 and 2016

Level 3 – Valuations based on unobservable inputs reflecting the Plan’s own assumptions, consistent with reasonably available assumptions made by other market participants.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of the input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description by major asset categories of the valuation methodologies and levels used for determining fair value. There have been no changes in the methodology used at December 31, 2017 and 2016.

Cash – Carrying value approximates fair value. Cash is classified as Level 1.

Equity securities – The values of individual equity securities, primarily common stock and exchange traded real estate investment trusts, are based on quoted prices in active markets. As such, these assets are classified as Level 1.

Collective trust funds – The fair values of participation units held in collective trusts are based on the net asset value (“NAV”) reported by the fund managers as of the financial statement dates and recent transaction prices, but are not quoted on active markets. The NAV is used as a practical expedient. Each collective trust provides for daily redemptions by the Plan at reported NAVs per share, with no advance notice requirement.

Registered investment companies – Valued at the daily closing price as reported by the fund. Investments held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1 measurements).

Self-directed brokerage accounts – The individually managed self-directed brokerage accounts are also classified as Level 1 since the underlying investments are actively traded on a market or exchange.

The valuation methodologies described above may generate a fair value calculation that may not be indicative of net realizable value or future fair values. While the Plan believes the valuation methodologies used are appropriate, the use of different methodologies or assumptions in calculating fair value could result in different amounts. The Plan invests in various assets in which valuation is determined by NAV. The Plan believes that the NAV is representative of fair value at the reporting date, as there are no significant restrictions on redemption of these investments or other reasons to indicate that the investment would be redeemed at an amount different than the NAV. Investments in the registered investment company fund category were classified outside of the fair value hierarchy and noted as valued using NAV as a practical expedient as of December 31, 2016. These investments were reclassified into level 1 of the fair value hierarchy table based upon the availability of additional information to assess readily determinable fair value. Management believes these reclassifications are not material in relation to the financial statements taken as a whole.

The fair values of the Plan’s investments within the fair value hierarchy as of December 31, 2017 and 2016 were as follows:

Investment Category	Level 1	Level 2	Level 3	Total as of December 31, 2017

* In accordance with U.S. GAAP, certain investments that are measured at NAV per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy as of December 31, 2017 and 2016. The fair value amounts presented in this table for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value presented in the statements of net assets available for benefits.

NOTE 6 – TAX STATUS OF THE PLAN

The Plan obtained its latest determination letter on September 30, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code, including Sections 401(a) and 401(k) of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator, having consulted with the Plan's counsel, believes that the Plan remains tax-exempt as of the financial statement date.

US GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken. The Plan has not recognized interest or penalties related to uncertain tax positions. The Plan is currently under audit for the 2015 plan year.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the rights of the participants in their account balances will, to the extent not already vested, become 100% vested.

NOTE 8 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by the Trustee. Fees paid by the Plan to the Trustee for investment management services are party-in-interest transactions, for which there is an exemption from the prohibited transactions rules of ERISA. The Plan reimburses the Company for certain employees' compensation and related benefit costs related to the administration of the Plan and such reimbursements constitute a party-in-interest transaction for which there is an exemption. In addition, notes receivable from participants constitute a party-in-interest transaction for which there is an exemption.
