ATLAS ENERGY GROUP, LLC INVESTMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Atlas Energy Group, LLC Investment Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Atlas Energy Group, LLC (the “Company”) and its subsidiaries. Employees become eligible to participate in the elective deferral portion of the Plan beginning on their date of hire and are immediately eligible to receive matching contributions. Any participant who is credited with at least 1,000 hours of service during the Plan year and is employed on the last day of the Plan year, or any participant who died, terminated employment after attaining normal or early retirement age, or became disabled while an employee during the Plan year, will be eligible to receive an allocation of any Company profit sharing contribution that is made. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Company’s sources of liquidity are currently not sufficient to satisfy the obligations under its credit agreements. As a result, the significant risks and uncertainties related to the Company’s primary sources of liquidity raise substantial doubt about the Company’s ability to continue as a going concern, which could impact the Company’s ability to sponsor and administer the Plan. If the Company is not able to continue as a going concern, the Plan may terminate; however, all participants would remain 100% vested in their account balances.

Contributions

Participants may elect to defer up to 75% of their pretax annual compensation, as defined in the Plan document, and are subject to annual limitations under the Internal Revenue Code (“IRC”). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans or rollovers from Individual Retirement Accounts (“IRA”). Participants direct the investment of their contributions and Company matching contributions into various investment options offered by the Plan.

Each participant is eligible for a matching contribution from the Company equal to 100% of the participant’s elective deferrals, up to a maximum elective deferral of 5% of compensation (as defined in the Plan document) as determined on an annual basis and funded on a per pay basis, which is invested as directed by the participant. In addition to matching contributions, the Company may make discretionary contributions as determined by the Company’s board of directors. The Company did not make any discretionary contributions in 2017. Company contributions are subject to certain IRC limitations.

Investments

The Plan’s investment options include mutual funds, a collective trust fund and a money market account.

Participant Accounts

Each participant's account is credited with the participant’s contributions, rollover contributions, the Company’s matching contributions, an allocation of the Company’s discretionary contribution (if any), and actual investment earnings or losses. Company discretionary contributions are allocated based on a participant’s

ATLAS ENERGY GROUP, LLC INVESTMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – (Continued)

compensation as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Effective January 1, 2014 all existing participant account balances became fully vested and participants are immediately vested in their future contributions, and the Company's future matching and discretionary contributions, plus actual earnings thereon.

Forfeitures

At December 31, 2017 and 2016, there were no available forfeited nonvested account balances. During 2017, Company contributions were reduced by \$11,000 from forfeited nonvested accounts.

Payment of Benefits

Participants generally receive the value of the vested interest in their account as a lump sum distribution upon reaching the normal retirement age of 65. There are additional payment provisions for participants who work beyond normal retirement age, who terminate employment prior to reaching normal retirement age, or who qualify for hardship withdrawals. Hardship withdrawals may occur when a participant is still employed and include specific events as defined by the IRC.

Notes Receivable from Participants

The Plan allows participants to borrow any amount up to 50% of their vested account balance, up to a maximum of \$50,000 minus their highest outstanding loan amount during the prior twelve months. Participants may elect a repayment term of up to 60 months with longer terms available when the loan is used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the fixed rate of prime plus 1% at the time the loan is made. Principal and interest are paid ratably through bi-weekly payroll deductions or directly to the Plan. Interest rates on outstanding participant loans ranged from 4.25% to 5.25% at December 31, 2017 and 4.25% to 9.25% at December 31, 2016.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

ATLAS ENERGY GROUP, LLC INVESTMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – (Continued)
December 31, 2017 and 2016

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. In addition, certain administrative functions were performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan, nor is the Plan charged by the Company for these services. Fees related to the administration of notes receivable from participants are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in the net appreciation in fair value of investments.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability, and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

ATLAS ENERGY GROUP, LLC INVESTMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – (Continued)
December 31, 2017 and 2016

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Retirement bank account: Bank deposit account valued at cost, which approximates fair value.

Money Market fund: Valued at a net asset value ("NAV") of \$1.00 per share held by the Plan at year-end.

Mutual funds: Valued based on quoted market prices which represent the NAV of shares held by the Plan at year-end.

Collective Trust Fund: Investment in collective trust fund is valued at the NAV of the units held by the Plan which is based on the quoted market prices of the underlying securities of the fund. The NAV is used as a practical expedient to estimate fair value for the collective trust fund. This investment can be redeemed daily, has a daily redemption notice period, and has no unfunded commitments. The investments underlying the collective trust fund primarily include domestic equities and domestic fixed income securities. In the event that a collective trust fund initial valuation is not deemed representative of market value, the trustee or its advisors may make adjustments as approved by the respective trustee board of directors to achieve a price believed to be more reflective of fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the Plan's assets at fair value at December 31, 2017 and 2016:

ATLAS ENERGY GROUP, LLC INVESTMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS – (Continued)
December 31, 2017 and 2016

NOTE 4 - CASH CREDIT RISK

The Plan maintains a cash balance in an account with a banking institution. For 2017 and 2016, accounts in the institution are insured by the Federal Deposit Insurance Corporation up to \$250,000. At December 31, 2017 and 2016, the Trust's cash balances totaled \$1,490,333 and \$2,213,368, respectively. The Plan has not experienced any losses in such accounts and believes its exposure to any significant credit risk to be minimal.

NOTE 5 – INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America, N.A., the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2017 and 2016.
- Investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2017.
- Schedule H, line 4i: Schedule of Assets (Held at End of Year) as of December 31, 2017.

NOTE 6 – RELATED-PARTY TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Certain Plan investments are shares or units of mutual funds, a collective trust fund and a retirement bank account managed by Merrill Lynch, an affiliate of the trustee, and therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 – TAX STATUS

The Internal Revenue Service ("IRS") has issued an opinion letter dated March 31, 2014 stating that the prototype plan used by the Plan was designed in accordance with applicable sections of the IRC. The Plan is designed and being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 – PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would remain 100% vested in the Company contribution portion of their account.

NOTES TO FINANCIAL STATEMENTS – (Continued)
December 31, 2017 and 2016

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in mutual funds, a collective trust fund and a money market fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances reported in the statements of net assets available for benefits.

NOTE 10 – SUBSEQUENT EVENTS

The Plan has evaluated all subsequent events from the date of the statement of net assets available for benefits through October 15, 2018, the date these financial statements were available to be issued.
